Sturm, Ruger & Co.	KGP-161	.357 mag	6"	Revolver
Taurus	85	.38 special	2"	Revolver

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The Model 9006ES will [store] restrict access to any handgun, if the overall dimensions (Foot Print) do not exceed 3"H x 14-1/2"W x 10-5/8"D. Overall inside dimensions of safe are 9"H x 15-1/2"W x 12"D with an removable shelf. The Model 9006ES can store multiple handguns.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

CZ-USA	CZ-75	9mm	3.94"	Pistol
Kahr Arms	K9096A	9mm	3.5"	Pistol
Sig Arms	P226	9mm	4"	Pistol
Sturm, Ruger & Co.	KP-94	9mm	4"	Pistol

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The DAC Safe Model DS25EWH will accept multiple revolvers, semiautomatic pistols and other types of handguns of a normal configuration that have a maximum length of approximately 11" and a height of approximately 8" and a width of approximately 2".

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any handgun that will fit inside of the container (PB48 Pistol Box). Maximum overall dimensions not to exceed 11 3/4"L x 7 3/4"H x 3 3/4"D

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Designed to fit most small to medium framed pistols and revolvers, of any caliber and of any barrel length, that allow the unit to be closed and locked according to the manufacturer instructions. Excluding derringers and scoped guns.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any auto loading rifle or shotgun, bolt action rifle, pump action shotgun, single shot rifle or shotgun and revolver and derringers (.38 caliber & up) that will allow the attachment of the padlock shackle through the action ports, action holes and/or revolver cylinder or barrels to prevent the loading and/or engagement of the firearm action.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Manufacturer states that Remington Model 700 and Model Seven centerfire rifles equipped with the Remington Integrated Security System (ISS), patent number 6,240,670B1, function properly without an additional firearms safety device. To identify a Remington Model 700 or Model Seven rifle which has an ISS device installed, look for a locking cylinder with a J-shaped keyway protruding from the left side of the rear portion of the firearm bolt.

-- including, but not limited to

Remington	700	all calibers	all barrel lengths	Rifle
Remington	Seven	all calibers	all barrel lengths	Rifle

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm(s) that will fit within the V-Line Top Draw 2912-S lock box. The firearm(s) should not exceed 11 3/4" (L) x 8 3/4" (W) x 2 1/2" (H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Designed to fit most pump-action and semi-auto shotguns with side ejection port only. Fits all gauges and barrel lengths that allow the unit to be closed and locked according to the manufacturer instructions. Size of ejection port must be a minimum of 2.5 inches wide by 3/4 inches high.

Winchester	Super X2	12 gauge	All	Shotgun

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

This device will hold all types of firearms that are no longer than 14 inches in length x 13 inches in width x 9 inches in height.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

This device will hold all types of firearms that are no more than 11 inches in length x 6.8 inches in width x 3 inches in height.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any pistol, revolver, auto loading rifle or shotgun, bolt action rifle, pump action shotgun, single shot rifle or shotgun that will allow the attachment of the padlock through the receiver, loading or ejection ports to prevent the loading of or ability to engage the firearm action.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any pistol, revolver, auto loading rifle or shotgun, bolt action rifle, pump action shotgun, single shot rifle or shotgun that will allow the attachment of the padlock through the receiver, loading or ejection ports to prevent the loading of or ability to engage the firearm action.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Will hold up to 8 rifles or shotguns which are no more than 54" in length.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Will hold up to 14 rifles or shotguns which are no more than 54" in length. Quick access compartment will hold firearms that are no more than 13.5" wide x 9.5" long x 3" high (typically 2-5 firearms depending on size and shape).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Will hold firearms that are no more than 8.5" wide x 10.25" long x 2.25" high (typically 1-2 firearms depending on size and shape).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The 22-R fits all .22 caliber rifles manufactured since 1981, in accordance with industry standards and guidelines, otherwise known as SAAMI specifications.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The 380-ACP-A fits all .380 caliber pistols and derringers manufactured since 1981, in accordance with industry standards and guidelines, otherwise known as SAAMI specifications.

Sturm, Ruger & Co.	Mini-Thirty	All calibers	All lengths	Rifle
Sturm, Ruger & Co.	Ranch Rifle	All calibers	All lengths	Rifle

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Compatible with all Sturm, Ruger & Co. SP101 double-action revolvers and all Sturm, Ruger & Co. New Bearcat single-action revolvers.

-- including, but not limited to

Sturm, Ruger & Co.	Bearcat	All calibers	All lengths	Revolver
Sturm, Ruger & Co.	SP101	All calibers	All lengths	Revolver

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Compatible with all Sturm, Ruger & Co. PC Carbines.

-- including, but not limited to

Sturm, Ruger & Co.

PC Carbine

All

All

Rifle

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading rifles, bolt action rifles, pump action shotguns, double and single action revolvers, autoloading pistols, single shot rifles, single shot shotguns and single shot pistols with openings and/or chambers large enough to accept a .320 inch diameter cable.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Holds 12 rifles or shotguns. Has three 8" (w) x 8 3/4" (d) internal shelves for handguns or accessories.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Holds 12 rifles or shotguns. Has internal 13" (d) x 7" (w) x 8 3/4" (h) lock box for handguns or accessories.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Holds 16 rifles or shotguns. Has one shelf 8" (w) x 8 3/4" (d) and four 8" (w) x 8" (d) x 2" (h) drawers for accessories or handguns.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Model contains four adjustable 10" (d) x 21" (w) shelves for handguns and accessories.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

This device will hold all types of firearms that are no more than 10.5 inches in length x 7.5 inches in width x 4.5 inches in height.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading rifles, bolt action rifles, pumpaction shotguns, semiautomatic shotguns, double and single action revolvers, autoloading pistols, single shot rifles and shotguns, and single shot pistols with barrels, chambers, and openings, .32 caliber and larger.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Browning	BL-22	All	All	Rifle
Marlin	39A	All	All	Rifle
Marlin	97	All	All	Rifle

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any handgun that will fit inside of the container, maximum overall dimensions not to exceed: 13-1/2"(L) x 9-1/2" (H) x 8-3/4" (D).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any handgun that will fit inside of the container, maximum overall dimensions not to exceed: 14-3/4" (L) x 11-1/2" (H) x 10-3/4" (D).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Will hold up to three rifles and/or shotguns that will fit inside the WS-60, not exceeding 57" (H) x 14" (W) x 5 1/2" (D). Includes one shelf, 4" (D) x 13.750" (W) for handgun(s).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Will accommodate any handgun(s) that will fit inside of the WS-00-C, not exceeding 9" (L) x 6" (H) x 2" (D). The WS-00-C has two fixed steel shelves, 3 1/2" x 14".

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Chamber Lock works in all break open single barrel, side-by-side, and over-and -under 12 gauge shotguns with 2 3/4" chambers.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Safe that is capable of storing 8 rifles or shotguns up to 53.75" in length as well as handguns and accessories on a removable shelf for storage of handguns and accessories that has space available of 20.5" wide x 6.5" deep x 6.5" high.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Safe that is capable of storing twelve rifles or shotguns up to 57.75" in length as well as handguns and accessories on a removable shelf for storage of handguns and accessories that has space available of 20.5" wide x 8" deep x 9.5" high.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading rifles, bolt action rifles, pumpaction shotguns, semiautomatic shotguns, double and single action revolvers, autoloading pistols, single shot rifles and shotguns, and single shot pistols with barrels, chambers, and openings, .32 caliber and larger.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

For use with any handgun that will fit inside the container (AMPLB -11TL Pistol Box). Maximum overall dimensions of the handgun(s) cannot exceed 10 1/2" (L) x 6 3/4" (H) x 2 1/2" (D).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

For use with any handgun that will fit inside the container (AMPLB-18 Pistol Box). Maximum overall dimensions of the handgun(s) cannot exceed 11 1/2" (L) x 6 1/2" (H) x 2 1/2" (D).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Personal Safe that is capable of storing handguns and accessories. Internal dimensions are 12" wide x 8.5" deep x 6" high.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Personal Safe that is capable of storing handguns and accessories with one fixed, removable shelf. Internal dimensions are 13.5" wide x 8.5" deep x 9.5" high.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Personal Safe that is capable of storing handguns and accessories with one fixed, removable shelf. Internal dimensions are 14.5" wide x 10.5" deep x 11.5" high.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Cabinet that is capable of storing 12 rifles or shotguns up to 54" in length as well as handguns and accessories on a fixed shelf which has space available of 20.5" wide x 8" deep x 16" high.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

All Beretta model 8000, 8040, 8045 and 8357 semiautomatic pistols equipped with the B-Lok.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

All Beretta model 92, 96 and 98 semiautomatic pistols equipped with the B-Lok.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading rifles, bolt action rifles, pump action shotguns, semiautomatic shotguns, double action revolvers, single action revolvers, auto loading pistols, single shot rifles, single shot shotguns, and single shot pistols, with barrels, chambers and/or openings large enough to accept a 0.265 inch cable.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

A two door cabinet for storing rifles, shotguns, handguns and accessories. The cabinet has two doors that lock individually. One door secures storage of ten rifles or shotguns up to 54" in length. The second door secures four fixed, removable shelves that will store handguns and accessories. Space on the shelves is 12" wide x 12" deep with height clearances ranging from 6" to 12".

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Cabinet that is capable of storing eight rifles or shotguns up to 52" in length as well as handguns and accessories in a separate, lockable compartment that has internal dimensions of 9" wide x 20.5" deep x 10.5" high.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

A two door convertible cabinet for storing rifles, shotguns, handguns and accessories. The cabinet has two doors that lock individually. One door secures storage of 16 rifles or shotguns up to 54" in length. The second door secures four fixed, removable shelves that will store handguns and accessories. Space on the shelves is 17" wide x 16" deep with height clearances ranging from 6" to 12". The shelves can be removed and replaced with supplied barrel rests to provide for storage of an additional 15 rifles or shotguns up to 54" in length.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Cabinet designed to fit in a room corner. Capable of storing up to ten rifles or shotguns. Four adjustable shelves with storage for handguns or accessories. Cabinet's overall dimensions are 24" (w) x 24" (D) x 55" (H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Ready to assemble cabinet capable of storing up to 7 rifles or shotguns. Small shelves capable of storing handgun or accessories. Cabinet's overall dimensions are 19" (W) x 10" (D) x 53" (H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Double cabinet capable of storing up to 7 rifles or shotguns in large door compartment. Small door compartment has 3 shelves designed for handgun or accessory storage. Cabinet's overall dimensions are 29" (W) x 10" (D) x 53 (H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Sturm, Ruger & Co.

