

Preliminary Report

California Department of Justice
Division of Criminal Justice Information Services

CRIME 1999

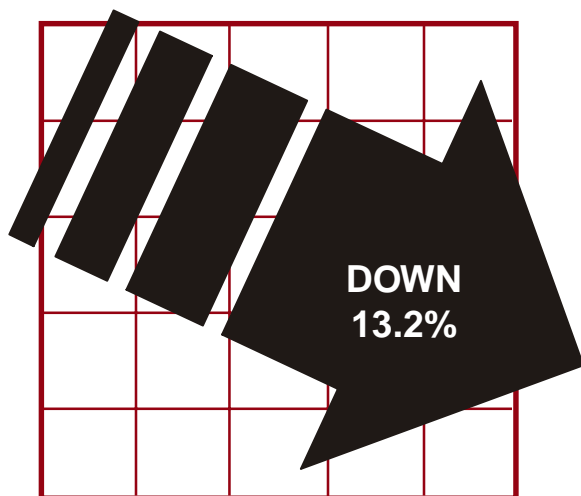

In Selected California Jurisdictions
JANUARY THROUGH DECEMBER

This report compares preliminary crime counts for 1999 with final counts of 1998 for jurisdictions with populations of 100,000 or more. It is estimated that the 76 jurisdictions which meet this criterion account for approximately 65 percent of the crimes reported in the state. Two agencies were unable to meet the cutoff date for the submission of 1999 data. A third agency experienced computer programming problems in the submission of their data for the last half of 1998. Available data for these three agencies are shown on the following table but not included in the totals used for the narrative.

Jurisdictions are grouped into three categories:

- Police Departments, which provide law enforcement services for incorporated cities;
- Sheriff's Departments, which provide law enforcement services to unincorporated areas within the county; and
- Contract Cities, which are incorporated cities that contract for law enforcement services (usually with a sheriff's department) rather than maintain their own police force.

Data used in this report are not adjusted by population. Statewide adjusted data (rates) are included in the annual *Crime and Delinquency in California* publication.

Notes: Dash indicates that data are not available or that percent changes are not calculated when base numbers are less than 50. Percent changes are also not calculated for agencies with incomplete data.

This report includes data submitted to the Criminal Justice Statistics Center by the cutoff date of February 29, 2000.

Counts reflect the number of actual offenses. Unfounded crime counts are not included.

Sheriff Department counts are for unincorporated areas only and do not include contract cities.

The California Highway Patrol reports motor vehicle theft for some county sheriff's departments. Therefore, sheriff's department figures for this category may not reflect all reported motor vehicle thefts.

¹The FBI Crime Index total includes the California Crime Index total, larceny-theft, and arson.

²The following agencies were unable to provide crime counts for the entire twelve-month period in 1999: Fresno Police Department (December), and Orange Police Department (November - December). Therefore, to maintain comparability of 1999 data with 1998 data, counts for these agencies are shown but not included in the subtotals or total selected jurisdictions counts.

³Contra Costa County Sheriff's Department reported that, due to a computer programming error, crime counts for contract agencies were included in the sheriff department counts for the last half of 1998. To maintain comparability of 1999 data with 1998 data, counts are shown but not included in the subtotals or total selected jurisdiction counts.

⁴Arson counts for the full twelve-month period in 1999 were not available for: Fresno Police Department (December) and Orange Police Department (November - December).

⁵Riverside County Sheriff's Department implemented a new records management system mid-year 1999 and is experiencing technical problems with the system.
