

# Rules of Play For Each Game

## Texas Hold-Em (High)

As the name implies, Texas Hold-Em reportedly originated in Texas in the early 1900s although there is no exact information on when or where it was first developed. Today, it is an exceedingly popular and widespread form of poker. It is a community game, meaning cards dealt on the hoard are shared by players to make their hands.

In Texas Hold-Em, each player gets two down cards. After the cards are dealt, there is a round of betting. The betting starts to the left of the big blind. Then three of the community cards are exposed all at once, which is called the *Three-Card Flop*. After a round of betting, the fourth card, called *Fourth Street*, is turned, (also called the *Turn Card*) followed by another round of betting, then the fifth card, called *Fifth Street*, (also called the *River Card*). Fifth Street is followed by a final round of betting.

Basic Texas Hold-Em rules:

1. Two cards are dealt face-down to each player plus a total of five community cards are dealt on the board.
2. Texas Hold-Em has a total of four rounds of betting.
3. Players use any five of the community cards and one, two, or none of their hole cards to make a five-card hand.
4. The winner is determined by the player holding the highest poker hand.
5. All hands speak for themselves.

## Omaha (High)

This is the second most popular community game. Each player gets four down cards. After the cards are dealt, there is a round of betting. The betting starts to the left of the big blind. Then three of the community cards are exposed all at once, which is called the *Three-card Flop*. After another round of betting, the fourth card, called *Fourth Street*, is turned, (also called the *Turn Card*). Fourth Street is followed by a round of betting, and then the fifth card, called *Fifth Street*, (also called the *River Card*) is exposed. A final round of betting follows Fifth Street.

Basic Omaha rules:

1. Four cards are dealt face-down to each player plus a total of five community cards are dealt on the board.
2. Omaha has a total of four rounds of betting.
3. Players **must** use two of the hole cards (down cards) and three of the community cards to make a five-card hand. This is the tricky part of Omaha. Don't get terribly excited about being dealt three or four of a kind!
4. All hands speak for themselves and the highest hand wins the pot.

Example:

Board	
6 ♣ 8 ♣ 6 ♦ 3 ♥ 6 ♠	
Final Players' Hands	
2 ♠ 4 ♣ J ♦ 9 ♥	Three 6s, Jack high LOSE
10 ♣ 5 ♣ Q ♣ A ♥	Three 6s, Ace high LOSE
K ♥ K ♦ 7 ♥ J ♥	Full House, 6s over Kings WINNER

## Omaha (High-Low Split)

This is the same game as Omaha only it also has a low hand. At Angie's it is played with an 8 qualifier and all Omaha rules apply. A player must have five cards 8 or below without pairing to qualify for low. The highest cards that can make a low hand are 8-7-6-5-4. The best low hand possible is A-2-3-4-5. Two cards from a player's hand may be used for high and two cards for low. The same cards may even be used for high and low. For example, A-2-3-4-5 could win for best high and low hand. This game is very popular and is the second most common game played at Angie's.

Basic Omaha rules:

1. Four cards are dealt face-down to each player plus a total of five community cards are dealt on the board.
2. Omaha has a total of four rounds of betting.
3. Players **must** use two of the hole cards (down cards) and three of the community cards to make a five-card hand.
4. All hands speak for themselves and the highest hand wins the pot.

Specific Omaha High-Low Split Rules:

5. In High-Low Split, high hand wins one-half the pot and low takes the other half. High hand gets the odd chip if the pot does not split equally.
6. In High-Low Split, straights and flushes do not count against the low hand.
7. In High-Low Split, any two of the hole cards may be used for the low hand and any two may be used for the high hand.

## Basic Seven Card Stud Rules

1. Three cards are dealt to the players face-down. Two cards in the beginning and then the final seventh card is dealt face-down as well. The other four cards are dealt face-up to players for a total of seven cards for each player who stays in the hand until the showdown.
2. A player who drops must immediately turn down all of his or her face-up cards.
3. It is the dealer's duty, after each round of cards is dealt, to designate the first bettor (as by saying, "First king bets," "Pair of sixes bets," etc.); and, after the third and fourth face-up cards are dealt, also to indicate holdings that may become straights or flushes ("Possible straight," "Possible flush").
4. If a bet or raise goes uncalled in any betting interval, the pot is taken by the player not called and the deal passes in rotation.
5. Highest hand wins the pot in Seven Card Stud High.
6. Highest hand and low hand split the pot in Seven Card Stud High-Low Split. The high hand gets the odd chip if the pot does not divide equally.
7. All hands speak for themselves.

### Seven Card Stud (High)

Seven Card Stud used to be the most popular form of poker. Each player gets two cards down, then a third one up. There is a round of betting, started by the player to the left of the big blind. Three more rounds of up cards follow, each round punctuated by a round of betting. The first bettor in each additional betting interval is the player with the highest card or the highest Poker combination showing. If two or more players are tied for highest, the one

nearest the dealer's left (that is, the one dealt first) is the first bettor.

The seventh and final card is dealt down, followed by a final round of betting. At the end of the hand, the players who have not folded and are still in the hand will have seven cards—three down and four up. After calling all bets, players then turn over their hands, and a winner is declared. Highest hand wins the pot.

### Seven Card Stud (High-Low Split)

The basic idea of high-low poker is that the best poker hand and the worst poker hand split the pot. Any form of poker may be played high-low. In a high-low split game there are usually two winners of the pot. The player with the highest hand takes one-half the pot and the player with the lowest hand takes the other half. Each player in the showdown may select any five of his or her cards as a high hand and any five cards as his or her low hand. In some cases a single player may win both ways and take the entire pot. The best low hand is a bicycle (A-2-3-4-5). This is played with an 8 qualifier at Angie's. The highest low hand allowed in Seven Card Stud would be 8-7-6-5-4. A player must have five cards 8 or below without pairing to qualify for low. Straights and flushes do not count against a low hand.

### Razz (Seven Card Stud, Low Only)

Razz is Seven Card Stud, low only. The best hand in Razz is a bicycle (A-2-3-4-5). However, a pair can win for low if it is the lowest hand. There is no qualifier. Hand speaks for itself. Straights and flushes do not count against players' hands.

Razz is usually played during a Seven Card Stud Choice game or a Dealer's Choice game. When a player has the dealer button, the player may choose one of the options (High-only, High-Low Split, or Razz) for Seven Card Stud. That game will then be announced to all.