Gold Label Side-By-Side Shotgun

All calibers

All lengths

Shotgun

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Auto-loading rifles, bolt action rifles, semi-automatic shotguns, pump action shotguns, double and single action revolvers, auto-loading pistols, single shot rifles, single shot shotguns, with openings and/or chambers large enough to accept a .300 inch diameter cable.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any auto-loading rifle or shotgun, bolt-action rifle, pump action shotgun, single shot rifle or shotgun and revolver, that will allow the attachment of the padlock shackle through the action ports, action holes and/or revolver cylinder to prevent the loading and/or engagement of the firearm action.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any auto-loading rifle or shotgun, bolt-action rifle, pump action shotgun, single shot rifle or shotgun and revolver, that will allow the attachment of the padlock shackle through the action ports, action holes and/or revolver cylinder to prevent the loading and/or engagement of the firearm action.

-- including, but not limited to

Sturm, Ruger & Co.	77/17	All calibers	All lengths	Rifle

Sturm, Ruger & Co.	Mini-Thirty	All calibers	All lengths	Rifle
Sturm, Ruger & Co.	Ranch Rifle	All calibers	All lengths	Rifle

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any auto-loading rifle or shotgun, bolt-action rifle, pump action shotgun, single shot rifle or shotgun, pistol and revolver, that will allow the attachment of the padlock shackle through the action ports, action holes, barrels and/or revolver cylinder to prevent the loading and/or engagement of the firearm action.

-- including, but not limited to

Sturm, Ruger & Co.

P-Series Pistols

All calibers

All lengths

Pistol

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading rifles, bolt action rifles, pump action shotguns, semiautomatic shotguns, double action revolvers, single action revolvers, auto loading pistols, single shot rifles, single shot shotguns, and single shot pistols, with barrels, chambers and/or openings large enough to accept a 0.265 inch cable.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Sturm, Ruger & Co.	Bisley	All calibers	All lengths	Revolver
Sturm, Ruger & Co.	Bisley-Vaquero	All calibers	All lengths	Revolver
Sturm, Ruger & Co.	Blackhawk	All calibers	All lengths	Revolver
Sturm, Ruger & Co.	MKII Pistols	All calibers	All lengths	Pistol

Sturm, Ruger & Co.	Super Redhawk	All calibers	All lengths	Revolver
Sturm, Ruger & Co.	Trap Shotgun	All calibers	All lengths	Shotgun

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Sturm, Ruger & Co.	77/50	All calibers	All lengths	Rifle
Sturm, Ruger & Co.	Mini-14	All calibers	All lengths	Rifle
Sturm, Ruger & Co.	Mini-Thirty	All calibers	All lengths	Rifle
Sturm, Ruger & Co.	Ranch Rifle	All calibers	All lengths	Rifle

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Sturm, Ruger & Co.

P-Series Pistols

All calibers

All lengths

Pistol

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Compatible with long guns with barrels up to 31" in length including auto-loading rifles, bolt action rifles, pump action shotguns, semiautomatic shotguns, double action and single action shotguns and rifles, with barrels or openings large enough to accept a 0.265 inch diameter cable.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any handgun that will fit inside the container APLB-13 Pistol Box. Maximum overall dimensions of handgun cannot exceed 12" (L) x 6 3/4" (W) x 2" (H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Cabinet is capable of storing 8 rifles or shotguns up to 54" in length, as well as handguns and accessories on a fixed shelf which has space available of 20.5" (W) x 8" (L) x 16" (H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Cabinet is capable of storing 8 rifles or shotguns up to 54" in length as well as handguns and accessories on a fixed shelf which has space available of 20.5" (W) x 8" (L) x 16" (H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Cabinet is capable of storing 12 rifles or shotguns up to 54" in length as well as handguns and accessories on three adjustable, removable shelves each having space available of 8.25" (W) x 6.75" (L).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Cabinet is capable of storing 16 rifles or shotguns up to 54" in length as well as handguns and accessories on a fixed shelf which has space available of 20.5" (W) x 5.75" (L) x 16" (H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The Fort Knox Security Products SMC Lock Box will accommodate any firearm(s) that will fit inside, usable interior dimensions are up 11" (L) x 9" (W) x 3" (H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any handgun that will fit inside the APLB-8 Pistol Box. Maximum overall dimension of the handgun cannot exceed 7" (L) x 6 3/4" (H) x 2" (W).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any auto loading rifle or shotgun, bolt action rifle, pump action shotgun, double or single action revolvers, autoloading pistols, single shot rifles, single shot shotguns and single shot pistols that will allow .300 diameter cable through the action ports or openings to prevent the loading and/or engagement of the firearm action.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm(s) that will fit within the V-Line Hide-Away 3912-SH lock box. The firearm(s) should not exceed 11 1/2" (L) x 7 3/4" (W) x 2 1/2" (H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm(s) that will fit within the V-Line Desk Mate 2597-S lock box. The firearm(s) should not exceed 7 3/4" (L) x 6 3/4" (W) x 2" (H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm(s) that will fit within the V-Line Quick Vault 41214-S. The firearm(s) should not exceed 12" (L) x 6" (W) x 2 1/2" (H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm that will fit inside the lock box. Firearm should not exceed 11 3/4" (L) x 8 3/4" (W) x 2 1/2" (H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Cabinet that is capable of storing handguns and accessories with two fixed, removable shelves. An internal dimension above each shelf is 20.5" wide x 9" deep x 5.5" high.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any auto loading rifle or shotgun, bolt action rifle, pump action shotgun, double or single action revolvers, autoloading pistols, single shot rifles, single shot shotguns and single shot pistols that will allow .300 diameter cable through the action ports or openings to prevent the loading and/or engagement of the firearm action.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any auto loading rifle or shotgun, bolt action rifle, pump action shotgun, double or single action revolvers, autoloading pistols, single shot rifles, single shot shotguns and single shot pistols that will allow .300 diameter cable through the action ports or openings to prevent the loading and/or engagement of the firearm action.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading rifles, bolt action rifles, pump action shotguns, semiautomatic shotguns, double and single action revolvers, auto loading pistols, single shot rifles, single shot shotguns and single shot pistols, with barrels, chambers, and openings, .22 caliber and larger.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading rifles, bolt action rifles, pump action shotguns, double and single action revolvers, auto loading pistols, single shot rifles, single shot shotguns and single shot pistols, with barrels and chambers .32 caliber and larger.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Compatible with all standard full sized framed 1911 type firearms with 5" barrels in .45 ACP caliber.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Designed to store handguns and accessories with a padded interior. Internal Dimensions are 8" (W) x 12" (D) x 6" (H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Ready to assemble cabinet that is capable of storing 8 rifles or shotguns up to 50" in length, as well as handguns and accessories on a fixed removable shelf 16.75" (W) x 4" (D) x 8" (H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Safe that is capable of storing 12 rifles or shotguns up to 57.75" in length, as well as handguns and accessories on a removeable shelf for storage of handguns and accessories that has space available of 20.75' (W) x 8" (D) x 9.5" (H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Safe that is capable of storing 12 rifles or shotguns up to 53.75" in length, as well as handguns and accessories on a removeable shelf for storage of handguns and accessories that has space available of 20.75' (W) x 6.5" (D) x 6.5" (H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any auto loading rifle or shotgun, bolt action rifle, pump action shotgun, double or single action revolvers, autoloading pistols, single shot rifles, single shot shotguns and single shot pistols that will allow .300 diameter cable through the action ports or openings to prevent the loading and/or engagement of the firearm action.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any auto loading rifle or shotgun, bolt action rifle, pump action shotgun, double or single action revolvers, autoloading pistols, single shot rifles, single shot shotguns and single shot pistols that will allow .300 diameter cable through the action ports or openings to prevent the loading and/or engagement of the firearm action.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any auto loading rifle or shotgun, bolt action rifle, pump action shotgun, double or single action revolvers, autoloading pistols, single shot rifles, single shot shotguns and single shot pistols, with barrels, chambers and/or openings large enough to accept a .24 inch diameter cable.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Will accommodate any handgun(s) that will fit inside the SWS-00-C, not exceeding 9" (L) x 6" (H) x 2" (D). Lock Box has two fixed steel shelves (3.5" x 14").

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Will hold up to three rifles and/or shotguns (total). Includes one shelf (4" x 13 3/4" for handguns).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Will work with any 40S&W caliber semiautomatic pistol with a barrel length up to 5 inches, as measured from the end of the barrel to the rear of the breach.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Remington	Seven	All	All	Rifle

