DOUBLE JACKPOT GAMES

8-23-04

1. Club One Casino proposes to offer double jackpot games as an option to all card players in all designed Jackpot games.
2. Players would have the choice of playing in a regular jackpot game or a double jackpot game. These designated double jackpot games would be listed as separate games on the waiting list board and identified by a plaque at the table.
3. Double jackpot games and regular jackpot games would be identical in all aspects of play and collection except for two areas:
 - i. Players at a double jackpot table would receive double the normal, regular jackpot payout on all bad-beat jackpot awards. The bad-beat share, the pot winner's share and all player shares are doubled. Player's shares would be paid at double the regular rate even if jackpot for that game and limit is hit at a regular jackpot table or a different double jackpot table.
 - ii. The collection for the double jackpot game would be double the current jackpot collection: i.e. \$1 more in jackpot poker games \$2-\$4 and above and fifty cents more in the \$1-\$2 jackpot games. (See attached Club One collection rate tables, actual and proposed)
4. The double payout for the double jackpot tables would be paid by Club One Casino and the additional collection would be income to the casino.
5. "No Purchase Necessary" provisions would apply to all double jackpot games.
 - i. "It is an essential, mandatory and required element of our "NPN" promotions that anyone may play for the offered prizes, at no cost or fee. If the "NPN" player completes the required hand combination, he/she will win the offered prize." (See attached "No Purchase Necessary" rules)
6. The "One Million Dollar Drawing Bonus" feature, when offered by Club One Casino, would not be doubled. This additional bonus feature to be selectively added to the bad-beat jackpot has been submitted as a separate promotion and is approval by the DOJ.

Match Play Promotion

Advertisement Requirements

Club One Casino may advertise various names for this gaming activity. Should the Club One Casino advertise a different name, the BGC ID (GEGA-001786) shall be referenced on all advertisements relating to the Match Play Promotion.

Furthermore, all rules and procedures for this promotion, including but not limited to the following, shall be prominently displayed in the Club One Casino at all times the promotion is being offered:

- Eligible games and time periods.
- Match Play Chip and/or free play chip value(s).
- Procedures to redeem match play coupon(s) for match play chips or free play coupon(s) for free play chip(s).
- Procedures to redeem match play chip(s) or free play chip(s).
- Any other applicable restrictions.

Controlled Game

The Match Play Promotion may be attached to all limits and versions of the currently Bureau approved California games offered at the Club One Casino. All base game rules will be played as previously approved by the Bureau of Gambling Control.

Rules of Play

Patrons are awarded match play or free play coupons via advertisements in magazines, websites, mailing advertisements, winning a Bureau approved promotion, winning or signing up for a Bureau approved tournament, etc. Players who receive a match play or free play coupon will bring the coupon into the cashier's cage, and their coupon will be exchanged for a match play/free play chip of the same value. Player(s) who possess a match play chip will be eligible to win the specific amount of the chip if he/she places a wager on an eligible game equal to the amount listed on the Match Play Chip. Each chip will be marked with a certain value that it is worth. Free play chips will be a different color chip than match play chips. Match play or free play chips may also be given to the player directly.

EXAMPLE: *A patron sits down in the restaurant at Club One Casino and a designated casino employee passes out free play or match play chips to everyone seated at the restaurant. The patron would then be able to go play the match play/free play chip as outlined below.*

Prize

The match play chips and/or free play chips shall have a value ranging from \$5 to \$100 for each match play chip or free play chip.

Match Play Chip

The casino will offer match play chips having a face value from \$5 to \$100 per coupon. Player(s) who receive coupons will bring the coupons to the cashier's cage, and the coupon will be redeemed for a chip of the same amount. The amount will be clearly stated on the coupon, in addition to the chip. The wager must be equal to the amount of the Match Play Chip and a player's winning hand will be paid his/her wager as well as the listed amount on the Match Play Chip. When the player uses a Match Play Chip and the hand wins, the player will be paid double the amount of their original wager and the

Match Play Promotion

Match Play Chip is collected and voided. If a player loses, the money part of the wager is collected by the player-dealer, and the match play chip is collected as well. If the player pushes (receives no action), the chip may be played again until the player wins or loses a hand. The player-dealer will take all Match Play Chips to the cashier's cage and exchange them for the amount listed on each individual chip.

