Executive Summary

Juvenile Justice in California, 2015 provides insight into the juvenile justice process by reporting the number of arrests, referrals to probation departments, petitions filed, and dispositions for juveniles tried in juvenile and adult courts. Law enforcement agencies provide information on the number of arrests. Probation departments and Superior Courts provide information on the types of offenses and administrative actions taken by juvenile and adult courts.

The California Department of Justice (DOJ) is required to collect and report statistics on juvenile justice in California. *Juvenile Justice in California, 2015* reflects data extracted from the Monthly Arrest and Citation Register, Offender-Based Transaction Statistics file, and the Juvenile Court and Probation Statistical System. (Appendix 1 describes the evolution of this system.) Referral and petition statistics were submitted to the Juvenile Court and Probation Statistical System by 55 of California's 58 counties, representing over 99 percent of the state's juvenile population. Del Norte, Nevada, and Sierra counties are not included in the referral and petition sections of this report.

Juvenile Justice in California, 2015 presents juvenile justice statistics in four sections: Arrests, Referrals, Petitions, and Adult Court Dispositions. The arrest data were reported by law enforcement agencies and law enforcement referral data were reported by probation departments. Comparisons between arrest data and referral data should not be made because of differences in the way data were reported between the two sources. See Appendix 2 for more detail.

- The Arrests section presents information on the number of juveniles arrested, the types of arrest charges, and the demographic characteristics of the juveniles.
- The Referrals section presents information on the number of juveniles referred to county probation departments, who referred the juveniles to the probation departments, the type of referral, the demographic characteristics of the juveniles referred, and the probation department dispositions.
- The Petitions section presents information on cases where a petition was filed, including the number of petitions filed, the types of petitions filed, the demographic characteristics of the juveniles, and the dispositions for those petitions handled in juvenile court.
- The Adult Court Dispositions section presents information on juveniles whose cases were processed in adult court, including the number of juveniles tried in adult court, the characteristics of the juveniles, and the adult court dispositions.

Below is a summary of highlights from each of the sections.

Arrests

The Arrests section (pages 1–11) provides data on reported juvenile arrests made by law enforcement agencies in 2015.

- More than half of the juveniles (58.2 percent) were arrested for a misdemeanor offense. Nearly a third (29.7 percent) were arrested for a felony offense, and the remainder (12.1 percent) were arrested for a status offense. (Table 1)
- Eight out of ten juveniles arrested (80.7 percent) were referred to county juvenile probation departments. (Table 1)

Referrals

The Referrals section (pages 13–27) provides data on juveniles who were brought to the attention of the county probation department in 2015.

- Nearly nine out of ten juveniles referred to county probation departments (88.1 percent) were referred by law enforcement agencies. (Table 8)
- Over one-fourth (27.7 percent) of juveniles referred to county probation departments were detained. (Table 13)
- More than one-third (36.8 percent) of the juvenile cases referred to county probation departments were closed at intake, indicating that no further action was taken. (Table 13)
- In half (51.0 percent) of the referrals to the probation departments, a petition was filed in juvenile court. (Table 13)

Petitions

The Petitions section (pages 29–45) provides data on juvenile cases that proceeded to the juvenile court [for formal processing] in 2015.

- Of the juveniles handled formally by the juvenile court, nearly two-thirds (64.5 percent) were made wards of the court. (Table 21)
- One-sixth (16.7 percent) of the petitions for formal juvenile court adjudication were dismissed. (Table 21)

Adult Court Dispositions

The Adult Court Dispositions section (pages 47–53) provides data on juveniles processed through the adult court system.

- Of the juveniles tried in adult court, 88.0 percent were convicted. (Table 30)

Note: Percentages may not add to 100.0 because of rounding.

¹Transferred includes traffic court and deported.

²In 2015, probation departments reported information on 566 transfers to the adult system. The adult court disposition information discussed here is for the 416 dispositions received in 2015.

