Preliminary Crime Data

This report compares California preliminary crime counts for January through June 2009 with final counts for the same period in 2008. Statistics were extracted for 87 agencies serving populations of 100,000 or more. Those 87 jurisdictions account for approximately 64 percent of the crimes reported in the state

annually and provide an early indication of the crime picture for the current year. Two agencies were unable to provide a complete six months of data. To maintain comparability of the 2009 data with the 2008 data, the available statistics for these two agencies are provided but not included in the analysis of the data.

The law enforcement jurisdictions are grouped into three categories: police departments that provide law enforcement services to cities, sheriff's departments that provide services to unincorporated areas, and contract cities that contract for service rather than maintain their own police force.

The 2009 crime data used in this report are preliminary and subject to change.

Notes: A dash indicates one or more of the following: 1) data are not available; 2) percent change was not calculated because of incomplete data; 3) percent change was not calculated because base number is less than 50. This report includes data submitted to the Criminal Justice Statistics Center as of August 31, 2009.

Crime counts reflect the number of offenses reported (unfounded crime counts are not included).

Sheriff's department crime counts do not include contract cities that report under their own agency identification number.

The California Highway Patrol reports motor vehicle theft for some sheriff's departments; therefore, sheriff's department counts for this category may not reflect all reported motor vehicle thefts in their jurisdiction.

¹The Daily City and Inglewood Police Departments were unable to provide crime data for the full six-month period in 2009. Therefore, to maintain comparability of the 2009 data with the 2008 data, available counts for these agencies are shown but are not included in the subtotals or total jurisdictional counts.

²In response to Government Code section 11093, crime statistics for the San Fernando Valley area falling under the jurisdiction of the Los Angeles Police Department are available upon request.