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The SSI Clamshell will fit all Mossberg SSI-One rifles or shotguns regardless of caliber/gauge. It will not fit other Mossberg products, or products manufactured by other manufacturers.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Safe capable of storing handguns and accessories on three removable shelves that has an available space of 20.75" (W) x 9.8" (D) x 4" (H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any auto-loading rifle or shotgun, bolt-action rifle, pump action shotgun, single shot rifle or shotgun that will allow the attachment of the padlock shackle through the action ports or action holes to prevent the loading and/or engagement of the firearm action.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any auto-loading rifle or shotgun, bolt-action rifle, pump action shotgun, single shot rifle or shotgun and revolver that will allow the attachment of the padlock shackle through the action ports, action holes and/or revolver cylinder to prevent the loading and/or engagement of the firearm action.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any auto-loading rifle or shotgun, bolt-action rifle, pump action shotgun, single shot rifle or shotgun, revolver and auto loading pistols that will allow the attachment of the padlock shackle through the action ports, action holes and/or revolver cylinder to prevent the loading and/or engagement of the firearm action.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Will fit all 22 Mag. Revolvers with a barrel length of 4" to 5 1/8", and all 22LRs with 4 1/2" to 5 3/4" barrels.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any pistol, revolver, derringer, or handgun whose dimensions do not exceed 11" long x 7" wide.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any pistol, revolver, derringer, or handgun whose dimensions do not exceed 11" long x 7" wide.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Auto-loading rifles, bolt action rifles, pump action shotguns, semiautomatic shotguns, double action revolvers, single action revolvers, auto loading pistols, single shot rifles, single shot shotguns, and single shot pistols, with barrels, chambers and/or openings large enough to accept a 0.265 inch cable.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Fire Rated Safe is capable of storing handguns and accessories with a removable tray. Internal dimensions of the unit are 14.38" wide x 10" deep x 8.75" high.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Fire Rated Safe is capable of storing handguns and accessories with two steel adjustable shelves. Internal dimensions of the unit are 12.1" wide x 12.2" deep x 15.4" high.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Capable of storing 12 rifles/shotguns. Rifles/shotguns may be up to 57.69" in length. Handguns and accessories may be stored on removable shelf that has an available space of 20.75" (W) x 7.75" (D) x 9.63" (H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Capable of storing 12 rifles/shotguns. Rifles/shotguns may be up to 53.75" in length. Handguns and accessories may be stored on a removable shelf that has an available space of 20.75" (W) x 6.5" (D) x 6.5" (H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Capable of storing 16 rifles/shotguns. Rifles/shotguns may be up to 57.69" in length. Handguns and accessories may be stored on a removable shelf that has an available space of 20.75" (W) x 7.09" (D) x 10" (H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Capable of storing either 23 rifles/shotguns or 16 rifles/shotguns and 4 adjustable shelves. Rifles/shotguns lengths may be up to 57.69" in length. Handguns and accessories may be stored on 4 adjustable and removable shelves that have an available space of 11" (W) x 16.97" (D).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Fire resistant; Capable of storing 14 rifles/shotguns. Rifles/shotguns may be up to 56.06" in length. Handguns and accessories may be stored on a removable shelf that has an available space of 20.37" (W) x 7.06" (D) x 5.31" (H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Fire resistant; Capable of storing either 20 rifles/shotguns or 13 rifles/shotguns and 4 adjustable shelves. Rifles/shotguns length may be up to 56.06" in length. Handguns and accessories may be stored on 4 adjustable and removable shelves that have an available space of 7.69" (W) x 14.44" (D).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Capable of storing either 19 rifles/shotguns or 12 rifles/shotguns and 4 adjustable shelves. Rifles/shotguns lengths may be up to 57.69" in length. Handguns and accessories may be stored on 4 adjustable and removable shelves that have an available space of 10.24" (W) x 14" (D).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading rifles, bolt action rifles, pump action shotguns, double and single action revolvers, autoloading pistols, single shot rifles, single shot shotguns, and single shot pistols with openings and/or chambers large enough to accept .300 diameter cable.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading rifles/shotguns, bolt action rifles, pump action shotguns, double action revolvers, single action revolvers, autoloading pistols, single shot rifles, single shot shotguns, and single shot pistols, with barrels, chambers and/or openings large enough to accept a 0.22 inch diameter cable.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading rifles, bolt action rifles, pump action shotguns, semiautomatic shotguns, double and single action revolvers, autoloading pistols, single shot rifles, shingle shot shotguns, and single shot pistols.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading rifles, bolt action rifles, pump action shotguns, semiautomatic shotguns, double and single action revolvers, autoloading pistols, single shot rifles, single shot shotguns, and single shot pistols.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Electronic Fire Rated Safe is capable of storing handguns and accessories with two steel adjustable shelves and 1 drawer. Internal dimensions of the unit are 13.4"(W) x 12.2" (D) x 18.1"(H.)

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Cabinet is capable of storing 8 rifles or shotguns up to 54" in length as well a handguns and accessories on a fixed shelf, which has space available of 20.5" (W) x 8" (L) x 16" (H.)

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Combination and Key Fire Rated Safe is capable of storing handguns and accessories with two steel adjustable shelves and 1 drawer. Internal dimensions of the unit are 13.4" (W) x 12.2" (D) x 18.1" (H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Personal Drawer/Wall Safe that is capable of storing handguns and accessories with two fixed, removable shelf. External dimensions of the unit are 13.7" (W) x 13" (D) x 19.7" (H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Personal Drawer Safe that is capable of storing handguns and accessories. External dimensions of the unit are 11.8" (W) x 8.2" (D) x 3.9" (H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Personal Drawer Safe that is capable of storing handguns and accessories with one fixed, removable shelf. External dimensions of the unit are 11.2"(W) x 5" (D) x 14.4" (H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Cabinet that is capable of storing 14 rifles or shotguns up to 54" in length as well as handguns and accessories on a fixed shelf which has space available of 20.7" (W) x 5.7" (D) x 9" (H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Fire Rated Safe designed to store handguns, accessories, and personal/business items with 4 shelves. Internal dimensions of the unit are 18.3" (W) x 13.2" (D) x 56.3"(H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Fire Rated Safe designed to store handguns, accessories, and personal/business items with 4 shelves. Internal dimensions of the unit are 18.3" (W) x 13.2" (D) x 37.3" (H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Cabinet that is capable of storing handguns and accessories with two fixed, removable shelves. Internal dimensions of the unit are 20.5" (W) x 9.1" (D) x 18" (H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Cabinet that is capable of storing 14 rifles or shotguns up to 54" in length as well as handguns and accessories on a fixed shelf which has space available of 20.7" (W) x 5.7" (D) x 9" (H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Cabinet is capable of storing 8 rifles or shotguns up to 54" in length, as well as handguns and accessories on a fixed shelf, which has space available of 20.75" (W) x 5.75" (L) x 9" (H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Designed to store handguns and accessories with a steel shelf. Internal dimensions of the unit are 8" (W) x 12" (D) x 6" (H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading rifles, autoloading shotguns, bolt action rifles, pump action shotguns, double action revolvers, single action revolvers, autoloading pistols, single shot rifles, single shot shotguns, and single shot pistols with barrels, chambers and/or openings large enough to accept a 0.24 inch diameter covered cable.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading rifles, bolt action rifles, pump action shotgun, semiautomatic shotguns, double action revolver, single action revolvers, auto loading pistols, single hot rifles, single shot shotguns, and ingle shot pistols, with barrels, chambers and/or openings large enough to accept a 0.32 inch (8mm) diameter cable.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Electronic lock safe designed to store either 20 rifles/shotguns or 13 rifles/shotguns and 4 adjustable shelves. Rifles/shotguns lengths may be up to 56" in length. Handguns and accessories may be stored on 4 adjustable and removable shelves that have an available space of 7.7"(W) x 14.4"(D).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Electronic Fire Rated Safe designed to store 14 rifles/shotguns. Rifles/shotguns may be up to 56" in length. Handguns and accessories may be stored on a removable shelf that has an available space of 20.37" (W) x 7.06" (D) x 5.31" (H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Electronic lock safe designed to store either 19 rifles/shotguns or 12 rifles/shotguns and 4 adjustable shelves. Rifles/shotguns lengths may be up to 57" in length. Handguns and accessories may be stored on 4 adjustable and removable shelves that have an available space of 10.2" (W) x 14" (D).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Auto-loading rifles, bolt action rifles, pump action shotguns, semiautomatic shotguns, double action revolvers, single action revolvers, auto loading pistols, single shot rifles, single shot shotguns, and single shot pistols, with barrels, chambers and/or openings large enough to accept a 0.265 inch cable.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading rifles, bolt action rifles, pump action shotguns, double and single action revolvers, auto loading pistols, single shot rifles, single shot shotguns and single shot pistols, with barrels and chambers .32 caliber and larger.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading rifles, bolt action rifles, pump action shotguns, semiautomatic shotguns, double action revolvers, single action revolvers, auto loading pistols, single shot rifles, single shot shotguns, and single shot pistols, with barrels, chambers and/or openings large enough to accept a 0.215 inch (5.5mm) diameter cable.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm(s) that will fit within the V-Line compact 279-S lock box. The firearm(s) should not exceed 8 1/2" (L), 6 1/2" (W), 1 1/2" (H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading rifles, bolt action rifles, pump action shotguns, semiautomatic shotguns, double action revolvers, single action revolvers, auto loading pistols, single shot rifles, single shot shotguns, and single shot pistols, with barrels, chambers and/or openings large enough to accept a 0.32 inch (8mm) diameter cable.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Designed to fit any handgun with a barrel length from 2" to 4". Caliber specific-Any caliber with a bore of .325" or larger (9mm, 380 Acp to 50 Caliber).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Will accommodate handguns up to 12"L x 7"H.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Will accommodate handguns up to 12"L x 7"H.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Safe with capability to store up to 8 rifles or shotguns up to 54" in length. Safe is supplied with a removable storage shelf for handguns and accessories. Shelf storage space is 9.5 inches long, 16.75 inches wide, and 9.5 inches storage height.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading shotgun/rifles, bolt action rifles, pump action

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading shotgun/rifles, bolt action rifles, pump action shotguns, double and single action revolvers, autoloading pistols, single shot rifles, single shot shotguns and single shot pistols with openings and/or receivers large enough to accept .300 inch diameter cable.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any auto-loading rifle or shotgun, bolt-action rifle, pump action shotgun, single shot rifle or shotgun that will allow the attachment of the padlock shackle through the action ports or action holes to prevent the loading and/or engagement of the firearm action.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any auto-loading rifle or shotgun, bolt-action rifle, pump action shotgun, single shot rifle or shotgun and revolver, that will allow the attachment of the padlock shackle through the action ports, action holes and/or revolver cylinder to prevent the loading and/or engagement of the firearm action.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any auto-loading rifle or shotgun, bolt-action rifle, pump action shotgun, single shot rifle or shotgun and revolver, that will allow the attachment of the padlock through the action ports, action holes barrels and/or revolver cylinder to prevent the loading and/or engagement of the firearm action.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any auto-loading rifle or shotgun, bolt-action rifle, pump action shotgun, single shot rifle or shotgun, revolver and auto-loading pistols that will allow the attachment of the padlock shackle through the action ports, action holes and/or revolver cylinder to prevent the loading and/or engagement of the firearm action.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Designed to fit any handgun with a barrel length from 3" to 5". Caliber Specific-Any caliber with a bore of .325" or larger (9mm, 380Acp to 50 Caliber).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Designed to fit any handgun with a barrel length from 4" to 6". Caliber Specific- Any caliber with a bore of .325" or larger (9mm, 380Acp to 50 caliber).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Designed to fit any handgun with a barrel length from 5" to 7". Caliber Specific- Any caliber with a bore of .325" or larger (9mm, 380Acp to 50 caliber).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Designed to fit any handgun with a barrel length from 6" to 8". Caliber Specific- Any caliber with a bore of .325" or larger (9mm, 380Acp to 50 caliber).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Ruger Redhawk and Super Redhawk double action revolvers, Ruger Old Army Revolvers, Ruger Mark II and Mark III Pistols, Ruger 22/45 Pistols, Ruger single action revolvers (.22 and .17 calibers only); When used with PM151 clamp: Ruger New Model Bearcat single action revolvers, Ruger SP101 double action revolvers (.22 caliber only); When used with PM152 clamp: Ruger PC Carbine Rifle.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Ruger single action revolvers (except .22 and .17 calibers), Ruger GP100 double action revolvers (.38 and .357 only), Ruger SP101 revolvers (.38 and .357 only), Ruger Red Label over-and-under shotguns, Ruger M77 Mark II rifles, Ruger 77/17 rifles, Ruger 77/22 rifles, Ruger 77/44 rifles, Ruger Deerfield Rifles; when used with PM154 clamp: Ruger Gold Label side-by-side shotguns.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