## Five Card Stud

Essentially this game is the same as Seven Card Stud except that each player only receives a total of five cards instead of seven. A dealer gives each player a face-down card and then each player a face-up card. The first betting interval then begins. In the first betting interval, the player to the left of the dealer and not on a blind is first to act.

The first bettor in each additional interval is the player with the highest card or the highest poker combination showing. If two or more players are tied for highest, the one nearest the dealer's left is the first bettor.

Following the first betting interval, the dealer gives another face-up card to each active player in rotation, and there is another betting interval. Then another round of face-up cards to the remaining active players is dealt, and another betting interval occurs. Then a final round of face-up cards and a final betting interval takes place, followed by the showdown in which each player turns up his or her hole card. The best poker hand is declared the winner and all hands speak for themselves.

## Five Card Draw

Each player receives five cards, all dealt face down, one at a time, in rotation beginning at the dealer's left. Upon completion of the deal there is a betting interval. The player at the left of the big blind has the first right or obligation to bet. After finishing the first betting interval, each active player, in turn, beginning at the dealer's left, may discard one or more cards. Then the dealer gives the player from the top of the undealt portion of the pack, face down, as many cards as the player discarded. This is the draw. A player may also choose to stand pat (draw no cards). After the draw, there is another betting interval, followed by a showdown. The best poker hand wins, and all hands speak for themselves.

## Five Card Draw (High-Low Split)

This variation of five card draw allows both the high hand and low hand to win. If the winning hands belong to different players the pot is split with the odd chip going to the high hand. At Angie's it is played with an 8 qualifier, meaning a player must have five cards 8 or below without pairing to qualify for low. The highest low hand allowed is 8-7-6-5-4.

## Lowball

In Lowball, the lowest hand wins every pot. The ace is always low, and two aces are the lowest pair. Straights and flushes do not count, so the lowest possible hand is A-2-3-4-5 regardless of suits. This hand is called a "bicycle" or a wheel. The joker is added to the pack as the "bug" and represents the lowest card not actually held in the hand (or the lowest card in the hand without pairing). The betting starts on the left of the big blind. The game is "pass and out" before the draw. After the draw it is permissible to check. In Lowball, five cards are dealt to each player face down.

### Lowball Rules:

1. When playing Dealer's Choice, no joker will be added. During all other Lowball events one joker will be added to the pack.
2. Must bet a seven or better or lose all action after the draw. This means that if a player checks his or her hand that is a seven or better, then the player loses all bets placed after the draw.
3. Joker is the lowest card in your hand without pairing.
4. Five cards constitute a hand. A hand more or less than five cards is dead.
5. Straddles are permitted. May look at only two cards. Must be double the blind or the previous straddle and must be no more than half your chips.

### Lowball Rules continued:

6. Flashed card on the deal must be kept by the player if it is a five or lower. If the card is a six or higher it will be replaced after last player is dealt.
7. Flashed or boxed cards on draw cannot be kept and will be replaced after the last person acts.
8. Card faced by dealer after the draw is dead and player receives additional card after all players receive their cards.
9. A card off the table is dead. A card faced in deck, which is a boxed card, is also dead.
10. Only one cut is permitted per hand. Must be requested before any action is taken.
11. Do not expose any cards.
12. If a card is dropped by the player before the draw, then it is a dead card. If dropped after the draw, then it is a dead hand.
13. A misdeal is declared if six cards are dealt to two players or if dealer exposes more than one card face up.
14. Player must take number of cards requested. If the player says "Give me two—no, I mean three," the player still gets two cards.
15. If the player fouls his or her hand, then the hand is dead.
16. A player may draw up to five cards. However, only four cards can be given at one time. The fifth card will be dealt after the other players have received their requested cards.
17. All players must keep cards at table level and in sight. Hand held below table level is dead.
18. When a player calls for cards, the

dealer "burns" (discards) top card face down and then fills the player's requirements.

19. All called hands must be shown as a full five-card spread.
20. A hand thrown away cannot be retrieved if any card touches any other card or cards. Player is responsible for his or her own hand. If a hand is fouled by another player, the hand is dead.
21. If a player makes an insufficient bet, the player must add additional chips or forfeit existing bet.
22. Money, once it is in pot, may not be removed.
23. No string bets. Player cannot go back to his or her stack in order to raise unless the player has announced "raise" clearly.
24. All hands must be played out.
25. No splitting of pots unless actual tie.
26. All hands speak for themselves and lowest hand wins.

### Option Alley

This game is better known as High-Low with a buy. It is Five Card Stud High-Low Split with a one card draw on the end, and is a very exciting game. After a normal one card down, four cards up game, each player gets to discard one card and buy a new one from the dealer. If the hole card is discarded, the player gets a down card back. Otherwise the new card is dealt face up.

Replacing one card may not seem like a big deal, but with only five cards, almost everyone will stay in for a shot at the high or low. Any player with an Ace and low cards may be going for the low until the last card, then pair up and take high. Or a player with a Jack and four low cards could discard the Jack and make a great low hand on the buy card.

The dealer is not paid for the buy card. The buy card is obtained through an additional round of betting into the pot.

The best poker hand for high wins. The best low hand wins low and there is no qualifier so a pair could win for low as long as it is the lowest hand held. It is also possible for the low hand to win high and the high hand to win low. The hands speak for themselves.

## Dealer's Choice

This is played when a game cannot be agreed upon. The player located on the dealer's button is allowed to choose the game to be played for that hand. Any game offered at Angie's including variations such as High-Low Split and High-only may be selected. The rules for each game apply. Then the dealer button is rotated, and the game is chosen by the next dealer. This is a very slow game and is played as a last resort. Dealer's Choice is always very social and a good way for new players to learn new games.

## Betting Limits

The following betting limits can be posted as the betting limits for any and all of the games offered at Angie's:

\$1 - \$3/\$1 - \$6

\$2 - \$4

\$2 - \$4/\$2 - \$8

\$5 - \$10

\$6 - \$12

\$10 - \$20

Pot Limit

No Limit

With the exception of Pot Limit and No Limit, any and all games played at the other betting limits can be played with a half kill or full kill.

Kill Rules:

1. The game is played with a kill button added to the pot. The winner of the pot receives the kill button.
2. If the player with the kill button wins the very next pot in a row, the betting stakes for the next pot go up. The amount of the kill button blind will vary according to the stakes of the game. In a Half Kill game the stakes go up by one-and-a-half. In a Full Kill game the stakes double.  
Example: In a Half Kill game with a \$2 big blind, the big blind would be set at \$3 (one-and-a-half) if the player with the kill button won two pots in a row.
3. The kill blind must be paid.
4. The player with the kill button returns the button to the pot as soon as he or she loses or folds a hand.

