

TEXAS HOLD'EM

In Texas Hold'Em each player receives two uninterrupted cards singly dealt face down as their initial hand. There is a round of betting after these cards have been delivered. Three board cards (called the Flop), are now turned simultaneously face up in the center of the table and another round of betting occurs. The next two board cards are turned face up in the center of the table, one at a time with another round of betting after each card. These board cards are community cards shared by all active players at the table. At the completion of each hand each active player will have 7 cards, two personal and five community cards that are turned face-up in the center of the table. A player may use any combination of five cards, (one in their hand, four from the board, etc.) to determine their best high hand.

Hold'Em uses a dealer button to indicate the player who in theory dealt the cards for that pot. The player with the dealer button is the last to receive cards on the initial deal and has the right of last action on all betting rounds except the first. One or more blind bets are used to start the action and initiate play. Blinds are posted by players who sit consecutive order from the button. Action is initiated on the first betting round by the player on the immediate left of the last blind. On all subsequent betting rounds the action is begun by the first active player clockwise from the button. All blinds are considered to be live and if there are no raises, blind may raise themselves when the action comes to them. When a single blind is used all action will start from the immediate left of the button.

TEXAS HOLD'EM RULES

1. Check and raise is permitted.
2. A bet and three raises are allowed for each betting round. There is no limit of raises with only two players remaining.
3. String raises are not allowed. To protect your right to raise, you should either declare your intention verbally or place the proper amount of chips into the pot.
4. Only a full bet constitutes a raise anything less than a full bet is considered to be action only and can not be raised unless raising a previous full bet. A player has the right to go all-in.
5. A player who puts a single chip into the pot that is larger than the bet to him is assumed to have called the bet, unless he announces "raise".
6. No pot may be awarded until all losing hands have been killed. The winning hand should remain face up until the pot is awarded.
7. A card found face up in the deck (boxed card), shall be treated as a "scrap of paper". A Joker that appears in a game that does not use a Joker is also a "scrap of paper". A card being treated as a scrap of paper is replaced by the next card below it in the deck, when possible. If not possible, it is replaced by the top card of the deck after completion of the round. If a player does not call attention to the Joker among his

down cards before acting on his hand, then he has a foul hand and forfeits all rights to the pot and all monies involved.

8. If a player's hole card is exposed due to a dealer error, he may not keep the exposed card. After completing the deal, the dealer will exchange the exposed card with the top card on the deck. The exposed card will be used as the first bum card after all action before the flop is completed. If two or more cards are exposed on the deal, it is a misdeal.
9. If a player is dealt more or less cards than the game he is playing in calls for, and it is discovered before two players act on their hands, it is a misdeal. If it is discovered after two players have acted, then all monies, antes and blinds are forfeited by that player.
8. If the flop has too many cards, it will be taken back and reshuffled, except the bum Card will remain burned. A new card will be burned before re-flop.
11. If cards are flopped by the dealer before all the betting is completed, the entire flop is reshuffled, except the bum card will remain burned. A new card will be burned before re-flop.
11. If the dealer turns up the fourth card on the board before the round of betting is Completed, the card is not in play. After the completion of the betting, the next card is burned and the ~~fifth~~ card is put in the fourth card's place. After betting completed, the dealer will reshuffle the deck, including the card that was taken out of play but not the bum card or discards. The dealer will then bum a card and put the fifth card on the board.
12. If the fifth card is turned up before betting is complete, it shall be reshuffled in the same manner as the previous rule.
13. Players must have a live hand to play the board.
14. Cards speak. Best hand shown down wins. The winning hand must show both cards face up on the table. One card up and the other face down is not a valid hand.
15. A new player will be dealt in immediately.
16. If a player leaves the table for any reason and a blind passes his position, he may Resume play by posting the total amount of the blinds for the game or wait for the big blind.
17. The dealer button always moves forward and the blinds are adjusted accordingly.

One short-buy is allowed after a full-buy.

Short-buys may be of any amount less than the listed full-buy.

LOWBALL

In Lowball, the "worst or lowest" Poker hand wins. Straight's and flushes do not count against the player. The best Lowball hand, therefore, is A-2-3-4-5 and 2-3-4-6-7 is better than a 2-3-5-6-7. Lowball is played with a 53 card deck. The Joker must be used as the lowest card not already present in the player's hand. Lowball games have two different types of betting structures.

11. Straight Limit: All bets and raises are of the same amount. Example bet (4) raise, (4) re-raise (4).
12. Spread Limit: All bets and raises are within the predetermined spread. Example: Limit (3-12) bet 3, raise 6, raise 6, re-raise 12 (maximum). On occasion, the predetermined maximum spread could be increased by a player killing the pot.

LOWBALL RULES

- a. Players must protect their hands at all times.
- b. Cards speak, best hand shown down wins the pot. Any player continually miscalling his or her hand will be cashed out.
- c. A player may draw up to five cards after the deal, except when in the position of the dealer button in which case a player may only draw three cards.
- d. In Low Draw, if a seven or better is checked after the draw and is the best hand, the player loses last action all bets after the draw are returned.
- e. Bi-lingual players must respect other players while hands are in play.
- f. Only a full bet constitutes a raise. Players have a right to go "all in". Any "all in" raise not equal to the proceeding bet is considered action only.
- g. A short bet or call must be completed, if a player acting in turn releases chips on the table with a forward motion, it constitutes a bet or call.
- h. Initial buy in must be for a specified amount of chips designated by the house, thereafter only one buy of a lesser amount (short buy) is allowed after each full buy.
- i. A hand is not considered dead if upon the floor persons discretion it is considered retrievable.

- j. No string bets.
- k. Do not criticize other players or use loud or vulgar language.
- l. If a pot is over killed the player that killed the pot acts second to last before the draw.
- m. If a pot is killed, and the player that killed the pot raises, the action goes back to the player that opened the pot and proceeds to other players in the order that they came into the pot.
- n. An exposed card must be "faceup", the ability to call the card does not qualify it as an exposed card.
- o. If the dealer exposes a card on the deal, a player must keep that card if the value is five or less and must surrender the card if it is a six or higher. A fouled card must be replaced by a card from the middle of the deck. In addition, if a player causes a card to be exposed, the player must keep that card.
- p. Each player must act in turn. Action on a hand out of turn is not binding. If any delay is encountered a player should call "time" to ensure his silence is not interpreted as a pass. If two subsequent players act due to a players silence, the hand is dead and may not be played.
- q. Do not expose any cards at any time except on show down.
- r. If a player shows cards to one, he must show them to all, if desired by other players.
- s. If a bet has been made and called, or check-check after the draw, any player may see any of the hands in play at the showdown.
- t. Five cards constitutes a playing hand more or less than five cards after the draw is a foul hand.
- u. Before the draw, the top card from the stub of the deck must be discarded (burned).
- v. On the draw a player may change the number or cards called for providing the next player has not acted.
- w. A verbal declaration in turn which causes another player to act, in turn, or money in the pot is binding. However, a player raising a bet should usually declare the raise. A call made behind the raise may be withdrawn if the raise was not clearly declared.
- x. Until the first action after the draw is taken the dealer must correctly state the number of cards drawn by the other players.
- y. A knock in turn usually constitutes a pass; but a knock of the table may also mean the declaration of a pat hand. A player

indicating a pat hand not knowing the pot has been raised may still play his hand, despite action taking place behind him.

