8. When the players have made their wagers (if any), the house dealer shall proceed to turn over the first three community cards.

 - a. Collect the Ante and Blind wagers, any Trips Bonus Bet (if the hand is not a Three of a Kind or better) on behalf of the player-dealer;
 - b. Take the player's cards and individually spread out the cards, face-down, and count them; and
 - c. Place the cards in the discard rack.
13. For all remaining players, the house dealer will turn over the player-dealer's two cards.
14. Each player and the player-dealer's two cards will be combined with three of the five community cards to make the best five-card poker hand.
15. The action on payouts will always begin with the player to the left of the player-dealer position and continue clockwise.

16. All wagers shall be settled from seat to seat in the following order: Ante, Play, Blind wagers and then the Trip Bonus Bet.
17. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer shall be returned to the respective players.

How Winners are Determined and Paid

Once the hands have been completed, according to the guidelines above, the player's wagers are settled. The following shall apply when determining whether the player wins, loses or pushes.

The player-dealer does not qualify when the player-dealer does **not** have a Pair or higher, the house dealer reconciles the hands of those players who remain in the game in the following way:

NOTE: Ultimate Texas Hold'em handles qualifying differently than other games when the player-dealer does not qualify, it is not an automatic win for the player.

1. Starting with the player on the player-dealer's left, the house dealer shall:
 - a. Expose each player's cards, signal a push for the Ante and return the Ante wager to each player that did not fold;
 - b. Resolve the Play, Blind, and Trips Bonus Bets normally (see below "When player-dealer qualifies"); and
 - c. Collect, count and place the player's cards in the discard holder.

The player-dealer qualifies when the player-dealer's hand has a poker value of a pair or higher, the house dealer reconciles the hands of those players who remain in the game in the following way:

1. Starting with the player to the left of the player-dealer, the house dealer will:
 - a. Bring the player's cards into the "work area" between the player-dealer's hand and the Trips Bonus Bet area and reveal the player's cards;
 - b. Determine the player's best five-card poker hand utilizing any of the seven cards available (player's two hole cards and five community cards);
 - c. Compare the player's hand with the player-dealer; and announce the value of the player's hand and whether it wins or loses.
2. A player's hand shall:
 - a. Win if it has a higher poker value than the player-dealer's hand;
 - b. Lose if it has a lower poker value than the player-dealer's hand;
 - c. Constitute a push if it has a poker value equal to the player-dealer's hand.
 - d. If a player wins with less than a Straight, the Blind bet pushes.
3. If a player's hand loses, the house dealer shall:
 - a. Collect on behalf of the player-dealer, in order, the Play, Ante and Blind wagers;
 - b. Determine whether the Trips Bonus Bet qualifies and pay accordingly on behalf of the player-dealer or collect the wager on behalf of the player-dealer; and
 - c. Collect, count and place the player's cards in the discard holder.
4. If a player's hand wins, the house dealer shall on behalf of the player-dealer:
 - a. Pay the Ante and Play wagers on the hand;
 - b. Pay the Blind wager if the hand is a Straight or better, see Blind pay table;
 - c. Determine whether the Trips Bonus Bet qualifies and pay accordingly, see Trips Bonus pay table; and
 - d. Collect, count and place the player's cards in the discard holder.

Ultimate Texas Hold'em

5. If a player's hand constitutes a push, the house dealer shall:
 - a. Pay the Trips Bonus Bet if the hand is a Three of a Kind or better or collect for the player-dealer if the hand is not a Three of a Kind;
 - b. Collect, count and place the player's cards in the discard holder.
6. Winning Ante and Play wagers shall be paid 1 to 1.
7. Winning Blind wager and Trips Bonus Bet shall be paid in accordance with the approved pay table for the cardroom (see table below).
8. Where a player has made a Trips Bonus Bet at the beginning of the round and has received a Three of a Kind or higher, the house dealer shall leave the particular cards face-up on the table and those cards shall not be collected or discarded until the payout on the hand has been made.
9. If the player receives a Three of a Kind or higher, the Trips Bonus Bet payouts are made regardless of whether the hand wins, loses, or pushes. (NOTE: If the player has a Three of a Kind or better, the Trips Bonus Bet always wins – even if the player folds.)
10. The player-dealer is never required to cover all opposing players' wagers. Payoffs of wagers are limited to the amount of the player-dealer wager. The house never participates as the player-dealer. The house never takes a percentage of wagers placed in the game. There is no maximum on the player-dealer's wager.

10. Once the player-dealer's hands are set according to the House Way, each player's hand is exposed, in turn, and compared to the player-dealer's hands to determine the winners, losers, or push hands.
11. Each player's five-card hand will be compared to the player-dealer's five card hand, and each player's two-card hand will be compared to the player-dealer's two card hand, in turn.
12. Wagers will be settled in a clockwise manner around the table, starting with the player with the Action button.
13. All wagers will be settled from seat to seat in the following order: the base game wager, then the Fortune Bonus Bet, and then the Envy Bonus. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer will be returned to the respective players.

