SIXTY-DAY NOTICE OF INTENT TO SUE FOR VIOLATION OF THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986
(*Cal. Health & Safety Code* § 25249.5, *et seq.*) ("Proposition 65")

June 30, 2011

Gary Oatey, CEO, or Current
President/CEO
Oatey Co.
4700 W. 160th Street
Cleveland, OH 44135

AND THE PUBLIC PROSECUTORS LISTED ON THE DISTRIBUTION LIST ACCOMPANYING THE ATTACHED CERTIFICATE OF SERVICE

Re: Violations of Proposition 65 concerning **Vinyl Coated Tube Nailers (Product No. 33967) containing DEHP**

Dear Mr. Oatey, and to whom else this may concern:

Consumer Advocacy Group, Inc. ("CAG"), the noticing entity, located at **9903 Santa Monica Boulevard #225, Beverly Hills, California 90212**, serves this Notice of Violation ("Notice") on Oatey Co. ("Violator") pursuant to and in compliance with Proposition 65. Violator may contact CAG concerning this Notice through its designated person within the entity, its attorney, Reuben Yeroushalmi 9100 Wilshire Boulevard, Suite 610E, Beverly Hills, CA 90212, telephone no. (310) 623-1926, facsimile no. (310) 623-1930. This Notice satisfies a prerequisite for CAG to commence an action against Violator in any Superior Court of California to enforce Proposition 65. The violations addressed by this Notice occurred at numerous locations in each county in California as reflected in the district attorney addresses listed in the attached distribution list. CAG is serving this Notice upon each person or entity responsible for the alleged violations, the California Attorney General, the district attorney for each county where alleged violations occurred, and the City Attorney for each city with a population (according to the most recent decennial census) of over 750,000 located within counties where the alleged violations occurred.

- CAG is a registered corporation based in California. CAG is a nonprofit entity dedicated to protecting the environment, improving human health, and supporting environmentally sound practices. By sending this Notice, CAG is acting "in the public interest" pursuant to Proposition 65.

- This Notice concerns violations of the warning prong of Proposition 65, which states that "[n]o person in the course of doing business shall knowingly and intentionally expose any individual to a chemical known to the state to cause cancer or reproductive toxicity without first giving clear and reasonable warning to such individual . . ." *Cal. Health & Safety Code* § 25249.6.

- **Vinyl Coated Tube Nailers (Product No. 33967) ("Tube Nailers")** contain **Di (2-ethylhexyl) phthalate (DEHP)**, also known as Diethyl Hexyl Phthalate and Bis (2-ethylhexyl) phthalate, which is known to the State of California to cause both cancer and reproductive toxicity, developmental, male. On January 1, 1988, the Governor of California added DEHP to the list of chemicals known to the State

to cause cancer, and on October 24, 2003, the Governor added DEHP to the list of chemicals known to the State to cause developmental male reproductive toxicity. Both additions took place more than twenty (20) months before CAG served this Notice.

- This Notice addresses consumer products exposures. A "[c]onsumer products exposure' is an exposure which results from a person's acquisition, purchase, storage, consumption, or other reasonably foreseeable use of a consumer good, or any exposure that results from receiving a consumer service." *Cal. Code Regs.* 27 tit. § 25602(b).

Violator caused consumer product exposures in violation of Proposition 65 by producing or making available for distribution or sale in California to consumers **Tube Nailers**. The packaging for **Tube Nailers** (meaning any label or other written, printed or graphic matter affixed to or accompanying the product or its container or wrapper) contains no Proposition 65-compliant warning. Nor did Violator, with regard to **Tube Nailers**, provide a system of signs, public advertising identifying the system and toll-free information services, or any other system, which provided clear and reasonable warnings. Nor did Violator, with regard to **Tube Nailers**, provide identification of the product at retail outlets in a manner that provided a warning through shelf labeling, signs, menus, or a combination thereof.

These violations occurred each day between June 30, 2008, and June 30, 2011, and are ever continuing thereafter.

The principal routes of exposure with regard to **Tube Nailers** are and were through dermal contact, ingestion, and inhalation. Persons sustain exposures by handling **Tube Nailers** without wearing gloves or any other personal protective equipment, or by touching bare skin or mucous membranes with gloves after handling **Tube Nailers**, as well as through hand to mouth contact, hand to mucous membrane, or breathing in particulate matter dispersed from **Tube Nailers**.

Proposition 65 requires that notice of intent to sue be given to the violator(s) sixty (60) days before the suit is filed. *Cal. Health & Safety Code* § 252549.7(d)(1). With this letter, CAG gives notice of the alleged violations to Violator and the appropriate governmental authorities. In absence of any action by the appropriate governmental authorities within sixty (60) calendar days of the sending of this notice (plus ten (10) calendar days because the place of address is beyond the State of California but within the United States), CAG may file suit. *See Cal. Code Civ. Proc.* § 1013; *Cal. Health & Safety Code* § 25249.7(d)(1); and *Cal. Code Regs.* tit. 27 § 25903(d)(1). CAG remains open to discussing the possibility of resolving its grievances short of formal litigation.