- z. Upon floor persons approval, players may look at one or two cards then kill the pot. Dealer should stop dealing to allow players to look to see if they want to kill the pot. No kills will be allowed after subsequent cards are dealt.
- aa. A player who is "all in" must make a verbal declaration at that time or is subject to lose all rights to the pot.
- bb. Cards must be cut before each deal, a one handed straight cut if eight or more cards is a legal cut. Cards may not be cut after deal except on floor persons request.
- cc. If the deal is determined to be out of position and there has been no action, all hands are re-dealt. ~~If~~ the pot has been opened, play continues and the deal rotates from the position having the dealer button.
- dd. Two extra cards off the deck on the deal constitutes a misdeal. Also, if the first card dealt is turned over it is deemed a misdeal. In both instances, hands are re-dealt.
- ee. If one or more cards of the same suit or value, or cards of a different color appear in the deck, the deck is fouled and all hands are dead (no action).
- ff. If a deck is found to be irregular while pot is in play, it shall be declared "no pot" and all chips in the pot returned. However, once the pot is out of play, no adjustments can be made.
- gg. Cards face up in the deck (boxed cards) are dead and are dealt into the discards. A group of five boxed cards in the deck is a misdeal.
- hh. A player saying "deal me in" who has not returned to his seat after the dealer has dealt a hand past him cannot receive a hand. If a player is dealt a hand and has not returned to his seat in time to act in turn, will have a dead hand which will be put into the discards. If a player sitting at the table at the beginning if the deal is not dealt a hand, action is stopped and the hand is re dealt.
- ii. Before the draw, the first player to act is the player to the left of the big blind, after the draw, it is the player to the left of the dealer button.
- jj. In Lowball, checking and raising is not allowed.

- kk.** A player moving to a different game must have the specified "buy in" unless he is from a broken game. Game must be equal to or lower than the broken game to enter with a short buy.
- ll. Newly seated players will be dealt in immediately.
- mm. **A** player who leaves a game one full round, or does not complete the blind, must come back or the blind or straddle the blind. A player changing seats in a game must wait out the number of hands required to put him in the same relative position to the blind as the seat he vacated, or straddle the blind.

- vv. Players in a short game (4 handed or less) may not change seats unless a new player enters the game.
- ww. A player is allowed 30 minutes to eat or go for funds. When time is up, chips will be removed and seat forfeited. Players name will then be placed on a waiting list.
- xx.** If you leave a game and want your seat held for you, you must notify the floor person.

Descriptions of the event that determines the winner of the game

LOWBALL

Play ends when all betting is complete and the eligible players show their hands face up.
Best hand wins, cards speak for themselves.

9. The Play: Each player draws one card from the top of the deck or uses the option card. **If** the player takes the top card off the deck, he must use it immediately in a meld or discard it.
10. After drawing and before discarding, the player may meld as many sets or runs as he holds or may add to his existing melds.
11. Set: Three *cards* or more of the same **rank** but all of different suits, also would be considered a meld. Three or more cards of the same **rank**, all being the same suit, also would be considered a meld. The only exception would be three Aces or three Kings. Regardless of suit, they would also be considered a meld. Aces and Kings are commonly called non-comoquers.
12. Forcing Cards: If the option card can be added to a meld of the player to whom it is available, any other player may, if he desires to, require the player to take that **card**. The purpose in forcing this draw on the player is to compel him to make a discard, thereby possibly breaking up a prospective combination in the cards he holds.
13. A player may not give the out card to another player with ten (10) cards melded on the board if the card **can** be used in the first player's hand. Any player in action has the right to see the **first** hand and to force back the card if it **can** be used in any way.
14. A player may not be forced to take an out card unless that card would put the next player out for a greater amount of pay.
15. Any player in action may choose to end the hand for lower pay by forcing the out card.
16. Foul Hand: A foul hand is a hand successfully called foul by a player in action as a result of one or more violations of rules.
17. Irregularities: If, before the player has made his first draw, he finds he has nine cards, the dealer will deal the player an additional card. **If** the player has eleven cards, the dealer withdraws the excess card from the player's hand, putting it among the discarded hands of passing players. If the player has been dealt less than eight cards or more than eleven cards, the hand is dead and the player's passing ante will be returned.
18. If a player's hand is found incorrect after he has made his first draw, he must discard his hand, retire from that deal and return all collections he made for conditions. In addition he must continue to make due payments to others for their winnings.
19. Going Out: When a player shows eleven cards in melds, he collects two chips from every player. A player also collects for each valid condition.
20. When a player has all ten cards spread, the player at his left may not discard an option card, if he can possibly use it that puts the opponent to his right out.
21. Incorrect Meld: If a player lays down any spread not conforming to the rules, he must make it valid on demand. If he cannot do so, he must return any collections made for the improper spread and legally proceed with the turn. If he has already discarded, he must return all collections made on that hand, discard the hand, and retire from play until the next deal, but must continue to make payments to others for conditions and winnings. However, if the player makes the meld valid before attention is called to it there is no penalty.
22. Pays and Collections: All collections must be called for before discarding. A player who neglects to do so may not ask for the pay until his hand is hit again.
23. The same amount of pay must be collected from each player in action. A player may ask for short pay, but all players will pay the same amount.
24. A player penalized for a foul hand is required to repay all chips collected during the hand, but he does not have to repay any opponent who has gone broke **and/or** previously fouled **his hand**.
25. On the outs, a player having to collect and **then** cut off a collection must be specific in his statement or action. Simply stating "out on a good one" is not sufficient.
26. A player may **ask** the dealer for help in calculating the value of a collection or of the outs.
27. No pot may be awarded until all losing hands have been killed. The winning hand should remain face up until **the** pot is awarded.

28. Dealer Enforcement: **Pan** rules are usually enforced only at the specific request of a player in action. The House cannot always intervene on behalf of **an** injured player unless he **promptly** calls the problem to the dealer's attention. Players must protect their hands and enforce their rights according to the rules.
29. The dealer may not assist or advise players except to calculate the value of collections or of the outs when any active player **asks**. The outs must be read **as** the hand lies.
30. The dealer will enforce payment of all earned collections. The outs will be paid in front of each player's position (no splashing).
31. The dealer will foul a player's hand at the request of another player in action when justified by the rules.
32. General: The **minimum** buy-in is twenty (20) chips or equal value for the condition of the game.
33. Playing for Tops: A player without one chip of the appropriate value has a hand and may **continue playing** for the Tops.
34. A player who causes a game to break up by leaving the table or refusing to play will lose his place on the change board, and his name will be put at the bottom of the waiting list.
35. On the deal, foreign cards (8,9,10,Joker) appearing in a player's hand **will** be replaced from the center. On the draw, the foreign card will be removed and the player will draw again.
36. Each player is responsible for **counting** the cards before picking them up. If a player discovers he has the wrong number of cards after the player touched the deck to draw, **his** hand is foul and he must return all pay he has collected and pay all earned pay for the remainder of the hand.
37. The Floorperson's decision is **final** in all disputes and in the interpretation of all rules.

LUCKY BUCK CARD CLUB

1. The event that determines the winner of the game Hold-em and all variations is the card speaks: best hand shown down wins. The winning hand must turn all cards face up on the table.
2. The event that determines the winner of the game Pan is the player having combinations of three or more cards in sets or runs (known as melt) laid on the table in front of them using eleven cards. The first player doing so is the winner and receives chips from other players that still have chips and cards remaining in their hands. Each player bets one (1) dollar chip in one dollar condition game before receiving cards. The house collects its chips and places the remaining chips on top of the mucking block (tops). The winner of the hand will win chips from the other players in different ways. When a player shows eleven cards in melds, he collects two chips from every player. The player also collects for each valid condition. No pot may be awarded until all losing hands have been killed. Winning hand should remain face up until tops are awarded.