EXAMPLE: *A person receives a match play coupon with a value of \$5.00. The person would take the coupon to the cashier's cage and redeem the coupon for a match play chip of the same value. The person would place the chip on the gaming table; place a bet that matches the amount on the chip, and pay the posted collection (if applicable) for a single hand of play. The collection fee is based only on the wager and not the chip. If the player wins the hand, he/she will receive \$10.00 just as if they had placed a \$10.00 bet and the player-dealer will collect the chip.*

Free Play Chip

The Casino will offer free play chips having a face value from \$5.00 to \$100.00 per chip. The free play chips are used in live games exactly like regular chips, the difference being that they cannot be exchanged for cash.

The free play chips shall initially be in the form of a coupon which shall be offered to all patrons that wish to come into the Casino and use them to play. Patrons may be awarded free play coupons via advertisements in magazines, websites, mailing advertisements, winning a Bureau approved promotion, winning or signing up for a Bureau approved tournament, etc. When a patron receives a free play coupon he/she shall take the coupon to the cage for verification, logging, and redemption of the free play chip(s) to be used in a live game.

Free play chips shall be used as the player's bet and placed in the betting circle. Free play chips shall not be taken into the dealer's tray, nor shall they be paid from the dealer's tray. If the player wins the hand, he/she would be paid the value of the free play chip by the person in the player/dealer position. The free play chip will be collected by the person in the player/dealer position. The player-dealer will then have a designated game supervisor verify that the chip has been played. The player-dealer is then reimbursed for that amount. The free play chip is taken to the cage by a designated game supervisor, logged, and exchanged for the value listed on the chip. If the player loses the hand, the free play chip is forfeited and will be collected by the casino dealer and dropped in the drop box for accounting purposes. If the player pushes (receives no action), the chip may be played again until the player wins or loses a hand.

EXAMPLE: *A person receives a free play chip coupon or chip for \$10.00 that specifically states it can be used to place a wager. The player would take the coupon to the cage. Cage personnel would log the redemption code of the coupon and exchange the coupon for a free play chip. The player would then place the free play chip on the gaming table, pay the posted collection (if applicable), and the game would play.*

Club One Casino Mega Jackpot Promotion

Details:

This is a fully house funded promotion that is paid directly by Club One Casino.

Club One Casino does not offer player funded jackpots of any type. All of our jackpots are completely house funded.

All table signs clearly state to players involved that any monies removed from the table during play on behalf of the house are done so in the form of collection.

This jackpot is subject to No Purchase Necessary rules and restrictions.

The promotion will begin approximately June 1st, 2006 pending approval from the Department of Justice. Club One Casino reserves the right to cancel this promotion at any time.

The promotion will begin at a dollar amount not exceeding \$500,000 and not less than \$2,500. This dollar amount will be posted before noon daily. Club One Casino will designate an amount based upon the best needs of the business. This promotion is meant to be used to encourage business by creating excitement and reducing competitors' detrimental effects on our poker games.

This promotion will be in the form of a commonly known "Bad Beat". The requirements are four of a kind of eights or better beaten by any other hand. Both hole cards must play.

The winner of the hand will receive 20% of the prize pool, the loser will receive 40%. The remaining 40% will be evenly distributed between all remaining players seated at selected tables.

Selected tables are those that are specifically requested by the players. These are listed on the board as "Promotion Tables." (At times only the initials will be used on the board for space, for example a player wishing to play a \$3-\$6 Promotion Table might be listed as \$3-\$6 PT.)

Club One Casino will immediately pay 10% of the winnings to the principal participants. Club One Casino reserves the right to pay the remaining money upon investigation, no more than 24 hours after the time of occurrence. This is for the purposes of integrity.

Once the promotion is paid, the new amount played for under the same conditions will be posted immediately or the giveaway will be discontinued.

There will be 12 entries per day, +-360 per month, some of which will be duplicate entries.

Club One Casino jackpot forms come in triplicate, so the customer gets a copy, Club One Casino gets a copy, and the final copy is placed in the drawing barrel. If the customer loses their copy of the jackpot payout form, a picture I.D. will suffice to claim their winnings.

Cash drawings will start at 12 noon and continue every half hour up to the final drawing for the car. All winners must be present to win. All cash winning tickets will be returned to the drawing barrel for the car.

12pm – First cash drawing.