With the copy of this notice submitted to the Violator, a copy of the following is attached: The Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): A Summary.

Dated: June 30/11

Tube Nailers containing DEHP

CERTIFICATE OF MERIT

Health and Safety Code Section 25249.7(d)

I, Reuben Yeroushalmi, hereby declare:

1. This Certificate of Merit accompanies the attached sixty-day notice(s) in which it is alleged the party(s) identified in the notice(s) has violated Health and Safety Code section 25249.6 by failing to provide clear and reasonable warnings.

2. I am the attorney for the noticing party.

3. I have consulted with at least one person with relevant and appropriate experience or expertise who has reviewed facts, studies, or other data regarding the exposure to the listed chemical that is the subject of the action.

4. Based on the information obtained through those consultations, and on all other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiffs' case can be established and the information did not prove that the alleged violator will be able to establish any of the affirmative defenses set forth in the statute.

5. The copy of this Certificate of Merit served on the Attorney General attaches to it factual information sufficient to establish the basis for this certificate, including the information identified in Health and Safety Code section 25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: Jun 30 /11

CERTIFICATE OF SERVICE

I am over the age of 18 and not a party to this case. I am a resident of or employed in the county where the mailing occurred. My business address is 9100 Wilshire Boulevard, Suite 610E, Beverly Hills, CA 90212.

ON THE DATE SHOWN BELOW, I SERVED THE FOLLOWING:

1) 60-Day Notice of Intent to Sue Under Health & Safety Code Section 25249.6
2) Certificate of Merit: Health and Safety Code Section 25249.7(d)
3) Certificate of Merit (Attorney General Copy): Factual information sufficient to establish the basis of the certificate of merit (*only sent to Attorney General*)
4) The Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): A Summary

by enclosing copies of the same in a sealed envelope, along with an unsigned copy of this declaration, addressed to each person shown below and depositing the envelope in the U.S. mail with the postage fully prepaid. Place of Mailing: Beverly Hills, CA

Name and address of each party to whom documents were mailed:

Gary Oatey, CEO, or Current
President/CEO
Oatey Co.
4700 W. 160th Street
Cleveland, OH 44135

Name and address of each public prosecutor to whom documents were mailed:

See Distribution List

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct.

RE: CONSUMER PRODUCT: VINYL COATED TUBE NAILERS

Product ID: "**OATEY®**" "Product No 33967" "PIPE SUPPORT SYSTEM" "VINYL COATED TUBE NAILERS" " Made in U.S.A.." "12 EACH" "Vinyl coated to prevent electrolysis with dissimilar metals."

Product sold in a plastic bag. Label printed in white, red, and black.

Distributed and sold in California: Oatey, Cleveland Ohio 44135

Based on data I have reviewed, this product contains DIETHYL HEXYL PHTHALATE (DEHP), also known as Bis (2-ethylhexyl) phthalate (CAS # 117-81-7).

DEHP is a chemical known to the State of California to cause both cancer and birth defects or other reproductive harm; Coating on the parts contains the above listed phthalate, DEHP. Please refer to attached quantitative instrumental analysis test results.

Upon examination of the product, there is no warning that it contains chemicals known to the State of California to cause cancer, and birth defects or other reproductive harm. It consists of a consumer product, a set of vinyl coated parts specifically designed for use by consumers or workers.

Phthalates are synthetic man-made chemicals found in personal care and other products, including as plasticizers in polyvinyl chloride polymer consumer products. Consumers in the general population are at risk of phthalate exposure whenever they may come in contact with phthalate containing products, including items like this one consisting of polyvinyl chloride or other polymer contaminated with phthalates. Consumers are subject to several absorption pathways via a multiplicity of sources. These include inhalation, oral ingestion, including hand to mouth pathways, and transdermal absorption. It is established fact that phthalates can be absorbed through the skin. Please refer to the literature references section for specific citations. (2).

DEHP has low vapor pressures at ambient temperature, however at elevated temperatures these chemicals will volatilize. Exposure of the product to hot water or fluids in the home, workshop or garage, or to hot foods or beverages could cause significant volatilization of the phthalates into the air. DEHP can also be absorbed from food and water. Higher levels have been found in lipid containing substances such as milk and cheese. DEHP can also leach into a liquid that comes in contact with the plastic; DEHP extracts faster into non-polar solvents such as oils and fats in foods or beverages. Phthalates can be efficiently absorbed dermally. (2).