- Arrest data were reported by law enforcement agencies and referral data were reported by probation departments. Data comparisons should not be made because of differences in the way data are reported between sources. See Appendix 2 for more detail.
- Typically, referrals are made to the probation department in the juvenile’s county of residence. The majority of referrals in this report came from police and sheriff’s departments (88.1 percent). (Table 8)
- Probation departments decide how to process referred cases. A case may be closed or transferred; a juvenile may be placed on informal probation or in a diversion program; or a petition may be sought for a court hearing.
- Most formal juvenile court hearings resulted in the juvenile being made a ward of the court (64.5 percent). Most wards were allowed to go home under the supervision of the probation department (53.3 percent). (Table 21)
- Juveniles can be transferred to the adult criminal justice system for prosecution if the district attorney files charges directly in adult court or remands to adult court after the juvenile fails a fitness hearing. Approximately nine out of ten dispositions received in adult court in 2015 resulted in a conviction (88.0 percent). (Table 30)

Data Analysis

Arrests

A juvenile may be arrested for either violating a criminal statute or committing a status offense. Status offenses are acts that are offenses only when committed by a juvenile, such as curfew violations, truancy, running away, and incorrigibility.

This section contains information on the 71,923 juvenile arrests reported by law enforcement agencies in 2015. This section also includes information on the characteristics of juvenile arrests and arrestees, and the final law enforcement dispositions of those arrests. Although some arrests involve more than one offense, only the most serious are shown in this report. Arrest data for all 58 participating counties were extracted from the Monthly Arrest and Citation Register.

The law enforcement disposition of a juvenile arrest is affected by several variables: investigative findings and the facts surrounding the alleged offense; prior arrest record; seriousness of the offense; determined need for admonishment; recourse to other authority; and other factors determined by the individual case.

Law enforcement agencies have three methods for the disposition of a juvenile arrest:

- Refer to probation departments for further processing. Some are handled at the probation level, and others are sent to juvenile and criminal courts for final disposition.
- Handle within the department, where juveniles are counseled and released.
- Turn over to another agency.

Notes: References to race/ethnicity will be made throughout this report. The subjectivity of the classification and labeling process must be considered in the analysis of race/ethnic group data. As commonly used, race refers to large populations that share certain physical characteristics, such as skin color. Because these physical characteristics can vary greatly within groups, as well as between groups, determination of race is frequently, by necessity, subjective. Ethnicity refers to cultural heritage and can cross racial lines. For example, the ethnic designation Hispanic can include persons of any race. Most commonly, self-identification of race/ethnicity is used in the classification and labeling process.

Percentages throughout this section may not add to 100.0 because of rounding.

Referrals

Juvenile referrals occur when a juvenile is brought to the attention of the probation department for a case review. Juveniles can be referred by a variety of sources, with the largest percentage of referrals coming from law enforcement. Referrals may also be generated by schools, parents, public or private agencies, individuals, or by transfers from another county or state.

Referrals to the probation department consist of two types: new and subsequent. The term “new referral” applies to a juvenile who is not currently supervised by the probation department and is typically a first-time offender. The term “subsequent referral” applies to a juvenile who is currently supervised by the probation department. A subsequent referral generally results from a new arrest or probation violation.

After a juvenile is referred to the probation department, a probation officer determines whether the juvenile should be detained or released. The probation department also conducts an investigation and determines whether the case should be closed or transferred; whether the juvenile should be placed on informal probation; or whether a petition should be filed with the court.

This section examines referrals by gender, age group, and race/ethnic group. Direct filing into adult court occurs when a juvenile of a certain age commits an offense that is subject to mandatory filing by a prosecutor (Welfare and Institutions Code section 602(b)) or discretionary filing by a prosecutor (Welfare and Institutions Code section 707(d)). This process is separate from the fitness hearing process that is conducted in juvenile court and is highlighted in the Petitions section of this publication. For the purpose of this section, the term “juvenile” refers to those individuals processed through the juvenile court system.

The data used in this section originated from 55 participating county probation departments (Del Norte, Nevada, and Sierra Counties are not included). This information was submitted to the DOJ from referrals reported in the Juvenile Court and Probation Statistical System (see Appendix 2).

Notes: Arrest data are reported by law enforcement agencies, whereas referral data are reported by probation departments. Comparisons between arrest data and referral data should not be made because of differences in the way data are reported between the two sources. See Appendix 2 for more detail.

*P*etitions

In the juvenile justice system, a case may be handled informally by the probation department or formally by the juvenile court. If the case proceeds for formal processing, the district attorney files a petition with the juvenile court to initiate court action.

There are two types of petitions filed in juvenile court: new and subsequent. The term “new petition” applies to a juvenile who is not being supervised by the probation department and is typically a first-time offender. The term “subsequent petition” applies to a juvenile who is currently being supervised by the probation department and subsequently re-offends.

This section examines petitions by gender, age group, race/ethnic group, offense, fitness hearings, and disposition.