Players should call Angie's Poker Club at (530) 892-2282 to verify the betting limits currently posted for play for various games.

## **Detailed description of game**

### **Standards of play:**

The object of the game is to set the thirteen cards received on the deal into three hands that will rank higher than the three hands set by the other active players at the table. The player must arrange the hand according to the three-five-five-card formation. The front hand may not rank higher than the middle hand; the middle hand may not rank higher than the back.

### **Type of card deck:**

Chinese Poker is played with one standard 52-card poker deck and no joker.

### **Dealing procedures:**

The casino dealer deals the cards face down in front of the dealer tray. Cards will be dealt consecutively to the first stack until there are 13 cards, and then the next stack of cards will be dealt. This procedure will occur until 4 stacks of cards are dealt, each stack containing 13 cards. Once the stacks of cards have been dealt, the first stack on the casino dealer's left will be dealt to the player with the dealer button and the action button. The dealer button and action button will rotate clockwise each round of play.

### **Number of players:**

The game allows up to five (5) seated players. However, in a 5 handed game, only four players will receive a hand will be actively playing. The fifth player will become eligible during the next round of play when the action button and dealer button rotates. The fifth player may also be eligible to participate provided that one of the 4 hands chooses not to participate during that round of play.

### **How and when are house fees collected:**

By the house prior to cards being dealt.

### **Collection Procedure:**

Flat fees on each wager may be assessed at different collection rates; but no more than five (5) collection rates may be established per table.

### **Table Fee- house fee collection**

The collection fee is taken from each player per round of play prior to any cards being dealt. Each player must post the following collection fee.

The collection fee is taken from each player per round of play prior to any cards being dealt. Each player must post the following collection fee. Additionally, the player that has the action button and the dealer button shall be required to pay a fee as well.

### **What is the betting scheme:**

The limit of the game indicates the wager being played for; each hand basically represents one (1) point which is equivalent to the money value of the game's limit.

i.e., in a \$5.00 limit game each point would have a money value of \$5.00.

## **How winners are determined and paid:**

The player wins one point when their respective hand ranks higher than the other active players. If the hands have the same exact rank; it results in a tie (push) no wager is exchanged, except ties between a player in possession of the action and dealer buttons and another player, in which case the player with both button wins all ties. The following are the ranking of hands in the descending order of values:

1. Royal Flush
2. Straight Flush
3. Four of a Kind
4. Full House
5. Flush
6. Straight ( A-2-3-4-5-is the smallest Straight)
7. Three of a Kind
8. Two Pairs
9. One Pair
10. No Pair (Nothing)

## **Round of Play**

The players wager will play against the rest of the participants. The player's wager at the beginning of the hand determines the amount of transaction of wagers that might take place during the settlement of the wagers. The portion of the player's wager that has received action will not be allowed to be involved in subsequent transactions. When comparing hands, each player will compare their back, middle, and front hands against the other player's corresponding hands, as shown below. The Point System will be used to pay winners, as described below.

The settlement of wagers will be conducted in the following fashion:

1. The player with the action and dealer buttons settles the payoff against the position to their left, which is the 2<sup>nd</sup> position.
2. The player with the action and dealer buttons settles the payoff against the position to the left of the 2<sup>nd</sup> position, which is the 3<sup>rd</sup> position.
3. The player with the action and dealer buttons settles the payoff against the position to the left of the 3<sup>rd</sup> position, which is the 4<sup>th</sup> position.
4. The player in 2<sup>nd</sup> position, which is to the left of the action and dealer buttons, settles the payoff against the position to their left, which is the 3<sup>rd</sup> position.
5. The player in 2<sup>nd</sup> position, which is to the left of the action and dealer buttons, settles the payoff against the position to the left of the 3<sup>rd</sup> position, which is the 4<sup>th</sup> position.
6. The player in the 3<sup>rd</sup> position, which is to the left of the action and dealer buttons, settles the payoff against the position to their left, which is the 4<sup>th</sup> position.

## **Describe a "round of play"**

The dealer will deliver the first stack from the casino dealer's left to right; they will be referred to as # 1 through # 4) one hand (13 cards) per seat, starting from the action button and dealer button position. If it is the first hand of a new game, the action button and the dealer button will be given to the first clockwise player from the casino dealer. All players will view their hands and set the cards to front, middle and back hands at the table. Once all

# Chinese Poker '

hands are properly placed on the table, players will expose the hands and compare with each other. The payoff process then follows as described above.

## **Type of gaming table utilized for this game:**

Standard poker table

**Point System:** The settlement of wagers is based on points awarded for each hand. In the basic point system, each of the three segments is worth one (1) point which has a monetary value depending on the table limit. The player who has the highest ranking hand for each segment wins one point from their opponent(s). If the hands have the same exact rank; it results in a tie (push) no wager is exchanged, except ties between a player in possession of the action and dealer buttons and another player, in which case the player with both button wins all ties. Therefore, if a player wins two out of the three segments, that player shall be paid one point. If a player wins all three segments, that player shall be paid three points.

In addition to players receiving one point for each winning hand, certain situations will qualify to win extra points, such as *Bonus Hand* and *Clean Sweep*. One of these or all of these may be won during each round.

**Bonus System:** additional points shall be awarded for making certain hands in the winning front, middle, and back segments. A player earns one point for each winning segment, and if a "Bonus" hand is present, points are added on the "Bonus" hand. Bonus hands and points earned as follows:

Hand Dealt	Points		
	Top Segment	Middle Segment	Bottom Segment
Three of a Kind	3 Points	N/A	N/A
Full House	N/A	2 Points	N/A
Four of a Kind	N/A	8 Points	4 Points
Straight Flush	N/A	10 Points	5 Points

Bonus points may be awarded in addition to the other points awarded for winning a segment or Clean Sweep. In order to get the bonus for each segment, as shown above, the following requirements must be met:

- Must win the segment to win the Bonus. If a player has a qualifying bonus hand but loses the segment, they shall not be paid the bonus.
- Bonus Hand values are always additional points.

*Example:* if a player wins two out of three segments and has four of kind in the back, that player shall win two points for two segments and four points for the four of a kind in the back for a total of six (6) points.