For use with: Ruger Mini-14 rifles, Ruger Mini-14 Ranch Rifles, Ruger Mini Thirty rifles, Ruger 77/50 Muzzleloader rifles; when used with PM153 clamp: Ruger 10/22 rifles, Ruger 10/22 magnum rifles and Ruger Model 96 lever-action rifles.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Ruger P-Series Pistols, Ruger New Model Blackhawk convertible single action revolvers (.38 and greater only).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Ruger No. 1 rifles.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Ruger New Model Single Six single action revolver (.32 only), Ruger Blackhawk single-action revolver (.30 only), and Ruger SP101 double action revolver (.32 only)

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Ruger New Model Blackhawk convertible single action revolvers (.32 only).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Safe with capability to store up to 10 rifles or shotguns up to 54" in length. Safe is supplied with a removable storage shelf for handguns and accessories. Shelf storage space is 9.5 inches long, 16.75 inches wide, and 9.5 inches storage height.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading rifles, bolt-action rifles, pump action shotguns, semi-automatic shotguns, double action revolvers, single action revolvers, autoloading pistols, single shot shotguns, single shot rifles, single shot pistols and semiautomatic pistols with barrels, chambers and or openings large enough to accept a 0.265 cable.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading rifles, bolt-action rifles, pump action shotguns, semi-automatic shotguns, double action revolvers, single action revolvers, autoloading pistols, single shot shotguns, single shot rifles, single shot pistols and semiautomatic pistols with barrels, chambers and or openings large enough to accept a 0.265 cable.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Regal Industrial Sales M5070 Trigger Lock is designed for exclusive use on Remington Rifles and Shotguns trigger guards. Models 1100, 11-87, 870, 552, 572, 7400, 7600, SP-10 and others. See "Search by Firearm Safety Device Model" for complete listing.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Locking cabinet that can be used to store handguns and accessories. Cabinet has 2 removable shelves. Size: 18" tall x 21" wide x 10" deep.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Locking vertical cabinet capable of storing long guns and rifles up to 54" tall. Interior will accommodate up to 8 guns with or without scopes. 1 removable shelf. Size: 55" tall x 21" wide x 10" deep.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Locking vertical cabinet capable of storing long guns and rifles up to 54" tall. Interior will accommodate up to 12 guns with or without scopes. 1 removable shelf. Size: 55" tall x 21" wide x 16" deep.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Locking vertical cabinet capable of storing long guns and rifles up to 54" tall. Interior will accommodate up to 16 guns with or without scopes. 1 removable shelf. Size: 55" tall x 21" wide x 18" deep.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading shotgun/rifles, bolt action rifles, pump action shotguns, double and single action revolvers, autoloading pistols, single shot rifles, single shot shotguns and single shot pistols with openings and/or receivers large enough to accept .24 inch diameter cable.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading shotgun/rifles, bolt action rifles, pump action shotguns, double and single action revolvers, autoloading pistols, single shot rifles, single shot shotguns, and single shot pistols with openings and/or receivers large enough to accept .300 inch diameter cable.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Designed to store handguns and accessories with a steel shelf. Internal dimensions of the unit are 8" wide x 12" deep by 6" high.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading shotguns/rifles, bolt action rifles, pump action shotguns, double and single action revolvers, autoloading pistols, single shot rifles, single shot shotguns, and single shot pistols with openings and/or receivers large enough to accept .24 inch diameter cable.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Cabinet is capable of storing handguns and accessories with one fixed removable shelf. External dimensions of the unit are 17" wide x 10" deep x 15" high.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Cabinet is capable of storing 8 rifles or shotguns up to 54" in length as well as handguns and accessories on a fixed shelf, which has space available of 20.5" wide x 8" deep x 16" high.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Cabinet is capable of storing 14 rifles or shotguns up to 54" in length as well as handguns and accessories on a fixed shelf which has space available of 20.7" wide x 5.7" deep x 9" high.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

A two door gun cabinet for storing rifles, shotguns, handguns and accessories. The cabinet has two doors that lock individually. One door secures storage of 10 rifles or shotguns up to 54" in length. The second door secures 4 fixed, removable shelves that will store handguns and accessories. Space is 12" wide x 12" deep with height clearance ranging from 6"-12".

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

A two door convertible cabinet for storing rifles, shotguns, handguns and accessories. The cabinet has two doors that lock individually. One door secures storage of 16 rifles or shotguns up to 54" in length. The second door secures 4 fixed, removable shelves that will store handguns and accessories. Space on shelves is 17" wide x 16" deep with height clearances of 6"-12". Shelves can be removed and replaced with supplied barrel rests to for storage of an additional 15 rifles or shotguns up to 54" in length.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Designed to store handguns and accessories with a steel shelf. Internal dimensions of the unit are 8" wide x 12" deep x 6" height.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Designed to store handguns and accessories with a padded interior. Internal dimensions are 8" wide x 12" deep x 6" height.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Personal safe that is capable of storing handguns and accessories with 1 fixed, removable shelf. Internal dimensions are 14.5" wide x 10.5" deep x 11.5" height.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Gun safe capable of storing 8 rifles or shotguns. Rifles and shotguns may be up to 51.7" in length. Handguns and accessories may be stored on a removable shelf.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Gun safe capable of storing 10 rifles or shotguns. Rifles and shotguns may be up to 51.7" in length. Handguns and accessories may be stored on a removable shelf.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Gun safe capable of storing 12 rifles or shotguns. Rifles and shotguns may be up to 51.7" in length. Handguns and accessories may be stored on a removable shelf.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Gun safe capable of storing 16 rifles and shotguns. Rifles and shotguns may be up to 53.7" in length. Handguns and accessories may be stored on a removable shelf.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Cabinet capable of storing 10 rifles or shotguns up to 52" in length as well as handguns and accessories on a fixed shelf.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Cabinet capable of storing handguns and accessories with 2 fixed removable shelves. Internal dimensions above each shelf is 20.9" wide x 9" deep x 5.5" height.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Cabinet capable of storing handguns and accessories with two fixed, removable shelves. Internal dimensions above each shelf is 20.9" wide x 9" deep x 5.5" height.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Electronic fire rated safe designed to store up to 14 rifles/shotguns. Rifles/shotguns may be up to 56" in length. Handguns and accessories may be stored on a full width shelf or a modular shelving system containing 8 half width shelves. Shelves can be arranged or removed to fit the user needs. All shelves are removable.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Combination fire rated safe designed to store up to 14 rifles/shotguns. Rifles/shotguns may be up to 56" in length. Handguns and accessories may be stored on a full width shelf or a modular shelving system containing 8 half width shelves. Shelves can be arranged or removed to fit the users needs. All shelves are removable.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Electronic gun safe capable of storing 16 rifles/shotguns. Rifles/shotguns may be up to 53.7" in length. Handguns and accessories may be stored on a removable shelf.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Electronic gun safe capable of storing 16 rifles/shotguns. Rifles/shotguns may be up to 53.7" in length. Handguns and accessories may be stored on a removable shelf.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Cabinet capable of storing 10 rifles or shotguns up to 52" in length as well as handguns and accessories on a fixed shelf.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Cabinet is capable of storing 14 rifles or shotguns up to 54" in length as well as handguns and accessories on a fixed shelf which has space available of 20.7" wide x 5.7" deep x 9" high.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Personal safe that is capable of storing handguns and accessories with two fixed removable shelves. Internal dimensions above each shelf is 20.5" wide x 9" deep x 5.5" high.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The HS12 can accommodate 12 rifles or shotguns up to 52" in overall length. There is also room to accommodate several pistols, revolvers, or handguns.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The HS8 can accommodate 8 rifles or shotguns up to 52" in overall length. There is also a shelf for storage which will accommodate any handgun model.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Person safe that is capable of storing handguns and accessories with 1 fixed removable shelf. Internal dimensions are 13.5" wide x 8.5" deep x 9.5" high.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Personal safe that is capable of storing handguns and accessories. Internal dimensions are 12" wide x 8.5" deep x 6" high.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Personal drawer safe that is capable of storing handguns and accessories with 1 fixed, removable shelf. External dimension of the unit are 11.2" wide x 5" deep x 14.4" high.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Personal drawer safe that is capable of storing handguns and accessories. External dimensions of the unit are 11.8" wide x 8.2" deep x 3.9" high.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm up to 55" in overall length.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading shotgun/rifles, bolt action rifles, pump action shotguns, double and single action revolvers, auto loading pistols, single shot rifles, single shot shotguns, and single shot pistols with opening and/or receivers large enough to accept .24 inch diameter cable.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

All shotguns with a barrel length of 14 inches except for double barrel shotguns.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

All shotguns with a barrel length of 20 inches except for double barrel shotguns.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

All shotguns with a barrel length of 21 inches except for double barrel shotguns.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

All shotguns with a barrel length of 22 inches except for double barrel shotguns.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

All shotguns with a barrel length of 23 inches except for double barrel shotguns.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

All shotguns with a barrel length of 24 inches except for double barrel shotguns.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

All shotguns with a barrel length of 25 inches except for double barrel shotguns.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

All shotguns with a barrel length of 26 inches except for double barrel shotguns.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

All shotguns with a barrel length of 27 inches except for double barrel shotguns.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

All shotguns with a barrel length of 28 inches except for double barrel shotguns.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

All shotguns with a barrel length of 30 inches except for double barrel shotguns.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

All shotguns with a barrel length of 32 inches except for double barrel shotguns.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

All shotguns with a barrel length of 34 inches except for double barrel shotguns.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Rifles or shotguns up to overall length of 51". Shelf allows storage of handguns that do not exceed 10" in overall length.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

All pistols and revolvers that will fit inside the container. Max dimensions are 8 in x 12 inches x 3 inches thick.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

All pistols and revolvers that will fit inside the container. Max dimensions are 8 in. x 12in. X 4 in thick.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Designed to securely fit revolvers, pistols, rifles, shotguns, but it not designed for use with lever action rifles, "military style" rifles with large magazine wells, or on any firearm without a trigger guard. Is the only child safety device for firearms which incorporate patent pending block and cylinder block accessories which make the cylinder of revolvers unable to be opened, loaded, or rotated, and the slide of most center-fire pistols unable to be placed into battery, thereby restricting the firing pin from coming into contact with the cartridge, and the slide from closing. Unlike most "trigger locks" CS-100 makes use of 8 user installed, moveable safety posts and 90 receiver holes which allow a customized, secure, intimate fit on most firearms from small handguns to large shotguns with two triggers. Securely fits trigger guards up to 2.60" (66mm) long, 1.29" (33mm) high, and 1.00" (25mm) thick

