*Pure 21.5 Blackjack is owned, patented and/or copyrighted by TXB Industries Inc. * Buster Blackjack and Red Flex Bet is owned, patented and/or copyrighted by Flexedge Gaming LLC. Please note that the Bureau is making the details of this game available to the public as required by subdivision (g) of Business and Professions Code section 19826, but the posting does not waive any rights to the game content which may be held by Owner. The terms of any agreement with Owner are to be negotiated between the gambling establishment and Owner, and any dispute or asserted breach related thereto are private matters which will not be resolved by the Bureau.

TYPE OF GAME

Pure 21.5 Blackjack is a game that utilizes a player-dealer position, and is categorized as a California Game. As in other games featuring a player-dealer, the player-dealer shall collect all losing wagers, pay all winning wagers, and may not win or lose more than the original amount wagered. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer shall be returned to the respective players. The player-dealer will only "bank" the hand (including bonus bets) for two consecutive times before it is offered in a clockwise fashion around the gaming table. The gambling enterprise does not participate in the actual play of the game and has no interest in the outcome of the play.

OBJECT OF THE GAME

The object of Pure 21.5 Blackjack is for the players and the player-dealer to add the numerical value of their cards and:

- Achieve the best possible point total of 21.5 by getting a king, queen, jack, or ten bonus card and an ace on the initial two cards dealt (example king bonus card below), this hand pays 6 to 5.

- Get as close to 21.5 as possible, without going over.
- Draw additional cards if needed.

DESCRIPTION OF THE DECK AND NUMBER OF DECKS USED

The game uses a modified 52-card deck with aces through nines (the standard spades, hearts, clubs and diamonds) and 16 cards specially marked with the word "Bonus" (four of each; "king", "queen", "jack", and "ten" card). The game is played with a minimum of a single deck to a maximum of eight decks.

CARD VALUES AND HAND RANKINGS

- A king, queen, jack or ten bonus card and an ace, on the initial deal, is the best possible hand. It is known as a "pure 21.5 blackjack" and pays 6 to 5.
- A king, queen, jack, or ten bonus card dealt with any other card is worth 10 and is added to the other card(s) point total.
- An ace has a value of either 1 or 11.
- All cards from 2-9 have their face value.
- King, queen, jack, or ten bonus cards have a value of 10 unless dealt with an ace on the initial deal, and then they have a value of 10.5.

DEALING PROCEDURES AND ROUND OF PLAY

1. Pure 21.5 Blackjack is played on a raised gaming table. The table seats eight players who face the house dealer in a 180-degree seating arrangement. The tables are the standard blackjack tables commonly used in the casino industry. The house dealer stands opposite the players, and in the center of the table. The house dealer's chip tray is set in front of the dealer.
2. All tables will have some type of signage where the name of the game is displayed, along with the minimum and maximum wager allowed. The collection for the players and player-dealer will also be displayed. A maximum of five collection rates is allowed in compliance with the California Penal Code.
3. A standard round of play begins when a player-dealer is designated. The player-dealer will place a wager in a betting circle in front of their seat. That wager will be used to pay the winners and will set the amount that he/she can collect for the losers. The casino will place a button in front of the player-dealer, which designates that they are taking the "bank" position and further designates whether it is the first or second turn for the player-dealer in the banking position. The player-dealer will place the appropriate fees in front of his/her betting circle.
4. Players at a table then place their wagers in designated betting circles. The players may place a wager at his/her seat along with other unoccupied betting circles. Each player must pay the appropriate collection based on the posted schedule for the cardroom. Prior to the start of play the house dealer will take the fees and drop them into a locked collection box affixed to the gaming table.
5. After the fees have been collected, the house dealer will deal the cards to the players and the player-dealer. All cards dealt throughout the game are face up, with the exception of the player-dealer's second card, which will remain face-down until all players have acted on their hands. The house dealer is the only person on the table allowed to touch the cards. The players will signal the dealer with hand gestures that indicate whether they wish to hit or stand. The hand signals will be consistent with the industry standard signals of a sweeping motion towards a player's body, indicating a hit, or a side to side hand motion, indicating the desire to stand. The house dealer deals the first card to the player seated to the left of the player-dealer, and continues in a clock-wise manner. Each player will be dealt one card face up with the player-dealer receiving the last card. The player-dealer's cards will be placed in front of the house dealer.
6. The house dealer will deal a second card to the players in the same order noted above and the last card will go to the player-dealer and will be dealt face down. The players are given an opportunity, starting with the player seated to the left of the player-dealer, to be dealt additional cards to make the best possible hand. (Rules and procedures for splitting, doubling down and surrender will be outlined later).
7. Players must follow the below listed **Chart 1A** in deciding whether to hit or stand on a particular hand.