**Clean Sweep:** "Clean Sweep" hands have a special ranking and automatically win. A "Clean Sweep" hand must be declared after the player has received their cards but before the showdown. If a player has a "Clean Sweep," the player is not required to set the back, middle, and front hands. Additionally, that player's hand will not participate in the comparing of segments and will not be required to pay players if they receive a bonus. In order to qualify for a "Clean Sweep" hand, all 13 cards are considered and are not

# Chinese Poker '

required to be set a particular way. The 13 cards that make a clean sweep hand must be contained in the 13 cards in order to qualify. The following are the "Clean Sweep" hands ranked from highest to lowest:

<b>Clean Sweep Hands</b>	
<b>Hand Dealt</b>	<b>Point Value</b>
<b>Dragon</b> Ace through King, Any Suit	13
<b>6 Pairs</b> Hand consist of 6 pairs (4 of a kind may be used as 2 pairs)	3
<b>Three Straights</b> Contains straights in all three segments (top, middle, bottom)	3
<b>Three Flushes</b> Suited cards in all three segments (top, middle, bottom)	3

\* Clean sweep hands with same value are pushed. Clean sweep hands with higher value will be paid full of amount winning value, not deducted. Clean sweep hand must be announced before any cards are turned over. In the situation where a player has 2 clean sweeps in one hand; they will be paid the higher value only. Clean sweep hands will be paid before all regular hands are compared, starting with the player with the action and dealer buttons and moving clockwise. Once the "clean sweep" hand has been paid, all hands will be compared according to the rules above.

When a player declares a "Clean Sweep" hand, the casino dealer will verbally confirm this with the player. Once confirmed, the dealer will place a marker on the top of the hand. The "Clean Sweep" hand will be viewed first on the showdown and the player collects its value first. If more than one player has a "clean Sweep" hand the higher ranking "Clean Sweep" hand will collect the total point value for that hand; the point value for the lower ranking "Clean Sweep" hand will not be subtracted. If two "Clean Sweep" hands have the same ranking, it is a tie. No money is exchanged between these two players, but they still may collect from the other players. Conversely, if a player sets their front, middle, and back hands and after cards are exposed, it is determined that the hand qualified as a "Clean Sweep" hand, it will be played as a regular hand and will not qualify for the "Clean Sweep."

## Game Rules

1. The buy-in is twenty (20) times the value of one point of the game. Only the chips on the table will play. Any player adding or subtracting chips to the stack after he/she picks up the cards may cause his/her hand to be fouled. The exception is if a player declares the amount he/she intended to add to the stack and does so before the showdown. One short re-buy is available for a minimum of ten (10) times the value of one point of the game.

2. You can only win up to the amount of money in your stack at the start of the hand. Players are responsible for their own pay-offs. The dealers are not responsible for either the pay-offs or the reading of the hands. In an all-in situation, pay-off will be paid clockwise, starting with the player with the action and dealer buttons. A minimum of nine (9) points worth of chips will be needed in play before each hand; this is to be enforced by the players.
3. In an all-in situation, the settlement of wagers starts to the left of the dealer button and proceeds clockwise around the table. The all-in player's payoff will end when the total wager exchanged is equal to the amount that was in front to that player at the beginning of the hand.
4. Players are responsible for their own payoffs. The dealers are not responsible for either the payoffs or the comparison of hands.
5. If a player fails to set his/her hand in the proper ranking order or in the prescribed 3-5-5 combination, the hand is considered fouled and the player must pay a penalty to each player. A player who fouls their hand for any segment shall be required to pay each player 3 points for each segment, and any qualifying bonus or clean sweep hand that a player may have.
6. If a player declares a "Clean Sweep" hand but cannot produce it, the player has a fouled hand and will be required to pay each player the penalty, as described above.
7. Before a showdown, a misdeal will be declared if:
  - a. Five or more cards of one player's hand are exposed by the dealer '
  - b. Any player is dealt the wrong number of cards. '
  - c. Five or more boxed cards appear in the deck '
  - d. A foreign card appears. '
8. Any hand containing an incorrect number of cards may be fouled. It is the player's responsibility to notify the house dealer before the showdown that an incorrect number of cards have been dealt.
9. On the showdown, if a player's hand contains two of the same cards, the player's hand is a fouled hand. If two of the same cards belong to different players, the hand will be declared a misdeal.
10. Exposed cards or boxed cards will play as dealt.
11. Ace-2-3-4-5 is the smallest straight.
12. Any chips less than the minimum condition (point) of the game will not play. Any chips larger than the table denomination must be changed to the table denomination.

## OBJECT OF THE GAME

The object of Pure 21.5 Blackjack is for the players and the player-dealer to add the numerical value of their cards and:

- Achieve the best possible point total of 21.5 by getting a King, Queen, Jack, or Ten Bonus Card and an ace on the initial two cards dealt (example King Bonus Card below). This hand pays 3 to 2.

- Get as close to 21.5 as possible, without going over.
- Draw additional cards if needed.

## VALUE OF THE CARDS

The game uses a modified 52-card deck with aces through nines (the standard spades, hearts, clubs and diamonds) and 16 cards specially marked with the word “Bonus” (four of each "king", "queen", "jack", and "ten" card). The game is played with a minimum of a single deck to a maximum of eight decks.

- A King, Queen, Jack or Ten Bonus card and an Ace, on the initial deal, is the best possible hand. It is known as a “Pure 21.5 Blackjack” and pays 3 to 2.
- A King, Queen, Jack, or Ten Bonus card dealt with any other card is worth 10 and is added to the other card(s) point total.
- An ace has a value of either 1 or 11.
- All cards from 2-9 have their face value.
- King, Queen, Jack, or Ten Bonus cards have a value of 10 unless dealt with an Ace on the initial deal, and then they have a value of 10.5.

## ROUND OF PLAY

1. Pure 21.5 Blackjack is played on a raised gaming table. The table seats eight players who face the house dealer in a 180-degree seating arrangement. The tables are the standard blackjack tables commonly used in the casino industry. The house dealer stands opposite the players, and in the center of the table. The house dealer’s chip tray is set in front of the dealer.
2. All tables will have some type of signage where the name of the game is displayed, along with the minimum and maximum wager allowed. The collection fee for the players and player-dealer will also be displayed. A maximum of five collection rates is allowed in compliance with the California Penal Code.