The games can be played with a minimum of one (1) and a maximum of eight (8) decks.

- A "BONUS" card and an Ace, on the initial deal, is the best possible hand. It is known as a PURE 21.5 BLACKJACK and pays 6 to 5.

- An Ace has a value of either 1 or 11.
- All cards from 2-9 have their face value.
- "BONUS" cards have a value of 10 unless dealt with an ace on the initial deal, and then they have a value of 10.5.

ROUND OF PLAY

1. Pure 21.5 Blackjack is played on a raised gaming table. The table seats eight players who face the dealer in a 180-degree seating arrangement. The tables are the standard blackjack tables commonly used in the casino industry. The casino dealer stands opposite the players, and in the center of the table. The casino dealer's chip tray is set in front of the dealer. The play starts from the right of the dealer and proceeds in a clockwise fashion.
2. The game uses a 52-card deck with aces through nines (the standard spades, hearts, clubs and diamonds) and 16 bonus cards (four of each "king", "queen", "jack" and "ten"). The game is played with a minimum of a single deck, totaling 52 cards and to a maximum of eight decks totaling 424 cards.
3. All tables will have some type of signage where the name of the game is displayed, along with the minimum and maximum wager allowed the collection fee for the players and Player/Dealer will also be displayed. A maximum of three collection rates is allowed in compliance with the California Penal Code.
4. A standard round of play begins when a Player/Dealer is designated. The Player/Dealer will place an amount of money (casino chips) in a betting circle in front of their seat. That money will be used to pay the winners and will set the amount that he/she can collect for the losers. The casino will place a button in front of the Player/Dealer, which designates that they are taking the "bank position and further designate whether it is the first or second turn for the Player/Dealer in the banking position. The Player/Dealer will place the collection fee in front of his/her betting circle.
5. Players at a table then place their wagers in designated betting circles. The players may place a wager at his/her seat along with other unoccupied betting circles. Each player must pay the posted collection for the wager they placed in any betting circle where they have money or "action" or in the case of Player/Dealer paying collection, the appropriate collection will be place by the Player/Dealer.
6. Once the Player/Dealer has posted the amount of money, he/she will wager against the other players, and once the players have placed their wagers, the casino dealer will collect all of the fees. This will always be accomplished before the start of the game in accordance with the California Penal Code. The casino dealer will take the collection fees and place/drop them into a locked collection box affixed to the gaming table. The collection fees will be dropped after the completion of the hand.
7. After the fees have been collected, the dealer will deal the cards to the players and the Player/Dealer. All cards dealt throughout the game are face up, with the exception of the Player/Dealer's second card, which will remain "face down" until all players have acted on their hands. The casino dealer is the only person on the table allowed to touch the cards. The players will signal the dealer with hand gestures that indicate whether the wish to hit or stand. The hand signals will be consistent with the industry standard signals of a sweeping motion towards a players body, indicating a hit, or a side to side hand motion,

indicating the desire to stand. The casino dealer deals the first card to the player seated to the right of the designated Player/Dealer, in a clock- wise manner. Each player will be dealt one card face up with the Player/Dealer receiving the last card. The Player/Dealer's cards will be placed in front of the casino dealer.

8. The casino dealer will deal a second card to the players in the same order noted above and the last card will go to the Player/Dealer and be dealt face down. The players are given an opportunity, starting with the player seated to the right of the Player/Dealer, to be dealt additional cards to make the best possible hand. (Rules and procedures for splitting, doubling down and surrender will be outlined later).

9. Players must follow the below listed **Charts 1A and 1B** in deciding whether to hit or stand on a particular hand.

10. After all players have acted on their hands and indicated to the casino dealer that they do not want or cannot receive additional cards, the Player/Dealers down card will be turned up. This down card will determine where the "action button" is placed.

11. The "action button" determines where the action starts and who will be first to be paid for their winning hand or lose their wager. The action button is placed based on the numerical value of the Player/Dealer's down card. The ACE is counted as a one and is the first seat to the right of the Player/Dealer. The counting is the consecutive and clockwise with the player/ dealer position NOT being counted.

12. The Player/Dealer's hand will then be completed according to the rules listed on **Chart 1B**. Once the Player/Dealer's hand is completed, the payoff and/or collection of wagers will begin in the seat designated by the action button and continue in a clockwise manner until all wagers have been acted on.

13. In the event that the Player/Dealer does not have enough money on the table to cover all the wagers on the table, there will be no free collection button, refund, or other conciliatory action given to the affected players by the casino or the Player/Dealer.

14. The Player/Dealer's cards will always be dealt and placed in front of the casino dealer's tray. The placement of the Player/Dealer's cards is standard in all games and is depicted below. See **Diagram #1**

DIAGRAM #1

15. After all wagers are settled, the cards are collected and discarded. The bank button is changed from 1st Bank to 2nd Bank and after every two hands, the Player/Dealer position is rotated in a clockwise fashion around the table.

16. The next round of play begins when the casino dealer collects all the cards from the table and places them in the discard tray. The casino dealer will also change the bank button, and if necessary (if the same person has already held the Player/Dealer position twice) rotate the Player/Dealer position clockwise to the next position on the table. If there is no person that intervenes on the Player/Dealer's position, the game will be "broken" or stopped, as required by the California Penal Code.

2. Players can split any pair or two BONUS cards. The player must place a second wager equal to the original wager. The player may draw as many cards as desired per split card. When splitting two Aces, the player only receives one additional card per ace. There is no splitting for less.

Rules of Play

Buster Blackjack features a side bet that allows the player to bet that the dealer will bust. The more cards in the dealer's busted hand, the higher the payoff is.

The game can be played on a regular Blackjack or No Bust 21 table. It can be dealt with six to eight decks of cards. In addition to the mandatory blackjack bet, the player has the option to make a "Buster" side bet. After all bets are made, the dealer deals himself and each player two cards. One of the dealer's cards is revealed. All players then play out their hands according to the house rules.

The Buster side bet remains in action whether or not the player busts or has a blackjack.

Once all players have played out their hands, the dealer will reveal his hole card and play out his hand. If the dealer does not bust, all Buster side bets lose. If the dealer busts, all Buster side bets are paid according to the below pay tables. The payoff odds vary with the number of cards in the dealer's busted hand.

Note that if all players have a blackjack, as long as there are Buster side bets, the dealer must complete his hand, if not 17 or greater.

The Benefits of Buster Blackjack

Camaraderie

A feature that is almost nonexistent in other blackjack side betting games. In Buster Blackjack, everyone roots for the dealer to bust.

Suspense

This is the only blackjack side bet that keeps the player in the game after they bust. The outcome of the side bet won't be determined until the dealer's last card is drawn. A player who has busted remains in action. So, his participation and anticipation to win also remain till the last second of the round. There is no such thing as "watching the paint dry" after the player busts.

Easy to deal

If the dealer doesn't bust, all Buster Blackjack bets are swept. Otherwise, all bets are paid the same odds. Unlike other blackjack side bets, the dealer need not check to see whether each player has a qualified winning hand and how much it pays.