ONE MILLION DOLLAR BAD-BEAT JACKPOT BONUS DRAWING

7-01-03

1. Club One Casino would like the option to add a one million dollar drawing feature to our progressive Hold-em Jackpot when the jackpot reaches \$50,000. The progressive amount would be capped when the bonus drawing is added. We anticipate about 4-6 events per year.
2. The winner of this event would receive, in addition to 40% of the regular jackpot award, the chance to win one million dollars. 100 identical envelopes would be on display in the casino. 99 envelopes are worth \$1,000 and 1 envelope contains the grand prize of one million dollars. Odds of winning at least \$1,000 would be 100%; the odds of winning one million dollars would be 99 to 1. The player would select any one envelope.
3. The one million dollar bonus prize, if drawn, would be split exactly like the bad-beat jackpot. The bad-beat jackpot in poker is split 40% to the bad-beat loser of the pot, 20% to the pot winner and 40% divided equally among all active jackpot players paying for the same jackpot. The one million would likewise be divided in this way. If the bad-beat winner draws a \$1,000 envelope, they would keep it all.
4. **There will be absolutely no charge or additional fee to players for this feature.** Club One would pay all costs and fees per event. A promotional company would be contracted, for flat fee per event, to guarantee the prize. (In same manner as "hole-in-one" golf events are insured) The payment of this prize would be paid over time in yearly installments or the winner could elect to receive a lump sum cash settlement for a designated smaller cash amount.
5. Normal promotional events that are under "no purchase necessary" provisions would automatically include participation in a million dollar drawing if it is in effect. (See attached NPN format.)

GLOSSARY OF TERMS

Pocket Aces Cracked

"Pocket" refers to the first two individual down cards in hold'em poker games. "Cracked" refers to having a good hand beaten by a better hand.

Bust 3 – same hand

Player eliminating 3 other players in the same hand.

Elimination hand match

Player at the final table has the opportunity to match exactly the hand on which they were eliminated. i.e.: If a player was eliminated with the pocket hand jack of diamonds, queen of spades then the dealer, after the completion to the hand, would shuffle up all the cards with standard dealing procedure and deal 2 cards from the top of the deck. If those 2 cards match exactly the hand in which the player was eliminated (in this example jack of diamonds, queen of spades) then that player wins the match hand award.

Pocket pair - flop quads

A player having a pair on the first 2 individual cards and then the remaining 2 cards of that rank being turned on the flop is a winner. "Flop" refers to the turning of 3 simultaneous cards at the start of the common cards in hold'em.

Final table hands

These situations apply to the final table of a tournament and are only applicable during the final table.

Gaming Activities Offered During Tournament Play

Splash the Pot:

- Rules of Play: The Splash the Pot Promotion involves a drawing where a bin, basket, or other non-electronic randomizer will be used. During pre-determined times and intervals of the promotional period, a casino key employee will announce the commencement of the drawing. The casino key employee will then select a table by randomly choosing a card or other lamer from the randomizer. A card or lamer will depict a number that corresponds to each eligible poker table currently being used in the tournament. The cards or lamers, which are equally sized and colored, will be mixed within the randomizer. Then, one will be selected. Once that table number is determined, the house dealer on the drawn table will be instructed to finish the hand they are currently dealing. The key employee will place the pre-designated prize in the center of the table.

Club One Casino Poker Tournaments

No new players may enter the game in between these hands. The dealer will then deal the next hand. The player with the winning hand will win the pot of tournament chips and the added prize in the center of the table. In the event of a tie, the winning players will split the prize evenly when the prize is designated as cash. If the prize is an item or merchandise, the winners of the hand will be dealt one more hand. During this hand of play, there will be no betting. The highest hand wins the prize, but not the pot, as that would have already been split according to the rules previously approved by the Bureau.

- **Prize:** The Splash the Pot Promotion features a fixed prize element. The player who wins the hand at the randomly selected table will receive a prize ranging in value from \$1 to \$1,000 in the form of cash, casino chips, or other promotional items such as electronic devices, merchandise, or as pre-designated by the casino. Prize amounts will be pre-determined and posted before being offered.
- **Funding:** The prize is funded by the Casino. No amount shall be deducted from the Tournament prize pool in order to fund this gaming activity.
- **Eligibility:**
 - There is not a minimum or maximum number of players required to be playing in a game in order for the table to qualify for the drawing.
 - If a table number has been drawn, it will remain eligible for future drawings.

 - For the drawing, the player must be seated and participating at a pre-determined and designated tournament game in order to be eligible to win.
 - All procedures and prize amounts must be displayed prominently via any form of advertising that the Club One Casino wishes to utilize, including but not limited to printed flyers, digital display, the Casino's website, etc.