Pure 21.5 Blackjack 3 to 2

3. A standard round of play begins when a player-dealer is designated. The player-dealer will place a wager in a betting circle in front of their seat. That wager will be used to pay the winners and will set the amount that he/she can collect for the losers. The casino will place a button in front of the player-dealer, which designates that he/she is taking the "bank" position and further designates whether it is the first or second turn for the player-dealer in the banking position. The player-dealer will place the appropriate collection fee in front of his/her betting circle.
4. Players at a table then place their wagers in designated betting circles. The players may place a wager at his/her seat along with other unoccupied betting circles. Each player must pay the appropriate collection fee based on the posted schedule for the cardroom. Prior to the start of play the house dealer will take collection fees and drop them into a locked collection box affixed to the gaming table.
5. After the fees have been collected, the house dealer will deal the cards to the players and the player-dealer. All cards dealt throughout the game are face up, with the exception of the player-dealer's second card, which will remain face-down until all players have acted on their hands. The house dealer is the only person on the table allowed to touch the cards. The players will signal the dealer with hand gestures that indicate whether they wish to hit or stand. The hand signals will be consistent with the industry standard signals of a sweeping motion towards a player's body, indicating a hit, or a side to side hand motion, indicating the desire to stand. The house dealer deals the first card to the player seated to the left of the player-dealer, and continues in a clock-wise manner. Each player will be dealt one card face up with the player-dealer receiving the last card. The player-dealer's cards will be placed in front of the house dealer.
6. The house dealer will deal a second card to the players in the same order noted above and the last card will go to the player-dealer and will be dealt face down. The players are given an opportunity, starting with the player seated to the left of the player-dealer, to be dealt additional cards to make the best possible hand. (Rules and procedures for splitting, doubling down and surrender will be outlined later).
7. Players must follow the below listed **Chart 1A** in deciding whether to hit or stand on a particular hand.
8. After all players have acted on their hands and indicated to the house dealer that they do not want or cannot receive additional cards, the player-dealer's down card will be turned up.
9. The action on payouts will always begin with the player to the left of the player-dealer position and continue clockwise. All wagers shall be settled from seat to seat in the following order: all game wagers followed by all Red Flex wagers and then all Buster Blackjack Bonus Bet wagers. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer shall be returned to the respective players.
10. The player-dealer's hand will then be completed according to the rules listed on **Chart 1B**. Once the player-dealer's hand is completed, the payoff and/or collection of wagers will begin with the player to the left of the player-dealer and continue in a clockwise manner until all wagers have been acted on.
11. Player-dealers are never required to cover all opposing players' wagers. Payoffs of wagers are limited to the amount of the player-dealer wager. The house shall not participate as the player-dealer. The house shall not take a percentage of wagers placed in the game. There is no maximum on the player-dealer's wager.
12. The player-dealer's cards will always be dealt and placed in front of the house dealer's tray.
13. The next round of play begins when the house dealer collects all the cards from the table and places them in the discard tray. The player-dealer position shall be offered systematically and continuously in a clockwise manner around the table after every two hands. The player-dealer shall collect all losing wagers, pay all winning wagers, and may not win or lose more than the original amount wagered. Once the player-dealer's

wager has been exhausted, the wagers not covered by the player-dealer shall be returned to the respective players. The gambling establishment does not participate in the actual play of the game and has no interest in the outcome of the play.

**GAME RULES**

1. &A Pure 21.5 Blackjack (an ace and a King, Queen, Jack, or Ten Bonus card) is the best possible hand. If the player and the player-dealer's hand are both Pure 21.5 Blackjack the hand is a push or tie, and no action is taken on the wager.
2. &If the player-dealer does not have a Pure 21.5 Blackjack, the players will be given the option to draw to improve their hands, in accordance with Chart 1A above. The player-dealer's face-down card will be checked by the house dealer, for a Pure 21.5 Blackjack, when the player-dealer's face-up card is an ace or King, Queen, Jack or Ten Bonus Card. This will happen prior to any additional cards being given to players. If the player-dealer has Pure 21.5 Blackjack, no additional action will take place and all players' hands that do not have a Pure 21.5 Blackjack will lose.
3. After all players have been given a chance to act on their hands, the player-dealer's hand will be completed in accordance with Chart 1B.
4. If a player's total is less than a Pure 21.5 Blackjack and the player-dealer's total is more than a Pure 21.5 Blackjack, the player wins the hand.
5. If a player's total is more than a Pure 21.5 Blackjack and the player-dealer's total is less than a Pure 21.5 Blackjack, the player loses the hand.
6. If a player and the player-dealer have the same total and it is less than a Pure 21.5 Blackjack, the hand is a push or tie. No action is taken on the wager.

7. If a player's total and the player-dealer's total are less than a Pure 21.5 Blackjack, the hand closest to a "Pure 21.5 Blackjack" will win.
8. If a player's total and the player-dealer's total are more than a Pure 21.5 Blackjack, the following will apply:
  - a. If the player-dealer's hand is 888 (three eights) all players whose total is more than 21.5 push.
  - b. If the player-dealer's hand is not 888 (three eights) all players whose total is more than 21.5 lose.
9. All collection rates and wagering limits will be posted at the table. They will not be based on any percentage.
10. Backline betting is permitted on the base game wager only.
11. Third Party Providers of Proposition Player Services, as defined in Section 19984 of the California Business and Professions Code, are permitted to play.

### **DOUBLE-DOWN, SPLIT, AND SURRENDER**

1. Players can double-down on the first two cards dealt to them. The player must place a second wager which may be equal to or less than the player's original wager. The player will only receive one additional card, regardless of the total.
2. Players can split any pair or two (King, Queen, Jack, or Ten) Bonus cards. The player must place a second wager equal to the original wager. The player may draw as many cards as desired per split card. When splitting two Aces, the player only receives one additional card per ace. There is no splitting for less.
3. A maximum of three splits is allowed per hand, giving a player up to 4 hands. Doubling-down is permitted after splitting.
4. Players can surrender after the first two cards are dealt to them. If they choose to surrender, half of their wager will be forfeited. The player must indicate their desire to surrender before the player-dealer's down card is exposed. Their play for the hand will then cease.
5. The cardroom will take no extra collection fee on double downs or splits from the player or player-dealer.
6. All payoffs are to the extent that the player-dealer's money covers the action on the table. A player-dealer cannot win or lose more than the entire amount of money placed on the table before the start of the hand.