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

For revolvers, pistols, and derringers whose dimensions do not exceed 10" long x 6 1/2" high x 2 1/4" wide.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Stores up to 16 rifles/shotguns. Rifles/shotguns may be up to 57.69" in length. Handguns and accessories may be stored on a removable shelf that has an available space of 20.7" (W) x 7.1" (D) x 10" (H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Ruger Mark III pistols, Ruger .22/.45 Mark III Pistols

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

All pistols and revolvers that will fit inside the container. Max dimensions are 8 in x 12 inches x 3 inches thick.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

All pistols and revolvers that will fit inside the container. Max dimensions are 8 in. x 12in. X 4 in thick.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading rifles/shotguns, bolt action rifles, pump action shotguns, double action revolvers, single action revolvers, auto loading pistols, single shot rifles, single shot shotguns, single shot pistols with barrels/chambers and/or openings large enough to accept a 0.22 inch diameter cable.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Regal Industrial Sales RTL06 trigger Lock is designed for exclusive use on Remington Rifles and Shotgun Models 1100, 1187, 870, 552, 572, 7400, 7600, and others. See "Search by Firearms Safety Device Model" for complete listing.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Suitable for a pistol or revolver that is no greater than 13"L x 9"W x 4"H

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Suitable for a pistol or revolver that is no greater than 12"L x 7.5"W x 4"H

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm with an overall length of 55" or less.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any pistol, revolver, shotgun, or rifle provided there is a minimum opening of 0.300 inches to accept the cable and the device can be properly installed.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any pistol, revolver, shotgun, and rifle provided there is a minimum opening of 0.300 inches to accept the cable and the device can be properly installed.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Ready to assemble cabinet that is capable of storing 8 rifles or shotguns up to 50 inches in length, as well as handguns and accessories on a fixed removable shelf 16.75" (W) x 4" (D) x 8" (H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any shotgun (ie. double barrel, over and under, or side by side) provided there is a minimum opening of 0.300 inches to accept the cable and the device can be properly installed.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearms that will fit within the Gun Guard DLX Double Security Safe. The firearms should not exceed 12.5" (L) x 8.5" (W) x 6.5" (H)

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearms that will fit within the Gun Guard XLT Security Safe. The firearms should not exceed 10.25" (L) x 7.0 (W) x 4.875" (H)

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearms that will fit within the Gun Guard DLX Single Security Safe. The firearms should not exceed 12.5" (L) x 8.5" (W) x 2.75" (H)

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Wall mounted safe with an electronic lock for storage of handguns and accessories. Unit is designed for secure storage. Unit has 13 5/8" x 19 x 3" storage space with (2) removeable shelves.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Suitable for a pistol or revolver that is no greater than 13"(L) x 9"(W) x 4"(H)

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The pistol lock box model BRSB23EFGRN can store pistols up to 13.25" in length. The internal dimensions are 9.25" (D) x 8.75" (T) x 13.5 (W) and has a removable shelf. The model BRSB23EFGRN has an electronic lock with an emergency manual key override.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The model Q5320 gun safe is capable of storing 14 long guns up to 48.5" long. The Q5320 has an electronic lock with an emergency manual key over ride. The Q5320 gun safe has an additional lock box inside for storage of ammunition or valuables that is key operated only. The internal dimensions for the lock box are 24" (W) x 10.5" (D) x 9" (T)

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The model Q4320 gun safe is capable of storing 10 long guns up to 48.5" long. The Q4320 has an electronic lock with an emergency manual key over ride. The Q4320 gun safe has an additional lock box inside for storage of ammunition or valuables that is key operated only. The internal dimensions for the lock box are 19" (W) x 9" (D) x 9" (T).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Fire resistant; Electronic lock safe designed to store up to 24 rifles/shotguns. Lesser amounts of guns may be stored in combination with four (4) adjustable shelves. Rifles/shotguns may be up to 56" in length.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Fire resistant; Electronic lock safe designed to store up to 16 rifles/shotguns. Rifles/shotguns may be up to 56" in length. Handguns and accessories may be stored on a removeable 7.09" x 20.375" shelf.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading shotgun/rifles, bolt action rifles, pump action shotguns, double and single action revolvers, autoloading pistols, single shot rifles, single shot shotguns and single shot pistols with openings and/or receivers large enough to accept a 0.22 inch diameter cable.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading shotgun/rifles, bolt action rifles, pump action shotguns, double and single action revolvers, autoloading pistols, single shot rifles, single shot shotguns and single shot pistols with openings and/or receivers large enough to accept a 0.24 inch diameter cable.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading shotgun/rifles, bolt action rifles, pump action shotguns, double and single action revolvers, autoloading pistols, single shot rifles, single shot shotguns and single shot pistols with openings and/or receivers large enough to accept a 0.30 inch diameter cable.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm that is no longer than the interior dimensions of this safe (7 7/16" x 15 1/2" x 47 7/8") can safely be used in the safe.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm that is no longer than the interior dimensions of this safe (7 1/2" x 12" x 5 3/4") can be used in this safe.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

All Firearms that are no more than 11 inches in length x 6.8 inches in width x 3 inches in height.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading shotgun/rifles, bolt action rifles, pump action shotguns, double and single action revolvers, autoloading pistols, single shot rifles, single shot shotguns and single shot pistols with openings and/or receivers large enough to accept a 0.23 inch diameter cable.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Fire rated 3-8 number programmable electronic lock safe capable of storing handguns and accessories. Internal dimensions of the unit are 12.9" width, 9.5" depth, and 12.1" height. Unit includes one (1) adjustable shelf.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Fire rated four (4) digit combination lock safe capable of storing handguns and accessories. Internal dimensions of the unit are 12.9" width, 9.5" depth, and 12.1" height. Unit includes one (1) adjustable shelf.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Fire rated 3-8 number programmable electronic lock safe capable of storing handguns and accessories. Internal dimensions of the unit are 12.9" width, 9.5" depth, and 17.0" height. Unit includes two (2) adjustable shelves.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Fire rated 4 (four) digit combination lock safe capable of storing handguns and accessories. Internal dimensions of the unit are 12.9" width, 9.5" depth, and 17.0" height. Unit includes two (2) adjustable shelves.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Fire resistant, electronic lock safe designed to store up to 60 rifles/shotguns. Lesser amounts of guns can be stored in combination with (8) adjustable shelves. Rifle/shotguns may be up to 56" long.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Fire resistant combination lock designed to store up to 60 rifles/shotguns. Lesser amounts of guns can be stored in combination with 8 adjustable shelves. Rifles/shotguns may be up to 56" in length.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm up to 59" in length that can physically fit inside the cabinet.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The CA5 can accommodate 5 rifles or shotguns up to 51” in overall length. There is also a shelf for storage which will accommodate handguns that do not exceed 10” in overall length.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The CA8 can accommodate 8 rifles or shotguns up to 52” in overall length. There is also a shelf for storage which will accommodate any handgun(s) model.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The CA12 can accommodate 12 rifles or shotguns up to 52” in overall length. There is also room to accommodate several pistols, revolvers, or handguns.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Personal drawer safe with an electronic lock and a key back up. Entire lid of safe springs open when code is activated. Capable of storing handguns and accessories or valuables. External dimensions are 10 1/4" w X 16 1/2" d X 3 1/2" h. Interior space is 9 5/8" w X 12 3/4" d X 3" h.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Personal safe with an electronic lock and a spring activated access door. Safe is attached to a mounting plate and can be removed for transport. Safe is capable of storing handguns and accessories and the lock has a key for backup. External dimensions are 9 7/8" w X 13" d X 4 1/4".

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Personal safe with an electronic lock and a spring activated access door. Safe is capable of storing handguns and accessories and includes one fixed removable shelf. Electronic lock has a key backup. External dimensions are 9 7/8" w X 13" d X 9 13/16".

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Safe will accommodate a plurality of rifles, shotguns, and handguns of various size and caliber with a maximum overall length of 54 inches.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Safe will accommodate a plurality of rifles, shotguns, and handguns of various size and caliber with a maximum overall length of 58 inches.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Safe will accommodate a plurality of handguns of various size and caliber such as the firearm will fit within the internal space dimensions of 17 1/4" x 14 1/4" x 9 3/4".

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Winchester eVault eV1200 Personal Electric Safe has an: LCD display, tamper detect system, removable shelf, interior light, spring loaded quick access, battery and/or DC power cord, 16 gague steel construction, and is 8”H x 10”W x 13”D.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading rifles/shotguns, bolt action rifles, pump action shotguns, double action revolvers, single action revolvers, auto loading pistols, single shot rifles, single shot shotguns, single shot pistols with barrels/chambers and/or openings large enough to accept a 0.22 inch diameter cable.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm up to 59" in length that can physically fit inside the cabinet.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm up to 55" in length that can physically fit inside the cabinet.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm up to 55" in length that can physically fit inside the cabinet.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm up to 59" in length that can physically fit inside the cabinet.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm up to 59" in length that can physically fit inside the cabinet.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm up to 55" in length that can physically fit inside the cabinet.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Cabinet is capable of storing 14 rifles/shotguns up to 54" in length as well as handguns and accessories on a fixed shelf which has space available of 20.7" wide x 5.7" deep x 9" high.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm up to 59" in length that can physically fit inside the cabinet

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm up to 53" in length that can physically fit inside the cabinet

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Regal Industrial Sales Model 2007 Trigger Lock is designed to fit shotguns (non lever action) and rifles (non lever action) with trigger guards up to 2 1/2" long and up to 1 1/2" wide (the outside width of the receiver).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Fire rated safe with a 3-8 number programmable electronic lock capable of storing handguns, accessories and personal/business items on two (2) adjustable shelves. Internal dimensions are 12.9”w x 9.5”d x 17” h.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Fire rated safe with a 3-8 number programmable electronic lock capable of storing handguns, accessories and personal/business items on one (1) adjustable shelves. Internal dimensions are 12.9”w x 9.5”d x 12.1” h.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

A green fire resistant electronic lock safe designed to store up to 45 rifles/shotguns. Lesser amounts of guns may be stored in combination with eight (8) adjustable shelves. Rifles/shotguns may be up to 56" in length.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

A black gun safe capable of storing 16 rifles and shotguns. Rifles and shotguns may be up to 53.7” in length. Handguns and accessories may be stored on a removable shelf.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Fire rated four () digit combination lock safe capable of storing handguns and accessories. Internal dimensions of the unit are 12.9" width x 9.5" depth x 17" height. Unit includes two (2) adjustable shelves.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Fire resistant/electronic lock safe designed to store up to 24 rifles/shotguns. Lesser amounts of guns may be stored in combination with four (4) adjustable shelves. Rifles/shotguns may be up to 56" in length.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Cabinet is capable of storing 14 rifles/shotguns up to 54" in length as well as handguns and accessories on fixed shelf 20.7" x 5.7" x 9" high.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Gun safe capable of storing 10 rifles/shotguns which may be up to 53.75" in length. Handguns and accessories may be stored on a removeable shelf that has an available space of 20.75"W x 6.50"D x 6.50"H.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading shotgun/rifles, bolt action rifles, pump action shotguns, double and single action revolvers, autoloading pistols, single shot rifles, single shot shotguns, and single shot pistols with openings and/or receivers large enough to accept 0.22 inch diameter cable.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading shotgun/rifles, bolt action rifles, pump action shotguns, double and single action revolvers, autoloading pistols, single shot rifles, single shot shotguns, and single shot pistols with openings and/or receivers large enough to accept 0.22 inch diameter cable.

