Standards of play:

Let It Ride Bonus (LIR) is a five-card poker game that utilizes a player-dealer position. As in other games featuring a player-dealer, the players play against another player who will collect all losings and pay all winnings to the extent that their wager covers.

The player-dealer will only “bank” the hand for two consecutive times before it is offered in a clockwise fashion around the gaming table.

All standard poker rankings will be used from the minimum winning hand of a pair of 10s to the best hand; a Royal Flush. All hands that are a pair of 9s and below are losing hands.

3. At the beginning of each round of play, each player shall be required to place three equal but separate wagers. The wagers shall be identified as Bet #1, Bet #2, and Bet #3. Bet 1 and Bet #2 may subsequently be withdrawn by the player as described in the *Round of Play*.
4. The player-dealer will collect all losing wagers and will pay all losing wagers to the extent of their wager. Once the player-dealer's wager is exhausted, all player wagers not covered by the player-dealer will be returned to the players.
5. Backline betting is not permitted on any wager. **(SEE OPTIONS SHEET)**

Dealing procedures:

1. Immediately prior to the commencement of play and after each round of play has been completed, the dealer shall shuffle the cards by use of a shuffle machine so that the cards are randomly intermixed. Upon completion of the shuffle, the device shall place the deck of cards in a single stack.
2. The dealer shall wait for each player to place three equal bets. The dealer will announce "No more bets."
3. The shuffler deals the cards in stacks of three. The dealer shall deliver the first stack of cards dealt by the shuffler to the player to the left of the player-dealer. As the remaining stacks are dealt by the shuffler, the dealer shall deliver a stack in-turn, to each of the other players, including the player-dealer, moving clockwise around the table. The dealer shall deliver each stack face down and shall place each stack behind the bets in the player's betting area. The stack dealt to the player-dealer shall be delivered as follows:
 - a. The stack shall be placed to the right of the area designated for placement of community cards.
 - b. The dealer will then slide the top card of the stack face down over to the left rectangle, then the next card face down over to the right rectangle.
 - c. The remaining third card (the bottom card of the stack) shall be placed into the discard rack, without it being exposed. The player-dealer's cards have become the community cards which will be available to all players.
4. After the stacks have been dealt and delivered to each player and the player-dealer, the dealer shall unload the remaining cards in the shuffler and place them into the discard rack without exposing the cards.

Round of Play

1. After the dealing procedures above have been completed, each player shall examine his or her cards.
2. Each player who places a wager shall be responsible for his or her own hand and no person other than the player or the dealer may touch the cards of that player. Each player shall be required to keep his/her three cards in full view of the dealer at all times.

Let It Ride

3. After each player has examined his/her cards, the dealer shall, beginning with the player to the dealer's left and moving clockwise around the table, ask each player if he or she wishes to withdraw Bet #1 or let it ride.
 - a. If a player chooses to let Bet #1 ride, that bet shall remain on the appropriate betting area of the layout until the end of the round of play.
 - b. If a player chooses to withdraw Bet #1, the dealer shall move the gaming chips on the betting area designated for Bet #1 toward the player who shall then immediately remove the gaming chips from the betting area.
4. After each player has made a decision regarding Bet #1, the dealer shall then turn over the community card in the left rectangle. The exposed card shall become the first community card.
5. After the first community card is exposed, the dealer shall, beginning with the player to the dealer's left and moving clockwise around the table, ask each player if he or she wishes to withdraw Bet #2 or let it ride. This decision shall be made by each player regardless of the decision made concerning Bet #1.
 - a. If a player chooses to let Bet #2 ride, that bet shall remain on the appropriate betting area of the layout until the end of the round of play.
 - b. If a player chooses to withdraw Bet #2, the dealer shall move the gaming chips on the betting area designated for Bet #2 toward the player who shall then immediately remove the gaming chips from the betting area.
 - c. Once a determination is made on Bet #2, each player places his/her three cards face down under the third bet.
6. The dealer shall then turn over the community card in the right rectangle. This card shall become the second community card.
7. The two community cards shall be used by each player in conjunction with his/her three cards to complete a five card hand.
8. After the second community card is turned face up, the dealer shall, beginning with the player to his/her right and continuing around the table in a counterclockwise direction, turn the three cards of each player face up.
9. The dealer shall then resolve each hand by examining each player's cards, in combination with the two community cards, to determine if the player's hand is a winning or losing hand.
10. Base game payouts are made to winning hands for each bet that was not withdrawn during play. In order to qualify for a base game payout, a player's hand must contain a pair of tens or better. All losing bets shall be collected by the player-dealer. Each winning bet shall be paid in accordance with the payout odds listed on the table layout and one of the attached payout tables. ****Cardrooms to select one table from the attached payable options.****
11. The player-dealer is never required to cover all opposing players' wagers. Payoffs of wagers are limited to the amount of the player-dealer wager. The house never participates as a player-dealer. Let It Ride

12. After all winning wagers are paid, the dealer shall immediately collect the cards of all winning players and the community cards and place them in the discard rack.
13. The player-dealer position shall be offered systematically and continuously in a clockwise manner around the table after every two hands. The player-dealer shall collect all losing wagers, pay all winning wagers, and may not win or lose more than the original amount wagered. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer shall be returned to the respective players.