PAI-GOW

DOUBLE HAND POKER

Rules

1. **Deck:** One traditional deck of 52 playing cards, plus one joker is used.
2. **Joker:** The joker can be used only as an Ace, or to complete a straight or a flush.
3. **Table Layout:** Each table has 7 active seats. An 8-seat table may be used with one inactive seat in order to symmetrically accommodate a floor person and another seated player. The inactive seat has the betting spots blocked. The inactive seat rotates clockwise, and is always located immediately to the right of the Player/Dealer.
4. **Betting Spots:** Each seat has 8 betting spots.
5. **Number of Players:** A total of 7 players; 6 players and 1 Player/Dealer.
6. **Table Limit:** \$10 - 200 per spot (\$1,600 per seat)
7. **Structure:** Each player at the table is dealt seven cards to make two hands, a two-card hand and a five card hand. Rankings are based on basic poker rankings. The five-card hand must be higher than the two-card hand.
8. **Foul Hand:** If the player sets the hands so that the two-card hand is higher than the five-card hand, it is a Foul Hand and automatically is a losing hand. Similarly, if there are not exactly two cards in one hand and five cards in the other hand, it is a foul hand and automatically loses.
9. **Object of Game:** The object of the game is for both of the player's hands to rank higher than both of the Player/Dealer's hand.
 - Should one hand rank exactly the same as the Player/Dealer's hand, this is a tie (copy).
 - The Player/Dealer wins all ties.
 - If the player wins one hand, but loses the other, this is considered a "push" (tie), and no money exchanges hands.
10. **Payoff:** Winning hands are paid even money. Losing hands lose the money wagered.

11. Player/Dealer (Bank)

- Any player may be the Player/Dealer (Player/Dealer). All players bet against the Player/Dealer.
- The bank must rotate in a continuous and systematic fashion. The Bank is offered to each seated player's spot in a clockwise fashion. That seated spot may bank for a maximum of two consecutive hands. That player may accept or pass, in which case the Bank is offered to the next player.
- When the Player/Dealer position passes to the next seat, the player seated in that seated position has the first option. If he refuses the bank, any player betting on that seated position the previous hand is eligible to be the Player/Dealer for the next hand, in order of the square in which they bet the prior hand.
- Come-Come bets (in the Player/Dealer position) will be paid off and collected as one bet. Players who bet Come-Come do so at their own risk. The house will not hold up action or be responsible for settling disputes regarding Come-Come bets.
- There must be an intervening Player/Dealer so that a single player cannot have repeated dealings within the meaning of Oliver V. County of Los Angeles 1998, 66 CAL App4th 1397, 1408-09, in addition to, within the meaning of AB 1416, an act to add to section 330.11 of the Penal Code. If there is no intervening player, the game is closed. The house never participates as a Player/Dealer, nor may the house take a percentage from the game.
- There is no minimum amount that a Player/Dealer must wager, other than the regular table minimum for all players. Player/Dealers are never required to cover all opposing player's wagers.

12. Misdeals:

- When the dealer is arranging the cards into piles of seven cards, if one card is exposed, and it is not an ace or a joker, the card is set aside, the remaining cards are dealt out as normal and the exposed card is replaced with the top card left over after making seven piles of seven cards.
- If the exposed card is an ace or a joker, the deck is scrambled, shuffled, and re-dealt.
- If during the course of the deal prior to the Player/Dealer's hand being opened, if any card(s) of the Player/Dealer's hand is exposed by the house dealer, the hand will be declared a misdeal, and all hands reshuffled.

- When the dealer is distributing the cards, if a card is exposed, that player's hand is dead, and all bets on that seated position are returned.

13. **Specific Rules:**

- Once the Player/Dealer exposes his cards, the players cannot touch their cards.
- Players are not allowed to show their hands or talk to the other players about their hands before all cards are exposed.
- If one player is wagering on more than one seat, that player may look at and determine the setting of the first hand only. The remaining hand(s) must be set the "house way".
- Players and the Player/Dealer must place their bets before the dice cup is opened. No change in bets can occur after that point.
- Only chips placed in the appropriate position on the table constitute a valid bet.
- Each player is responsible for the chips he/she places on the table.
- No side bets are allowed.

14. **Player/Dealer (Bank):**

- Play of the game is as follows: The dealer places seven hands of seven cards each, face down in front of the dealer's tray. The dealer checks that exactly four cards are left over, and then places those cards in the front of the dealer's tray.
- There are two steps taken to determine which of the seven hands goes to which player. In the first step, Player/Dealer calls out a number from one to seven, and the Action button is placed on the pile that corresponds to that number. This hand is pushed slightly forward and the preceding hand is turned sideways
- The Player/Dealer then shakes the dice cup containing three dice; however he doesn't yet open the cup. The cup is opened by the house dealer, only after all bets are placed in the betting circles.
- The Player/Dealer's position is always 1, 8 or 15. The dealer counts clockwise from the Player/Dealer's position to locate the seat corresponding to the number on the dice. The pile of cards with the Action button (see #10), will then be placed in front of the player indicated by the dice. The remaining piles will then be distributed clockwise. The Player/Dealer hand is left in front of the dealer and the

dealer button is placed on top of it.

- Each player then arranges his cards into a two-card low and a five-card high hand as described above.
- The dealer does not look at the cards until all players have set their hands in the designated spaces face down. Any hands that are going "house way" will have a "house way" button placed on them.
- The dealer then turns his cards over and sets his hand face up.
- Loosing hands should be turned face down and losing wagers should be placed on top. If the player wins one hand and loses the other, this is considered a "push". No money exchanges hands and the cards are placed in the discard holder.

15. Largest Amount of Money in Action:

- If there is more than one player making a wager on a seat, the player with the greatest amount of money at risk will make the decision on how to play the hand.
- However, the seated player has the right to look at and initially set the hand, even though the player with the largest bet has the right to the final decision on the play of the hand.
- If the bets are of equal size, then the seated player in that position will make the decision.
- If the seated player is not involved or isn't one of the players with the equal largest amount of money at risk, then the decision belongs to the player who paid the collection.
- If the collection was split equally among the players, then the player in the front betting position ahead of the other "equal" player will make the decision on the play of the hand.

16. Role of Management:

- Once the dealer has begun scrambling the cards together, management cannot render a decision regarding the previous hand.
- Management has no financial interest in the outcome of any hand or wager.
- Management does not stand good for mistakes.
- Management reserves the right to make decisions in the best interest of

the game. Decisions of management are final.

SUMMARY OF GAME

The object of the game is to assemble two hands with a point value as close to nine as possible. Aces have a value of 1, picture cards have a value of 10, all other cards have their face value. A hand with cards whose sum is ten or higher is ranked with the tens (10s) digit ignored. For example, a hand totaling 18 would be valued simply as 8.

The casino dealer deals two hands of 2 cards each, two cards to the right and two cards to the left one by one in rotation. The hand to the left of the casino dealer is a community hand that belongs to those that placed a bet on the banker line. The banker's is dealt face down. The hand to the right of the casino dealer is a community hand that belongs to those that placed a bet on the player line. The player's hand is dealt face down. Players have the option to bet on the player's hand, the player-dealer's hand, or tie bet. In addition, if a player placed a wager on the player line or the banker line, that player may place a wager on the Player Dragon Bonus Bet or the Banker Dragon Bonus Bet

20. All bets for the base game and tie bet must be between the minimum and maximum table limit.

Player-dealer and Deal

The player-dealer position rotates in a systematic and continuous way so that the opportunity to act as the player-dealer does not constantly remain with a single person for many hands. The person in player-dealer position may not act as player-dealer position more than two consecutive hands or rounds of play. There must be an intervening player-dealer so that a single player cannot repeatedly act as the player-dealer within the meaning of *Oliver v. County of Los Angeles*, (1998) 66 Cal.App.4th 1397, 1408-09 or section 330.11 of the California Penal Code, relating to gambling establishments and any future regulatory guideline from the California Bureau of Gambling Control or the California Gambling Control Commission with respect to the operation of controlled games featuring a player-dealer position. The game will be broken if at least one other intervening player at the table does not accept the deal when offered.