A black gun safe with a combination lock capable of storing 16 rifles/shotguns. Long guns may be up to 54" in length. Handguns and accessories may be stored on a removable shelf.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Gun safe with a combination lock capable of storing 16 rifles/shotguns. Long guns may be up to 54" in length. Handguns and accessories may be stored on a removable shelf.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Gun safe with a combination lock capable of storing 16 rifles/shotguns. Long guns may be up to 57" in length. Handguns and accessories may be stored on a removable shelf that has an available space of 20 ¾" W x 7" D x 10" H.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Gun safe with a combination lock capable of storing 10 rifles/shotguns. Long guns may be up to 54" in length. Handguns and accessories may be stored on a removable shelf that has an available space of 20 3/4" W x 6 1/2" D x 6 1/2" H.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Gun safe with an electronic lock capable of storing 10 rifles/shotguns. Long guns may be up to 54" in length. Handguns and accessories may be stored on a removable shelf that has an available space of 20 3/4" W x 6 1/2" D x 6 1/2" H.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

**Fire rated safe with a combination lock, designed to store handguns, accessories and personal/business items with three (3) shelves.
Safe dimensions are: 20 7/8" w x 19 3/4" d x 40" h.**

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

A fire rated safe with a combination lock designed to store handguns and personal/business items with up to four (4) shelves. Unit dimensions are: 20 7/8" w x 19 3/4" d x 59" h.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

**A fire rated safe with an electric lock, designed to store handguns, accessories, and personal/business items with three (3) shelves.
Safe dimensions are: 20 7/8"W x 19 3/4"D x 40"H**

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

A fire rated safe with an electronic lock designed to store handguns and personal/business items with up to four (4) shelves. Unit dimensions are: 20 7/8" w x 19 3/4" d x 59" h.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Fire resistant combination lock safe designed to store up to 16 rifles/shotguns. Rifles/shotguns may be up to 56" in length. Handguns and accessories may be stored on a removeable 7" x 20 3/8" shelf.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Fire resistant combination safe designed for storage of either (24) rifles/shotguns up to 56" in length or (16) rifles/shotguns in combination with (4) 7 1/4" (w) x 15 3/4" (d) adjustable/removeable shelves for handguns and/ or accessories.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

A brown fire resistant combination lock safe designed to store up to 36 rifles/shotguns. Lesser amounts of guns may be stored in combination with six (6) adjustable shelves. Rifles/shotguns may be up to 56" in length.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Fire resistant electronic lock safe designed for storage of (16) rifles,/shotguns up to 56" in length. Handguns and accessories may be stored on a removeable 7" x 20 3/8" shelf.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Fire resistant combination lock safe designed for storage of either (24) rifles/shotguns up to 56" in length or (16) rifles/shotguns in combination with (4) 7 1/4 (w) x 15 3/4 (d) adjustable/removeable shelves for handguns and/or accessories.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

A green fire resistant electronic lock safe designed to store up to 24 rifles/shotguns. Lesser amounts of guns may be stored in combination with four (4) adjustable shelves. Rifles/shotguns may be up to 56" in length.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Fire resistant electronic lock safe designed to store up to 36 rifles/shotguns. Lesser amounts of guns can be stored in combination with 8 adjustable shelves. Rifles/shotguns may be up to 56" in length.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

A green fire resistant electronic lock safe designed to store up to 36 rifles/shotguns. Lesser amounts of guns may be stored in combination with six (6) adjustable shelves. Rifles/shotguns may be up to 56" in length.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

A green fire resistant electronic lock safe designed to store up to 45 rifles/shotguns. Lesser amounts of guns may be stored in combination with eight (8) adjustable shelves. Rifles/shotguns may be up to 56" in length.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Fire resistant safe with a combination lock, waterproof to a depth of 24” and capable of storing up to 28 rifles/shotguns. Lesser amounts of guns may be stored in combination with up to six (6) adjustable shelves. Rifles/shotguns may be up to 56” in length.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Fire resistant safe with a combination lock. Verified by an independent lab to be fire resistant to 1400 deg F for 40 minutes. Also verified to be water resistant when subjected to 24 inches of water for 72 hours. Capable of storing up to 36 rifles/shotguns. A lesser number of guns may be stored in combination with the (6) adjustable shelves.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Fire resistant safe with an electronic lock. Verified by an independent lab to be fire resistant to 1400 deg F for 40 minutes. Also verified to be water resistant when subjected to 24 inches of water for 72 hours. Capable of storing up to 28 rifles/shotguns. A lesser number of guns may be stored in combination with the (6) adjustable shelves.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Fire resistant safe with an electronic lock, waterproof to a depth of 24” and capable of containing up to 36 rifles/shotguns. Lesser amount of guns can be stored in combination with up to (8) adjustable shelves. Rifles/shotguns may be up to 56” in length.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Fire rated protection up to 1400 degrees F for 40 minutes and waterproof protection up to 24” for 72 hours. Safe features a UL rated group 2 combination lock, 7 live bolts and 3 dead bolts for security and a high gloss finish. Safe holds up to 28 rifles/shotguns or 14 long guns with 6 shelves of storage.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Fire rated protection up to 1400 degrees F for 40 minutes and waterproof protection up to 24” for 72 hours. Safe features a UL rated group 2 combination lock, 7 live bolts and 3 dead bolts for security and a high gloss finish. Safe holds up to 36 rifles/shotguns or 18 long guns with 6 shelves of storage.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Fire rated protection up to 1400 degrees F for 40 minutes and waterproof protection up to 24” for 72 hours. Safe features a UL rated type 1 electronic lock, 7 live bolts and 3 dead bolts for security and a high gloss finish. Safe holds up to 28 rifles/shotguns or 14 long guns with 6 shelves of storage.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Fire rated protection up to 1400 degrees F for 40 minutes and waterproof protection up to 24” for 72 hours. Safe features a UL rated type 1 electronic lock, 7 live bolts and 3 dead bolts for security and a high gloss finish. Safe holds up to 36 rifles/shotguns or 14 long guns with 6 shelves of storage.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Fire resistant electronic lock safe designed for storage of either (24) rifles/shotguns up to 56" in length or (16) long guns in combination with (4) 7 ¼" W x 15 ¾" D adjustable/removable shelves for handguns and/or accessories.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Capable of storing either 19 rifles/shotguns or 12 long guns and 4 adjustable shelves. Rifles/shotgun length may be up to 57" in length. Handguns and accessories have an available space of 10" W x 14" D.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Fire resistant safe with an electronic lock. Verified by an independent lab to be fire resistant to 1400 deg F for 40 minutes. Also verified to be water resistant when subjected to 24 inches of water for 72 hours. Capable of storing up to 24 rifles/shotguns. A lesser number of guns may be stored in combination with the (4) adjustable shelves.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Winchester gun safe with burglary resistance, combination lock and large capacity interiors. Steel plate door inch and 1 way bolt work are standard. Lock is protected by a hard plate and tamper re-lock device. Durable powder coat finish with silk screen graphics. Industry leading Warranty and Extended Warranty offering.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Winchester gun safe with fire resistance of 45 min @ 1200 degrees, electronic lock and large capacity interiors. Insulated 1/4" plate steel door and 3 way bolt work are standard. Lock is protected by a hard plate and tamper re-lock device. Durable powder coat finish with silk screen graphics. Industry leading Warranty and Extended Warranty offering.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Winchester gun safe with fire resistance of 1 hour @ 1200 degrees, electronic lock and large capacity interiors. 1 1/2 inch insulated door and 3 way bolt work are standard. Lock is protected by a hard plate and tamper re-lock device. Durable powder coat finish with silk screen graphics. Industry leading Warranty and Extended Warranty offering.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Winchester gun safe with fire resistance of 1 1/2 hours @ 1200 degrees, electronic lock and large capacity interiors. 1 1/2 inch insulated door and 4 way bolt work are standard. Lock is protected by a hard plate and tamper re-lock device. Durable powder coat finish with silk screen graphics. Industry leading Warranty and Extended Warranty offering.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

This device will properly function on any firearm provided there is a minimum opening of 0.30 inches to accept the cable and the device can be properly installed

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Safe will accommodate a plurality of rifles, shotguns, and handguns of various size and caliber with a maximum overall length of 58 inches.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading shotguns/rifles, bolt action rifles, pump action shotguns, double and single action revolvers, autoloading pistols, single shot rifles, single shot shotguns and single shot pistols with openings and/or receivers large enough to accept 0.30 inch diameter cable.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading shotguns/rifles, bolt action rifles, pump action shotguns, double and single action revolvers, autoloading pistols, single shot rifles, single shot shotguns and single shot pistols with openings and/or receivers large enough to accept 0.24 inch diameter cable.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Regal Industrial Sales Model RTL464 Lever Action Trigger Lock is designed to fit in Mossberg 464 .22 caliber lever action rifle exclusively.

