11. Trafigura	18,018	0.1	99.9
12. Colton	15,061	0.1	100.0
13. Others	1,015	0.0	100.0
Total	14,454,941	100.0%	100.0%

* These volumes are based on "Taxable Sales" as defined by the State of California. Because taxes are recorded prior to final sales to retailers and consumers, the volumes reported by the State do not match perfectly with sales to retail dealers or consumers. For example, the State's largest independent marketer of gasoline, Tower Energy, sold 885,179,000 gallons of gasoline to retailers or consumers in 1999, approximately 6 percent of statewide totals.

** Refinery sale pending.