Player-dealers are never required to cover all opposing players' wagers. Payoffs of wagers are limited to the amount of the player-dealer wager. The house never participates as a player-dealer. The house never takes a percentage of wagers placed in the game. There is no maximum on the player-dealer's wager.

Dragon Bonus Bet

Dragon Bonus Bet

Each player wagering in the base game of Baccarat has the option of placing a wager within table limits on the designated DB (Dragon Bonus) spot located next to each player's position on the gaming felt layout. The Dragon Bonus Bet may award a bonus payout to the player(s) who receives a hand that meets the requirements, as described below. There will be two circles in front of each player position. One will be labeled "Player Dragon Bonus" and the other will be "Banker Dragon Bonus."

Players have two ways to win:

1. If the hand the wager on (Player or Banker) is a "natural or;
2. If the hand they wager on is a non-natural that wins by four (4) or more points from the losing hand. The higher margin of victory, the higher the payout. If the spread is three (3) points or less, the DB bet loses.
3. Regardless of what hand a player wagered on, a player may wager on the Player Dragon Bonus Bet circle, the Banker Dragon Bonus Bet circle, or both.
4. The Dragon Bonus Bet may less than or equal to the base game wager. However, the bonus bet may not exceed the base game wager or the table limit.
5. There is no collection for the DB bet.
6. The player-dealer will pay all Dragon Bonus Bet wagers and will collect all losing Dragon Bonus Bet wagers. Wagers are collected or paid, to the extent that the player-dealer's wager covers. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer will be returned to the players.

Royal Pai Gow Poker

Casino 580

Standards of play:

Royal Pai Gow Poker adds a bonus bet element to the traditional game of Pai Gow Poker played in California Cardrooms. Each player competes against the player-dealer to make the best possible hand. Player wins all copy ties on both the 2 card front and the 5 card back hand. The player automatically loses when dealt any seven-card queen high hand, no joker. If the player-dealer is dealt a seven-card queen high hand the hand plays as normal.

In Royal Pai Gow Poker, a player can place an optional Royal Tie Bonus Bet and/or Save the Queen Bonus Bet.

Type of card deck used:

Royal Pai Gow Poker is played with a standard 52 card deck including a Joker for a total of 53 cards. The Joker is fully wild.

The rank of each card used in Royal Pai Gow Poker, in order of highest to lowest rank, shall be: Ace, King, Queen, Jack, Ten, 9, 8, 7, 6, 5, 4, 3, 2. All suits shall be considered equal in rank.

The highest 5-card hand is Five Aces, and the highest 2-card hand is a Pair of Aces. The hand rankings, based on traditional poker rankings, are as follows:

Rank	Combination of Cards
1 st	Five Aces (A-A-A-A-Joker)
2 nd	Royal Flush (10-J-Q-K-A of the same suit)
3 rd	Straight Flush (Five cards, same suit, ranked in order; i.e. 6-7-8-9-10 of hearts)
4 th	Four-of-a-kind (Four cards of the same rank; for example, 5-5-5-5) The highest-ranked cards win should the p/d and player both have a four-of-a-kind
5 th	Full House (Three-of-a-kind and one pair) The highest-ranking three-of-a-kind wins; i.e. K-K-K-7-7 beats a 10-10-10-A-A
6 th	Flush (Five cards, same suit, regardless of ranking; i.e. 5-8-9-Q-K of spades)
7 th	Straight (Five cards of different suits ranked in order)
8 th	Three-of-a-kind (Three cards of the same ranking; for example, Q-Q-Q)
9 th	Two Pair (Two sets of pairs)
10 th	A Pair (Two cards of the same value)
11 th	High Card

Dealing procedures:

- ❖ The house dealer will complete the deal of seven piles of seven cards face down in front of the house dealer. When dealing the seven piles of seven cards, the house dealer shall deal one card at a time to in front of them until there are seven cards, starting from left to right. Once there are seven cards laid out, the house dealer shall deal each pile another card, from right to left, giving each pile a total of two cards. This process of dealing cards left to right, then right to left, shall be completed until each pile has seven cards. The remaining four cards shall be placed in the discard pile.
- ❖ Once cards have been stacked, the player-dealer randomly selects which pile will be distributed to the first player who receives the "action" button. The house dealer identifies

the hand by placing a button marked action on this pile by pushing it forward and turning the pile behind it side ways.

- ❖ To determine the placement of the action button, the player-dealer shakes a dice cup containing three standard dice. The sum of the dice indicates to which seat the first pile of seven cards will be distributed. The Player-dealer's position is always one, eight, and fifteen. Other seats, in clockwise rotation, respectively represent the other numbers. If the numerical total of the dice are one, eight, or fifteen, the player-dealer shall receive the first set of cards and the player to the left of the player-dealer shall receive the action button. Wagers shall be settled in a clockwise manner around the table, starting with the player with the action button. Furthermore, all wagers shall be settled from seat to seat in the following order: the Royal Tie Bonus Bet wager, then the Save the Queen Bonus Bet wager, and then the Royal Pai Gow Poker game wager. Once the Player-dealer's wager has been exhausted, the wagers not covered by the Player-dealer shall be returned to the respective players.
- ❖ Once the action button position is determined, the house dealer shall distribute the seven piles of cards, starting with the pile that has the action button and continuing clockwise around the table. All seven piles of cards will be distributed to all seats at the table, regardless of whether a player is seated at each position or a wager has been placed. Once all of the piles of cards have been distributed, the house dealer will collect the cards distributed to seats without a wager and place them in the discard pile.

Betting scheme:

Players may place wagers bearing in mind the posted table minimum and maximum. Players must make a Royal Pai Gow Poker game wager and will then have the option to make a Royal Tie Bonus Bet wager and/or a Save the Queen Bonus Bet wager as well.

The Player-dealer may place a wager to cover some or all of the action on the table.

Round of Play

- ❖ Each player and the player-dealer put up any bets they wish to place for the next hand. Players have the option of placing a Royal Tie Bonus Bet wager and/or a Save the Queen Bonus Bet wager at this time as well.
- ❖ The house dealer will then follow dealing procedures and standards of play, as described above.
- ❖ Once the cards have been distributed, each player shall set their hands by arranging the seven cards into a two card hand which is placed in front of the five card hand, and a five card hand which is placed behind the two card hand. The five card hand must rank higher than the two card hand, according to the ranking of hands, as shown above.
- ❖ When all players' hands have been set, the house dealer exposes the player-dealer's hand, and sets it according to the "House Way" chart, as shown in Attachment A.
- ❖ Once the player-dealer's hands are set according to the House Way, each player's hand is exposed, in turn, and compared to the player-dealer's hands to determine the winners, losers, or tie hands.
- ❖ Each player's five card hand will be compared to the player-dealer's five card hand, and each player's two card hand will be compared to the player-dealer's two card hand, in turn, starting with the action button, to determine the winner according to the following criteria:
 - a. The Royal Pai Gow Poker game wager wins if the two card hand and the five card hand held by the player ranks higher than the player-dealer's two card hand and the five card hand. Winning Royal Pai Gow Poker game wagers are paid 1 to 1.
 - b. The Royal Pai Gow Poker game wager loses if the two card hand and the five card hand held by the player ranks lower than the player-dealer's two card hand and the five card hand.
 - c. The Royal Pai Gow Poker game wager "pushes" if one of the hands held by the player ranks higher than the player-dealer's corresponding hand, and the player's other hand ranks lower than the player-dealer's corresponding hand. In this case, neither the player nor the player-dealer wins or loses; the wager is a "push" and is returned to the player.
 - d. If one hand is identical in rank to the player-dealer's hand, it is a "copy hand." The player wins all "copy hands."
 - e. The player's hand automatically loses when dealt a seven card queen high hand, otherwise all hands are completed as normal.