How Winners are Determined and Paid

Once each player has set their hands and the house dealer has set the player-dealer's hand, each player's hand shall be compared against the player-dealer's hand. The following shall apply for each possible outcome when determining which hand wins, loses, or if there is a "push."

1. The Fortune Pai Gow Poker base game wager wins if the two-card hand and the five-card hand, held by the player, ranks higher than the player-dealer's two-card hand and five-card hand. Winning base game wagers are paid 1 to 1.
2. The Fortune Pai Gow Poker base game wager loses if the two-card hand and the five-card hand held by the player, ranks lower than the player-dealer's two-card hand and five-card hand.
3. The Fortune Pai Gow Poker base game wager "pushes" if one of the hands held by the player ranks higher than the player-dealer's corresponding hand, and the player's other hand ranks lower than the player-dealer's corresponding hand. In this case, neither the player nor the player-dealer wins or loses; the wager is a push and is returned to the player.

Fortune Pai Gow Poker

4. If either the two-card hand or the five-card hand is identical in rank to the player-dealer's two-card hand or five-card hand, it is a "copy hand." The player-dealer wins all copy hands.
5. Once the standard base game wagers are settled (win, lose, tie/push) the house dealer will determine if the player's hand qualifies for the Fortune Bonus and/or the Envy Bonus.
 - a. If the player's hand qualifies for payouts, the player is paid according to the posted pay table.
 - i. The house dealer leaves the Envy button, if applicable, next to the player's Fortune Pai Gow Poker game wager and payouts. The house dealer will not pick up Envy buttons until all wagers are reconciled.
 - b. If the player's hand does not qualify for payouts, the player-dealer collects the Fortune Bonus Bet.
 - i. The house dealer leaves the Envy button, if applicable, next to the player's Fortune Pai Gow Poker game wager and payouts. The house dealer will not pick up Envy buttons until all wagers are reconciled.
6. The player-dealer pays any Envy Bonuses at the end of the round as noted below:
 - a. If multiple players have made a seven-card qualifying Fortune Bonus Bet and Envy Bonus hand, then all players with an Envy button will win, other than for their own hand.
7. The player-dealer collects losing Fortune Bonus Bets and pays winning Fortune Bonus Bets to the extent of the player-dealer's wager.
8. The cards are collected, shuffled, and a new round begins.

Each seated position at the table shall have the same minimum and maximum wagering limits during each betting round, as specified by the table limits. Backline betting is not permitted.

Dealing Procedures and Round of Play

1. The game shall utilize a flat white disk with the words "dealer button" on it to visually designate which player is in the dealer position (in theory) for that hand.
 - a. The dealer button shall rotate from player to player around the table clockwise after each round of play.
 - b. The player with the dealer button is the last to receive cards, and has the right of last action on all rounds of play except for the first round, where the "big blind" shall have the right of last action.
2. The game also utilizes two separate disks, one with the words "small blind" and the other with the words "big blind" on them, to visually designate which player is in the "small blind" position and which player is in the "big blind" position.
 - a. The small blind and the big blind are used to initiate action and are positioned immediately to the left of the dealer button and posted before the house dealer deals cards.
 - b. On all subsequent wagering rounds (second, third, and fourth), the action is started by the first active player to the left of the dealer button.
 - c. The small blind and big blind buttons shall rotate from player to player around the table clockwise after each round of play.
3. When first opening a game, all players shall be dealt one card face-up, starting with the player to the immediate left of the house dealer and continuing clockwise around the table.
 - a. The player with the highest ranked card with traditional suit rankings (spades, hearts, diamonds, and clubs) will receive the flat white disk with the words "dealer button".
4. Cards will be collected and shuffled.
5. Once the dealer button has been distributed by the house dealer, the player to the immediate left of the player with the dealer button shall receive the small blind button and shall be required to place the small blind. Additionally, the player to the immediate left of the player who received the small blind button shall receive the big blind button and shall be required to place the big blind.
 - a. Both blinds are predetermined and mandatory for the players with the small blind and big blind buttons, and are used to initiate action.
 - b. Both blind wagers shall be placed in the designated wagering area, referred to as "the pot."
6. Once the blinds have been placed in the pot, the house dealer shall deal one card face-down to each player, starting with the player to the left of the dealer button, the player that received the small blind button, and continuing clockwise around the table until all players have two cards face-down.
 - a. These initial two cards are referred to as "hole" cards.

