DATE: **August 8, 2012**
To: The Home Depot, Inc. and Watts, Inc.;
California Attorney General's Office;

From: Yisroel Schochet

I. INTRODUCTION

My name is Yisroel Schochet. I am a citizen of the State of California acting in the interest of the general public. I seek to promote awareness of exposures to toxic chemicals in products sold in California and, if possible, to improve public health and safety by reducing the hazardous substances contained in such items. This Notice is provided to the parties listed above pursuant to California Health & Safety Code §25249.6, et seq. ("Proposition 65"). The violations alleged by this Notice consist of product exposures, routes of exposures, and types of harm that may potentially result from exposures to the toxic chemical ("listed chemical") identified below:

Product Exposure:	**See Section VII, Exhibit A**
Listed Chemical:	**Lead and Lead Compounds**
Routes of Exposure:	**Touch, Oral**
Types of Harm:	**Carcinogen, Causes Birth Defects and Other Reproductive Toxicity**

II. NATURE OF ALLEGED VIOLATION (PRODUCT EXPOSURE)

The specific type of product that is causing consumer and occupational exposures in violation of Proposition 65, and which is the subject of this Notice, is listed under "Product Category/Type" in Exhibit A in Section VII below. All products within the type covered by this Notice shall be referred to hereinafter as the "products." The sales of these products in California dating at least as far back as July 6, 2012 are subject to this Notice. As a result of the sales of these products, exposures to the listed chemical have been occurring without clear and responsible warnings as required by Proposition 65. Without proper warnings regarding the toxic effects of exposures to the listed chemical, resulting from contact with the products, California citizenry lack the information necessary to make informed decisions on whether and how to eliminate (or reduce) the risk of exposure to the toxic chemical from the reasonably foreseeable use of the products.

Through the act of buying, acquiring and using the products, citizens of California are exposed to the listed chemical in homes, workplaces and elsewhere throughout California where these products are used. Exposure to consumers includes, but is not limited to, when handling the product Lead comes off on the hands and is then absorbed through the skin or ingested via inhalation, hand to mouth contact, hand to food to mouth contact, or through hand to cigarette to lung contact. Exposure may continue to occur for a significant period after the initial contact. These activities cause women, pregnant women, and women of child bearing age to be exposed directly through migration of the listed chemical from the products. People likely to be exposed are women, men, infants and children. These violations and threatened violations pertain to Proposition 65 chemicals that re listed as carcinogens and as reproductive toxins.

V. RESOLUTION OF NOTICED CLAIMS

Based on the allegations set forth in this Notice, I intend to file a citizen enforcement lawsuit against the alleged Violator(s), unless such Violator enters into a binding written agreement to: (1) recall products already sold or undertake best efforts to ensure that the requisite health hazard warnings are provided to those whom have received such products; (2) provide clear and reasonable warnings for products sold in the future, or reformulate such products to eliminate the [name of chemical] exposures; and (3) pay an appropriate civil penalty based on the factors enumerated in California Health & Safety Code §25249.7(b).

It should be noted that neither my counsel nor I can: (1) finalize any settlement until after the 60-day Notice period elapses; nor (2) speak for the Attorney General or any District Attorney or City Attorney who received
