

Preliminary Report

Bill Lockyer, Attorney General
California Department of Justice
Division of Criminal Justice Information Services

CRIME 2001

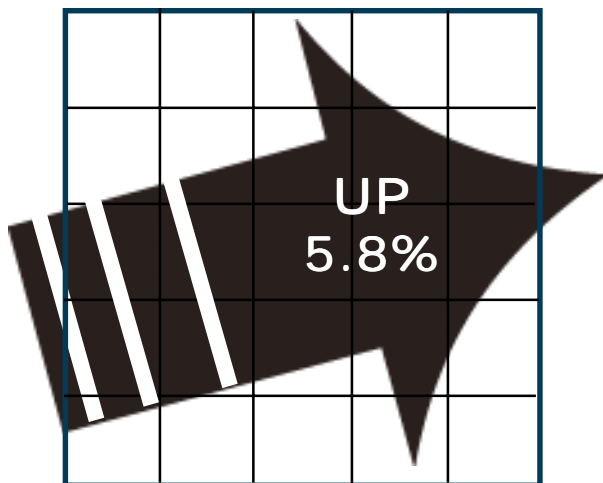

In Selected California Jurisdictions
JANUARY THROUGH DECEMBER

This report compares preliminary crime counts for 2001 with final counts of 2000 for jurisdictions with populations of 100,000 or more. It is estimated that the 75 jurisdictions which meet this criterion account for approximately 65 percent of the crimes reported in the state. One agency was unable to meet the cutoff date for 2001 data submission. Available data for the agency are shown on the following table but not included in totals used in the narrative.

Jurisdictions are grouped into three categories:

- Police Departments, which provide law enforcement services for incorporated cities;
- Sheriff's Departments, which provide law enforcement services to unincorporated areas within the county; and
- Contract Cities, which are incorporated cities that contract for law enforcement services (usually with a sheriff's department) rather than maintain their own police force.

Data used in this report are preliminary counts and subject to change. Crime rates are not calculated in this report. Statewide rates are included in the annual *Crime and Delinquency in California* publication.

CALIFORNIA CRIME INDEX

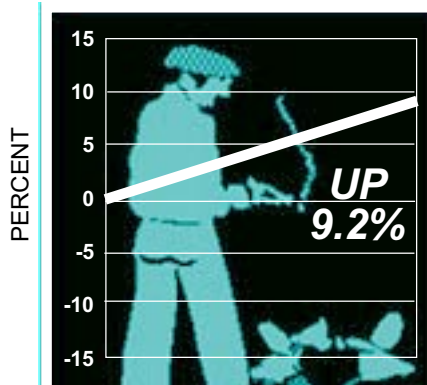

CALIFORNIA CRIME INDEX offenses are homicide, forcible rape, robbery, aggravated assault, burglary, and motor vehicle theft. During 2001, the number of reported offenses rose 5.8 percent when compared with 2000.

Notes: Dash indicates that data are not available or that percent changes are not calculated when base numbers are less than 50. Percent changes are also not calculated for agencies with incomplete data.

This report includes data submitted to the Criminal Justice Statistics Center by the cutoff date of February 26, 2002.

Counts reflect the number of actual offenses. Unfounded crime counts are not included.

Sheriff department counts are for unincorporated areas only and do not include contract cities.

The California Highway Patrol reports motor vehicle theft for some county sheriff's departments. Therefore, sheriff's department figures for this category may not reflect all reported motor vehicle thefts.

Butte County and Monterey County Sheriff's Departments are not included in this report because their populations, as reported by the California Department of Finance, fell below 100,000.

¹The FBI Crime Index total includes the California Crime Index total, larceny-theft, and arson.

²San Francisco Police Department was unable to provide crime data for the full twelve-month period. Therefore, to maintain comparability of the 2000 data with 2001 data, counts are shown but not included in the subtotals or total selected jurisdiction counts.

³Los Angeles County Sheriff's Department and its contract agencies implemented a new records management system at the beginning of 2000 and experienced technical problems with the system. Data on 2000 crimes may not be valid and should not be used to make comparisons.