The data used in this section originated from 55 participating county probation departments (Del Norte, Nevada, and Sierra Counties are not included). This information was routed to the DOJ from petitions reported in the Juvenile Court and Probation Statistical System (see Appendix 2).

Note: Percentages throughout this section may not add to 100.0 because of rounding.

Petition Type

Petitions Filed, 2015
By Type

In 2015, of the 44,107 reported petitions filed in juvenile court:

- 49.0 percent (21,621) were new petitions.
- 51.0 percent (22,486) were subsequent petitions.

A *Adult Court Dispositions*

Juveniles can be transferred to the adult justice system for prosecution at the discretion of the district attorney or if they fail a juvenile court fitness hearing. In 2015, probation departments reported 566 transfers to the adult system.

The adult-level disposition information in this section pertains to the 416 final dispositions received in 2015 and examines adult-level dispositions by gender, age, race/ethnic group, offense, and disposition. The data were obtained from the DOJ's Offender-Based Transaction Statistics (OBTS) file. If a person is arrested for multiple offenses, OBTS selects only the most serious offense based on the severity of possible punishment. If there are multiple court dispositions, OBTS selects the most serious court disposition and the associated offense (see additional data limitations in Appendix 2).

Appendices

The Criminal Justice Statistics Center of the Department of Justice (DOJ) began compiling data describing California's juvenile justice system in 1947. In 1969, the DOJ developed the first computerized system for juvenile probation caseloads to collect information on juveniles who were supervised by probation departments or in detention facilities. The system was designed to track transactions within the juvenile probation system and to provide information on a juvenile's progress through the probation and court processes from the time of referral to final disposition. Individual transactions were linked to form a comprehensive record of the court and probation activities for a single offender.

In 1979, in an effort to upgrade the computerized data collection system, the DOJ developed the Juvenile Court and Probation Statistical System (JCPSS) as a pilot study. Ten counties participated in the initial study, and, in 1980, the pilot system was implemented statewide.

From 1980 to 1989, the JCPSS collected, compiled, and reported statistical data on the administration of juvenile justice in California. The system collected individual records on delinquent juveniles who were referred to California probation departments. These records contained information about the juvenile's referral source, referral offense, pre-adjudication detention, probation and court disposition, as well as current supervision status and changes in prior supervision status. During this period, transaction reports were submitted at the time a disposition was made or when supervision was terminated.

In 1990, the JCPSS was discontinued because of budget reductions.

In 1995, with the help of Assemblyman Joe Baca and the support of the Chief Probation Officers of California, the Legislature passed Assembly Bill 488 (Chapter 803, statutes of 1995), directing the DOJ to reestablish the JCPSS. In June 1996, representatives from 14 probation departments

and the DOJ met to finalize the reporting standards and began system development. In January 1997, several probation departments began submitting data to the JCPSS.

In 1999, the Legislative Analyst's Office (LAO) recommended that the Legislature withhold 50 percent of the Temporary Assistance to Needy Families (TANF) funds from probation departments that did not submit JCPSS data by March 2000. At that time, only 22 probation departments were submitting data to the JCPSS.

In 2000, the LAO again recommended that the Legislature withhold 50 percent of the TANF funds from probation departments that did not submit JCPSS data by March 2001. In May 2000, a permanent JCPSS Advisory Committee was established to improve county participation and to discuss legislative changes affecting the JCPSS; no funds were withheld.

In 2001, the Legislature directed the DOJ, via Senate Bill 314 (Chapter 468, statutes of 2001), to include in its annual juvenile justice report, statistics on the administrative actions taken by law enforcement agencies regarding juveniles whose cases were transferred to or directly adjudicated in adult criminal court. This legislation also prompted discussions on replacing the existing JCPSS software, provided to probation departments in 1996, with a web-enabled application. In 2002, the DOJ developed the web-enabled JCPSS application, and county probation departments were connected to the DOJ network the same year.

In 2003, the JCPSS web-enabled application became operational. Probation departments received training, and they began to submit data to the DOJ. Currently, 56 of California's 58 counties are connected to the web-enabled application, and all of those counties are submitting data. (The DOJ continues to work with Del Norte and Sierra Counties in order to achieve 100 percent participation.)

In 2013, the FBI's Uniform Crime Reporting Program revised the definition of "forcible rape" (the carnal knowledge of a female forcibly and against her will) to "rape" and defined as "penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim."

The California Department of Justice instituted this definition change in January 2014. During 2014, agencies were encouraged to report using the new definition, but were allowed to report under the historical definition while transitioning their reporting systems.