ULTIMATE WAR

Casino 580

Type of Game

The game of Ultimate War utilizes a player-dealer position and is a California game. The position shall be offered systematically and continuously in a clockwise manner around the table after every two hands. The player-dealer shall collect all losing wagers, pay all winning wagers, and may not win or lose more than the original amount wagered. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer shall be returned to the respective players. The gambling enterprise does not participate in the actual play of the game and has no interest in the outcome of the play.

Object of the Game

The object of the game is to assemble two hands of one card each with the players competing against the player-dealer position.

Description of the Deck and Number of Decks Used

The game is played using a standard 52-card deck and no jokers. Cards will be dealt using a multiple deck shoe. A minimum of one deck and a maximum of eight decks shall be used during the play of the game. The deck will be shuffled in between each round of play.

Card Values and Hand Rankings

The rank of the cards used in Ultimate War, for the purpose of determining a winning hand, shall be, in order from the highest to lowest rank: ace, king, queen, jack, 10, 9, 8, 7, 6, 5, 4, 3 and 2. The suit of a card shall have no effect on its rank.

Description of Table Used and Total Number of Seated Positions

The game shall be played on either a standard blackjack table that accommodates up to seven players and a player-dealer position for a total of eight seated positions or a standard baccarat table that accommodates up to thirteen players and a player-dealer position for a total of fourteen seated positions. Within each betting area for each seated player, there shall be five separate betting areas specifically designated for five separate wagers; the Player Bet, the Banker Bet, the War Bet, the Ultimate 5 Player Bet, and the Ultimate 5 Banker Bet. ULTIMATE WAR Casino 580

Dealing Procedures and Round of Play

At the start of a game a player is offered the player-dealer position. Once accomplished, the house dealer shall wait for each player to make their wager in accordance with the table limits.

Each player has the following options when placing their wager(s):

- The Player Bet which pays 1 to 1;
- The Banker Bet which pays 1 to 1;
- The War Bet, which pays according to the pay table below;
- The Ultimate 5 Player Bet, which pays according to the pay table below;
- The Ultimate 5 Banker Bet, which pays according to the pay table below.

Once all wagers are placed, the house dealer deals one card to the right and one card to the left. The hand to the left of the house dealer is a community hand that belongs to those that placed a wager on the Player Bet. The hand to the right of the house dealer is a community hand that belongs to those that placed a wager on the Banker Bet.

The hand that has the highest card value wins. If the both hands have the same value they are considered a tie and the hand "goes to war". When a hand goes to war the house dealer will deal an additional card to the Player Bet hand and the Banker Bet hand to determine the winner. The hand that is dealt the highest card wins. In the event that the hands tie again, the hand will go to war again and the process will repeat until a winner is determined. There is no limit to the amount of times the Player and Banker Bet hands may go to war. The winner is determined by a comparison of the last card given to each player.

How Each Wager Wins, Loses, or Pushes

Once both hands have been completed, according to the guidelines above, the player's wagers are settled. The following shall apply for each possible outcome when determining the winner. The player-dealer shall pay and collect all wagers accordingly:

- The player-dealer shall pay all winning Player Bet wagers when the card dealt to the Player's hand is higher than the card dealt to the Banker Bet hand.
However, when the Player Bet hand wins with a 5, the Player Bet is not paid and is a push. The Banker's Bet loses and is collected as normal.
- The player-dealer shall collect all losing Player Bet wagers made by players when the Banker Bet hand is higher in value than the Player Bet hand.
- The player-dealer shall pay all winning Banker Bet wagers when the card dealt to the Banker Bet hand is higher than the card dealt to the Player Bet hand.
However, when the Banker Bet hand wins with a 5, the Banker Bet is not paid and is a push. The Player Bet loses and is collected as normal.

Pai Gow Poker with Ultimate Push and Happy Pai Gow Bet

Synopsis:

This game uses the traditional Pai Gow Poker game and adds two bonus bets, Ultimate Push Bonus Bet and Happy Pai Gow Bonus Bet. The bonus bets have to be placed prior to the hands being played. A Player has the option to place a Ultimate Push wager and the wager will win when the Player's hand and the Player-Dealer's hand push. This Ultimate Push Bonus Bet pays 1:1 except when there is a pair of 3's or higher, then it will pay 2:1. In addition, a Player has the option to place a Happy Pai Gow wager and the wager will win when the wagered hand of seven cards consists of Ace high or lower.

Object of the Game:

The object of the game is for both of the player's two hands to rank higher than both of the player-dealer's two hands by strategically playing the seven-card poker hand with a two card low hand and a five-card poker high hand. Should one hand rank exactly the same as the player-dealer's hand, this is a tie. The player-dealer wins all ties. If the player wins one hand, but loses the other, this is considered a "push", and no money exchanges hands.

Type of Deck Used:

The traditional Pai Gow Poker game uses a total of 52 cards and a joker. The Joker is used as an Ace or to complete a straight or flush.

Table Layout:

Each table has 7 active seats and 1 inactive seat. An 8-seat table may be used with one inactive seat in order to symmetrically accommodate a floor person and another seated player. The inactive seat has the betting spots blocked. The inactive seat rotates clockwise, and is always located immediately to the right of the player-dealer, from the Dealer's perspective.

Number of Players:

There is no minimum number of players, as long as there is at least one player and one player-dealer.

Ranking of Hands:

Pai Gow Poker is played with a standard fifty-two (52) card deck with one joker, fifty-three (53) cards total. The Joker can only be used as an Ace, or to complete a Straight, Flush, or a Straight Flush.

The highest 5-card hand is Five Aces, and the highest 2-card hand is a Pair of Aces. The PGPQ hand rankings, based on traditional poker rankings, are as follows:

<i>Rank</i>	<i>Combination of Cards</i>
1 st	Five Aces (A-A-A-A-Joker)
2 nd	Royal Flush (10-J-Q-K-A of the same suit)
3 rd	Straight Flush (Five cards, same suit, ranked in order; i.e. 6-7-8-9-10 of hearts)
4 th	Four-of-a-kind (Four cards of the same rank; for example, 5-5-5-5) The highest-ranked cards win should the p/d and player both have a four-of-a-kind
5 th	Full House (Three-of-a-kind and one pair) The highest-ranking three-of-a-kind wins; i.e. K-K-K-7-7 beats a 10-10-10-A-A
6 th	Flush (Five cards, same suit, regardless of ranking; i.e. 5-8-9-Q-K of spades)
7 th	Straight (Five cards of different suits ranked in order)
8 th	Three-of-a-kind (Three cards of the same ranking; for example, Q-Q-Q)

9 th	Two Pair (Two sets of pairs)
10 th	A Pair (Two cards of the same value)
11 th	High Card

Game Rules and Structure:

Each player at the table is dealt seven cards to make two hands, a two-card hand and a five-card hand. Rankings are based on basic poker rankings. The five-card hand must be higher than the two-card hand.

