All pistols and revolvers that will fit inside the container. Max dimensions are 8 in. x 12in. X 4 in thick.	American Security Products	SWPB2	Lock Box
Designed to securely fit revolvers, pistols, rifles, shotguns, but it not designed for use with lever action rifles, "military style" rifles with large magazine wells, or on any firearm without a trigger guard. Is the only child safety device for firearms which incorporate patent pending block and cylinder block accessories which make the cylinder of revolvers unable to be opened, loaded, or rotated, and the slide of most center-fire pistols unable to be placed into battery, thereby restricting the firing pin from coming into contact with the cartridge, and the slide from closing. Unlike most "trigger locks" CS-100 makes use of 8 user installed, moveable safety posts and 90 degree receiver holes which allow a customized, secure, intimate fit on most firearms from small handguns to large shotguns with two triggers. Securely fits trigger guards up to 2.60" (66mm) long, 1.29" (33mm) high, and 1.00" (25mm) thick	Child Guard	CS-100	Trigger Lock
For revolvers, pistols, and derringers whose dimensions do not exceed 10" long x 6 1/2" high x 2 1/4" wide.	Titan Security Products Inc.	Titan Gun Vault AS-2020-0	Lock Box