Texas Hold'em

7. Once each player has received their two hole cards, the first round of wagering will occur. Players are given the following options, starting with the player to the left of the player that received the big blind button and continuing clockwise around the table:
 - a. Place a wager that is equal to the amount of the big blind, referred to as a "call"; or,
 - b. Place their two hole cards face-down into the center of the table, referred to as a "fold." The hand shall be kept face-down and shall be collected by the house dealer, who shall then place them in the discard pile. A player that chooses to fold their hand will no longer participate during that round of play; or,
 - c. Place a wager equal to the amount of the big blind as well as an additional amount within the posted table limit, referred to as a "raise"; or,
 - d. Call the raise, re-raise, or fold their hand. There is a maximum of three raises per round of wagering, unless there are only two players participating during a round of wagering, in which case there is no limit to the number of raises; or,
 - e. The player in the big blind position may "check", meaning they do not wish to place an additional wager, or they may also raise, by placing an additional wager; or,
8. After all players have acted in turn and either called all wagers, raised or folded their hand, the house dealer shall move all player wagers into the pot.
9. The house dealer shall then take the top card of the deck and place it in the discard pile without exposing it, referred to as the "burn card."
10. The house dealer shall then take the next three cards from the top of the deck and place them face-up on the table simultaneously.
 - a. This is referred to as "the flop."
 - b. These are community cards and are shared by all players.
11. Once the first three community cards have been placed face-up on the table, the second round of wagering will occur.
12. All active players that called all wagers and did not fold their hand, shall be given the following options, starting with the first active player to the left of the dealer button:
 - a. Place a wager according to the established table limits; or,
 - b. Do not make a wager, referred to as a "check", with the option to call or raise a wager by another player; or,

Description of Table Used and Total Number of Seated Positions

The game shall be played on a standard poker table which shall accommodate up to ten seated positions for patrons. Within each betting area for each seated position, there shall be a single betting space specifically designated for players to place a wager. Each seated position at the table shall have the same minimum and maximum wagering limits during each betting round, as specified by the table limits. Backline betting is not permitted.

Dealing Procedures and Round of Play

1. The game will utilize a flat white disc/button with the word "dealer" on it (referred to as the dealer button) to visually designate the player in the dealer position (in theory) for the hand.
 - a. The dealer button will rotate from player to player around the table clockwise after each round of play.
 - b. The player with the dealer button is the last to receive cards, and has the right of last action on all rounds of play except for the first round, where the big blind position will have the right of last action.
2. The small blind and the big blind positions (each position is represented by a flat white disc/button with the phrase "small blind" and a flat white disc/button with the phrase "big blind") are used to initiate action and are positioned immediately to the left of the dealer button and their blind wagers posted before the house dealer distributes the cards.
 - a. On all subsequent wagering rounds (second, third, and fourth), the action is started by the first active player to the left of the dealer button.
 - b. The small blind and big blind buttons will rotate from player to player around the table clockwise after each round of play.
3. House dealer will shuffle and cut the deck.
4. When first opening a game, all players shall be dealt one card face-up, starting with the player to the immediate left of the house dealer and continuing clockwise around the table.
 - a. The player with the highest ranked card with traditional suit rankings (spades, hearts, diamonds, and clubs) will receive the dealer button. The cards will then be collected and shuffled.
5. Once the dealer button has been distributed by the house dealer, the player to the immediate left of the player with the dealer button shall be given the small blind button and be required to post the small blind. Additionally, the player to the immediate left of the player that received the small blind button shall receive the big blind button and be required to place the big blind.
 - a. Both blinds are pre-determined based on the posted table limit.
 - b. Both blind wagers shall be placed in the designated wagering area, referred to as "the pot."
6. Once the blinds have been placed in the pot, the house dealer shall deal one card face-down to each player, starting with the small blind, and continuing clockwise around the table until all players have four cards face-down. These initial four cards are referred to as the "hole cards."

Omaha

7. Once each player has received their four hole cards, the first round of betting will occur. Players are given the following options, starting with the player to the left of the big blind and continuing clockwise around the table:
 - a. Place a wager that is equal to the amount of the big blind or “call” a wager, meaning to match the amount wagered by another player; or,
 - b. Place their four cards face-down into the center of the table, referred to as a “fold.” The hand shall be kept face-down and shall be collected by the house dealer, who shall place them in the discard pile. A player that chooses to fold their hand will no longer participate during that round of play; or,
 - c. Place a wager equal to the amount of the big blind as well as an additional amount within the posted table limit, referred to as a “raise”; or,
 - d. Call the raise, re-raise or fold their hand. There is a maximum of three raises per round of wagering (known as being “capped”), unless there are only two players participating during a round of wagering, in which case there is no limit to the number of raises; or,
 - e. The player in the big blind position may “check,” meaning they do not wish to place an additional wager. If there has been a raise, the player may call the amount that has been raised, or re-raise, by placing an additional wager, as long as the pot has not been capped yet, or fold.
8. After all players have acted in turn and either called all bets or folded their hand, the house dealer shall move all player bets into the pot.
9. The house dealer shall then take the top card of the deck and place it face-down in the discard pile without exposing it, referred to as a “burn” card.
10. The house dealer shall then take the next three cards from the top of the deck and place them face-up on the table simultaneously, which is referred to as “the flop”. These cards shall become community cards and are shared by all players.
11. Once the dealer has placed the first three community cards face-up, the start of the second round of betting will occur.
12. All active players that called all wagers and did not fold their hand shall be given the following options, starting with the first active player to the left of the dealer button:
 - a. Place a wager according to the established table limits; or,
 - b. Do not make a wager, referred to as a “check”, with the option to call or raise a wager by another player; or,

15. The house dealer shall then take the next card from the top of the deck and place it face-up on the table, so that there are now a total of four community cards face-up. This card is known as “the turn” card.