All rape data submitted in 2015 are presented in this publication.

In November 2014, California voters passed Proposition 47 which reduced numerous state statutes from felonies to misdemeanors. Caution should be used when comparing felony and misdemeanor arrest data to prior years.

Arrests

Monthly Arrest and Citation Register (MACR)

- If a person is arrested for multiple offenses, the MACR selects only the most serious offense based on the severity of possible punishment.
- Felony arrest counts may include some misdemeanor warrants for felony offenses.

Referrals and Petitions

Juvenile Court and Probation Statistical System (JCPSS)

- Each year there is a difference between the number of referrals to probation via the JCPSS and the number of juvenile arrests reported by law enforcement agencies as "referred to juvenile court and probation" via the MACR. The difference is due, in part, to the various programs and definitions used by law enforcement agencies and probation departments for submitting data to the DOJ. However, there are two primary reasons for the difference:
 - a. Probation departments report caseload information, while law enforcement agencies report information on individual arrests.
 - b. The JCPSS counts only those juveniles who have a final disposition reported to the DOJ. Many probation departments divert juveniles out of the system into other "community based" programs. As a result, many juveniles who are diverted after being referred by law enforcement agencies are not reported on the JCPSS.
- All juvenile referrals for law violations and status offenses are reported in the JCPSS.
- The information presented in this report represents the data received from 55 counties. Del Norte and Sierra counties are not included in the JCPSS portion of the report.

- Lassen County Probation indicated the numbers provided to the DOJ in 2014 and 2015 were low due to an unforeseen technology issue. The DOJ used all records provided.
 - Nevada County Probation indicated they were unable to submit in 2015 due to a technology issue.
 - In 2003, the JCPSS was modified to accept up to five offenses per referral or petition. Previously, the JCPSS would only accept the most serious offense per referral or petition.
 - The subjectivity of the classification and labeling process must be considered in the analysis of race/ethnic group data. As commonly used, race refers to large populations that share certain physical characteristics, such as skin color. Because these physical characteristics can vary greatly within groups, as well as between groups, determination of race is frequently, by necessity, subjective. Ethnicity refers to cultural heritage and can cross racial lines. For example, the ethnic designation "Hispanic" includes persons of any race. Most commonly, self-identification of race/ethnicity is used in the classification and labeling process.
- felony arrests made during a calendar year. Therefore, final dispositions may occur in a year following the year of arrest.
- Only the final disposition of an arrest event is selected for statistical purposes. Intermediate dispositions (diversion programs, suspended proceedings, reopenings, retrials, or subsequent actions) are not included in OBTS data.
 - If a person is arrested for multiple offenses, OBTS selects only the most serious offense, based on the severity of possible punishment. If multiple court dispositions exist, OBTS selects the most severe court disposition and the associated offense.
 - OBTS data on state institutional commitments may vary from information compiled and reported by other state agencies because of differences in the data collection systems and criteria.
 - The OBTS file includes some persons whose age at arrest was under 18. These juveniles received a final disposition in adult court under provisions of Welfare and Institutions Code sections 602, 707(a), 707(b), 707(c), and 707.1(a).
 - Adult disposition information includes those juveniles aged 14 to 17 at the time of a felony arrest who received an adult-level disposition in 2015. The number of adult dispositions received in 2015 that meet the above criteria will not equal the number of juveniles transferred to the adult system for prosecution. Not every case transferred to the adult system is adjudicated in the same year. Many of the arrests occurred before 2015.

Dispositions in Adult Court Offender-Based Transaction Statistics (OBTS)

- Disposition data from the OBTS system are available from 1982 to the present.
- OBTS data are grouped by the year of disposition regardless of the year in which the arrest occurred.
- OBTS data represent final dispositions equal to 65 percent to 75 percent of the total adult

Welfare and Institutions Code section 285

All probation officers shall make periodic reports to the Attorney General at those times and in the manner prescribed by the Attorney General, provided that no names or social security numbers shall be transmitted regarding any proceeding under section 300 or 601.

Penal Code section 13010

It is the duty of the DOJ:

(a) To collect data necessary for the work of the department from all persons and agencies mentioned in section 13020 and from any other appropriate source.

(b) To prepare and distribute to all those persons and agencies, cards, forms, or electronic means used in reporting data to the department. The cards, forms, or electronic means may, in addition to other items, include items of information needed by federal bureaus or departments engaged in the development of national and uniform criminal statistics.