## INSURANCE AND EVEN MONEY

1. & If the player-dealer's face-up card is an ace, all players will have the option to place a separate "insurance" wager. They are wagering that the player-dealer's face-down card is a King, Queen, Jack, or Ten Bonus card, giving the player-dealer a Pure 21.5 Blackjack. Winning insurance wagers will pay 2 to 1. Insurance wagers may be equal to no more than  $\frac{1}{2}$  of a player's original wager.
2. & In conjunction with offering insurance, when the player-dealer's face-up card is an ace, players that have a Pure 21.5 Blackjack (an Ace and a King, Queen, Jack, or Ten Bonus Card) may opt to take even money on their wagers before the player-dealer's face-down card is checked for a King, Queen, Jack, or Ten Bonus Card. The player is actually making an insurance wager equal to  $\frac{1}{2}$  of the original wager. If the player-dealer has a Bonus card as the undercard (a Pure 21.5 Blackjack), the Player wins the insurance bet (a wager equal to  $\frac{1}{2}$  of the original wager that pays 2 to 1) and pushes on the original wager. If the player-dealer does not have a King, Queen, Jack, or Ten Bonus Card as the undercard, the player will lose the insurance bet and is paid, in accordance with the Pure 21.5 Blackjack payoff, on the original wager. The result in each case is the same as the player wins an amount equal to the original wager (even money).

## RED FLEX BET

Each player wagering in the base game of Pure 21.5 Blackjack has the option of placing a wager on the designated Red Flex Bet spot located next to each player's position on the gaming felt layout. When the player-dealer's first two (top hole) cards are "Red," the **RED FLEX BET™** is an automatic winner. The more consecutive red cards by the player-dealer's hand the higher the **RED FLEX BET™** pay off.

There will be a distinctive marked circle on the table in which the player will place the optional wager.

### Rules of Play

1. & The Red Flex Bet is an optional wager offered to all players who placed a game wager. Players may place a Red Flex Bet for each game wager placed.
2. Red Flex Bets must be placed prior to the initial deal.
3. Back-line betting is not permitted on the Red Flex Bet.
4. **See the collection rate schedule** for restrictions on the amount that may be wagered on the Red Flex Bet.
5. The Red Flex Bet shall remain in action regardless of the outcome of the base game wager.
6. Once all players have made the decisions concerning their hands according to the rules for game, the player-dealer will reveal his hole card and play out his hand. The payoff odds vary with the number of red cards that are in the player-dealer's hand as well the number of consecutive red cards that are dealt to the player-dealer's hand. Red cards are cards that are either the following suits: hearts or diamonds. Players making this optional bet will win if the player-dealer's first two cards (top and hole cards) are the same red color. Payoffs will increase exponentially if subsequent cards taken to the player-dealer's hand are also red. The order of the cards is listed below.
  - a) Player-Dealer's first card (top).
  - b) Player-Dealer's (hole) second card.
  - c) Player-Dealer's first hit card.
  - d) Player-Dealer's second card.
  - e) Player-Dealer's third card.

f) Player-Dealer's fourth hit card and so on.

The amount of the winning payoff will be determined once the player-dealer's hand is complete or a black card is drawn.

5.&The player-dealer will pay all winning Red Flex Bets and will collect all losing Red Flex Bets. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer will be returned to the players.

- 7.&Once all players have made the decisions concerning their hands according to the rules for game, the player-dealer will reveal his or her hole card and play out his hand. The payoff odds vary with the number of cards in the player-dealer's busted hand. The more cards in his busted hand, the higher the payoff.
  - a. If the player-dealer's hand busts, all Buster Blackjack Bonus Bets will be paid according to the posted Buster Blackjack pay table.
  - b. If the player-dealer's hand does not bust, all Buster Blackjack Bonus Bets will be collected in rotation to the extent of the money in action.
- 6.&The player-dealer will pay all winning Buster Blackjack Bonus Bets and will collect all losing Buster Blackjack Bonus Bets. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer will be returned to the players.

**Note:** If there are no game wagers remaining simply because all players have received a Pure 21.5 Blackjack, as long as there are Buster Blackjack Bonus Bet(s), the player-dealer must complete his or her hand, if it is not 17 or greater.

**Wagering Limits and Collection Fees**

For **schedule options 1 and 3**, a collection fee shall be taken per hand from the player in the player-dealer position based on the total monetary value of all game wagers and bonus bet wagers that are placed by players prior to cards being dealt, referred to as total table action. The total table action does not count the player-dealer's wager or any additional wagers placed by players after cards are dealt, such as when players double-down, split cards, place an insurance wager, or when a hand is surrendered. There shall also be a collection fee taken from a player per bet when placing a game wager. However, there shall be no additional collection fee taken from players for placing a bonus bet, doubling-down, splitting, surrendering their cards, or placing an insurance bet. For **schedule options 4 through 8**, a collection fee shall be taken per hand from the player in the player-dealer position based on the total monetary value of all game wagers and bonus bet wagers that are placed by players prior to cards being dealt, referred to as total table action. The total table action does not count the player-dealer's wager or any additional wagers placed by players after cards are dealt, such as when players double-down, split cards, place an insurance wager, or when a hand is surrendered. There shall be no collection fee taken from players for placing a game wager, bonus bet, doubling-down, splitting, surrendering their cards, or placing an insurance bet. The Red Flex Bet must be within the table limits and a maximum amount of \$100. The Red Flex Bet wager may be less than, equal to, or more than the game wager. The Buster Blackjack Bonus Bet must be within the table limits and a maximum amount of \$100. The Buster Blackjack Bonus Bet may be less than, equal to, or more than the game wager. The collection fees shall be collected from the player-dealer and dropped by the house dealer after the house dealer has dealt each player their initial two card hand. The collection fees shall be pre-determined prior to any cards being dealt or a round of play commencing. Only one collection schedule option, which utilizes one table limit and the specified collection fees for that table limit, as listed above, shall be used at a table at any one time. Rates may not be calculated as a fraction or percentage of wagers made or winnings earned. Flat fees on wagers may be assessed at different collection rates. However, no more than five collection rates may be permitted per table limit. The approved collection fees and schedules for the game of Pure 21.5 Blackjack 3 to 2 are as shown below:

## OBJECT OF THE GAME

The object of Pure 21.5 Blackjack is for the players and the player-dealer to add the numerical value of their cards and:

- Achieve the best possible point total of 21.5 by getting a King, Queen, Jack, or Ten Bonus Card and an ace on the initial two cards dealt (example King Bonus Card below). This hand pays 6 to 5.

- Get as close to 21.5 as possible, without going over.
- Draw additional cards if needed.

## VALUE OF THE CARDS

The game uses a modified 52-card deck with aces through nines (the standard spades, hearts, clubs and diamonds) and 16 cards specially marked with the word “Bonus” (four of each "king", "queen", "jack", and "ten" card). The game is played with a minimum of a single deck to a maximum of eight decks.