PURE 21.5 BLACKJACK WITH RED FLEX AND BUSTER BONUS WAGERS

8. After all players have acted on their hands and indicated to the house dealer that they do not want or cannot receive additional cards, the player-dealer's down card will be turned up. This down card will determine where the "action button" is placed.
9. The game utilizes an action button to determine which player receives first action on their wager. The player-dealer's second card, which is dealt face-down, determines the position of the action button. The player-dealer position is not counted when determining where the action button shall be placed. The other seats, in clockwise rotation, starting with the player to the left of the house dealer and continuing left to right, respectively represent the numbers of the player-dealer's face down card. When determining where the action button will be placed, cards will hold the following values: Ace is one, 2 through 9 have their face value, jack is eleven, queen is twelve, and king is thirteen.
10. The player-dealer's hand will then be completed according to the rules listed on **Chart 1B**. Once the player-dealer's hand is completed, the payoff and/or collection of wagers will begin in the seat designated by the action button and continue in a clockwise manner until all wagers have been acted on.
11. Player-dealers are never required to cover all opposing players' wagers. Payoffs of wagers are limited to the amount of the player-dealer wager. The house shall not participate as the player-dealer. The house shall not take a percentage of wagers placed in the game. There is no maximum on the player-dealer's wager.
12. The player-dealer's cards will always be dealt and placed in front of the house dealer's tray. The placement of the player-dealer's cards is standard in all games and is depicted below. See **Diagram #1**
13. The next round of play begins when the house dealer collects all the cards from the table and places them in the discard tray. The player-dealer position shall be offered systematically and continuously in a clockwise manner around the table after every two hands. The player-dealer shall collect all losing wagers, pay all winning wagers, and may not win or lose more than the original amount wagered. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer shall be returned to the respective players. The gambling establishment does not participate in the actual play of the game and has no interest in the outcome of the play.

A “hard” hand is achieved when a hand does not contain an ace, or when it does contain an ace, the ace is counted as 1, not 11.

CHART 1B

PLAYER-DEALER Options		
Must Stand on	Must Hit on	Have Option on
Hard 17 or more	Soft 17 or less	No Options

A “soft” hand is achieved when a hand contains an ace with a combination of two or more cards that add up to 17, and the ace may be counted as either 1 or 11.

A “hard” hand is achieved when a hand contains any combination of three or more cards adding up to 17. In the event that the hand includes an ace, the ace is counted as 1, not 11.

HOW EACH WAGER WINS, LOSES, OR PUSHES

1. A Pure 21.5 Blackjack (an ace and a king, queen, jack, or ten Bonus card) is the best possible hand. If the player and the player-dealer's hand are both Pure 21.5 Blackjack the hand is a push or tie, and no action is taken on the wager.
2. If the player-dealer's face-up card is an ace, all players will have the option to place a separate “insurance” wager. They are wagering that the player-dealer's face-down card is a king, queen, jack or ten bonus cards, giving the player-dealer a Pure 21.5 Blackjack. Winning insurance wagers will pay 2 to 1. If the player-dealer does not have a bonus card the insurance wager loses and is collected and given to the player-dealer. Insurance wagers may be equal to no more than 1/2 of a player's original wager.
3. The player-dealer's face-down card will be checked by the house dealer, for a Pure 21.5 Blackjack, when the player-dealer's face-up card is an ace or king, queen, jack or ten bonus card. This will happen prior to any additional cards being given to players. If the player-dealer has Pure 21.5 Blackjack, all players' hands that do not have a Pure 21.5 Blackjack will lose. If the player-dealer does not have a Pure 21.5 Blackjack, the players will be given the option to draw to improve their hands, in accordance with Chart 1A above.
4. After all players have been given a chance to act on their hands, the player-dealer's hand will be completed in accordance with Chart 1B.
5. If a player's total is less than a Pure 21.5 Blackjack and the player-dealer's total is more than a Pure 21.5 Blackjack, the player wins the hand.
6. If a player's total is more than a Pure 21.5 Blackjack and the player-dealer's total is less than a Pure 21.5 Blackjack, the player loses the hand.