Play of the game is as follows:

a. The dealer places seven hands of seven cards each, face down in front of the dealer's tray. The dealer checks that exactly four cards are left over, and then places those cards into the dealer's tray.

b. There are two steps taken to determine which of the seven hands goes to which player. In the first step, the player-dealer calls out a number from one to seven, and the Action button is placed on the pile that corresponds to that number. This hand is pushed slightly forward and the preceding hand is turned sideways.

c. If a dice cup is used, the player-dealer then shakes the dice cup containing three dice. The cup is opened only by the house dealer, after all bets are placed in the betting circles. If a random number generator is used, the number generated by the random generator will be used.

d. The player-dealer's position is always 1, 8 or 15. The dealer counts clockwise from the player-dealer's position to locate the seat corresponding to the number on the dice. The pile of cards with the Action button, will then be placed in front of the player indicated by the dice or number generated by the random number generator. The remaining piles will then be distributed clockwise. The player-dealer's hand is left in front of the dealer and the dealer button is placed on top of it.

e. Each player then arranges their cards into a two-card low and a five-card high hand as described above.

f. The dealer does not look at the cards until all players have set their hands in the designated spaces face down. Any hands that are going "house way" will have a "house way" button placed on them.

g. The dealer then turns his cards over and sets his hand face up. Losing hands should be turned face down and losing wagers should be placed on top. If the player wins one hand and loses the other, this is considered a "push". No money exchanges hands and the cards are placed in the discard holder.

h. If one player is wagering on more than one seat, that player may look at and determine the setting of the first hand only. The remaining hand(s) must be set according to the "house way". Players and the player-dealer must place their bets before the dice cup is opened or the random number generator is finalized. No change in bets can occur after that point. Only chips placed in the appropriate position(s) on the table constitute a valid bet. Each player is responsible for the chips he/she places on the table.

Foul Hand:

If the player sets the hands so that the two-card hand is higher than the five-card hand, it is a Foul Hand and automatically is a losing hand. Similarly, if there are not exactly two cards in one hand and five cards in the other hand, it is a foul hand and automatically loses.

Payoff:

Winning hands are paid even money. Losing hands lose the money wagered. The payout starts with the person to the left of the player-dealer then continues clockwise. The succession of wagers starts with the base game wager then followed by the Ultimate Push bet and lastly the Happy Pai Gow bet. All wagers are placed all at once from person to person.

Player-dealer (Banker):

Any player may be the Player-dealer position. All players bet against the player-dealer. The Bank must rotate in a continuous and systematic fashion. The player-dealer position is offered to each seated player seat in a clockwise fashion. That player may accept or pass, in which case the player-dealer position is offered to the next player. When the player-dealer position passes to the next seat, the player seated in that seated position has the first option. If she refuses the player-dealer position, any player betting on that seated position the previous hand is eligible to be the player-dealer for the next hand, in order of the betting spot in which they bet the prior hand.

Ultimate Push Bonus Bet:

The Ultimate Push Bet is an optional wager for players. The wager wins when the outcome of the player hand and player-dealer hand results in a push, otherwise the wager loses. The wager pays 1:1 if the hand results in a push and 2:1 when the outcome of the hand is a push with either the player's hand, player-dealer's hand, or both hands containing a pair of 3's or higher in their two-card hand. Both hands will always be set house way to determine the outcome of this bonus wager.

1. Players have the option to bet bonus wagers only. They are not required to place a base bet in order to have a bonus wager.
2. The Ultimate Push Bonus Bet may be less than, equal to, or greater than the base game wager as long as it is within the table limits.
3. The player-dealer will pay all winning bonus bets and will collect all losing bonus bets.
4. In the event the player-dealer's money does not cover the amount wagered by the players, an action button will be used to designate where the payout will begin.

Object of the Game

The object of the game is for the players to compete against the player-dealer by betting that either the player's hand will win or the banker's hand will win. At the beginning of the game one seven-card hand will be placed out on the table to represent the player and another seven card hand will be placed out on the table to represent the banker. Both hands are opened by the dealer and set house way. The dealer is required to form a two-card hand and a five-card hand for both the player and banker according to the house way strategy. The five-card hand must always rank higher than the two-card hand. Once each of the hands have been set house way the dealer will compare the two hands to determine if the wagers placed on the table win, lose, or push. If the player's side wins both the two-card and five-card hands all player wagers will get paid and all banker wagers will lose. If the banker side wins both the two-card and five-card hands all banker wagers will get paid and all player wagers will lose. All copy/ tie hands lose to the player-dealer and the second hand alone will determine the outcome. If both the two-card and five-card hands result in a tie both the player and banker wagers will lose. Additionally, if the player's or banker's hand has a two-card or five-card copy it cannot win. The hand can only push or lose depending on if the non-copy hand is of higher or lower value. In order to get paid out on a base bet the player must win the two-card and five-card hand.

Example: Both the player and banker two-card hand copies and the banker's five-card hand is better than the player's five-card hand, then the banker wager results in a push and the player wager loses.

Example: Both the player and banker two-card hand copies and the player's five-card hand is better than the banker's five-card hand, then the player wager results in a push and the banker wager loses.

Description of Table Used and Total Number of Seated Positions

The game shall be played on an industry standard semi-circle or bat wing table. The game is played with a minimum of two and a maximum of fourteen players.

Action and Distribution of Cards

The casino dealer will start in seat one and offer the player-dealer position to the player. In the event the player passes, the dealer will continue clockwise until the position is filled.

Shuffler Distribution

Players place their wagers in the designated areas. The player receives the first hand and the banker receives the second hand from the shuffling machine.

Manual Distribution

The casino dealer starts by dealing seven piles of seven cards. When dealing the seven piles of seven cards, the casino dealer shall deal one card at a time to in front of him or herself until there are seven cards, starting from left to right. Once there are seven cards laid out, the casino dealer shall deal each pile another card, from right to left, giving each pile a total of two cards. This process of dealing cards left to right, then right to left, shall be completed until each pile has seven cards. The remaining four cards shall be placed into the discard pile.

The player-dealer chooses one of the seven piles, and shakes a dice cup containing 3 standard dice. The total of the three dice determines which pile of seven cards will be distributed to the player's position, by counting the pile of cards chosen by the player-dealer position as one and continuing clockwise until the total is reached, the next stack of seven cards in order is the banker's hand.

Dealing Procedures and Round of Play

Both hands are opened by the dealer and set house way. The dealer is required to form a two-card hand and a five-card hand for both the player and banker according to the house way strategy. The five-card hand must always rank higher than the two card hand. Once each of the hands have been set house way the dealer will compare the two hands to determine if the wagers placed on the table win, lose, or push.
- The player-dealer will pay and collect all wagers back to front seat by seat according to action until the hand is over or the bank money has been depleted. After all wagers are settled and the cards are collected, the dealer will drop the house collection into the box. The player-dealer button is turned over to read deal #2 and the game starts over again. BLACKJACK X

Object of the Game

The object of the game is to play to 31. The Player hopes to be dealt a "Natural" which is the Top Ranked Hand. The Players and the Player Dealer add the numerical value of their initial two-cards and compare them against each other. In the event the Player Dealer is dealt a "Natural" the game stops, and the Hands are compared. If the Player is not dealt a two-card thirty-one (31) then the Player will play to Hard thirty-one and if not, then the Player will try to get as close to twenty-one.

The Player's hand is frozen from receiving an additional Draw card when their hand total is between 22 and 30. After the Draw the Player will lose their original wager with a hand value between 22 and 30 and Win on a value of 31 no matter the value of the Player Dealers hand.

- ♣ A Natural consists of an Ace card and a 10-point card when the first two hands are dealt.
- ♣ A "Blackjack X" consists of an Ace/King of Spades.
- ♣ All cards have face value. Face cards have a value of 10.
- ♣ If the Player Dealer does not have a Natural the Players will have the option to Double Down, Hit, Split, Surrender, or Stand depending on the value of their hand.

Game Rules

A standard deck of cards with no Joker is used in the play of the game. The Deck will contain a total of 52-cards. The game can be played with a minimum of one (1) and a maximum of eight (8) decks. All Aces of spade will have an "x" stamped on the card.