Lucky Drawing:

- **Rules of Play:** The Lucky Drawing Promotion involves a random drawing where a bin or other randomizer will be used. During pre-determined times and intervals of the promotion, Casino staff will announce the commencement of the drawing and collect player rewards cards/tickets from each player seated at the eligible tournament game. Player rewards cards/tickets will be collected over the course of the promotion and stored for the duration or collected at pre-determined times. Those cards/tickets will then be placed in the drawing bin and will be rotated. Once the cards or tickets are thoroughly mixed, a casino employee will randomly draw one card/ticket from the bin. The player who has their card/ticket drawn will be awarded the posted prize. If a card/ticket is drawn and the winner of the drawing is not present, the card/ticket will be placed back in the drawing bin and another will be drawn. This process will occur until a winner is selected and present to claim their prize. Once the drawing is complete, all player rewards cards will be returned to their designated owner. If tickets are used, they will not be returned.
- **Prize:** The Lucky Drawing Promotion features a fixed prize element. The player who has their player rewards card or ticket randomly selected will receive a prize ranging in value from \$25 to \$50,000 in the form of cash, casino chips, or other promotional items such as vehicles, electronic devices, trips, etc. Prize amounts will be pre-determined and posted before being offered.

Club One Casino Sport's Squares

Advertisement Requirements

Club One Casino may advertise various names for this gaming activity. Should Club One Casino advertise a different name, the BGC ID listed above shall be referenced on all advertisements relating to the Sport's Squares.

Furthermore, all rules and procedures for this promotion, including but not limited to the following, shall be displayed conspicuously and prominently in Club One Casino at all times the promotion is being offered:

- Prize amount or item.
- Eligible games and time periods.
- Schedule of when prizes shall be rewarded including if a game goes beyond it's normal stopping point.
- Any No Purchase Necessary opportunity.
- Any other applicable restrictions.

Controlled Game

The Sport's Squares shall be attached to all limits and versions of the currently approved California and Poker games offered at Club One Casino, as listed below. All base game rules shall be played as previously approved by the Bureau.

Rules of Play

During a pre-determined and posted sporting event, Club One Casino will allow seated players to put their name in a square on the Sport's Square board or the seated players will be handed a ticket. The following rules apply depending on which way the promotion is running:

The Sport's Square Board

The board will have 100 squares (10 squares by 10 squares). Each row will be numbered vertically and horizontally from 0 to 9. Players can sign up for a square no more than 1.5 hours prior to the start of the sporting event. Squares are issued on a first come, first serve basis. One square, per person will be chosen by the seated player. One team will be represented by the vertical numbers, and the other team will be represented by the horizontal numbers. These numbers will correspond to the score of the game. The numbers assigned to each square are determined by the point where each vertical and horizontal line intersects on the board. At a pre-determined point of the sporting event (quarter, inning, half time, final, etc.), the player who's corresponding numbers of their square match the score at that time will be the winner of the posted prize amount. Only the last digit of each team's score will be applied to the numbers on the board. (A score of 7 to 14 will be compared on the board as 7 to 4).

Sport's Ticket

Eligible seated players will be given a ticket before the start of a televised sporting event. The ticket will have two numbers printed on it, ranging between 0-9. The numbers will have a corresponding sport's team's name, or simply "Home" and "Visitor." At the end of each period of play (Quarter), the player with the same ticket that matches the score of the game wins the pre-designated prize amount. For purposes of determining the correct ticket, only the last digit of the displayed score is counted. (Example: Score is 28-14, this would match the ticket that had 8 and 4 on it.) Players must be seated in a game in order to be eligible to win a prize.

Club One Casino Sport's Squares

If the game goes beyond its normal stopping point, as in the case of a tie, the promotion will continue and prizes will continue to be awarded in the same manner as they were during the normal regulation time of the sporting event, according to the rules posted for that event. For example, if a football or basketball game has a prize given away at the end of each quarter, and the game goes into overtime, a prize will be given at the end of each quarter played. In a baseball game, if there is a prize given away at the end of every third inning, the same format will be used if the game goes into extra innings. If only two extra innings are played, there is no prize awarded. The rules for the event will state the designated time(s) during the game for which prizes will be awarded. All participants at these events will have an equal chance to win prizes.

Prize

The prize shall be a fixed and predetermined amount of cash or chips or an item ranging in value from \$10 to \$10,000. In addition to or in lieu of a cash prize/casino chips, the prize may be food, tournament entries, special event entry fees, clothing, trips, merchandise, vehicles, electronics and tickets. The total prize value shall not exceed that amount listed above.