- A King, Queen, Jack or Ten Bonus card and an Ace, on the initial deal, is the best possible hand. It is known as a “Pure 21.5 Blackjack” and pays 6 to 5.
- A King, Queen, Jack, or Ten Bonus card dealt with any other card is worth 10 and is added to the other card(s) point total.
- An ace has a value of either 1 or 11.
- All cards from 2-9 have their face value.
- King, Queen, Jack, or Ten Bonus cards have a value of 10 unless dealt with an Ace on the initial deal, and then they have a value of 10.5.

## ROUND OF PLAY

1. & Pure 21.5 Blackjack is played on a raised gaming table. The table seats eight players who face the house dealer in a 180-degree seating arrangement. The tables are the standard blackjack tables commonly used in the casino industry. The house dealer stands opposite the players, and in the center of the table. The house dealer’s chip tray is set in front of the dealer.
2. All tables will have some type of signage where the name of the game is displayed, along with the minimum and maximum wager allowed. The collection fee for the players and player-dealer will also be displayed. A maximum of five collection rates is allowed in compliance with the California Penal Code.

Angie's Poker Club  
Pure 21.5 Blackjack 6 to 5

3. A standard round of play begins when a player-dealer is designated. The player-dealer will place a wager in a betting circle in front of their seat. That wager will be used to pay the winners and will set the amount that he/she can collect for the losers. The casino will place a button in front of the player-dealer, which designates that he/she is taking the "bank" position and further designates whether it is the first or second turn for the player-dealer in the banking position. The player-dealer will place the appropriate collection fee in front of his/her betting circle.
4. Players at a table then place their wagers in designated betting circles. The players may place a wager at his/her seat along with other unoccupied betting circles. Each player must pay the appropriate collection fee based on the posted schedule for the cardroom. Prior to the start of play the house dealer will take collection fees and drop them into a locked collection box affixed to the gaming table.
5. After the fees have been collected, the house dealer will deal the cards to the players and the player-dealer. All cards dealt throughout the game are face up, with the exception of the player-dealer's second card, which will remain face-down until all players have acted on their hands. The house dealer is the only person on the table allowed to touch the cards. The players will signal the dealer with hand gestures that indicate whether they wish to hit or stand. The hand signals will be consistent with the industry standard signals of a sweeping motion towards a player's body, indicating a hit, or a side to side hand motion, indicating the desire to stand. The house dealer deals the first card to the player seated to the left of the player-dealer, and continues in a clock-wise manner. Each player will be dealt one card face up with the player-dealer receiving the last card. The player-dealer's cards will be placed in front of the house dealer.
6. The house dealer will deal a second card to the players in the same order noted above and the last card will go to the player-dealer and will be dealt face down. The players are given an opportunity, starting with the player seated to the left of the player-dealer, to be dealt additional cards to make the best possible hand. (Rules and procedures for splitting, doubling down and surrender will be outlined later).
7. Players must follow the below listed **Chart 1A** in deciding whether to hit or stand on a particular hand.
8. After all players have acted on their hands and indicated to the house dealer that they do not want or cannot receive additional cards, the player-dealer's down card will be turned up.
9. The action on payouts will always begin with the player to the left of the player-dealer position and continue clockwise. All wagers shall be settled from seat to seat in the following order: all game wagers followed by all Red Flex wagers and then all Buster Blackjack Bonus Bet wagers. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer shall be returned to the respective players.
10. The player-dealer's hand will then be completed according to the rules listed on **Chart 1B**. Once the player-dealer's hand is completed, the payoff and/or collection of wagers will begin with the player to the left of the player-dealer and continue in a clockwise manner until all wagers have been acted on.
11. Player-dealers are never required to cover all opposing players' wagers. Payoffs of wagers are limited to the amount of the player-dealer wager. The house shall not participate as the player-dealer. The house shall not take a percentage of wagers placed in the game. There is no maximum on the player-dealer's wager.
12. The player-dealer's cards will always be dealt and placed in front of the house dealer's tray.
13. The next round of play begins when the house dealer collects all the cards from the table and places them in the discard tray. The player-dealer position shall be offered systematically and continuously in a clockwise manner around the table after every two hands. The player-dealer shall collect all losing wagers, pay all winning wagers, and may not win or lose more than the original amount wagered. Once the player-dealer's

wager has been exhausted, the wagers not covered by the player-dealer shall be returned to the respective players. The gambling establishment does not participate in the actual play of the game and has no interest in the outcome of the play.

## INSURANCE AND EVEN MONEY

1. & If the player-dealer's face-up card is an ace, all players will have the option to place a separate "insurance" wager. They are wagering that the player-dealer's face-down card is a King, Queen, Jack, or Ten Bonus card, giving the player-dealer a Pure 21.5 Blackjack. Winning insurance wagers will pay 2 to 1. Insurance wagers may be equal to no more than  $\frac{1}{2}$  of a player's original wager.
2. & In conjunction with offering insurance, when the player-dealer's face-up card is an ace, players that have a Pure 21.5 Blackjack (an Ace and a King, Queen, Jack, or Ten Bonus Card) may opt to take even money on their wagers before the player-dealer's face-down card is checked for a King, Queen, Jack, or Ten Bonus Card. The player is actually making an insurance wager equal to  $\frac{1}{2}$  of the original wager. If the player-dealer has a Bonus card as the undercard (a Pure 21.5 Blackjack), the Player wins the insurance bet (a wager equal to  $\frac{1}{2}$  of the original wager that pays 2 to 1) and pushes on the original wager. If the player-dealer does not have a King, Queen, Jack, or Ten Bonus Card as the undercard, the player will lose the insurance bet and is paid, in accordance with the Pure 21.5 Blackjack payoff, on the original wager. The result in each case is the same as the player wins an amount equal to the original wager (even money).

## RED FLEX BET

Each player wagering in the base game of Pure 21.5 Blackjack has the option of placing a wager on the designated Red Flex Bet spot located next to each player's position on the gaming felt layout. When the player-dealer's first two (top hole) cards are "Red," the **RED FLEX BET™** is an automatic winner. The more consecutive red cards by the player-dealer's hand the higher the **RED FLEX BET™** pay off.

There will be a distinctive marked circle on the table in which the player will place the optional wager.