(c) To recommend the form and content of records which must be kept by those persons and agencies in order to ensure the correct reporting of data to the department.

(d) To instruct those persons and agencies in the installation, maintenance, and use of those records and in the reporting of data therefrom to the department.

(e) To process, tabulate, analyze and interpret the data collected from those persons and agencies.

(f) To supply, at their request, to federal bureaus or departments engaged in the collection of national criminal statistics data they need from this state.

(g) To present to the Governor, on or before July 1st, an annual report containing the criminal statistics of the preceding calendar year and to present at other times as the Attorney General may approve reports on special aspects of criminal statistics. A sufficient number of copies of all reports shall be prepared to enable the Attorney General to send a copy to all public officials in the state dealing with criminals and to distribute them generally in channels where they will add to the public enlightenment.

(h) To periodically review the requirements of units of government using criminal justice statistics, and to make recommendations for changes it deems necessary in the design of criminal justice statistics systems, including new techniques of collection and processing made possible by automation.

Penal Code section 13010.5

The department shall collect data pertaining to the juvenile justice system for criminal history and statistical purposes. This information shall serve to assist the department in complying with the reporting requirement of subdivisions (c) and (d) of section 13012, measuring the extent of juvenile delinquency, determining the need for and effectiveness of relevant legislation, and identifying long-term trends in juvenile delinquency. Any data collected pursuant to this section may include criminal history information which may be used by the department to comply with the requirements of section 602.5 of the Welfare and Institutions Code.

Penal Code section 13012

The annual report of the department provided for in section 13010 shall contain statistics showing all of the following:

- (a) The amount and the types of offenses known to the public authorities.
- (b) The personal and social characteristics of criminals and delinquents.
- (c) The administrative actions taken by law enforcement, judicial, penal, and correctional agencies or institutions, including those in the juvenile justice system, in dealing with criminals or delinquents.
- (d) The administrative actions taken by law enforcement, prosecutorial, judicial, penal, and correctional agencies, including those in the juvenile justice system, in dealing with minors who are the subject of a petition or hearing in the juvenile court to transfer their case to the jurisdiction of an adult criminal court or whose cases are directly filed or otherwise initiated in an adult criminal court.
- (e) The number of citizens' complaints received by law enforcement agencies under section 832.5. These statistics shall indicate the total number of these complaints, the number alleging criminal conduct of either a felony or misdemeanor, and the number sustained in each category. The report shall not contain a reference to any individual agency but shall be by gross numbers only.

It shall be the duty of the department to give adequate interpretation of the statistics and so to present the information that it may be of value in guiding the policies of the Legislature and of those in charge of the apprehension, prosecution, and treatment of the criminals and delinquents, or concerned with the prevention of crime and delinquency. The report shall also include statistics which are comparable with national uniform criminal statistics published by federal bureaus or departments heretofore mentioned.

Penal Code section 13012.5

(a) The annual report published by the department under section 13010 shall, in regard to the contents required by subdivision (d) of section 13012, include the following statewide information:

- (1) The annual number of fitness hearings held in the juvenile courts under section 707 of the Welfare and Institutions Code, and the outcomes of those hearings including orders to remand to adult criminal court, cross-referenced with information about the age, gender, ethnicity, and offense of the minors whose cases are the subject of those fitness hearings.
- (2) The annual number of minors whose cases are filed directly in adult criminal court under sections 602.5 and 707 of the Welfare and Institutions Code, cross-referenced with information about the age, gender, ethnicity, and offense of the minors whose cases are filed directly to the adult criminal court.
- (3) The outcomes of cases involving minors who are prosecuted in adult criminal courts, regardless of how adult court jurisdiction was initiated, including whether the minor was acquitted or convicted, or whether the case was dismissed and returned to juvenile court, including sentencing outcomes, cross-referenced with the age, gender, ethnicity, and offense of the minors subject to these court actions.

(b) The department's annual report published under section 13010 shall include the information described in subdivision (d) of section 13012, as further delineated by this section, beginning with the report due on July 1, 2003, for the preceding calendar year.

All Other Misdemeanor Offenses

Notes: These codes are valid for 2015 data and may not be applicable for prior years.

"All Other Misdemeanor Offenses" also includes sections in the California Code of Regulations, City or County Ordinances, Civil Procedure Code, Election Code, Public Utilities Code, Uniform Fire Code, and Water Code.

*These code sections can be either a felony or a misdemeanor.