PURE 21.5 BLACKJACK WITH RED FLEX AND BUSTER BONUS WAGERS

7. If a player and the player-dealer have the same total and it is less than a Pure 21.5 Blackjack, the hand is a push or tie. No action is taken on the wager.
8. If a player's total and the player-dealer's total are less than a Pure 21.5 Blackjack, the hand closest to a "Pure 2 1.5 Blackjack" will win.
9. If a player's total and the player-dealer's total are more than a Pure 21.5 Blackjack, the following will apply:
 - a. If the player-dealer's hand is 888 (three eights) all players whose total exceeding 21.5 push. Players that have surrendered their wager will still lose 1/2 of their wager.
 - b. If the player-dealer's hand is not 888 (three eights) all players whose total is more than 21.5 lose.
10. All collection rates and wagering limits will be posted at the table. They will not be based on any percentage.
11. Backline betting is permitted on the base wager, the red flex and buster bonus wagers.
11. Third Party Providers of Proposition Player Services, as defined in Section 19984 of the California Business and Professions Code, are permitted to play.

DOUBLE-DOWN, SPLIT, AND SURRENDER

1. Players can double-down on the first two cards dealt to them. The player must place a second wager which may be equal to or less than the player's original wager. The player will only receive one additional card, regardless of the total.
2. Players can split any pair or two (king, queen, jack, or ten) bonus cards. The player must place a second wager equal to the original wager. The player may draw as many cards as desired per split card. When splitting two aces, the player only receives one additional card per ace. A maximum of three splits is allowed per hand, giving a player up to 4 hands. Doubling-down is permitted after splitting.
3. Players can surrender after the first two cards are dealt to them. If they choose to surrender, half of their wager will be forfeited. The player must indicate their desire to surrender before the player-dealer's down card is exposed. Their play for the hand will then cease.
4. The cardroom will take no collection on double downs or splits from the player or player-dealer.
5. All payoffs are to the extent that the player-dealer's money covers the action on the table. A player - dealer cannot win or lose more than the entire amount of money placed on the table before the start of the hand. Additionally, each player's wager receives action in the following order from seat to seat: game wager, Red Flex Bet, Buster Bet.

BUSTER BLACKJACK BONUS BET

The Buster Blackjack wager allows the player to bet that the player-dealer will bust. The greater the number of cards in the player-dealer's busted hand, the higher the payoff. There will be a distinctive marked circle on the table in which the player will place the optional wager.

PURE 21.5 BLACKJACK WITH RED FLEX AND BUSTER BONUS WAGERS

Rules of Play

1. The Buster Blackjack Bonus Bet is an optional wager offered to all players who placed a game wager. Players may place a \$1 to \$50 Buster Blackjack Bonus Bet wager for each game wager placed.
2. A player must participate in the base game in order to make the Buster Blackjack Bonus Bet wager.
3. Buster Blackjack Bonus Bet wagers must be placed prior to the initial deal.
4. Back-line betting is permitted on the Buster Blackjack wager.
5. If the player-dealer does not or cannot have a Pure 21.5 Blackjack and the player has a Pure 21.5 Blackjack, the game wager is paid and the player's cards are put away. The Buster Blackjack Bonus Bet remains in action whether or not the player busts or is dealt a Pure 21.5 Blackjack.
6. Once all players have made the decisions concerning their hands according to the rules for game, the player-dealer will reveal his or her hole card and play out his hand. The payoff odds vary with the number of cards in the player-dealer's busted hand. The more cards in his busted hand, the higher the payoff.
 - a. If the player-dealer's hand busts, all Buster Blackjack Bonus Bets will be paid according to the posted Buster Blackjack pay table.
 - b. If the player-dealer's hand does not bust, all Buster Blackjack Bonus Bets will be collected in rotation to the extent of the money in action.
7. The player-dealer will pay all winning Buster Blackjack Bonus Bets and will collect all losing Buster Blackjack Bonus Bets.
8. In the event that the player/dealer's wager does not cover the amount wagered by the players, an action button will be used to designate where the action will begin. The player-dealer's second card, which is dealt face-down, determines the position of the action button. The player-dealer position is not counted when determining where the action button shall be placed. The other seats, in clockwise rotation, starting with the player to the left of the house dealer and continuing left to right, respectively represent the numbers of the player-dealer's face-down card. When determining where the action button will be placed, cards will hold the following values; ace is one, 2 through 9 have their face value, jack is eleven, queen is twelve, and king is thirteen. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer will be returned to the players.

