Assembly Bill No. 1738

CHAPTER 520

An act to amend Section 27395 of the Government Code, relating to local government.

[Approved by Governor October 4, 2005. Filed with Secretary of State October 4, 2005.]

LEGISLATIVE COUNSEL'S DIGEST

AB 1738, Committee on Local Government. Electronic recordings: computer security auditors.

The Electronic Recording Delivery Act of 2004 authorizes, among other things, a county recorder, upon approval by a resolution of the board of supervisors and system certification by the Attorney General, to establish an electronic recording delivery system for the delivery and recording of specified digitized and digital electronic records, subject to specified conditions, including system certification, regulation, and oversight by the Attorney General.

The act also requires that a computer security auditor who is hired to perform an independent audit of the electronic recording delivery system shall have access to any aspect of the system. The act also requires that no person may be a computer security auditor or be granted secure access to an electronic recording delivery system if he or she has been convicted of a felony, has been convicted of a misdemeanor related to theft, fraud, or a crime of moral turpitude, or if he or she has pending criminal charges for any of these crimes and requires all persons entrusted with secure access to the system to submit their fingerprints to the Attorney General for a criminal records check pursuant to specified procedures to determine whether they are eligible to have access to an electronic recording delivery system.

This bill would specify that for these purposes a person's criminal history information also includes federal convictions and arrests and would require the Department of Justice to forward requests from the Attorney General to the Federal Bureau of Investigation for this information. The bill would also require the Attorney General to review and compile this information to determine the person's eligibility to have access to an electronic recording delivery system and would authorize the Department of Justice to charge a fee to cover the cost of processing federal criminal offender record information.