Caseload – The number of juveniles under the supervision or jurisdiction of a probation department, excluding courtesy supervision, but including juveniles on diversion, informal probation (654 or 654.2 WI), non-ward probation (725(a) WI), or deferred entry of judgment (790 WI), and those who are wards of the juvenile court.

Closed at Intake – A referral that is closed by the probation department following an investigation of the circumstances and nature of the alleged offense. No further action is taken.

Deferred Entry of Judgment – A treatment program for first-time felony offenders aged 14 to 17 (790 WI).

Deferred Entry of Judgment Failure – A felony offender who fails the treatment program (793 WI).

Delinquent Act – An act committed by a juvenile for which an adult could be prosecuted in a criminal court.

Detention – The status of a juvenile immediately after arrest and prior to any court action.

Direct File in Adult Court – The filing of a juvenile case in a court of criminal jurisdiction (adult court) pursuant to 602(b) or 707(d) WI.

Dismissed – A petition dismissed by the juvenile court with no further action taken.

Disposition – An action taken by the probation officer or juvenile court because of a referral.

Diversion – Any delivery or referral of a minor by the probation department to a public or private agency with which the city or county has an agreement to provide diversion services.

Diversion services must meet the following criteria:

- 1) The probation department must have referred the minor and maintain responsibility for that minor's progress.
- 2) Placement and monitoring of the minor must have a beginning and ending date.

Diversion Dismissed – The successful completion of a diversion program.

Division of Juvenile Justice (DJJ) – The state entity that has jurisdiction over and maintains institutions as correctional schools for wards of the juvenile court and other persons committed from superior courts. (In July 2005, the California Youth Authority was consolidated with the California Department of Corrections and Rehabilitation and renamed the Division of Juvenile Justice.)

Fitness Hearing – A hearing to determine whether the juvenile is a fit and proper subject to be dealt with under the juvenile court law. If the juvenile is found fit, adjudication remains in the juvenile court. If the juvenile is found unfit, adjudication is transferred to the adult court (707(a) WI).

Informal Probation (654 WI) – Supervision of a minor, in lieu of filing a petition, for a period not to exceed six months. The supervision is based on a contractual agreement between a probation officer and a minor's parents or guardian under Welfare and Institutions Code section 654.

Informal Probation (654.2 WI) – Supervision of a minor, in lieu of declaring a minor a ward of the court, for a period not to exceed six months. The supervision is based on a contractual agreement between a court and a minor's parents or

guardian. The period of supervision may be extended.

Non-Secure Facility – A facility where a juvenile is not physically restricted from leaving.

Non-Ward Probation – Probation grant, without wardship, from juvenile court for a specific time not to exceed six months (725(a) WI).

Petition – The formal presentation to juvenile court of information related to a juvenile's alleged offense (similar to a criminal complaint for an adult).

Population at Risk – That portion of the total population who, because of like characteristics to the specific study group, are considered "at risk." For juveniles, all persons between ages 10 and 17 would constitute the at-risk population.

Private Facility – A facility operated by a private individual or group.

Public Facility – A facility operated by a governmental agency other than a county probation department.

Referral – A juvenile who is brought to the attention of the probation department for alleged behavior under Welfare and Institutions Code sections 601 and 602.

Remand to Adult Court – A disposition resulting from a fitness hearing that finds a juvenile unfit for the juvenile system and transfers a juvenile to the adult system.

Reverse Remand – Occurs when a case is sent back to the juvenile system from the adult system.

Reverse Waiver for Sentencing – Occurs when the adult system sends a juvenile back to the juvenile system for sentencing.

Secure Facility – A facility where a juvenile is held behind a locked door, gate, or fence, or in which some person is responsible for physically preventing the juvenile's escape or departure from the facility.

Status Offenses – Acts that would not be classified as crimes if committed by adults.

Technical Violation – Occurs when a juvenile violates a condition of his or her probation but does not commit a new offense.

Traffic Court – A disposition indicating the case was transferred to the traffic court for processing.

Transfer – A disposition that transfers a juvenile to another county juvenile court or probation department.

Wardship Probation – A probation grant in which a minor is declared a ward of the juvenile court and placed on formal probation.

WI – Welfare and Institutions Code.

Acknowledgments

The DOJ is mandated by statute to submit an annual *Juvenile Justice in California* report. The department extends its appreciation to all the probation departments and law enforcement agencies that provided complete and timely data. This report would not have been possible without their cooperation.