The game plays to 31 which can be achieved either on the initial two-card deal by being dealt a standard Ace card along with a 10-point card or by hitting to 31 while trying to avoid landing on a hand that totals between 22 and 30. The best hand is referred to as a "Natural 31" and is accomplished when the player or player-dealer's initial two (2) card hand consists of a standard ace and a ten (10) point card. The second best hand is a two-card hand that consists of an Ace and King suited. If the player is not dealt a two-card hand of thirty-one (31), the player will try to achieve either a hard thirty-one (31), which is the third best hand, or a hand of twenty-one (21), which is the fourth best hand. Both the Player and the Player-Dealer's hand are frozen from taking additional Hit cards when their hand value is between 22 and 30. When exceeding twenty-one, the Player will win on Hard (31) and will lose on any other total, no matter the value of the Player Dealer hand. The Players will have the option to Stand, Split, take Insurance, Double Down, Surrender or Hit provided the Player Dealer is not dealt a two-card 31. A hard hand is any hand that the minimum value is more than 11. Minimum value means there are aces in the hand and using all the aces as 1 instead of 11's the hand is 12 or more, or it would be any hand that if were to receive another 10 would bust over 22.

A hard 31 would be a hand that the player hits a hard 21 and receives a 10. This is the only way that hand could be achieved.

When both the Player and the Player Dealers hand value is between 22 and 30 they are frozen from taking additional Hit cards. When exceeding twenty-one, the Player will win on Hard (31) and will lose on any total between 22 and 30, no matter the value of the Player Dealer hand.

The position shall be offered systematically and continuously in a clockwise manner around the table after every two hands. The player-dealer shall collect all losing wagers, pay all winning wagers, and may not win or lose more than the original amount wagered. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer shall be returned to the respective players. The gambling enterprise does not participate in the actual play of the game and has no interest in the outcome of the play.

Object of the Game

The object of the game is to assemble two hands of two or three cards with an accumulated point value as close to nine as possible.

Description of the Deck and Number of Decks Used

The game is played using a standard 52-card deck and no jokers. Cards will be dealt using a multiple deck shoe. A minimum of three decks and a maximum of eight decks will be used during the play of the game.

Card Values and Hand Rankings

The value of each card used in EZ Baccarat, shall be as follows: picture cards (king, queen, jack) and 10's have a value of zero, an ace has a value of one, and all other cards have their face value. When the total numerical value of the cards equals ten or more, only the right-hand digit (numeric count) is considered. The ranking of hands for EZ Baccarat, in order from highest to lowest rank, shall be:

Hand Dealt	Hand Requirements
Natural 9	A two card hand that has a value of nine. A Natural 9 shall only be achieved when the first two cards dealt to a hand is valued at nine, according to the rules above.
Natural 8	A two card hand that has a value of eight. A Natural 8 shall only be achieved when the first two cards dealt to a hand is valued at eight, according to the rules above.
Nine or Eight	A three card hand that has a value of nine or eight.
Seven through Zero	A two or three card hand that has a value of seven, six, five, four, three, two, one or zero.

Description of Table Used and Total Number of Seated Positions

The game shall be played on three different types of gaming tables: a standard blackjack style table that accommodates up to nine players and a player-dealer position for a total of ten seated positions; a standard bat-wing table that accommodates up to nine players and a player-dealer position for a total of ten seated positions; and a gaming table measuring up to 100' x 400' that accommodates up to nine players and a player-dealer position for a total of ten positions. Within each betting area for each seated player, there shall be five separate betting spaces specifically designated for five separate wagers; the player line, the banker line, the Tie Bet, the Panda 8 wager, and the Dragon 7 Bonus Bet. Each betting space at the table has a fixed amount for wagering limits defining the minimum and maximum amounts that may be wagered. Players must bet at least the table minimum. Back-line betting is permitted on all wagers.

EZ BACCARAT PANDA 8

Method used to Determine Action and Distribution of Cards

The action on payouts will always begin with the player to the left of the player-dealer position and continue clockwise. All wagers shall be settled from seat to seat in the following order: all player line wagers, all banker line wagers, all Tie Bet wagers, all Panda 8 wagers, and then all Dragon 7 Bonus Bet wagers. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer shall be returned to the respective players.

Dealing Procedures and Round of Play

At the start of a game a player is offered the player-dealer position. Once accomplished, the house dealer shall wait for each player to make their wager in accordance with the table limits.

Each player has the following options when placing their wager(s):

- The player line which pays 1 to 1;
- The banker line which pays 1 to 1;
- The Tie Bet, which pays 8 to 1;
- If a player placed a wager on either the player line or the banker line, that player may place a wager on the Dragon 7 Bonus Bet, which pays 40 to 1.
- If a player placed a wager on either the player line or the banker line, that player may place a wager on the Panda 8, which pays 25 to 1.

Once all wagers are placed, the house dealer deals one card to the right and one card to the left, one by one in rotation, until each hand has a total of two cards each. All cards are dealt face-up. The hand to the left of the house dealer is a community hand that belongs to those that placed a bet on the banker line. The hand to the right of the house dealer is a community hand that belongs to those that placed a bet on the player line. The player's hand is resolved first and then the banker's hand is resolved. The hand that is closest to nine wins. After the house dealer delivers the first two cards to both the Player line and Banker line, the following Baccarat rules are followed.

- The player's hand must stand when the hand is valued at 6 through 9, and must hit when the hand is valued at 5 or less.
- If the player's hand stands, then the dealer hand hits on a total of 5 or less.
- If the player's hand hits for a complete hand then the banker's hand hits using the following rules:
 - If the banker's hand total is 3, then the banker's hand is dealt a third card unless the third card dealt to the player's hand was an 8.
 - If the banker's hand total is 4, then the banker's hand is dealt a third card unless the third card dealt to the player's hand was a 0, 1, 8, or 9.
 - If the banker's hand total is 5, then the banker's hand is dealt a third card if the third card dealt to the player's hand was 4, 5, 6, or 7.
 - If the banker's hand total is 6, then the banker's hand is dealt a third card if the third card dealt to the player's hand was a 6 or 7.

The following chart shows when the banker hits (H) or stands (S) according to the rules above:

EZ BACCARAT PANDA 8

The house dealer must use the “house way” when a player requests the house dealer to play an additional wager. House way hands shall be set as follows: player hand hits on five or below and stands on six or more

How Each Wager Wins, Loses, or Pushes

Once both hands have been completed, according to the guidelines above, the player's wagers are settled. The following shall apply for each possible outcome when determining the winner. The player-dealer shall pay and collect all wagers accordingly:

- The player-dealer shall pay all winning player line wagers made by players when the player hand is closer to nine than the banker hand.
- The player-dealer shall pay all winning banker line wagers made by players when the banker hand is closer to nine than the player hand.
- The player-dealer shall collect all losing player line wagers made by players when the banker hand is closer to nine than the player hand.
- The player player-dealer shall collect all losing banker line wagers made by players when the player hand is closer to nine than the banker hand.

Tie Bet

- For each seated position, there shall be one separate and specifically designated area for the placement of a Tie Bet wager. A player may place a Tie Bet wager even if he/she has not also placed either a Player line wager or a Banker line wager prior to the initial deal.
- The player-dealer shall pay all winning Tie Bet wagers when the total of the player's hand and the total of the banker's hand are equal.
- The player-dealer shall collect all losing Tie Bet wagers when the total of the player's hand and the total of the banker's hand are not equal.
- Backline betting is permitted on the Tie Bet wager.
- See the collection rate schedule for restrictions on the amount that may be wagered on the Tie Bet and any collection fees that may be taken.