-- including, but not limited to

Mossberg

464 Lever Action Rifle

All

All

Rifle

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Safe will accommodate a plurality of rifles, shotguns & handguns of various size and caliber with an overall length of 58"

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Fire resistant safe with a combination lock, waterproof to a depth of 24” and capable of storing up to 24 rifles/shotguns. Lesser amounts of guns may be stored in combination with up four (4) adjustable shelves. Rifles/shotguns may be up to 51” in length.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Cabinet is capable of storing 14 rifles/shotguns up to 54" in length as well as handguns and accessories on fixed shelf 20.7" wide x 5.7" deep x 9" high. The GCB-14F utilizes foam barrel rests.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Safe will accommodate a plurality of rifles, shotguns & handguns of various size and caliber with an overall length of 58"

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Safe will accommodate a plurality of rifles, shotguns & handguns of various size and caliber with an overall length of 58"

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Can be used for any firearm that is no larger than 12 inches in length.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

All firearms that are no more than 11 inches in length x 6.8 inches in width x 3 inches in height.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Winchester gun safe with fire resistance of 30 minute @ 1400 degrees, electronic lock and large capacity interior. Insulated door and 1 way bolt work are standard. Lock is protected by a hard plate and tamper re-lock device. Durable powder coat finish with silk screen graphics. Industry leading Warranty and Extended Warranty offering.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading rifles and/or shotguns, bolt action rifles, pump action shotguns, single shot rifles or shotguns, revolvers, autoloading pistols that can accept a padlock shackel with a 0.330 diameter through the action holes, revolver cylinder, bolt hole or barrel preventing the loading and/or firing of the firearm.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading rifles and/or shotguns, bolt action rifles, pump action shotguns, single shot rifles or shotguns, revolvers, autoloading pistols that can accept a padlock shackle with a 0.330 diameter through the action holes, revolver cylinder, bolt hole, frame or barrel preventing the loading and/or firing of the firearm.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading rifles and/or shotguns, bolt action rifles, pump action shotguns, single shot rifles or shotguns, revolvers, autoloading pistols that can accept a padlock shackle with a 0.330 diameter through the action holes, revolver cylinder, bolt hole, frame or barrel preventing the loading and/or firing of the firearm.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading rifles and/or shotguns, bolt action rifles, pump action shotguns, single shot rifles or shotguns, revolvers, autoloading pistols that can accept a padlock shackle with a 0.330 diameter through the action holes, revolver cylinder, bolt hole, frame or barrel preventing the loading and/or firing of the firearm.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading rifles and/or shotguns, bolt action rifles, pump action shotguns, single shot rifles or shotguns, revolvers, autoloading pistols that can accept a padlock shackle with a 0.330 diameter through the action holes, revolver cylinder, bolt hole, frame or barrel preventing the loading and/or firing of the firearm.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading rifles and/or shotguns, bolt action rifles, pump action shotguns, single shot rifles or shotguns, revolvers, autoloading pistols that can accept a padlock shackle with a 0.330 diameter through the action holes, revolver cylinder, bolt hole, frame or barrel preventing the loading and/or firing of the firearm.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading rifles and/or shotguns, bolt action rifles, pump action shotguns, single shot rifles or shotguns, revolvers, autoloading pistols that can accept a padlock shackle with a 0.330 diameter through the action holes, revolver cylinder, bolt hole, frame or barrel preventing the loading and/or firing of the firearm.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading rifles and/or shotguns, bolt action rifles, pump action shotguns, single shot rifles or shotguns, revolvers, autoloading pistols that can accept a padlock shackle with a 0.330 diameter through the action holes, revolver cylinder, bolt hole, frame or barrel preventing the loading and/or firing of the firearm.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any auto-loading rifle or shotgun, bolt action rifle, pump action shotgun, single shot rifle or shotgun and revolver, that will allow the attachment of the padlock shackle through the action ports, action holes and/or revolver cylinder, bolt guides, trigger guards, lever action guards to prevent the loading and/or engagement of the firearm action.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Capable of storing up to 18 rifles or shotguns up to 54" tall. It also can be converted to hold 9 guns with adjustable shelving or all shelving. Even with all the shelving in place there is still room to store 3 long guns in the front of the cabinet.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

All handguns, shotguns, rifles, less than lethal devices, etc.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

All handguns, shotguns, rifles, less than lethal devices, etc.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

All handguns, shotguns, rifles, less than lethal devices, etc.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

All handguns, shotguns, rifles, less than lethal devices, etc.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

All handguns, shotguns, rifles, less than lethal devices, etc.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

All handguns, shotguns, rifles, less than lethal devices, etc.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

This in-wall pistol cabinet provides storage for valuables and pistols in a compact space. Large steel cam is secured behind the steel door frame for great security. Includes a removable shelf. The bottom of the cabinet and the shelf have foam padding to protect valuables.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

This mid-size in-wall cabinet holds documents, valuables and pistols. Includes 2 removable steel shelves. The steel door has a 3 point locking system that secures the door at the top and bottom as well as the opening side of the door. The bottom of the cabinet and the shelves have foam padding to protect your valuables.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

This full-length in-wall cabinet can hold 2 rifles or shot guns up to 52" tall. Includes a removable steel shelf. The steel door has a 3 point locking system that secures the door at the top and bottom as well as the opening side of the door. The bottom of the cabinet and shelf have foam padding to protect valuables.

620**Ruger****PM-151/R501.5 Padlock****Other/External**

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

New model Bearcat revolvers; SP 101 (.22 only)

621**Ruger****PM-153/R503.5 Padlock****Other/External**

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Model 96 rifles; 10/22 rifles

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any auto loading rifle or shotgun, bolt action rifle, pump action shotgun, double or single action revolvers, autoloading pistols, single shot rifles, single shot shotguns and single shot pistols that will allow .300 diameter cable through the action ports or openings to prevent the loading and/or engagement of the firearm action.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

SR9, P345, P95, P944, P90 pistols.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Mark II pistols; 22/45 Mark II pistols; New Model Single-Six Revolvers; Redhawk Revolvers; Super Redhawk Revolvers;

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Mark III pistols; 22/45 Mark III pistols

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

New Model Super Blackhawk Revolvers (except .30 Carbine); New Model Blackhawk Revolvers (except Convertible models); new Vaquero revolvers; GP100 revolvers; SP101 (.38 and .357only); M77 Hawkeye rifles; M77 Mark II rifles; Red Label shotguns; Side by Side shotguns; 77/17, 77/22 and 77/44 rifles

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

New Model Super Blackhawk Revolvers (.30 Carbine only); SP101 (.32 and .327 fed.only)

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Mini-14 rifles; Mini Thirty rifles

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

No. 1 Rifles

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Capable of storing up to 12 rifles or shotguns up to 48" tall. Steel tray assembly holds 6 guns on each side. Retainer cord keeps guns from shifting when door is opened and closed. Large top tray provides additional storage for ammo, cleaning supplies and pistols.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

All firearms that are no more than 10 1/2" in length and 6" in width x 2" in height

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

All firearms that are no more than 10 1/2" in length and 6" in width x 2" in height.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Regal Industrial Sales RTL06 Trigger Lock is designed for exclusive use on Remington rifles and shotguns. Models 1100, 11-87, 870, 552, 572, 7400, 7600 and others. See "Search by Firearms Safety Device Model" for complete listing.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Capable of storing 36 rifles or shotguns or 18 guns plus storage or just shelves for storage. Solid steel, reinforced pry resistant door provides great security.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm that can physically fit within the cabinet internal dimensions of 6.4" H x 11.25" W x 8.3" D.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm that can physically fit within the cabinet internal dimensions of 8.5" H x 13.6" W x 8.6" D

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

This cabinet holds 8 rifles or shotguns up to 52" tall. Standard 3-points locking system with double bitted key coded lock provides added security. Steel top shelf provides additional storage or is removable. Unit is easy to assemble with integrated, form fit parts.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Steel pistol/ammo cabinet. Perfect for holding pistols, ammo, supplies and valuables. Lock mechanism passes through steel door and is secured behind the steel door frame for added security. Units are fully lockable with key coded, double bitted lock.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

This cabinet holds 8 rifles or 8 shotguns up to 54" tall. Top shelf provides additional storage or is removable. Shelf is positioned in the front of the cabinet so longer gun can be stored along the back wall of the unit.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

This cabinet holds 10 rifles or shotguns up to 52" tall. Steel top shelf provides additional storage or is removable. Shelf is positioned in the back of the cabinet so longer guns can be stored in the front of cabinet.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

This cabinet holds 14 rifles or shotguns up to 54" tall. Removable top shelf provides ample storage area for handguns, cameras and other valuables. Shelf is positioned in the front of the cabinet so longer guns can be stored along the back wall of the unit.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

10 guns, double door steel security cabinet with separately keyed valuables cabinet. Holds 10 rifles or shotguns up to 54" tall in gun cabinet section. Valuables cabinet section has 4 large foam padded removable steel shelves are perfect for storing ammo and handguns.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

28 gun convertible, ETL rated fire resistant and waterproof. Holds 28 guns or 14 guns plus storage or just storage. 5 large live action steel locking bolts and 3 solid steel dead bolts, on the hinge side of the door, provide 8 locking points for greater security.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

All steel construction with staked full length hinge. Foam lining on the bottom. Locking mechanism passes through the steel door and is secured behind the steel door frame for added security. Removable steel shelf provides more storage possibilities.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

All steel construction with full length staked hinge. Foam lining on the bottom. Locking mechanism passes through the steel door and is secured behind the steel door frame for added security. Removable steel shelf provides more storage possibilities.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

All steel construction with full length staked hinge. Foam lining on the bottom. Locking mechanism passes through the steel door and is secured behind the steel door frame for added security. Removable steel shelf provides more storage possibilities.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Holds 14 rifles or shotguns up to 54" tall. Removable top shelf provides ample storage area for handguns, cameras and other valuables. Shelf is positioned in the front of the cabinet so longer guns can be stored along the back wall of the cabinet.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Steel pistol/ammo cabinet. Perfect for holding pistols, ammo supplies and valuables. Locking mechanism passes through steel door and is secured behind the steel door frame for added security. Units are fully lockable with key coded, double bitted lock.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Holds 36 guns or 18 guns plus storage or just storage. 7 large, live action steel locking bolts and 3 solid steel dead bolts, on the hinge side of the door, providing 10 locking points for greater security. Includes 5 spoke all metal handle. Solid steel reinforced pry resistant door provides greater security.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm that can physically be placed within the cabinet (interior dimensions 20.3" W x 12.5" D x 58.7" H)

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm that can physically be placed within the cabinet (interior dimensions 20.6" W x 16.2" D x 56.7" H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm that can physically be placed within the cabinet (interior dimensions 20.6" W x 16.2" D x 56.7" H)