### Rules of Play

1. & The Red Flex Bet is an optional wager offered to all players who placed a game wager. Players may place a Red Flex Bet for each game wager placed.
2. Red Flex Bets must be placed prior to the initial deal.
3. Back-line betting is not permitted on the Red Flex Bet.
4. **See the collection rate schedule** for restrictions on the amount that may be wagered on the Red Flex Bet.
5. The Red Flex Bet shall remain in action regardless of the outcome of the base game wager.
6. Once all players have made the decisions concerning their hands according to the rules for game, the player-dealer will reveal his hole card and play out his hand. The payoff odds vary with the number of red cards that are in the player-dealer's hand as well the number of consecutive red cards that are dealt to the player-dealer's hand. Red cards are cards that are either the following suits: hearts or diamonds. Players making this optional bet will win if the player-dealer's first two cards (top and hole cards) are the same red color. Payoffs will increase exponentially if subsequent cards taken to the player-dealer's hand are also red. The order of the cards is listed below.
  - a) Player-Dealer's first card (top).
  - b) Player-Dealer's (hole) second card.
  - c) Player-Dealer's first hit card.
  - d) Player-Dealer's second card.
  - e) Player-Dealer's third card.

f) Player-Dealer's fourth hit card and so on.

The amount of the winning payoff will be determined once the player-dealer's hand is complete or a black card is drawn.

5.&The player-dealer will pay all winning Red Flex Bets and will collect all losing Red Flex Bets. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer will be returned to the players.

### Dealing Procedures and Round of Play

At the start of a game a player is offered the player-dealer position. Once accomplished, the house dealer shall wait for each player to make their wager in accordance with the table limits.

Each player has the following options when placing their wager(s):

- The player line which pays 1 to 1;
- The banker line which pays 1 to 1;
- The Tie Bet, which pays 8 to 1;
- If a player placed a wager on either the player line or the banker line, that player may place a wager on the Dragon 7 Bonus Bet, which pays 40 to 1.
- If a player placed a wager on either the player line or the banker line, that player may place a wager on the Panda 8, which pays 25 to 1.

Once all wagers are placed, the house dealer deals one card to the right and one card to the left, one by one in rotation, until each hand has a total of two cards each. All cards are dealt face-up. The hand to the left of the house dealer is a community hand that belongs to those that placed a bet on the banker line. The hand to the right of the house dealer is a community hand that belongs to those that placed a bet on the player line. The player's hand is resolved first and then the banker's hand is resolved. The hand that is closest to nine wins. After the house dealer delivers the first two cards to both the Player line and Banker line, the following Baccarat rules are followed.

- The player's hand must stand when the hand is valued at 6 through 9, and must hit when the hand is valued at 5 or less.
- If the player's hand stands, then the dealer hand hits on a total of 5 or less.
- If the player's hand hits for a complete hand then the banker's hand hits using the following rules:
  - If the banker's hand total is 3, then the banker's hand is dealt a third card unless the third card dealt to the player's hand was an 8.
  - If the banker's hand total is 4, then the banker's hand is dealt a third card unless the third card dealt to the player's hand was a 0, 1, 8, or 9.
  - If the banker's hand total is 5, then the banker's hand is dealt a third card if the third card dealt to the player's hand was 4, 5, 6, or 7.
  - If the banker's hand total is 6, then the banker's hand is dealt a third card if the third card dealt to the player's hand was a 6 or 7.

The following chart shows when the banker hits (H) or stands (S) according to the rules above:

Banker's Score	Player's Third Card									
	0	1	2	3	4	5	6	7	8	9
<b>7</b>	S	S	S	S	S	S	S	S	S	S
<b>6</b>	S	S	S	S	S	S	H	H	S	S
<b>5</b>	S	S	S	S	H	H	H	H	S	S
<b>4</b>	S	S	H	H	H	H	H	H	S	S
<b>3</b>	H	H	H	H	H	H	H	H	S	H

<b>1</b>	H	H	H	H	H	H	H	H	H	H
<b>0</b>	H	H	H	H	H	H	H	H	H	H

The house dealer must use the "house way" when a player requests the house dealer to play an additional wager. House way hands shall be set as follows: player hand hits on five or below and stands on six or more

**EZ BACCARAT PANDA 8****How Each Wager Wins, Loses, or Pushes**

Once both hands have been completed, according to the guidelines above, the player's wagers are settled. The following shall apply for each possible outcome when determining the winner. The player-dealer shall pay and collect all wagers accordingly:

- The player-dealer shall pay all winning player line wagers made by players when the player hand is closer to nine than the banker hand.
- The player-dealer shall pay all winning banker line wagers made by players when the banker hand is closer to nine than the player hand.
- The player-dealer shall collect all losing player line wagers made by players when the banker hand is closer to nine than the player hand.
- The player player-dealer shall collect all losing banker line wagers made by players when the player hand is closer to nine than the banker hand.

In the event that the player's hand and the banker's hand are not of the same value, the player-dealer shall win the tie bet wager.
- All winning Tie Bet wagers shall be paid 8 to 1.
- Wagers are collected or paid, to the extent that the player-dealer's wager covers. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer shall be returned to the players.

**Dragon 7 Bonus Bet**

- For each seated position, there shall be one separate and specifically designated area for the placement of a Dragon 7 Bonus Bet wager. A player may only place a Dragon 7 Bonus Bet wager if they have also placed a wager on either the player line or on the banker line prior to the initial deal.
- Back-line betting is permitted on the Dragon 7 Bonus Bet.
- See the collection rate schedule for restrictions on the amount that may be wagered on the Dragon 7 Bonus Bet and any collection fees that may be taken.
- If the banker hand has a point value of seven using three cards and the player's hand has a value of six or less, regardless of the number of cards, the Dragon 7 Bonus Bet wins. The Dragon 7 Bonus Bet shall lose on all other outcomes.
- All winning Dragon 7 Bonus Bet wagers shall be paid 40 to 1.
- The player-dealer shall pay all winning Dragon 7 Bonus Bet wagers and shall collect all losing Dragon 7 Bonus Bet wagers. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer shall be returned to the players.

**California Games Collection Procedures**

California games utilize a player-dealer position. The position must be offered systematically and continuously in a clockwise manner around the table after every two hands. The player-dealer shall collect all losing wagers, pay all winning wagers, and may not win or lose more than the original amount wagered. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer shall be returned to the players. The gambling establishment does not participate in the actual play of the game and has no interest in the outcome of the play.

- Only one collection schedule option, which utilizes one table limit and the specified collection fees for that table limit, as listed above, shall be used at a table at any one time. Collection Rates and fees shall be determined prior to the start of play of any hand or round. Rates may not be calculated as a fraction or percentage of wagers made or winnings earned. Flat fees on wagers may be assessed at different collection Rates; however, no more than five collection Rates may be established per table limit.
- Casino 99 shall provide ample notice to patrons regarding the collection rates and fees, as well as the procedure for collecting them. Collection fees shall be conspicuously posted on or within view of every gaming table.