The promotion shall be limited to the first one hundred tables and be available to all seated players, including players at the No Purchase Necessary table.

No Purchase Necessary

The Sport's Squares shall be offered for free, on a general and indiscriminate basis, with no restrictions, to patrons who wish to participate in a No Purchase Necessary (NPN) game. Eligibility Requirements

This gaming activity shall be open to all players who are seated and playing at an above listed controlled game during the pre-determined and specified hours designated and posted for the gaming activity.

- Players with qualifying winning and losing hands must play through the final betting round in order to qualify for the jackpot. If a player with one of the qualifying hands folds prior to the final betting round, the table will be ineligible for the jackpot.
- When a qualifying hand is announced, a floor person shall verify that both hands qualify. Any deviation from a standard deck will nullify the jackpot.
- A minimum of two players are required to be dealt in during an above listed game in order for players to be eligible and the tables to qualify for the prize amount and table share percentage.
- In a no limit game, the main pot must reach \$7 or more, after initial collections are taken, in order to qualify for the jackpot.
- Players may only win one promotion at a time. For example, if concurrent promotions are running such as the Royal Flush Progressive and the Totally Tubular Jackpot, the player can only win one of those promotions at a time. However, the actions of one player do not nullify the promotion of another. In this example, if quads are beaten by a royal flush, the player with the winning hand may choose the royal flush prize if they wish, foregoing the bad beat prize for the winning hand on the progressive promotion, but the player who lost the pot with quads still qualifies for the posted percentage of the bad beat progressive jackpot.
- Casino employees, in or out of uniform, are eligible to participate in this gaming activity at any time.
- Third Party Players, off duty and in or out of uniform are eligible to participate in this gaming activity.
- Tournament games do not qualify for this promotion.

Prize Amount

Each tube will have its own jackpot prize and each jackpot prize shall progress with a minimum value of \$100 and a maximum value of \$50,000. When the jackpot has been hit for one of the tubes, the posted payout amount for that tube will be paid according to the advertised chart option listed below. The jackpot prize, for the tube that has been hit, shall be paid in the form of cash. The actual progressive jackpot prize amount, for each tube, shall depend on the amount that tube's jackpot was originally seeded at, as well as how many weeks have transpired in order for the posted jackpot prize to increase progressively by the amount the casino has decided to increase the jackpot for each tube weekly.

Prize Payout Structure

Players that make the advertised qualifying hands shall be eligible to win their share of the posted Totally Tubular Bad Beat Progressive Jackpot progressive prize amount, according to

Totally Tubular Bad Beat Progressive Jackpot

the payout options, as shown below. The losing hand, the winning hand, and the table share shall be awarded a percentage of the posted progressive jackpot prize amount, as shown in the options below. The table share shall be evenly divided and distributed amongst all players at the table who participated in the designated game when the bad-beat was hit, as shown in the tubes. Only one of these prize payout structures shall be offered at any one time that the Totally Tubular Bad Beat Progressive Jackpot is being offered for play. No combination of the prize payout structures shall be offered together at any time that this gaming activity is being offered.

Option 2

Bad Beat Hand	Winning Hand	Table Share

Option 3

Funding

The Bad Beat Jackpot utilizes three separate progressive jackpot prize pools that are house funded by the Club One Casino. Each of the three jackpot prize pools will correspond to one of the tubes. Each progressive jackpot prize pool shall be initially seeded in an amount ranging from \$100 to \$5,000 decided by the casino. The initial seed amount and the daily increase amount may be the same or different for all three progressive prize pools. All three progressive jackpot prize pools shall separately increase weekly in the amount of \$25 to \$1,000, which shall be posted until the jackpot hits or reaches the cap amount of \$50,000. Once the jackpot has been hit, that tube/prize pool will be reseeded in an amount between \$100 and \$5,000 and will continue to progress weekly at an amount ranging between \$25 and \$1,000. There shall be no additional promotion fees, jackpot fees, or collection fees taken in order to fund this gaming activity or for players to participate.

Administrative Fees

The Club One Casino shall not retain an administrative fee because the Totally Tubular Bad Beat Progressive Jackpot is house funded.

No Purchase Necessary

The dealer will then deal all cards face up to all seats for a full table. There will be no wagering of any kind and the customer is not allowed to touch any cards.
