Action Button Options – Please check only one box.

☐ **No Action Button Utilized** – Both the deal and settling of wagers will start with the player to the left of the player-dealer and continue in a clockwise manner.

☐ **Action Button Utilized** - The game utilizes an action button to determine which player receives first action on their wager. The player-dealer's third card, which is dealt face-up, determines the position of the action button. The player-dealer position is not counted when determining where the action button shall be placed. The other seats, in clockwise rotation, starting with the player to the left of the house dealer and continuing left to right, respectively represent the numbers of the player-dealer's face down card. When determining where the action button will be placed, cards will hold the following values: Ace is one, 2 through 9 have their face value, jack is eleven, queen is twelve, and king is thirteen.