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Fits Browning HP 9mm CZ .40 caliber; Beretta 92 FS; Beretta Tomcat 32 caliber; Ruger 357 GP100; Ruger Red Hawk 454; Ruger P94 40 caliber; Ruger P95; Ruger Vaquero (revolver, single action); Ruger Super Hawk 44 Magnum; Ruger KP90; Ruger KP 89 9mm; Smith & Wesson 357 (revolver, double action); Smith & Wesson 40 caliber chief special; Smith & Wesson 40 caliber model 4006; Smith & Wesson 44 caliber model 29; Taurus PT 143 45 caliber; Taurus 44 caliber; AR 15.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Redhead gun safe with fire resistance of 60 minutes@ 1200 degrees, electronic lock and large capacity interior. Insulated door with heat expandable fire seal with 4 way active bolt work mechanism. The lock is protected by a hard plate and tamper re-lock device. Durable powder coat paint finish with silk screen graphics. Industry leading Warranty and Extended Warranty offering.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Redhead gun safe with fire resistance of 60 minutes@ 1200 degrees, electronic lock and large capacity interior. Insulated door with heat expandable fire seal with 4 way active bolt work mechanism. The lock is protected by a hard plate and tamper re-lock device. Durable powder coat paint finish with silk screen graphics. Industry leading Warranty and Extended Warranty offering.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Redhead gun safe with fire resistance of 60 minutes@ 1200 degrees, electronic lock and large capacity interior. Insulated door with heat expandable fire seal with 4 way active bolt work mechanism. The lock is protected by a hard plate and tamper re-lock device. Durable powder coat paint finish with silk screen graphics. Industry leading Warranty and Extended Warranty offering.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Winchester gun safe with fire resistance of 45 minutes@ 1200 degrees, electronic lock and large capacity interior. Insulated door with heat expandable fire seal with 3 way active bolt work mechanism. The lock is protected by a hard plate. Durable powder coat paint finish with silk screen graphics. Industry leading Warranty and Extended Warranty offering.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Winchester gun safe with fire resistance of 30 minutes@ 1200 degrees, electronic lock and large capacity interior. Insulated door with heat expandable fire seal with one way active bolt work mechanism. The lock is protected by a hard plate and tamper re-lock device. Durable powder coat paint finish with silk screen graphics. Industry leading Warranty and Extended Warranty offering.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Winchester gun safe with fire resistance of 30 minutes@ 1200 degrees, electronic lock and large capacity interior. Insulated door with heat expandable fire seal with one way active bolt work mechanism. The lock is protected by a hard plate and tamper re-lock device. Durable powder coat paint finish with silk screen graphics. Industry leading Warranty and Extended Warranty offering.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Insulated door with heat expandable fire seal with one way active bolt work mechanism. The lock is protected by a hard plate and tamper re-lock device. Durable powder coat paint finish with silk screen graphics. Industry leading Warranty and Extended Warranty offering.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Lock Box/Pistol Safe with electronic lock and durable powder coat finish. Industry leading Warranty.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Capable of storing 36 rifles or shotguns or 18 guns plus storage or just shelves for storage. Solid steel, reinforced pry resistant door provides great security.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Capable of storing 24 rifles or shotguns or converted to hold 16 guns with adjusting shelving or just shelves for storage. Solid steel, reinforced pry resistant door provides great security.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Winchester shotgun - 12 ga, speed pump defender & field models; Remington shotgun - 12 ga., 870 model; Mossberg shotgun - 12 ga, model 500, 535, 835

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm that can fit within the interior dimensions of the safe (17.5" W x 11.85" D x 52" H)

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

12 gun fire resistant safe, matte finish with chrome accents. Unit is 55" tall with 3 live action bolts and 2 dead bolts. Fully convertible.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

14 gun fire resistant and waterproof safe with gloss finish in green with brass accents. 3 number combination lock. 3 spoke handle. No rubber grips. Includes 5 live action bolts and 3 dead bolts. Unit is 59" tall. Fully convertible.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

14 gun fire resistant and waterproof safe with gloss finish in black with chrome accents. 3 spoke handle. No rubber grips. Includes 5 live bolts and 3 dead bolts. Unit is 59" tall. Electronic lock. Fully convertible.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

22 gun fire resistant and waterproof safe with gloss finish in black with chrome accents. Electronic lock. 3 spoke handle. No rubber grips. 5 live action bolts and 3 dead bolts are included. Unit is 59" tall. Fully convertible.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

22 gun fire resistant and waterproof safe with gloss finish in green with brass accents. 3 number combination lock. 3 spoke handle. No rubber grips. Includes 5 live action bolts and 3 dead bolts. Unit is 59" tall. Fully convertible.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

32 gun fire resistant and waterproof safe with gloss finish in green with brass accents. 3 number combination lock. 3 spoke handle. No rubber grips. Includes 5 live action bolts and 3 dead bolts. Unit is 59" tall. Fully convertible.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

32 gun fire resistant and waterproof safe with gloss finish in black with chrome accents. Electronic lock. 3 spoke handle. No rubber grips. Includes 5 live action bolts and 3 dead bolts. Unit is 59" tall. Fully convertible.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Regal Industrial Sales model 40mm-1mm/MFC-30 is designed to fit Break Barrel Rifles and Shotguns with receivers less than 1.250" in width and 1.250" in height.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm that can fit within the interior dimensions of the safe (25.87" W x 16.61" D x 56.61" H)

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm that can fit within the interior dimensions of the safe (25.87" W x 16.61" D x 56.61" H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm that can fit within the interior dimensions of the safe (20.31" W x 16.18" D x 56.61" H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm that can fit within the interior dimensions of the safe (20.31" W x 16.18" D x 56.61" H).

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Pistols and revolvers, calibers 0.22 to 0.50, barrel lengths up to 5.5". Fits any size trigger guard.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Strong box with an electronic lock/back up key system. 2 live action locking bolts and 2 steel deadbolts provide 4 lock points directly to the body of the safe. The units are insulated with a proprietary mixture of cement and vermiculite.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Strong box with an electronic lock/back up key system. 2 live action locking bolts and 2 steel deadbolts provide 4 lock points directly to the body of the safe. The units are insulated with a proprietary mixture of cement and vermiculite.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any pistols, revolvers and semi-auto with a barrel length of less than 14 inches

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Strong box with an electronic lock/back up key system. 2 live action locking bolts and 2 steel deadbolts provide 4 lock points directly to the body of the safe. The units are insulated with a proprietary mixture of cement and vermiculite.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Autoloading shotgun/rifles, bolt action rifles, pump action shotguns, double and single action revolvers, autoloading pistols, single shot rifles, single shot shotguns, and single shot pistols with openings and/or receivers large enough to accept 0.24 inch diameter cable.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm or combination of firearms that can be fully contained within an interior space measuring 56" high x 35" wide x 19" deep.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm or combination of firearms that can be fully contained within an interior space measuring 58" high x 20" wide x 12.5" deep.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm or combination of firearms that can be fully contained within an interior space measuring 53" high x 18" wide x 11" deep.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

14 gun fire resistant safe, black epoxy finish with chrome accents. Unit is 55" tall with 3 live action bolts and 2 dead bolts.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

8 gun fire resistant safe, black epoxy finish with chrome accents. Unit is 35" tall with 3 live action bolts and 2 dead bolts.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Regal Industrial Sales Model RTL10 trigger lock is designed to fit Remington VersaMax Shotgun exclusively

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

36 gun convertible safe, 55" tall, waterproof to 24"

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

22 gun convertible safe, 55" tall

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

22 gun convertible safe, 6 shelves

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm that can physically fit within a cabinet of the following dimensions: 58.43"H x 20.79"W x 12.17"D

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm that can physically fit within a cabinet of the following dimensions: 58.43"H x 20.79"W x 12.17"D

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm that can physically fit within a cabinet of the following dimensions: 56.69"H x 26.02"W x 16.81"D

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm that can physically fit within a cabinet of the following dimensions: 56.69"H x 26.02"W x 16.81"D

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm that can physically fit within a cabinet of the following dimensions: 56.89"H x 35.79"W x 19.29"D

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm that can physically fit within a cabinet of the following dimensions: 56.69"H x 26.02"W x 16.18"D

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm that can physically fit within a cabinet of the following dimensions: 54.96"H x 20.75"W x 12.52"D

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm that can physically fit within a cabinet of the following dimensions: 63.74"H x 20.75"W x 12.52"D

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

28 gun fire/water safe with combination lock

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

28 gun fire/water safe with electronic lock

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm that can physically fit within a cabinet of the following dimensions: 7.4"H x 11.3"W x 8.4"D

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Auto-loading rifles, bolt action rifles, semi-automatic shotguns, pump action shotguns, double and single action revolvers, auto-loading pistols, single shot rifles, single shot shotguns, with openings and/or chambers large enough to accept a .300 inch diameter cable.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm that can fit within an enclosure measuring 53.5"H x 18.1"W x 11.4"D

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Remington 40XB, 673, 700, 887, Seven, XP-100, XR-100

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm that can physically fit inside

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Auto loading shotgun/rifles, bolt action rifles, pump action shotguns, double and single action revolvers, auto loading pistols, single shot rifles, single shot shotguns, and single shot pistols with openings and/or receivers large enough to accept 0.300 inch diameter cable.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Auto loading shotgun/rifles, bolt action rifles, pump action shotguns, double and single action revolvers, auto loading pistols, single shot rifles, single shot shotguns, and single shot pistols with openings and/or receivers large enough to accept 0.22 inch diameter cable.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Auto loading shotgun/rifles, bolt action rifles, pump action shotguns, double and single action revolvers, auto loading pistols, single shot rifles, single shot shotguns, and single shot pistols with openings and/or receivers large enough to accept 0.22 inch diameter cable.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Fire rated safe with a combination lock designed to store handguns, accessories, personal/business items. Safe dimensions are 20 7/8" W x 19 3/4" D x 29" H

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

The manufacturer has yet to provide this information to the Department of Justice

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

As before, it will accommodate revolvers, pistols, and derringers whose dimensions do not exceed 10" long x 6 1/2" high x 2 1/4" wide.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Auto loading shotgun/rifles, bolt action rifles, pump action shotguns, double and single action revolvers, auto loading pistols, single shot rifles, single shot shotguns and single shot pistols with openings and/or receivers large enough to accept 0.22 inch diameter cable.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Auto loading shotgun/rifles, bolt action rifles, pump action shotguns, double and single action revolvers, auto loading pistols, single shot rifles, single shot shotguns and single shot pistols with openings and/or receivers large enough to accept 0.30 inch diameter cable.

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Any firearm that can physically fit within a cabinet of the following dimensions: 25.8"H x 19.4"W x 13.3" D

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

All .223/5.56 mm Nato M4/M16/AR15 style firearms

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Semi-auto, over and under, side by side and some pistol grip (mainly pump) shotguns which include a wide variety of makes, models and calibers. See <http://www.shotlock.com/Gallery.asp>

Compliance with this law can be met by utilizing this device with the firearms or types of firearms described below. The device manufacturer has indicated that this device will properly function with the following:

Personal drawer safe that is capable of storing handguns and accessories. External dimensions of the unit are 11.8" wide x 8.2" deep x 3.9" high.