Note: If there are no game wagers remaining simply because all players have received a Pure 21.5 Blackjack, as long as there are Buster Blackjack Bonus Bet(s), the player-dealer must complete his or her hand, if it is not 17 or greater.

RED FLEX BET

Each player wagering in the base game of Pure 21.5 Blackjack has the option of placing a wager on the designated Red Flex Bet spot located next to each player's position on the gaming felt layout. When the player-dealer's first two (top & hole) cards are "Red," the **RED FLEX BET™** is an automatic winner. The more consecutive red cards by the player-dealer's hand the higher the **RED FLEX BET™** pay off.

There will be a distinctive marked circle on the table in which the player will place the optional wager.

Rules of Play

1. The Red Flex Bet is an optional wager offered to all players who placed a game wager. Players may place a \$1 to \$50 Red Flex Bet for each game wager placed.
2. Red Flex Bets must be placed prior to the initial deal.
3. Back-line betting is permitted on the Red FlexBet.
4. The Red Flex Bet shall remain in action regardless of the outcome of the base game wager.
5. Once all players have made the decisions concerning their hands according to the rules for game, the player-dealer will reveal his hole card and play out his hand. The payoff odds vary with the number of red cards that are in the player-dealer's hand as well the number of consecutive red cards that are dealt to the player-dealer's hand. Red cards are cards that are either the following suits: hearts or diamonds. Players making this optional bet will win if the player-dealer's first two cards (top and hole cards) are the same red color. Payoffs will increase exponentially if subsequent cards taken to the player-dealer's hand are also red. The order of the cards is listed below.
 - a) Player-Dealer's first card (top).
 - b) Player-Dealer's (hole) second card.
 - c) Player-Dealer's first hit card.
 - d) Player-Dealer's second card.
 - e) Player-Dealer's third card.
 - f) Player-Dealer's fourth hit card and so on.

The amount of the winning payoff will be determined once the player-dealer's hand is complete or a black card is drawn.

6. The player-dealer will pay all winning Red Flex Bets and will collect all losing Red Flex Bets. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer will be returned to the players.

Wagering Limits and Collection Fees

Although the Bureau has approved these collection rates, games offering a zero collection are currently under Bureau review. The Bureau has the right to: (1) review the lawfulness of the CA Games Collection Rates; (2) notify all law enforcement agencies and gambling establishments if further review determines that the CA Games Collection Rates are unlawful; (3) require gambling establishments to cease and desist offering the CA Games Collection Rates, if found unlawful; and (4) take action against those gambling establishments that decline to abide by the Bureau's cease and desist notification.

For **schedule option 1 through 12**, a collection will be taken per hand from the player-dealer position based on the total monetary value of all game wagers including the Buster and Red Flex wagers that are placed by players prior to cards being dealt, referred to as total action on the table. The total action on the table does not count any additional wagers placed by players after cards are dealt, such as when player's double-down, split cards, surrender, or place an insurance wager. The collection shall be collected from the player-dealer and dropped by the house dealer after each player has placed their wagers but prior to cards being dealt or any round of play being conducted. Only one collection schedule, which utilizes one table limit and the specified collection fees for that table limit, as listed below, shall be used at a table at any one time. Furthermore, the collection rates may not be calculated as a portion of wagers made or winnings earned. The approved collection fees and schedules for the game of Pure 21.5 Blackjack with the Buster and Red Flex Bonus wagers are as shown below:
