POSOY

Introduction

The exact origin of Posoy is unknown, but it has been played in the Asian community for many years, especially in the Philippines.

The game is played with a regular fifty-two card deck, and a standard Poker Ranking is applied. The maximum number of players is four, any one of which could be the dealer. The dealer is only the dealer. The dealer only deals the cards out to the four players, and is not involved in the payoff.

The *Four players, any one of which can be the dealer*, are dealt thirteen cards each, starting from the Action Button clockwise and must arrange those cards to form three Poker hands:

- (1) a three card front segment (straights and flushes do not count in the three card segment except for Specials),
- (2) a five card middle segment, and
- (3) a five card back segment.

*To be valid, the front segment may not rank higher than the middle segment, and the middle segment may not rank higher than the back segment.

Objective

The object of the game is for a player to set his three segments in such a manner that they beat the respective segments of the dealer. Should a *player or player/dealer* fail to set his cards in the proper ranking order or in the prescribed 3-5-5 combination, the hands are considered fouled and that player forfeits all wager. When all the players/dealer has set their hand, the cards are turned face up. Each player compares his three segments against the hand of the *dealer*, one player at a time, beginning with the action player and moving clockwise around the table.

ASIAN BACCARAT

Asian Baccarat is a fast paced game that resembles Baccarat. The object of the game is for your cards to total as close to nine as possible. The goal is for your hand to beat the Player/ Dealer hand.

DEALING THE GAME

In the game, a dealing shoe is used to hold 8 decks of cards.

The house dealer deals 4 cards to the croupier in the following sequence:

- ◆ One card to the croupier, one card tucked under the corner of the shoe, one card to the croupier, and one card under the corner of the shoe.
- ◆ The dealer will take the two cards on the corner of the shoe, and place them in front of the croupier in the Player/ Dealer box. The other two cards will be used for the Players hand. (See attachment A).
- ◆ The croupier will turn over the player's cards.
- ◆ All players making wagers against the Player/ Dealer will play the Players hand (as community cards).
- ◆ If the Players hand is 7,8, or 9 there will be no additional cards drawn for the Players hand.
- ◆ If the Players hand totals 4,5, or 6 each player betting against the Player/ Dealer will have an option to draw an additional card. (Example: Seat 1 wants to draw a card, seat 2 does not want an additional card, seat 3 and 4 want an additional card, etc.).
- ◆ The Player/ Dealer moves every two hands clockwise around the table in a continuous systematic rotation so that every player has the option of being the Player/ Dealer.

PLAYING THE GAME

- ◆ Each seat will receive a separate draw card in sequence, face down. That card will be added to the 2 community cards for the Players and compared against the Player/ Dealer hand.
- ◆ If the Players' cards total 3 or less, everyone wagering against the Player/ Dealer will receive an additional draw card.
- ◆ The Player/ Dealer hand will be turned over and if an additional card is requested, the Player/ Dealer will be given a card.
- ◆ The object of the game is for your cards to total as close to nine as possible. The goal is for your hand to beat the Player/Dealer' hand.
- ◆ In Asian Baccarat, all tens and picture cards have a value of zero. If the value of the hand is a double-digit number, the first digit is disregarded. Example: A player receives a jack and a six and draws an additional card of seven. JACK + 6 + 7 = 13. The value of the hand is now 3.
- ◆ The deck consists of 8 regular decks (416 cards). If the Players hand is closer to 9 than the designated Player/Dealer hand, the Player wins. If the Player/Dealer and Players hand add up to the same value, a "push" or tie results. In the event of a tie, no one wins or loses.
- ◆ The Player/ Dealer shakes the dice cup to determine the "action spot," that is, the position of the first hand that will be compared against the Player/ Dealer and which Player will receive their draw cards first. The total count of the dice determines which seat is the "action spot."
- ◆ The Player/Dealer position is always 1, 9, and 17 regardless of how many players are seated.
- ◆ The draw begins clockwise from the Player/ Dealer, which makes the Player/ Dealer the last person to draw. All hands play against the Player/ Dealer hand to the extent that money covers.

WAGERING

Prior to the opening of the dice cup, each player in the game shall make a wager, which shall win if it ranks higher than the hand it opposes. All Player wagers shall be within table limits, after posting a collection. A wager made in accordance with these rules shall be void (push) when the point total of a Players hand ranks the same as the Player/Dealer hand.

- ◆ The Bank shall collect all losing wagers and play all winning wagers at the rate of 1 to 1, to the extent that money covers, beginning with the action position and proceeding clockwise.
- ◆ All wagers shall be made by placing gaming chips in the appropriate areas of the Asian Baccarat layout.
- ◆ All winning wagers will be paid in chips.
- ◆ Each player has the option of being the Bank for two consecutive hands on any betting position that played the previous hand. It does not matter who placed the previous bet; just that one was placed in that betting position.
- ◆ In the event of a dispute over play of the hand, the player with the most money in action will be allowed to make the decision whether to hit or stand.
- ◆ Control of a betting position always reverts to the seated active player.

RULES

- ◆ All action proceeds in a clockwise direction starting from the action button.
- ◆ The total count of the dice points after opening the dice cup determines which player has first action. The Player/Dealer position is always 1, 9, and 17, no matter how many players are seated. Example: If the dice point totals 8, the player to the Player/ Dealer right will receive first action on the draw, the first player to the Players/Dealer left if offered the option of one additional card. The option continues until the Player/ Dealer has the option of drawing the last card.
- ◆ A misdeal may be declared if:
 - A) The Player/ Dealer has the wrong number of cards
 - B) A foreign card appears on the table
- ◆ All exposed cards on the deal play. On the draw, an exposed card will be replaced after the Player/ Dealer has acted on his/her hand and before the Players hands are read. (An exposed card is defined as one that lands face up on the table due to a dealer or floorman error).
- ◆ A Boxed card in the shoe is a non-existent card and is immediately replaced by the next card in the shoe.
- ◆ If the house dealer deals a card off the table, the card is a dead card and the player receives a card after the hand is complete.
- ◆ Players requesting an additional card must signal by scratching the table indicating a card is requested. Players not requesting an additional card must signal by waving their hand from side to side indicating no card is requested.
- ◆ When the Player /Dealer hand total 3 or less, the house dealer automatically draws a card for the Player/ Dealer.
- ◆ When the Player/ Dealer two card hand totals 7, 8, or 9 the hand automatically stands. (No additional card may be drawn).

- ◆ When the Player requests assistance on the play of a hand, the house dealer plays the hand according to the Crystal Park Casino guidelines:
 - A) Draw on 5 or less, and
 - B) Stand on 6 or more
- ◆ After the Player/Dealer hand has been opened and set, the hand that has been set in the "Logical Way" is opened and checked. Any hand that has been played incorrectly by a house dealer will be reset by management.
- ◆ Once the Player/Dealer hand is open, no one else may act on his/her hand.
- ◆ After the dice cup is opened, the player may not touch or alter the wager. Penalty: possible forfeiture of that wager to the extent that money covers.
- ◆ If a Player misses the opportunity to draw, the floor supervisor may back up the draw cards in order for the player to receive the proper draw card.
- ◆ If the Player/ Dealer has not drawn a card, the house dealer must determine that the Player/ Dealer has made a commitment to stand, announce the total, and proceed to settle the wagers.
- ◆ If a card has been removed from the shoe because of a dealer error, the card will be placed directly under the shoe, and will be the next card in play.

ROUND OF PLAY

1. No Bust-21st Century Blackjack is played on a raised gaming table. The table seats eight players who face the dealer in a 180 degree seating arrangement. The tables are commonly used in the casino industry. The casino dealer stands opposite of the players, and in the center of the table. The casino dealer's chip tray is set in front of him/her. The play starts from the right of the dealer and proceeds in a clock-wise fashion.
2. The game utilizes a standard 52 card deck, with the addition of one Joker per deck for a total of 53 cards. The game can be played with a minimum of a single deck, totaling 53 cards and to a maximum of eight decks totaling 424 cards.
3. All tables will have some type of signage where the name of the game is displayed, along with the minimum and maximum wager allowed, and collection fee for the players and Player/Dealer. A maximum of three collection rates are allowed in compliance with the California Penal Code.
4. A standard round of play begins when a Player/Dealer is designated. The Player/Dealer will place an amount of money (casino chips) in front of their seat in a betting circle and that money will be used to pay the winners and will also set the amount that he/she can collect from the loser. The casino will place a "button" in front of the Player/Dealer which designates that they are taking the "bank" position and further designate whether it is the first or second turn for the Player/Dealer in the banking position. The Player/Dealer will place the collection fee in front of his betting circle.
5. Players at a table then place their wagers in designated betting circles. The players may place a wager at his/her seat along with other unoccupied betting circles. Each player must pay the posted collection for the wager they placed in any betting circle where they have money or "action".
6. Once the Player/Dealer has posted the amount of money he/she will wager against the other players, and once the players have placed their wagers, the casino dealer will collect all of the fees. This will always be accomplished prior to the start of the game in accordance with the California Penal Code. The casino dealer will take the collection fees and drop them into a locked collection box affixed to the gaming table.
7. After the fees have been collected, the dealer will deal the cards to the players and the Player/Dealer. All cards dealt throughout the game are always dealt face up. The casino dealer is the only person on the table to touch the cards. The players will signal to the dealer by hand gesture if they wish to hit or stand. These hand signals will be consistent with industry standard signals such as moving their hand in a sweeping motion towards their body indicating they want an additional card and in moving their hands in a side to side manner, indicating they wish to stay with their cards on the table. The casino dealer deals the first card to the player seated to the left of the designated Player/Dealer, in a clock-wise fashion. Each player will be dealt one card face up and the Player/Dealer will receive his/her first card also. The Player/Dealer's dealer first card will be placed in front of the casino dealer rather than in front of the Player/Dealer's seat position.

8. The casino dealer will deal a second face up card to the players, again starting at the player to the first seated position to the left of the Player/Dealer, in a clock-wise fashion. The Player/Dealer does not get dealt a second card until all players have been given the opportunity to be dealt additional cards to make the best possible hand. (Rules and procedures for hands that can be split, double-down, and surrendered are outlined on page 11.)
9. Players must follow the below listed charts in deciding whether to hit or stand on a particular hand.

Rules for Players		
Must Stand on	Must Hit on	Have Option on
		<u>12</u>
		<u>13</u>
	<u>11 or Less</u>	<u>14</u>
<u>Soft & Hard 20</u>		<u>15</u>
<u>Soft & Hard 21</u>		<u>16</u>

		<u>18</u>
		<u>19</u>

10. After all players have made their best hands by indicating to the casino dealer that they do not wish to have additional cards dealt to them, the Player/Dealer will receive his/her second card. This card will determine where the "action button" will be placed.

11. The action button determines where the action starts or who will be first to be paid for their winning hand or lose their wager. The action button is placed based on its numerical value and in comparison to the players seated at the table. (Please see the chart below for an example of how the card's value is used to determine the placement of the action button.)

12. Once the hand is played to the end, the payout or collection of the

wagers will begin at the seat where the action button is placed. The settling of the wagers will proceed in a clock-wise manner until all wagers have been acted upon.

13. In the event that the Player/Dealer does not have enough money on the table to cover all the wagers on the table, there will be no free collection button, refund, or other conciliatory action given to the affected players by the casino or the Player/Dealer.
14. If the Player/Dealer's first up card is a Joker, all hands are frozen on the table. The Player/Dealer will be dealt the next card and the action button will be placed. Winning and losing wagers will be determined and all pay-offs made. Players have no options on their hands if this occurs.
15. The Player/Dealer's cards will always be dealt and placed in front of the casino dealer's tray. The placement of the Player/Dealer's cards is standard in all games and is depicted in the chart below:

16. The casino dealer continues to draw cards for the Player/Dealer, if necessary until a Hard 17 or higher number is reached. The Player/Dealer does not have an option of hitting a Hard 17 or higher nor staying on a Soft 17 or lower. See the chart below for details:

Rules for Player/Dealer		
Must Stand on	Must Hit on	Have Option on
HARD 17 AND ABOVE	SOFT 17 OR LESS	NONE

17. Once the Player/Dealer's hand has been made, all winners and losers are determined when their card's numerical value are compared to the Player/Dealer's. The Player/Dealer is never required to cover all opposing player's wagers. A Player/Dealer can only win or lose as much as they have placed on the table to cover a portion or all of the wagers. If there is not enough money from the Player/Dealer position to cover all winning wagers, there will be no refund, free collection, or other form of rebate given to the affected players.

18. After all wagers are settled, the cards are collected and discarded. The bank button is changed and after every two hands, the Player/Dealer position is rotated in a clock-wise fashion around the table.
19. The next round of play begins once the casino dealer collects all cards from the table and places them in the discard tray. The casino dealer will also change the bank button, and if necessary (if the same person has already held the Player/Dealer position twice) rotate the Player/Dealer position clock-wise to the next position on the table. If there is no person that intervenes on the Player/Dealer's position, the game will be "broken" or stopped, as required by the California Penal Code.

GAME RULES

1. A "Natural 22" (the first two cards dealt are Jokers) is the best possible hand. If the player and the Player/Dealer's hands are both a "Natural 22", the hand is a push or tie, and no action is taken on the wager.
2. The second best hand is a Joker (wild card) with any other card.
3. If a player's total is less than a "Natural 22" and the Player/Dealer's total is more than a "Natural 22", the player wins the hand.
4. If a player's total is less than a "Natural 22" and the Player/Dealer's hand is less than a "Natural 22", the hand closest to a "Natural 22" wins.
5. If a player and the Player/Dealer have the same total and it is less than a "Natural 22", the hand is a push or tie, and no action is taken on the wager.
6. If a player's and the Player/Dealer's totals are more than a "Natural 22", the following will apply:
 - A) If the Player/Dealer is closer to a "Natural 22", the Player/Dealer wins the hand.
 - B) If the player is closer to a "Natural 22", the result is a push or tie and no action is taken on the wager.
8. The Player/Dealer wins all ties or pushes over a "Natural 22".
9. If a player has more than a "Natural 22" and the Player/Dealer has less than a "Natural 22", the Player/Dealer wins. The player would win if they had less than a "Natural 22" and the Player/Dealer had more than a "Natural 22".
10. If the Player/Dealer's first up card is a Joker, all hands are frozen on the table. The Player/Dealer will draw the next card and the action button will be placed. Winning and losing wagers will be determined and pay-offs made.
11. No player may double-down, surrender, or split when the Player/Dealer is dealt a Joker as their first up card.

12. If the Player/Dealer's first up card is not a Joker, the casino dealer will draw as many card as needed (after all player's have made their hands) up to the a Hard 17 or higher.

13. Players with a non-Joker hand have the option to draw additional cards to make their best hand.

14. A Joker with any card is a hard 21 and a player cannot draw an additional card.

15. The game is played on an industry standard Blackjack table where up to eight primary players can be seated.

16. All collection fees are collected by the casino dealer prior to the start of play. Collection fees are pre-determined by the casino and can be up to three separate rates per game. All collection rates and wagering limits for the game will be posted at each gaming table and will not be based on a percentage or other factors.

17. Backline betting is allowed; subject to local ordinance or code.

18. Third Party Providers of Proposition Player Services, as defined in Section 19984 of the California Business and Professions Code (The Gambling Control Act), are permitted to play.

DOUBLE-DOWN, SPLIT, SURRENDER & ODDS

Players can double-down on their first two cards dealt to them. The player must place a second wager equal to the wager he/she originally placed prior to the start of the game. The player will only receive one card regardless of the total.

Players can split any pair or two cards with a value of 10 each, originally dealt to them. The exception is two Aces. The player must place a second wager equal to the wager he/she originally placed prior to the start of the game. A player may draw as many cards as the desire per split card to make the best hand.

Players can split any two Aces originally dealt to them but can only receive one extra card per Ace. The player must place a second wager equal to the wager he/she originally placed prior to the start of the game.

Multiple splitting of cards is permitted up to a maximum of three (3) splits per hand.

Players can surrender after their first two cards are dealt to them. If they choose to surrender, half of their wager will be forfeited. The player must indicate they wish to surrender before the Player/Dealer's second card is dealt. Their (the player's) play for that hand will cease.

Players cannot double-down, split, or surrender when the Player/Dealer's first card dealt is a Joker.

There is no extra collection fee taken by the casino on any double down or split executed by a player, nor is their any extra collection fee charged to the Player/Dealer.

Player's Joker-Joker or "Natural 22" pays 2 to 1. All other hands pay 1 to 1.

All pay-offs are to the extent that the Player/Dealer's money covers the action on the table. A Player/Dealer cannot win or lose more than the entire amount of money placed on the table prior to the start of the hand.

LEGAL

The Player/Dealer position must rotate in a continuous and systematic fashion, and cannot be occupied by one person for more than two consecutive hands. There must be an intervening Player/Dealer so one person cannot continually occupy the position and the "bank" hand within the meaning of Oliver v. County of Los Angeles (1998) 66 Cal. App. 4th 1397, 1408-1409. And in addition to the meaning of AB 1416 (the Wesson Bill) which added section 330.11 to the California Penal Code relating to the California licensed gambling establishments and any future regulatory guidelines from the California Department of Justice, Division of Gambling Control, with respect to the operation of a controlled game featuring a Player/Dealer position.

DESCRIPTION:

Pai Gow Poker is a simple game to play. It is played with a 53-card deck, which includes the joker. In the Golden Horse, the joker may be used as an ace or as any card that completes a straight or flush in regular PGP or as wild card depending upon which version of the game is being played. On the Main Floor of the casino the joker is wild and can be used as any card.

The house dealer deals the cards into seven piles of seven cards. Six of the piles go to players and one pile goes to the banker. The banker shakes the dice cup, which contains three dice. The total on the dice cup determines who receives the first set of cards and also where the payoffs begin. The banker position is always 1, 8 and 15. With the seven cards each player receives, the player creates a two-card hand (Sometimes called the front hand). The two card hand must rank lower than the five-card hand. The goal of the game is to make two hands that are both ranked higher than the two hands made by the banker. Pai Gow Poker uses the same ranking of hands as in other high poker games.

All bets are against the banker. The player wins if both of his or her hands rank higher than those of the banker. A tie (Push) occurs if one hand is higher and the other is lower, no money changes hands. The banker wins if both of the players' hands are lower than the banker's hands. The banker wins all situations in which one player hand is identical to that of the banker (Referred to as copying a hand) and the other banker hand wins. The banker pushes in all situations in which one player hand is identical to that of the banker and the other banker hand loses.

The designated Player/ Dealer position rotates in a systematic and continuous manner around the table, and no person or entity is allowed to bank by themselves more than two consecutive hands.

The Player/ Dealer cannot win or lose more than the original amount wagered.

PAI GOW POKER

Rules

1. All action proceeds in a clockwise direction starting from the action button.
2. Players may not show their hands or discuss their hands with any other player at any time while the game is in play.
3. The total count of the dice points after opening the dice cup determines which player receives the first hand, counting from the banker as number 1 and proceeding clockwise. The banker's position is always 1, 8 and 15.
4. The point total of the dice also determines the position of the action button except when the banker position is indicated; in these cases, the first player to the left (Clockwise) of the banker receives the action button.
5. The banker's hand will not be opened until all other hands have been set. In the case in which the banker's hand is opened before all hands are set, the house dealer will set the player's hand in the most logical manner.
6. A misdeal will be declared if:
 - a. The joker or an ace is boxed or exposed.
 - b. Two or more cards are boxed or exposed on the deal.
7. A boxed or exposed card on the deal will be replaced, after the deal is finished, with the first of the remaining four cards.
8. In straight Pai Gow Poker: The joker may be used as an ace or to complete a straight or flush. In Pai Gow Poker "Joker Wild": The joker is wild and may be used as any card.
9. Player is responsible for the final setting of their hands. The house dealer may assist in hand setting or may offer advice upon request, but will not be held responsible for the final decision.
10. Statements regarding the value of hands are not binding. The cards speak for themselves.
11. If a hand is set in such a way that the two-card hand ranks higher than the five-card hand, the hand is fouled and the wager will be forfeited to the extent that money covers.
12. If hands are set with an improper number in the front and back hand, the hand is fouled and the wager will be forfeited to the extent that money covers. (Example: Front hand has three cards and back hand has four cards).
13. The house dealer may set more than one player's hand on any one deal according to the logical way.
14. Players may only look at one hand, regardless of the number of hands wagered. Player may be the "Active" player on only one circle and ONLY one hand.
15. The banker's hand will not be set until they have signified their final decision in an obvious manner to the house dealer.
16. Golden Horse and Main Floor:

- a. Only the banker can request a deck change. A player may request a deck change only if the banker agrees.
 - b. Once the shuffle has begun, it is too late to ask for a change in equipment, i.e.: Deck, dice cup or set up.
17. A hand that is misread by the house dealer, who had originally set up the hand, CANNOT be a fouled hand. If the house dealer mistakenly allows a fouled hand to be played, management will set the hand in the "Logical way" and play will continue. A banker's hand can never be set fouled.
 18. If the bank hand is open and a player with a wager loses (Or thinks they lose), and the player pushes their wager on top of their cards (Technically surrendering), The floorperson must immediately be called - Floorperson will warn the player that any future occurrence will result in that hand losing automatically. If there are Backline bets on that hand, these players (Who are innocent of any wrongdoing) will be allowed to play the hand as is (Win, lose or push).
 19. Main Floor: Banker may not ask for and receive an additional shuffle at any time. The dealer is to shuffle according to HPC procedure only.

Golden Horse: Banker may ask for and receive an additional shuffle.
 20. If the deck is cut too short (7 cards or less) it must be reshuffled by the dealer.
 21. If the banker shakes the dice cup and then decides that he wants to change the action, the dice cup must be taken back and will be reshaken by the dealer and the banker.
 22. A player may not shake the dice for more than 2 consecutive shakes. If a player shakes two times in a row and another player objects, that player must wait one hand and then may shake again. However, if there is no objection, a player may shake as many times as he or she wants.

PAI GOW TILES

Description:

The game of Pai Gow comes to the United States from Asia. The games playing pieces are dominoes, commonly known as tiles.

Each player receives four tiles and makes two hands of two tiles each, a high hand and a second hand. The house dealer shuffles the tiles and the banker shakes the dice cup, which contains three dice. The total of the dice determines who receives the first set of tiles and where the action begins. The house dealer delivers four tiles to each spot or position (also known as a circle) at the table. The banker's hand is pushed toward the player's spot who is acting as the banker. The hand is then "Capped" and brought back in by the house dealer for safekeeping until all the players' hands are set. The goal of the game is to make two hands out of the four tiles that are both higher than the two hands made by the Dealer/ Banker. A tie (push) occurs if one hand is higher and the other is lower, in which case no money changes hands. The Dealer/ Banker wins all situations in which one player hand is identical to that of the Dealer/ Banker hands. The Dealer/ Banker wins all situations in which one player hand is identical to that of the Dealer/ Banker and the other Dealer/ Banker hand wins. The Dealer/ Banker pushes all situations in which one player hand is identical to that of the Dealer/ Banker and the other Dealer/ Banker hand loses.

The designated Player/ Dealer position rotates in a systematic and continuous manner around the table, and no person or entity is allowed to bank more than two consecutive hands.

The Player/ Dealer cannot win or lose more than the original amount wagered.

The house dealer makes all payoffs, at even money, from the stack of the Dealer/ Banker.

PAI GOW TILES

Rules:

1. All action proceeds in a counterclockwise direction starting with the action button.
2. All tiles must be kept on the table. You may not show your tiles to, or discuss your tiles with any other player at any time when the game is in play.
3. The house dealer shuffles the tiles thoroughly and stacks them in rows, with four tiles in each row.
4. All bets must be placed before the dice cup is opened.
5. The total count of the dice points after opening the dice cup determines which player receives the first four tiles. The count begins with the Dealer/ Banker being number one and proceeds counterclockwise. The Dealer/ Banker position is always 1, 9, and 17, no matter how many players are playing. Examples: If the dice points total 8, the player immediately to the left of the Dealer/ Banker will receive the first four tiles. If the dice points total 17, the banker receives the first four tiles.
6. The point total of the dice also determines the position of the action button. An exception is when the banker position is indicated. In this case, the banker will receive the first four tiles, but the first player to the right (counter clockwise) of the banker receives the action button.
7. The house dealer deals the four tiles to every spot, regardless of whether a bet has been made at each spot. The house dealer returns the tiles from all of the empty spots to an area in front of the house dealer's tray.
8. You receive four tiles and set them in a way you like, in two hands, each consisting of two tiles, with the high hand in one stack and the low hand in another stack, both placed in front of the player. You may also allow the house dealer to set the tiles in a "logical" way (see chart).
9. The banker's tiles must be covered by a button until all the player's hands have been set. At that point, the banker sets his/ her hand.

10. After the banker's hand has been set, the house dealer will open the player's hands, starting from the action button and proceeding in a counterclockwise direction, calling out the hand and declaring whether the player won, lost, or pushed.
11. If a player wins, the house dealer leaves the tiles two by two in the shape of the letter "T" in front of the player's spot.
12. If a player loses, the house dealer brings the losing bet forward in front of the betting circle, (stacking two stacks on top of the other two tiles).
13. If a player pushes, the house dealer leaves the money alone but brings the tiles toward the dealer's tray as if no one has bet on the circle.

May split:

12s with any combination of 4 or 5, 6, 7, 8, 9.

 With 6, 6

Always balance the front and back hands, with the following exceptions:

- 1) pair that is never split
- 2) wrong, gong or high 9 (teen or day 9)

If there is a choice between playing the wong, gong, and high 9, always play the high 9, if the front hand is high 3, or better (high 3 must contain the string bean 6 or higher tile).

With 2 and 12, always play the 2 in the front hand, except

2, 10, 11, 12 (then play high 2, low 3)

2, 4, 5, 12 (then play high 6, low 7)

When balancing, always play the highest tile possible in the front hand, except

8, 9, 10, 10 (then play high 9, low 8)

9, 10, 10, 11 (then play high 9, low 1)

Do not balance with: 2 or 12, 5, 10, 10, or any 6, 10, 10, 11 (then play 0, 7)

The only time the high 3 rule is not in effect is with 2, or 12, 8, 9, 4 (then play 3, gong)

SUPER PAN NINE DESCRIPTION

Super Pan Nine is a fast-paced game that resembles Baccarat. In the game, a dealing shoe is used to hold decks of cards that do not contain 7's, 8's, 9s and 10's. The house dealer deals three cards to each player, including the banker. Each player then has the opportunity to draw one additional card. The object of the game is for your cards to total as close to nine as possible. The goal is for your hand to beat the banker's hand.

All bets are against the Dealer/ Banker. The Dealer/ Banker hand is exposed and starting at the action spot, and moving in a clockwise direction, player's hands are exposed and compared to the Dealer/ Bankers hand. Wages are distributed after compared with the Dealer/ Bankers hand. The player wins if his or her hand ranks higher than those of the Dealer/ Bankers hand. The Dealer/ Banker wins if is or her hand ranks higher than those of the players hand. A tie (Push) results in no exchange of money.

In Super Nine, all picture cards have a value of zero. The value of the hand is the value of the "Ones" column in the total of the hand. For example, a player receives 6, 4, and 3 in the first three cards, the hand totals 13, but will only have a value of three. The player draws a 5. The hand will now total 8.

The banker shakes the dice cup to determine the "Action spot", that is, the position of the first hand that will be compared against that of the banker and which player is dealt to first. The total count of the dice cup determines which seat is the action spot. The banker's position is always 1, 9 and 17, regardless of how many players are seated.

The draw begins clockwise from the banker, which makes the banker the last player to draw. All hands play against the banker's hand to the extent that money covers.

13-Card/Chinese Poker

Chinese Poker is one of many Asian-style card games that were played in China and Vietnam for centuries. It is also called 13-Card poker. The game is played with a regular deck of 52 cards without a Joker. All regular poker rankings apply.

The game is played with a maximum of four players. Each player receives 13 cards that must be arranged to form three segments. The front segment has three cards. The middle and back segments have five cards each. The player must set the strongest hand in the back; second strongest hand in the middle, and remaining cards in front. The hand must maintain the 3-5-5 order. The hand is considered "fouled" if these basic rules are not followed.

The object of the game is for the player to compare each segment of his or her hand against the segments of the other players' hands. Starting with the player who sits to the left of the dealer button and moving clockwise, the hands are compared, segment by segment.

Settlement of wagers is based on points awarded for each hand. In the basic point system, each segment counts as one point. If a player wins two segments and loses one segment, the player wins one point from the opponent.

Several versions of this game exist which use a bonus system for making certain hands. These versions are commonly called, the Western version, the Eastern version and the Mandarin version.

Opinion

It is our opinion that Chinese/13 Card Poker does not qualify as a lottery because it is not a percentage game and is not one of the specifically outlawed games under Penal Code 330. In addition, the City of Inglewood has not made this game unlawful.

Rules for Chinese Poker

1. The buy-in is twenty times the value of one point of the game. A player may not add any amount to the stack once he or she picks up the cards. The exception is when the player declares the amount he or she intends to add to the stack and does so before the showdown.
2. Players may surrender their hands before the showdown by paying a point penalty.
3. All hands should be set in the order on the table (3-5-5 combination) before any hands are opened.

4. Players are responsible for their own payoffs. The dealers are not responsible for either the payoffs or the comparison of hands.
5. When playing with "Clean Sweeps:"
 - a. The clean sweep hand wins automatically.
 - b. Players must declare all clean sweep hands before the showdown.
 - c. The clean sweep hands may not be viewed until the showdown.
 - d. Players having clean sweep hands that are equal in rank value will not collect from each other, but will be paid by the other players in the game.
6. If a player fails to set his or her hand in the proper rank order or in the prescribed 3-5-5 combination, the hand is considered fouled and the player must pay a penalty to each of the opponents.
7. If a player declares a Clean Sweep hand, but cannot produce it, that player must pay each opponent according to the value of the Clean Sweep hand. An exception occurs when an opponent has already declared his intention to surrender; the first declaration will be used for the settlement of the wager. If both declarations occur simultaneously, the player who is the first clockwise to the dealer button will be recognized as the first to make the declaration.
8. In an all-in situation, the settlement of wages starts to the left of the dealer button and proceeds clockwise around the table. The all-in player's payoff will end when the total wager exchanged is equal to the amount that was in front of that player at the beginning of the hand.
9. Before the showdown, a misdeal will be declared if:
 - a. Five or more cards are exposed by the dealer.
 - b. Any player is dealt the wrong number of cards.
 - c. Five or more boxed cards appear in the deck.
 - d. A foreign card appears.
10. Any hand containing an incorrect number of cards may be fouled. It is the player's responsibility to notify the house dealer before the showdown that he or she has been dealt an incorrect number of cards.

11. On the showdown, if a player's hand contains two of the same cards, then the player has a fouled hand. If two of the same cards belong to different players, that hand will be declared a misdeal.
12. Less than five exposed cards or boxed cards will play as dealt.
13. A, 2,3,4,5 is the smallest straight.

HOLD'EM

In Hold'em, all players receive two downcards as their personal hand, after which there is a round of betting. Three boardcards are turned simultaneously (called the "flop") and another round of betting occurs. The next two boardcards are turned one at a time, with a round of betting after each card. The boardcards are community cards, and after the final round of betting, a player may use any five-card combination from the board and personal cards. A player may even use all of the boardcards and no personal cards to form a hand. This is called "playing the board."

Hold'em uses a flat disk called a dealer button to indicate the player who is in the dealer position for that hand (even though a non-playing casino employee actually deals, instead). The dealer button rotates clockwise. The player with the dealer button is last to receive cards on the initial deal and has the right of last action after the first betting round.

One or more blind bets are used to stimulate action and initiate play. Blinds are posted before the players look at their cards. Blinds are part of a player's bet, unless the structure of a specific game or the situation requires part or all of a particular blind to be "dead." Dead chips are not part of a player's bet. The small blind is posted by the player immediately clockwise from the button, and the big blind is posted by the player two positions clockwise from the button.

Action is initiated on the first betting round by the player to the left of the blinds. On all subsequent betting rounds, the action begins with the first active player to the left of the button.

In non-tournament play, the button rotates one position clockwise after each deal. The button *must* move forward, and the blinds adjusted accordingly.

Opinion

It is our opinion that Hold'em does not qualify as a lottery because it is not a percentage game and is not one of the specifically outlawed games under Penal Code 330. In addition, the City of Inglewood has not made this game unlawful.

Rules of Hold'em

Blinds

1. In Hold'em, all blinds are "live". Games can have one or two blinds. If you post a blind, you have the option of raising the pot when it is your turn.
2. When there are two blinds in a game with three or more players, the smaller blind is to the immediate left of the dealer button. In heads-up play, the small blind is on the button.
3. A new player entering a Hold'em game may have the following options:
 - a. To wait for the big blind.
 - b. To post an amount equal to the big blind and immediately be dealt a hand.
 - c. To let the blinds and the button pass before posting an amount equal to the big blind and receiving a hand.
4. As a new player, you cannot be dealt in when you are between the small blind and the button. You must wait until the button passes.
5. If you choose to post the big blind, the blind serves as your opening bet. When it becomes your turn to act, you can either call the action or you can raise.
6. In multiple-blind games, players must meet the total amount of the blind obligations for every round they play. Players cannot have the button twice; the button always moves forward in live games and the blinds are adjusted accordingly.
7. If you miss any or all blinds, you can resume play by either posting the total amount of the blinds for that limit game or waiting for the big blind. If you choose to post the total amount of the blinds, an amount up to the size of the minimum opening bet is live, and the remainder is placed in the pot as "dead money." When it becomes your turn to act, you may either call the action or you may raise.
8. Blinds may not be made up between the big blind and the button but you may *buy the button*.
9. When a game starts, a new player will not be required to post a blind until the button has made one complete revolution around the table, provided a blind has not yet passed that seat. A player may also change seats without penalty provided a blind has not yet passed the

new seat. However, a player who drew for the button is considered active in the game, and is required to make up both blinds if he or she misses a blind.

10. No live "straddle" bets are allowed.

Irregularities

11. If the first card off the deck is exposed on the deal, the dealer will place it back onto the deck, reshuffle, and recut the cards. If any other card is exposed due to dealer error, it will be replaced as follows: If a downcard is flashed or exposed due to a dealer error, it may not be kept. After completing the hand, the dealer replaces the card with the top card on the deck and the exposed card is then used for the burn card.

12. If the cards are prematurely flopped before the betting is complete or if the flop contains too many cards, the boardcards are mixed with the remainder of the deck. The burn card remains on the table. After shuffling, the dealer cuts the deck and deals a new flop without burning a card.

13. Should the dealer turn the **fourth card** on the board before the betting round is complete, the card is taken out of play for that round and the betting is completed. The dealer then burns and turns what would have been the fifth card in the place of the fourth card. After this round of betting, the dealer reshuffles the deck, including the card that was taken out of play, but not including the burn cards or discards. The dealer then cuts the deck and turns the final card without burning a card. If the **fifth card** is turned up prematurely, the deck is reshuffled and dealt in the same manner.

14. In Hold'em, if the dealer mistakenly deals the first player an extra card (after all players have received their starting hands), the card will be returned to the deck and used for the burn card. If the dealer mistakenly deals more than one extra card, it is a misdeal.

15. You must declare that you are playing the board before you throw your cards away. Otherwise, you relinquish all claims to the pot.

MEXICAN POKER OR MEXICAN STUD

Mexican Stud Poker is similar to 5-card stud and is played with a standard deck "stripped" to 41 cards with a joker. The 8s, 9s and 10s are removed.

To receive a hand, each player posts an ante. The cards are dealt clockwise, starting from the first player in front the dealer button. The dealer button advances after each hand is complete.

Each player receives a total of five cards, of which one card must be facedown. After the first two cards are dealt (one up and one down), a betting round begins with the high card, clockwise, from the dealer button. The player with the high card makes a forced opening bet to start the action. After the betting is complete, the players may expose their down card, if they wish. This action must be completed prior to the third card being delivered. The next card may be dealt up or down depending on whether the prior down card was exposed. After the third card has been delivered, the next round of betting occurs.

The fourth and fifth cards are then dealt and played in the same manner. Once the action is complete, the player with the highest ranking hand wins the pot. In this game, a flush beats a full house.

Mexican Draw Poker is similar to Jacks or Better Draw with the following exceptions: 1. the joker is wild, 2. the game is played with a one blind to create action instead of having to open with jacks.

Opinion

It is our opinion that Mexican Poker (Stud and Draw) do not qualify as a lottery because they are not percentage games and are not one of the specifically outlawed games under Penal Code 330. In addition, the City of Inglewood has not made these games unlawful.

Rules for Mexican Stud Poker

1. The joker is "wild" in all cases when it is dealt facedown. However, when the joker is dealt faceup, it can only be used as an ace or to complete a straight or flush hand.
2. The player with the highest card clockwise from the dealer button makes a mandatory opening bet. (When the joker is dealt faceup, it will be considered an ace for the purposes of determining the opening bet.) The opening bettor has the option of opening at either the lower or the upper limit.
3. The highest ranking hand starts the action on all betting rounds. Hands are considered to be of equal value even when one hand includes the joker. The hand closest to the dealer button acts first.
4. If any downcard is exposed by the house dealer, that player will receive his next card down and will be permitted to declare "all-in." If the joker is inadvertently exposed, it will play as if it had been dealt facedown -- which is "wild" in all cases.
5. The following hands are considered the same as a straight due to the removal of 8s, 9s, and 10s from the deck: 4-5-6-7-J, 5-6-7-J-Q, 6-7-J-Q-K, or 7-J-Q-K-A

6. If cards on the initial deal are dealt out of sequence, a misdeal will be declared unless two or more players have acted. In this case, action is accepted and there is no misdeal. A hand with an improper number of cards is a dead hand.
7. Because cards on 3rd, 4th or 5th streets are dealt either faceup or facedown, any cards dealt out of sequence on these rounds will be moved faceup to their correct position and the round of dealing finished. Betting is not allowed on this round. The next round is dealt and betting resumes. Any bet made on the round where the error occurred is returned to the player.
8. Except when designating a card to be played faceup, an exposed card plays as the downcard.
9. Following the delivery of the second card, a card will be burned on each subsequent round.
10. Check and raise is permitted.
11. All raises must at least be equal to the size of the last bet.
12. Cards speak -- hold your hand until you are sure of what your opponent's hand.
13. Once any card touches the muck, the hand is dead.
14. No string raises.
15. One short buy-in may be made after each full buy-in.
16. Only the player with the dealer button may ask for an additional shuffle. The deal rotates clockwise.
17. If cards are shown to one player during or after a hand, any player at the table may demand that those cards be shown to all the players at the table once a winner is determined.
18. No rabbit hunting. Once the cards are out of play, no one can look through the discards or ask the dealer which card is coming off the deck.
19. All players must act in turn. If all players check, the player who checked first must show his/her hand first.
20. A player who bets or calls by releasing chips into the pot is bound by that action. However, if the player is unaware that the pot has been raised, the player may withdraw that money and reconsider the action, provided that no one else has acted afterward.

Rules for Mexican Draw Poker

1. Jacks or Better Draw rules apply where applicable.
2. The game is played with 53 cards.
3. Mexican Draw Poker is played 8-handed.

4. The joker is wild and it can be used as any card to make the best high hand.
5. The game is played with one blind and action starts with the person to the left of the blind.
6. Players may discard up to five consecutive cards.
7. Before the draw, the betting is at the lower limit. The betting limit doubles after the draw.
8. The best hand is five aces.
9. Five cards constitute a playing hand. More or fewer than five cards after the draw constitutes a fouled hand. Before the draw, a player having fewer than five cards may receive the additional cards necessary to complete his or her hand, provided no action has been taken by the first player to act (unless that action is before the deal is completed). However, the dealer position may still receive the fifth card even if action has taken place. If action has been taken, a player may draw the number of cards necessary to complete a five card hand.
10. If you are asked how many cards you drew by another active player, you are obligated to respond until there has been action after the draw, and the dealer is also obligated to respond. Once there is any action after the draw, you are no longer obliged to respond and the dealer cannot respond.
11. You may change the number of cards you wish to draw, provided:
 - a. No cards have been dealt off the deck in response to your request.
 - b. No player has acted in any way on his or her hand based on the number of cards you have requested.
13. Cards that are exposed face up by the dealer before the draw must be kept.
14. Cards that are exposed by the dealer on the draw cannot be kept. These cards will be replaced at the end of the draw.
15. Checking and raising is permitted.
16. A maximum of a bet and six raises is permitted in multi-handed pots.
17. Rapping the table in turn constitutes a pass, but rapping the table in turn also may mean the declaration of a pat hand. A player who indicates a pat hand by rapping the table, not knowing the pot has been raised, may still play his or her hand.

OMAHA HIGH-LOW SPLIT (8-or better) and OMAHA HIGH

Omaha is similar to Hold'em, except each player is dealt four downcards instead of two. In order to make a hand, a player must use precisely two hole cards with any combination of exactly three boardcards. The betting is the same as in Hold'em.

Omaha is often played high-low split, 8-or-better. You may use any combination of two hole cards and three boardcards for your high hand and another (or the same) combination of two hole cards and three boardcards for your low hand. It is also played for the high hand only. Omaha high-low split is often played with a "full or partial kill."

Opinion

It is our opinion that Omaha High and Omaha Hi-Lo 8 Eight or Better do not qualify as a lottery because they are not percentage games and are not one of the specifically outlawed games under Penal Code 330. In addition, the City of Inglewood has not made these games unlawful.

Rules of Omaha High-Low Split (8-or-Better)

1. All the rules for Omaha High apply to Omaha high-low split (8-or-better).
2. A qualifier of 8-or-better for low is required for all high-low-split games, unless a specific posting to the contrary is displayed.
3. In high-low, if there is no low hand, the high hand wins the entire pot.
4. You can use one combination of cards to make a high hand and the same or any other combination to make a low hand, as long as each hand uses exactly two hole cards with three board cards.
5. All other Hold'em rules apply.

Rules of Omaha High

1. You must use two of the four hole cards in your hand and three cards on the board to make a valid hand.

RAZZ

The lowest hand wins the pot. The format is similar to seven-card stud high except the high card (aces are low) is required to make the forced bet on the first round and the low hand acts first on all subsequent rounds. Straights and flushes have no ranking, so the best possible hand is 5-4-3-2-A (a wheel). An open pair does not affect the betting limit.

Opinion

It is our opinion that Razz does not qualify as a lottery because it is not a percentage game and is not one of the specifically outlawed games under Penal Code 330. In addition, the City of Inglewood has not made this game unlawful.

Rules of Razz

1. The lowest hand wins the pot. Aces are low, and straights and flushes have no effect on the low value of a hand. The best possible hand is 5-4-3-2-A.
2. The player with the highest card starts the action with a forced bet. If the high card is tied, the forced bet is determined by suit from the highest to the lowest; that is, spades, hearts, diamonds, clubs. The player with the low hand on board is the first to act on all subsequent rounds. If the low hand is tied, the first player clockwise from the dealer starts the action.
3. Fixed-limit games use the lower limit on third and fourth streets and the upper limit on subsequent streets. An open pair does not affect the limit.
4. Dealers announce all pairs the first time they occur, except pairs of face cards, which are never announced.
6. All seven-card stud rules apply in razz except as otherwise noted.

SEVEN-CARD STUD

Seven-card stud is played with two downcards and one upcard dealt before the first betting round, followed by three more upcards (with a betting round after each card). After the last downcard is dealt, there is a final round of betting. The best five-card poker hand wins the pot. In all fixed-limit games, the smaller bet is wagered on the first two betting rounds, and the larger bet is wagered after the betting rounds on the fifth, sixth, and seventh cards. If there is an open pair on the fourth card, any player has the option of making the smaller or larger bet.

Opinion

It is our opinion that 7-Card Stud does not qualify as a lottery because it is not a percentage game and is not one of the specifically outlawed games under Penal Code 330. In addition, the City of Inglewood has not made this game unlawful.

Rules of Seven-Card Stud

1. The first round of betting is initiated with a forced bet by the lowest value upcard. A tie is broken by suit, with the lowest suit being forced to bet. On subsequent betting rounds, the high hand on board initiates the action. Ties are broken by position, with the first player clockwise from the dealer acting first.
2. The player with the forced bet has the option of opening for a full bet.
3. Completing an opening forced bet does not count as a raise, but merely as a completion of the bet. For example: In \$15-\$30 stud, the low card opens for \$5. If the next player to act brings the bet to \$15 (completion of the bet), three additional raises are then allowed.
4. In all fixed-limit games, when an open pair is showing on fourth street (second upcard), any player has the option of betting either the lower or the upper limit. For example: In a \$3-\$6 game, if you have a pair showing and you are the high hand, you may bet either \$3 or \$6. If you bet \$6, any succeeding player has the option to call \$3, raise \$3, or raise \$6. If a \$6 raise is made, then all other raises must be in increments of \$6. If the player who makes the open pair on fourth street checks, then all other players still have the same options.
5. In all games, the dealer announces the low card, the high hand, all raises, and all pairs. In limits of \$10-\$20 and higher, dealers do not announce possible straight or flushes.

6. If your first or second hole card is accidentally turned up by the dealer, then your third card will be dealt down. If both hole cards are dealt up, you have a dead hand and receive your ante back. If your hand would have been the low card, as a result of the first card dealt faceup, action will start with the first hand to your left. That player may either fold, open for the amount of the forced bet, or open for a full bet.
7. If you are not present at the table when it is your turn to act on your hand, you forfeit your ante and your forced bet, if any. If you have not returned to the table in time to act on your hand, the hand will be killed in turn.
8. If you fold a hand after making a forced bet, or fold when there is no wager, your seat will continue to receive cards until a bet is made.
9. If you are all in for the ante and you have the lowest card, the player to your left may come in for the forced bet, the maximum bet, or fold the hand.
10. If the wrong person is designated as low and that person bets, the action will be corrected to the proper low card, if at all possible. The true low card must bet, and the improperly designated low card may take back the incorrectly forced wager.
11. If the dealer burns two cards for one round or fails to burn a card, the cards will be corrected, if at all possible, to their proper positions. If this should happen on a final downcard and the cards intermingle with a player's hole cards or a player looks at the card, the player must accept the card.
12. If a dealer burns and deals one or more cards before a round of betting has been completed, the card(s) must be eliminated from play, along with an additional card for each remaining player still active in the hand. After that round of betting has concluded, the dealer reburns, and play resumes. (The removed cards are held off to the side in the event the dealer runs out of cards). If the prematurely dealt card is the final downcard and has been looked at or intermingled with the player's other hole cards, the player must keep the card. If there is further betting on sixth street, a player who has seven cards may not raise.

13. If there are not enough cards left in the deck for all players, the dealer will deal all the cards except the last card, which is mixed with the burn cards and any cards removed from the deck as in the previous rule. The dealer then scrambles and cuts these cards, burns again, and delivers the remaining downcards, using the last card if necessary. If there are not as many cards as players remaining without a card, the dealer does not burn, so that each player can receive a fresh card. If the dealer determines that there will not be enough fresh cards for all of the remaining players, then the dealer announces to the table that a common card will be used. The dealer will burn a card and turn one card faceup in the center of the table. This card plays in everyone's hand. The player who is now high using the community card initiates the action for the last round.
14. If you pick up your upcards without calling a bet when facing a wager, and by doing so cause someone to act behind you (even in a heads-up situation), your hand is dead. This does not apply in a check-check situation or a bet-and-call situation.
15. You must have seven cards to win at the showdown.
16. A card dealt off the table must play and it is treated as an exposed card.
17. If the dealer turns the last card faceup to any player, the following rules apply:
 - a. If there are more than two players, all remaining players receive their last card facedown. Prior to action for the round of betting, a player whose last card is exposed will have the option of participating in the wagering or being declared all in.
 - b. If there are only two players remaining and the first player's final downcard is dealt faceup, the second player's final downcard will also be dealt faceup, and the betting proceeds as normal. In the event the first player's final card is dealt facedown and the opponent's final card is dealt faceup, the player with the exposed card will have the option of declaring all in. This decision must be made prior to any action on that round. In any of the above situations, the player who is now high on the board using all the upcards will start the action. In any of the above situations, the player who is now high on the board using all the upcards will start the action.
18. If you call a bet even though you are beaten by an opponent's upcards, you are not entitled to a refund.

SEVEN-CARD STUD HIGH-LOW SPLIT (8-or-Better)

Seven card stud high-low split (8-or-better) is a stud-format game which is played both high and low. A qualifier of 8-or-better for low applies to all high-low-split games, unless a specific posting to the contrary is displayed. The low card initiates the action on the first round, with an ace counting as a high card for this purpose. On subsequent rounds, the high hand initiates the action. If the high hand is tied, the first player clockwise from the dealer acts first. Fixed-limit games use the lower limit on third and fourth streets and the upper limit on subsequent betting rounds, and an open pair does not affect the limit. Aces may be used for high or low. Straights and flushes do not affect the low value of a hand. A player may use any five cards to make the best high hand and any five cards to make the best low hand.

It is our opinion that 7-Card Stud does not qualify as a lottery because it is not a percentage game and is not one of the specifically outlawed games under Penal Code 330. In addition, the City of Inglewood has not made this game unlawful.

Rules of Seven-Card Stud High-Low Split (8-or-Better)

1. A qualifier of 8-or-better for low applies to all high-low-split games, unless a specific posting to the contrary is displayed.
2. A player may use any five cards to make the best high hand and any five cards, whether the same as the high hand or not, to make the best low hand.
3. The low card by suit initiates the action on the first round, with an ace counting as a high card for this purpose.
4. Aces may be used for high or low, and straights and flushes do not affect the value of a low hand.
5. Fixed-limit games use the lower limit on third and fourth streets and the upper limit on subsequent rounds. An open pair does not affect the limit.
6. Splitting pots is only determined by the cards and not by agreement among players.
7. When there is an odd chip in a pot, the chip goes to the high hand. If two players split the pot by tying for both the high and the low, the pot shall be split as evenly as possible, with

the player with the highest card by suit receiving the odd chip. When making this determination, all cards are used, not only the five cards that constitute the player's hand.

8. When there is one odd chip in the high portion of the pot and two or more high hands split all or half the pot, the odd chip goes to the player with the high card by suit. When two or more low hands split half the pot, the odd chip goes to the player with the low card by suit.
9. All rules for seven-card stud apply to seven-card stud high-low split (8-or-better) except as otherwise noted.
10. Stud high-low split games may be played with a kill.

Super 9

BASIC CONCEPT & RULES

1. The object of the game is to form a hand that equals "9" or as close to "9" as possible.
2. The value of each player's hand is compared with player/ dealer's hand. The hand with a value closer to "9" wins.
3. The game is played with a plural standard deck of cards with all 7s, 8s, 9s, and 10s removed. Jokers are not used. The game can be played with a minimum of one (1) and a maximum of twelve (12) decks dealt from a shoe.
4. Value of Cards: Cards between 2 and 6 have face value. Aces have a value of one. Picture cards are counted as zero.
5. The value of each hand is the sum of its cards. Hands with a value of ten or more are deemed to have the value of the first digit (*e.g.*, 13 = 3; 15 = 5, etc.).
6. All players, including player/dealer, receive three cards face down in rotation one at a time dealt first to the first position left of the player/dealer position. At the completion of the deal the house dealer turns open top card of the player/dealer's hand.
7. Players have the option of receiving a maximum of one draw ("Hit") card. Players must position their hands in the proper HIT or STAND box on the table to designate whether they wish to receive or not receive a draw card. The players will receive draw cards starting from the next clockwise position from the player/dealer position.
8. The Player/dealer wins all ties on zero and one. All other tie hands with equal value are a push and no money is exchanged (*i.e.*, there is "no action").
9. Players must take a draw card on 4's or below and must stand on 7's and above. Option hands are 5's and 6's.
10. House way: Players draw with a 5 or below and stand 6 or above. The house way must be used by the house dealer when a player requests the house dealer to play any additional hand.

11. The game is eight handed.
12. The collection is taken from each player for every bet prior to start of the game.
13. Third Proposition Players only prescribed by law are permitted to play.
14. Back line betting is allowed in accordance with local ordinance.
15. "Round of Play": Players choose their spots around a blackjack style table. The House Dealer takes a table fee collection based on the posted table limit prior to start of the game. Players post their wagers in accordance with table limits. The House Dealer commences the action by dealing the cards.

PLAYER- DEALER & DEAL

The player/dealer position rotates in a systematic and continuous way so that the opportunity to act as the player/dealer does not constantly remain with a single person for many hands. The person in player/dealer position may not act as player/dealer more than two consecutive hands or rounds of play. There must be an intervening player/dealer so that a single player cannot repeatedly act as the player/dealer within the meaning of *Oliver v. County of Los Angeles*, (1998) 66 Cal.App.4th 1397, 1408-09 or section 330.11 of the California Penal Code, relating to gambling establishments and any future regulatory guideline from the California Division of Gambling Control or the California Gambling Control Commission with respect to the operation of controlled games featuring a player/dealer position. The game will be broken if at least one other intervening player at the table does not accept the deal when offered.

Player/dealers are never required to cover all opposing players' wagers. Payoffs of wagers are limited to the amount of the player/dealer wager. The house never participates as a player/dealer. The house never takes a percentage of wagers placed in the game. There is no maximum on the player/dealer's wager.

Action Button

The Action Button designates the hand that receives first action in each round of play. There are three alternate methods of determining placement of the Action Button: 1) Traditional Dice Cup Procedure; 2) Card Procedure; and 3) Random Number Generator Technology.

The Traditional Dice Cup procedure is currently used through out California casinos in Pan 9. Three dice are placed in a cup and are shaken by a designated player. The sums of the numbers on the up facing dice determine where the Action Button is placed. The player-dealer position is designated as the first, ninth and seventeenth position.

The Card Procedure is described below.

The Random Number Generator Technology used digital computer technology to randomly generate a number between one (1) and seven (7). This number determines the position of the Action Button.

Card Procedure. The House Dealer will use Player/Dealer's cards to determine the action button position. After all hands have been properly positioned to hit or stand position, the House Dealer will uncover the second card of the Player/Dealers hand (please be reminded that the Player/Dealer will start with one card face up) to determine the action button position according to the following chart:

ROUND OF PLAY

1. 21st Century Blackjack is played on a raised gaming table. The table seats eight players who face the dealer in a 180-degree seating arrangement. The tables are commonly used in the casino industry. The casino dealer stands opposite of the players, and in the center of the table. The casino dealer's chip tray is set in front of him/her. The play starts from the right of the dealer and proceeds in a clock-wise fashion.
2. The game utilizes a standard 52-card deck. The game can be played with a minimum of two decks and to a maximum of eight decks with a minimum of two Jokers per set-up.
3. All tables will have some type of signage where the name of the game is displayed, along with the minimum and maximum wager allowed, and collection fee for the Players and Player/Dealer.
4. A standard round of play begins when a Player/Dealer is designated. The Player/Dealer will place an amount of money (casino chips) in front of their seat in a betting circle and that money will be used to pay the winners and will also set the amount that he/she can collect from the losers. The casino will place a "button" in front of the Player/Dealer which designates that they are taking the Player/Dealer position and further designate whether it is the first or second turn for the Player/Dealer in the banking position. The Player/Dealer will place the collection fee in front of his betting circle.
5. Players at a table then place their wagers in designated betting circles. The players may place a wager at his/her seat along with other unoccupied betting circles. Each player must pay the posted collection for the wager they placed in any betting circle where they have money or "action".
6. Once the Player/Dealer has posted the amount of money he/she will wager against the other players, and once the players have placed their wagers, the casino dealer will collect all of the fees. This will always be accomplished prior to the start of the game in accordance with the California Penal Code. The casino dealer will take the collection fees and drop them into a locked collection box affixed to the gaming table.
7. After the fees have been collected, the dealer will deal the cards to the players and the Player/Dealer. All cards dealt throughout the game are always dealt face up. The casino dealer is the only person on the table to

touch the cards. The players will signal to the dealer by hand gesture if they wish to hit or stand. These hand signals will be consistent with industry standard signals such as moving their hand in a sweeping motion towards their body indicating they want an additional card and in moving their hands in a side to side manner, indicating they wish to stay with their cards on the table. The casino dealer deals the first card to the player seated to the left of the designated Player/Dealer, in a clock-wise fashion. Each player will be dealt one card face up and the Player/Dealer will receive his/her first card also. The Player/Dealer's first card will be placed in front of the casino dealer rather than in front of the player/Dealer's seat position.

8. The casino dealer will deal a second face up card to the players, again starting at the player to the first seated position to the left of the Player/Dealer, in a clock-wise fashion. The Player/Dealer will receive a face down (hole) card.
9. Players must follow the below listed charts in deciding whether to hit or stand on a particular hand.

10. After all players have made their best hands by indicating to the casino dealer that they do not wish to have additional cards dealt to them, the house dealer will turn over Player/Dealer's hole card. This card will determine where the "action button" will be placed.
11. After all players have made their best hands by indicating to the casino dealer that they do not wish to have additional cards dealt to them, the house dealer will turn over Player/Dealer's hole card. This card will determine where the "action button" will be placed.
12. The action button determines where the action starts or who will be first to be paid for their winning hand or lose their wager. The action button is placed based on its numerical value and in comparison to the players seated at the table. (Please see the chart below for an example of how the card's value is used to determine the placement of the action button.

13. Once the hand is played to the end, the payout or collection of the wagers will begin at the seat where the action button is placed. The settling of the wagers will proceed in a clock-wise manner until all wagers have been acted upon.
14. In the event that the Player/Dealer does not have enough money on the table to cover all the wagers on the table, there will be no free collection button, refund, or other conciliatory action give to the affected players by the casino or the Player/Dealer.

15. The Player/Dealer's cards will always be dealt and placed in front of the casino dealer's tray. The placement of the Player/Dealer's cards is standard in all games and is depicted in the chart below:

16. The casino dealer continues to draw cards for the Player/Dealer, if necessary until a Hard 17 or higher number is reached. The Player/Dealer does not have an option of hitting a Hard 17 or higher nor staying on a Soft 17 or lower. See the chart below for details:

Rules for Player/Dealer		
Must Stand on	Must Hit on	Have Option on
HARD 17 AND ABOVE	SOFT 17 OR LESS	NONE

17. Once the Player/Dealer's hand has been made, all winners and losers are determined when their card's numerical value are compared to the Player/Dealer's. The Player/Dealer is never required to cover all opposing player's wagers. A Player/Dealer can only win or lose as much as they have placed on the table to cover a portion or all of the wagers. If there is not enough money from the Player/Dealer position to cover all winning wagers, there will be no refund, free collection, or other form of rebate given to the affected players.
18. After all wagers are settled, the cards are collected and placed in the discard rack. The bank button is changed after every two hands, the Player/Dealer position is rotated in a clock-wise fashion around the table.
19. The next round of play begins once the casino dealer collects all cards from the table and places them in the discard tray. The casino dealer will also change the bank button, and if necessary (if the same person has already held the Player/Dealer position twice) rotate the Player/Dealer position clock-wise to the next position on the table. If there is no person that intervenes on the Player/Dealer's position, the game will be "broken" or stopped, as required by the California Penal Code.

And in addition to the meaning of AB 1416 (the Wesson Bill) which added section 330.11 to the California Penal Code relating to the California licensed gambling establishments and any future regulatory guidelines from the California Department of Justice, Division of Gambling Control, with respect to the operation of a controlled game featuring a Player/Dealer position.

California Games
21st CENTURY BACCARAT
Face Up Version with Tie hands

SUMMARY OF GAME

The object of the game is to assemble two (2) hands of two (2) or three (3) cards with a point value as close to nine (9) as possible. Aces count as one (1), picture cards as ten (10) and the others their face value. A hand with cards whose sum is in double figures are ranked with the tens (10's) digit ignored. So a hand totaling eighteen (18) would count as eight (8).

The house dealer deals two (2) hands of two (2) cards each, two (2) cards to the right and two (2) cards to the left one (1) by one (1) in rotation. The hand to the left of the house dealer belongs to the Player/Dealer. The Player/Dealer hand will have one face down and one face up. The hand to the right of the house dealer belongs to the players. The hands to the right of house dealer are dealt face up and are community hands for all players. The Player/Dealer's first card is dealt face up and the second card is face down.

Player must stay on 7 or more and hit on 0 to 4.

Player options on 5 & 6 are: a) stand; b) hit and take a community card.

There must be an intervening Player/Dealer so that a single player cannot repeatedly act as the Player/Dealer within the meaning of *Oliver v. OBJECT OF THE GAME

Similar to Poker, Trips is a "round game" where players play against each other. There is no player/dealer. The object of this game is for players to form a five-card poker hand that contains at least a three-of-a-kind "qualifying hand" or better. Concurrently, players strive to:

- a) Beat the other participating players involved in the hand.
- b) Form the highest hand so that they may win a portion of the accumulated pot in the event that no one attains a qualifying hand.

Although the game could be played with traditional paper cards, this form of the game is played on DigiDeal's patented Digital Card System (DCS). The DCS uses digital card facsimiles for the game play. The DCS consists of: a) the dealing unit that is placed on the left side of the dealing tray; b) six display monitors that are placed in front of each player; c) two chip recognizing portals that are in front of each monitor (total of 12 portals), and d) the computer processor that is placed directly underneath the dealing unit and is affixed to the table.

This computer processor shuffles the cards and displays them on the monitors. All units of the system (the processor, the dealing unit, six monitors and twelve portals) are simultaneously linked via data cables and the system is powered by the 120V. electricity.

DCS has been thoroughly tested and certified by Gaming Laboratories International ("GLI") for use in tribal casinos in California and numerous other jurisdictions across the United States.

The visible part of the DCS unit, on the left side of the dealing tray, has a "Deal" button. By pressing this button, the computer processor randomly deals a digital card to every player similar to a casino dealer pitching a paper card to the players.

Two separate portals are placed in front of each monitor. One is designated for the table fee collection and the other is for the wagers. Players wanting to bet or pay their collections must place the appropriate chips over the portals. The chips are then recognized through the portals. After that recognition, digital cards can be dealt to that position. If chips are not placed on a portal, the monitor will indicate the lack of appropriate bet and hence it will not deliver a card or cards to that player.

Every time DCS deals a new card, the facsimile of that card is instantaneously displayed on every monitor on the table. In addition to the new cards, players will see their individual hands on the monitors as well. Each player will also be able to see other players' hands.

In total, each of the DCS monitors is capable of showing the following information and activities related to the game and the round of play:

- ◆ The initial message for players to post their antes and bets,
- ◆ Each player's hand content,
- ◆ Other players' hand contents,
- ◆ Each new card that is being dealt,
- ◆ The total amount of the accumulated pot,
- ◆ The amount of the pot high hand award,
- ◆ Message display of the qualifying hand,
- ◆ Message display of the highest hand in case that a qualifying hand is not obtained,
- ◆ Other message displays for bets and non-winners,
- ◆ Audible sound of bell when a qualifying hand is formed.

RANKING OF THE CARDS

The Digital Card System uses a single standard deck of cards. Two Jokers are added to the deck for a total of 54 cards in the deck. A maximum of six (6) players participate in each hand.

- a) All cards have their face values.
- b) Jokers are used as wild cards. Jokers can be considered as any card to form the best possible combination including:
 - ♦ Pairs,
 - ♦ Trips,
 - ♦ Four-of-a-kinds,
 - ♦ Five-of-a-kinds,
 - ♦ Straights,
 - ♦ Flushes, or
 - ♦ Straight flushes

- c) When two Jokers appear in one hand, if a straight or better is not formed, at minimum a three-of-a-kind is automatically formed in union with the highest card of that hand.
- d) Picture cards have no numerical values, instead, their ranks are used to determine the value of the hand. Ascending values of cards are:

VALUE OF HANDS

Trips uses the High Poker hand ranking to determine the value of player's hands. The following ranking chart displays the order in which the hands are evaluated in comparison.

GAME LIMITS

Various limits of the game will be offered at the casino. Players may choose any of the table limits to play at. Nomenclature (signage) will be conspicuously posted at each game to inform patrons of name of the game, along with the collection and betting limits. The limits that Commerce Casino proposes to offer are as following:

SCHEDULE OF TABLE LIMITS, ANTES AND BETTING LIMITS

TABLE LIMIT	COLLECTION RATE	1 ST BET	2 ND BET	3 RD BET	4 TH BET
\$2	50 cents	\$2	\$2	\$2	\$2
\$3	\$1	\$3	\$3	\$3	\$3
\$5	\$2	\$5	\$5	\$5	\$5
\$10	\$3	\$10	\$10	\$10	\$10
\$25	\$5	\$25	\$25	\$25	\$25

TABLE FEES

Table fee collections are taken at the beginning of each round of play. Each player pays a pre-determined amount at the beginning of each round. If a qualifying hand is not obtained the pot rolls over. At this point, if a new player who was not involved in the previous hand wishes to participate, the new player (only) must pay a collection in order to receive a hand.

After collecting the collections from each player, the casino dealer converts them to the highest denomination of chips and places the total amount in a prearranged location, generally on top of the drop box. The collections are untouched during the round of play. Only after a player produces a qualifying hand of three-of-a-kind or better and the entire pot is awarded to that player, the casino dealer drops the total amount of collections. The schedule of collections for various Table limits are as following:

- a) \$2 games = \$1
- b) \$5 games = \$2
- c) \$10 games = \$3

ROUND OF PLAY

A round of play begins from when the collections are taken and the initial pot is formed; the round of play is concluded when the accumulated pot is awarded to the player with the qualifying hand (three-of-a-kind or better). The table fee collection is taken at beginning stages of each round; no other collections are taken. The round of play occurs according to these procedures:

- i. Trips is played on a raised table with six players who face the dealer in a 180 degree seating arrangement (Page 4). The casino dealer sits or stands at the center of the table facing the players.

The dealing tray is directly in front of the dealer and the DCS unit is on the left of the dealing tray. The first seat on the left of the dealer is designated as seat number one and the last seat on the right of the dealer is numbered six. Like all other poker games, all action and the deal of cards move in a clockwise direction from seat number one to number six.

- ii. The casino dealer calls for and verifies that all players have posted a collection and the initial wager.
- iii. Prior to dealing, the casino dealer, takes the designated collection from each player and places them in a prearranged location on the table, usually above the collection box that is affixed to the gaming table. Collections will be dropped at the conclusion of the round of play. If none of the players, at the conclusion of the deal, wins with a qualifying hand (three-of-a-kind or better), players who paid a collection will not be required to post another collection until the end of the round but the new players who did not pay a collection previously and now want to receive a hand must post the required collection. However, if a player wins with a qualifying hand, the round of play will be concluded and all players will be required to pay another collection to participate in the new round of play.

TABLE DIAGRAM

- iv. The game utilizes a standard 52-card deck, with the addition of two Jokers for a total of 54 cards.
- v. All tables will have a nomenclature (signage) specifying the name of the games, limits of the games, the collection rates and the betting limits.
- vi. Once players have placed their bets (1st round of bets) and collections and after the casino dealer has posted the collections on the designated spot, the dealer presses the "Deal" button on the dealing unit at which time digital cards are dealt to each player beginning from the first active player from

seat number one ending with the last active player from seat number six. This initial deal consists of two cards.

- vii. Each participating player, starting from seat number one moving toward seat number six, receives two face up cards. The cards are dealt one at the time to each player in a clockwise direction.
- viii. After that delivery, the casino dealer gathers all of the first wagers in the center of the table and creates the pot (accumulating the chips in the center of the table).
- ix. At this point the second (2nd) round of betting commences. Beginning from seat number one, the dealer gives each player the option to either make another wager or fold. Players who wish to continue playing and receive additional cards must place another wager equal to the original bet on the appropriate portal. Players who do not want to continue will not place a chip on that portal, hence, they will not receive additional cards and will not be eligible to win any portion of the accumulated pot.
- x. When players make their decisions, the casino dealer presses the "Deal" button again and another card is will be delivered to each participating player.
- xi. After delivering a digital card to the participating players, the casino dealer collects all of the wagers and adds them to the previously accumulated pot.
- xii. When all remaining players receive another up card, the third (3rd) round betting starts. In the same manner as the second round of betting, starting from seat number one moving toward seat number six, players make a choice to continue playing by placing another wager equal to the initial wager or to fold by not posting another wager.
- xiii. When players exercise their choices, the casino dealer again presses the "Deal" button on the dealing unit at which time another digital card is dealt to each player beginning from the first active player from seat number one ending with the last active player from seat number six. Immediately after the deal, the casino dealer again collects all of the wagers and adds them to the previously accumulated pot.
- xiv. After every player has had the chance to act with their 4th up card, the house dealer, similar to previous rounds, presses the "Deal" button on the dealing unit again and another digital card is delivered for the 5th (the last) up card to every remaining player in the pot. When the last card is delivered, no other wagering activity will take place.
- xv. The casino dealer then gathers all of the final wagers and adds them to the accumulated pot.
- xvi. When the last card is delivered by DCS, it automatically locates the highest ranking qualifying hand and in large green letters shows "WINNER;" it also sounds a winning bell. If a qualifying is formed, the entire pot will be awarded to that hand and the round of play is concluded.
- xvii. If no one qualifies with a qualifying hand (three-of-a-kind or better), DCS then identifies the best hand on the table and displays "HIGH HAND" on the appropriate monitor. This hand will win 20% of the accumulated pot, however, the round of play will not be concluded. All of the players who played during the previous round of play are permitted to play without posting another collection, however, the new players who wish to receive a hand will be required to post both a table fee collection and a wager.

21st CENTURY BACCARAT 5.0

SUMMARY OF GAME

The object of the game is to assemble two hands of two (2) or three (3) cards with a point value as close to nine (9) as possible. Aces count as one (1), picture cards as ten (10), all other cards have their face value. A hand with cards whose sum is in double figures is ranked with the tens (10s) digit ignored. For example, a hand totaling eighteen (18) would count as eight (8).

The house dealer deals two (2) hands of two (2) cards each, two cards to the right and two cards to the left one by one in rotation. The hand to the left of the house dealer is a community hand that belongs to those that placed a bet on the dealer line. The dealer's first card is dealt face up and the second card is face down. The hand to the right of the house dealer is a community hand that belongs to those that placed a bet on the player line. The player's hand is dealt face up. Players have the option to bet on the player's hand, the player/dealer's hand, or make an early or late tie bet.

BASIC CONCEPT & RULES

- 1) The object of the game is to form a hand that equals nine (9) or as close to it as possible
- 2) The player's hand is compared with the player/dealer's hand. The hand closest to "9" wins.
- 3) The game is played with multiple decks of 52 standard cards. Four (4), six (6), or eight (8) decks of cards may be used. There are no Jokers.
- 4) The game may be played on two different types of tables. One table is a blackjack style gaming table with eight (8) seats. The other table is a baccarat style table with eight (8) or fourteen (14) seats respectively.
- 5) Cards between 1 and 9 have face value.
- 6) Picture cards and 10's are counted as 0.
- 7) Table Fees: Fees will be charged for all wagers and shall be determined prior to the start of play of any hand or round. The actual collection of the fee will occur prior to the start of a hand. Ample notice shall be provided to players relating to the assessment of fees. Flat fees on each wager may be assessed at different collection rates (see table).
- 8) Prior to the deal, all players must place a wager in accordance with table limits.
- 9) Players have the following options when placing their bet:
 - a) Player line which pays 1 to 1
 - b) Dealer line which pays 19 to 20 or 9 ½ to 10
 - c) Early tie bet which pays 8 to 1 (Optional 9 to 1)
 - d) Late tie bet which pays 7 to 1 (Optional 9 to 1)
- 10) The house dealer deals two hands with two cards in each hand, in rotation, one at a time.
- 11) The hand to the right of the house dealer is a community hand that belongs to those that placed a bet on the player line. The player's hand is dealt face up.

21st CENTURY BACCARAT 5.0

- 12) The hand to the left of the house dealer is a community hand that belongs to those that placed a bet on the dealer line. The dealer's first card is dealt face up and the second card is face down.
- 13) The value of each hand is the sum of its cards. The last digit of the sum of a hand that has a value over ten is the deemed value of the hand.
- 14) Each player, with a wager on the player line, has the following two options if the cards dealt to the player hand are valued at 5:
 - a) Stand and keep their wager on the stand line;
 - b) Hit and take a community card by moving wager to hit line or place a hit button on his/her cards.
- 15) The house dealer will deliver additional hit cards to player's hand if requested and will then expose the player/dealer's hole (down) card.
- 16) The action button determines which player receives first action on their wager. The player/dealer's hole card determines the position of the action button. The player/dealer's position is always zero. Other seats, in clockwise rotation, respectively represent other numbers.

PLAYER- DEALER & DEAL

The player/dealer position rotates in a systematic and continuous way so that the opportunity to act as the player/dealer does not constantly remain with a single person for many hands. The person in player/dealer position may not act as player/dealer position more than two consecutive hands or rounds of play. There must be an intervening player/dealer so that a single player cannot repeatedly act as the player/dealer within the meaning of *Oliver v. County of Los Angeles*, (1998) 66 Cal.App.4th 1397, 1408-09 or section 330.11 of the California Penal Code, relating to gambling establishments and any future regulatory guideline from the California Bureau of Gambling Control or the California Gambling Control Commission with respect to the operation of controlled games featuring a player/dealer position. The game will be broken if at least one other intervening player at the table does not accept the deal when offered.

Player/dealers are never required to cover all opposing players' wagers. Payoffs of wagers are limited to the amount of the player/dealer wager. The house never participates as a player/dealer. The house never takes a percentage of wagers placed in the game. There is no maximum on the player/dealer's wager.

DESCRIPTION

Pan is played with a special deck of 320 cards with the 8s, 9s, 10s, and Jokers omitted. Additional cards (spades) may be deleted for certain Conditions of Pan. The game is best for 6,7, or 8 Players, but it can be played with as few as three Players and as many as ten. The object of the Game is to have eleven cards, face up in front of you, on the table in valid melds. The first player doing so is the winner. They receive from each player with cards and chips the total value of their melds as they lay, two for winning the hand plus the tops. This Player is the first Player dealt to on the next hand. Players who may have fouled their hand also are required to pay to the winner the value of the meld.

METHOD OF PLAY

- 1 Players wishing a hand post their Tops.
- 2 The mucker deals ten cards, five at a time, in turn counter clockwise, to each active player.
- 3 Cards are dealt first to the Player who Panned the last hand, or to the first active Player to their right.
- 4 Each Player declares either "In" or "Goes On Top".
- 5 The first player, (see definition above) has the option to:
 - (a) Pluck a card from the deck and use it.
 - (b) Discard the Plucked card and Pluck again.
- 6 Each "IN" Player in turn has the option to:
 - (a) Use the card discarded if it was NOT from the Players hand.
 - (b) Pluck a card from the deck.
- 7 The Player who melds all of their cards first wins.
- 8 The mucker assures that all active Players pay the winner and awards the Tops.

GENERAL RULES

1. Cards are always dealt to the right (counter clockwise) not to the left as in most games. They are dealt five cards at a time. In the beginning deal, four cards are turned down and the fifth card is turned up to each player. The lowest card up is the eldest hand. From then on, the winner of each hand is dealt to first, and is first to act.
2. The PAN dealer (mucker) is responsible for shuffling the deck. After each hand, the discards are shuffled with a portion from the back of the deck, to which position these cards are then restored.
3. The dealer (mucker) gives each player ten cards, in two rounds of five at a time, beginning with winning player. For the deal he takes cards from the front of the deck, restoring any excess to the front of the deck.
4. Before play starts, each player beginning with the PREVIOUS winner, declares whether he will stay in the play or retire. If he retires, he discards his hand and forfeits his ante. Hands discarded by retiring players are not returned to the deck, but are set aside so that they may not be drawn in play.

PLAYING RULES

5. Starting with the Player to the right of dealer, each in turn draws one card, either from the top of the deck or the discard pile. If they take the top card of the deck, they must immediately use it in a meld or discard it. They may draw from the discard pile only if
6. The top card of the discard was drawn from the deck and discarded by preceding player
7. They can immediately meld this card in a combination.
8. After drawing and before completing their turn by discarding one card face up, the Player may meld as many sets as they hold, and/or add to their existing melds.
9. Each meld (or spread) must be at least three cards, it may be as many as eleven. For convenience the melds are classified as sequences (usually called "ropes") and sets.
10. Any three cards in sequence of the same suit.
11. Three cards of the same rank and of different suits. Any three aces or any three kings form a set regardless of suit (Aces and kings are called non-comoquers.)
12. Certain melds are called conditions. On melding a condition, the player immediately collects chips from every other player.

13. A player may add one or more cards to any of their melds, provided that the character of the meld is preserved.

(a) To a set of different suits they may add any card of the same rank

(b) To a set of the same suit, another of the same rank and any suit.

(c) When such cards are so added to a condition, the player collects the value of the original condition for each additional card, **Except**

I. Only half the value is paid for addition to a set of three value cards in the same suit (2 chips in Spades, 1 chip in any other suit).

II. One meld may be split into two by addition of cards, provided that two valid melds result.

14. The advantage in splitting is to increase the number of open ends.

15. If splitting a meld creates a condition, player collects for this condition, 2 chips in Spades, and 1 chip in any other suit.

16. A player may take a card from one of his increased melds to make a new meld provided he leaves a valid meld.

17. If, before a Player has made their first draw, a player finds they have nine cards, the dealer will serve them the additional card. If player has eleven cards, the dealer withdraws excess card from player's hand, putting such card among the discarded hands of retired players. If player has been dealt less than eight cards, the hand is dead and the player's Tops will be returned.

18. If a player's hand is found incorrect after they have made their first draw, they must discard their hand, retire from that deal and return all collections they have made for conditions. In addition, they must continue to make due payments to others for conditions and for winning.

19. If a player lays down any spread not conforming to the rules, they must make it valid on demand. If they cannot do so, they must return any collections made in consequence of the improper spread and legally proceed with their turn.

20. If the player has already discarded:

(a) They must return all collections made on that hand,

(b) Discard his hand

(c) Retire from the play until the next deal

(d) Continue to make due payments to others for conditions and winning.

21. If they make the meld valid before attention is called to it, there is no penalty.

FORCING RULES

22. If the top of the discard pile can be added to a meld of the player to whom it is available, any other player may, if they desires to, require the player to take that card. The purpose in forcing this draw on the player is to compel them to make a discard, thereby possibly breaking up a prospective combination.

OUT RULES

23. When a player shows eleven cards in melds, they collect 2 chips from every player and also collects all over again for each condition in his cards.

24. When a player has all ten cards spread, the player at their left may not discard a card that puts their right-hand opponent out, unless the player at the left has no other possible choice.

25. The requirements of a valid meld are:

(a) "Sets" must have either three different suits represented or three of the same suit represented.

(b) "Sequences" must be all the same suit.

CARD RANKING

1 Cards in each suit rank K (high), Q, J, 7,6,5,4,3,2, A.

2 The Jack and seven are in sequence. There is no rank of suits, except that Spades pay double in some cases.

3 All threes, fives, and sevens are valle (pronounced valley) cards, that is "cards of value". Cards of other rank are non-valle.

KONDITIONS

SQUARES (VALLE)

1 Valle Cards (Three Suits represented) = 1 Chip 2 Valle Cards (Three of the same suit)

2 Chips Spades are doubled = 4 Chips

3 Add one card of the same suit to the Condition = 1 Chip Spades are doubled = 2 Chips

SQUARES (NON-VALLE)

4 Non-Valle Cards (Three of the same suit) = 1 Chip Spades are doubled == 2 Chips

5 Add one card of the same suit to the Condition = 1 Chip Spades are doubled == 2 Chips

ROPES

6 King, Queen, & Jack of the same suit == 1 Chip Spades are doubled == 2 Chips

7 Ace, Deuce, & Trey of the same suit == 1 Chip Spades are doubled == 2 Chips

TRIPLE DRAW POKER

Background

“Triple Draw Poker” is a game based on U.S. Patent No. 5,823,873 held by Inventor Ernest W. Moody. The inventor licensed the right to play games under this patent to International Gaming Technology Inc. who thereafter licensed the right to Kelson Enterprises Inc. to play games under this patent on felt tables in California card rooms and elsewhere. An agreement between Kelson Enterprises Inc. and the Cardroom must be submitted with the Application for Controlled Game Review in order to be reviewed and approved by the Bureau of Gambling Control. Each Cardroom is liable to the inventor, International Gaming Technology Inc. and Kelson Enterprises Inc. for the use of the patented game and is therefore responsible for such an agreement.

Standards of Play

Triple Draw Poker (TDP) is a five-card draw poker game that utilizes a player/dealer position. As in other games featuring a player/dealer, the players play against another player who collects all winning bets and pays all losing bets to the extent that money covers.

The player/dealer position will be selected as in other games approved by the Bureau of Gambling Control; and the player/dealer will only “bank” the hand for two (2) consecutive times before it is rotated in a clockwise fashion around the gaming table. All standard poker rankings will be used from the minimum winning hand of a pair of Jacks to the best hand, a Royal Flush. All hands that contain a pair of 10's and below are losing hands.

Type of Gaming Table Utilized for this Game

Triple Draw Poker shall be played on a table having on one side seven (7) places for the players and one (1) place for the player/dealer for a total of eight seated positions, and a place for the Casino dealer on the opposite side of the table, similar to a Blackjack style table.

The felt covering a Triple Draw Poker table (the layout) shall have betting areas for seven (7) players. Within each betting area there shall be three (3) separate designated betting circles labeled ‘1’, ‘2’, and ‘3’ for the placement of a bet for each hand wagered. In front of the dealer tray there shall be three Replacement Rows of 5 card outlines labeled “Draw Card 1 to Draw Card 5”. Each row of 5 Draw Cards will be labeled 1, 2, or 3 on the left and right of each row starting with the row closest to the player. Below Replacement Row 1 the Draw Card numbers starting from right to left (from the player’s point of view) will be re-printed so that when cards are placed in the card outlines, the Draw Card numbers will still be visible to the players.

Please refer to the attached layout artwork.

Number of Players in the Game

A maximum of seven players and the player/dealer position for a total of eight seated positions.

Type of Card Deck Used

1. **Shuffling Machine:** Cards used to play Triple Draw Poker shall be dealt from an automatic card shuffling device (“shuffler”) leased from Shuffle Master and having GLI certification. The cards may be hand-dealt also.

2. **Physical Characteristics:** Cards used to play Triple Draw Poker shall be a standard deck of fifty-two (52) cards.

3. **Number of Decks:** Triple Draw Poker shall be played with one (1) deck, consisting of fifty-two (52) cards with backs of the same design. The cards will be shuffled by the automated card shuffling device before being dealt or used to play the game. All cards used in the game will be re-inserted and shuffled by the automated card shuffling device before being dealt or used to play the next round.

Betting Scheme

1. All wagers at Triple Draw Poker shall be made by placing gaming chips in the appropriate betting circles on the table layout, keeping in mind the table minimum and maximum wagering limits.

2. At the beginning of each round of play, each player shall be required to place from one to three equal but separate wagers in the designated betting circles in front of each player identified as “1”, “2”, and “3”. One wager is mandatory. The second and third bets are optional.

3. All wagers shall be made prior to the dealer announcing “No more bets.” No bets shall be made, increased, or withdrawn after the dealer has announced, “No more bets.”

4. The player/dealer will collect all losing wagers and will pay all winning wagers to the extent of their wager starting with all players’ wagers in Replacement Row 1, followed by Replacement Row 2 and then Replacement Row 3. Once the player/dealer’s wager is exhausted, all player wagers not covered by the player/dealer will be returned to the players.

Dealing Procedures

1. Immediately prior to the commencement of play and after each round of play has been completed, the dealer shall shuffle the cards by use of a shuffle machine so that the cards are randomly intermixed.

2. The dealer shall wait for each player to place up to three equal bets in the betting circles in front of each player. The dealer will announce “No more bets.”

3. The dealer button shall rotate clockwise around the table starting with the player to the left of the dealer.

4. The dealer shall deal one stack of five cards face down to each spot in which a player has wagered, regardless of the number of wagers by each player. Empty positions will not receive cards. The dealer shall deliver the first stack of five cards to the player to the left of the dealer button and in turn to each of the other players moving clockwise around the table. The dealer shall place each stack behind each player's betting circles. The dealer will not deliver any cards to the player/dealer.

5. After the stacks have been dealt and delivered to each player, an additional stack of five cards will be placed face-down next to Replacement Row #1. Thereafter, an additional stack of five cards will be placed face-down next to Replacement Row #2. Thereafter, another stack of five cards will be placed face-down next to Replacement Row #3. All remaining cards shall be placed unexposed in the discard rack.

6. After the players have examined their cards, each player shall return all discards to the dealer. Each player may discard from zero to five cards. The remaining cards held in the player's hand shall be placed in front of each player. The "held cards" shall be duplicated and used for all bets.

7. The dealer will then turn face-up each stack of five cards previously placed face-down next to each Replacement Row starting with Replacement Row #1. The dealer will then resolve each bet by combining the players held cards with the appropriate replacement cards from each Replacement Row needed to make a 5 card hand for each wager by the player.

The following table demonstrates all possible combinations of held cards and draw cards that can be used by each player to form a 5 card hand for each wager.

1. For each player that holds zero cards and discards all five cards, the dealer will use the cards placed in spaces Draw Card 1, Draw Card 2, Draw Card 3, Draw Card 4 and Draw Card 5 to form a five card hand for each Replacement Row for each wager by the player.
2. For each player that holds 1 card and discards 4 cards, the dealer will combine the cards placed in spaces Draw Card 1, Draw Card 2, Draw Card 3, and Draw Card 4 with the held card to form a five card hand for each Replacement Row for each wager by the player.
3. For each player that holds 2 cards and discards 3 cards, the dealer will combine the cards placed in spaces Draw Card 1, Draw Card 2, and Draw Card 3 with the held cards to form a five card hand for each Replacement Row for each wager by the player.
4. For each player that holds 3 cards and discards 2 cards, the dealer will combine the cards placed in spaces Draw Card 1, and Draw Card 2 with the held cards to form a five card hand for each Replacement Row for each wager by the player.

5. For each player that holds 4 cards and discards 1 card, the dealer will combine the card placed in space Draw Card 1 with the held cards to form a five card hand for each Replacement Row for each wager by the player.
6. For each player that holds all five cards and discards zero cards, the dealer will only use the held cards to form a five card hand for each wager by the player.

Round of Play

1. Each player who places a wager shall be responsible for his or her own hand and no person other than the player or the dealer may touch the cards of that player. Each player shall be required to keep his/her cards in full view of the dealer at all times.
2. The dealer shall deal one stack of five cards face down to each spot in which a player has wagered, regardless of the number of wagers by each player. Empty positions will not receive cards. The dealer shall deliver the first stack of five cards to the player to the left of the dealer button and in turn to each of the other players moving clockwise around the table. The dealer shall place each stack behind each player's betting circles. The dealer will not deliver any cards to the player/dealer.
3. After each player has examined his/her cards, the dealer shall ask all players to deliver the cards that they wish to replace to the dealer. After each player has returned their discards in turn to the dealer, each player shall place the remaining held cards in front of each player. The dealer shall place the discards in the discard rack. Held cards shall be duplicated for all wagers.
4. Once all discards and have been returned to the dealer and all held cards have been placed in front of each player, the dealer shall expose each stack of 5 Replacement cards beginning with the stack previously placed next to Replacement Row #1, and shall place cards in consecutive order in the designated Draw Card spaces beginning with Draw Card 1 and ending with Draw Card 5.
5. After the dealing procedures above have been completed, the dealer shall turn the player's held cards face up.
6. The dealer shall then resolve each hand by examining each player's held cards and replacement cards to determine if each player's hand(s) is a winning or losing hand.
7. The dealer shall immediately collect the bets from all losing hands. If a player loses all wagers, the dealer shall immediately collect the held cards from the player and place them in the discard rack.
8. Base game payouts are made to winning hands for each bet. In order to qualify for a base game payout, a player's hand must contain a pair of Jacks or better. All losing bets shall be collected by the player/dealer to the extent that their wager covers. Each winning bet shall be paid in accordance with the payout odds listed on the attached payout tables.

9. The player/dealer is never required to cover all opposing players' wagers. Payoffs of wagers are limited to the amount of the player/dealer wager. The house never participates as a player/dealer. The house never takes a percentage of wagers placed in the game. There is no maximum on the player/dealer's wager.

10. After all wagers are paid, the dealer shall immediately collect the cards of all players and place them in the discard rack.

11. The player/dealer position rotates in a systematic and continuous way among the seated players, and no one player may serve as the player/dealer for more than two consecutive hands. The player/dealer button rotates clockwise around the table.

Standards of Play

Triple Draw Poker (TDP) is a traditional five-card draw poker game that utilizes a player/dealer position. As in other games featuring a player/dealer, the players play against another player who collects all winning bets and pays all losing bets to the extent that money covers.

The player/dealer position will be selected as in other games approved by the Bureau of Gambling Control; and the player/dealer will only “bank” the hand for two (2) consecutive times before it is rotated in a clockwise fashion around the gaming table. All standard poker rankings will be used from the minimum winning hand of a pair of Jacks to the best hand, a Royal Flush. All hands that contain a pair of 10's and below are losing hands.

Type of Gaming Table Utilized for this Game

Triple Draw Poker shall be played on a table having eight seated positions, and a place for the Casino dealer on the opposite side of the table, similar to a Blackjack style table.

The felt covering a Triple Draw Poker table (the layout) shall have betting areas for seven (7) players. Within each betting area there shall be three (3) separate designated betting circles labeled ‘1’, ‘2’, and ‘3’ for the placement of a bet for each hand wagered. There shall also be one (1) separate designated betting circle labeled “Bonus Bet” for the placement of a bonus bet. In front of the dealer tray there shall be three Draw Card Rows with 5 card outlines labeled “Draw Card 1 to Draw Card 5”. Each Draw Card Row of 5 Draw Cards will be labeled 1, 2, or 3 on the left and right of each row starting with the row closest to the player. Below Row 1, the Draw Card numbers starting from right to left (from the player’s point of view) will be re-printed so that when cards are placed in the card outlines, the Draw Card numbers will remain visible to the players.

Please refer to the attached layout artwork.

Number of Players in the Game

The game may be played with a maximum of seven players and a player/dealer position for a total of eight seated positions. However, the player/dealer position is not dealt a hand.

Type of Card Deck Used

1. **Shuffling Machine:** Cards used to play Triple Draw Poker shall be dealt from an automatic card shuffling device ("shuffler") leased from Shuffle Master and having GLI certification. The cards may be hand-dealt also.
2. **Physical Characteristics:** Cards used to play Triple Draw Poker shall be a standard deck of fifty-two (52) cards.
3. **Number of Decks:** Triple Draw Poker shall be played with one (1) deck, consisting of fifty-two (52) cards with backs of the same design. The cards will be shuffled by the automated card shuffling device before being dealt or used to play the game. All cards used in the game will be re-inserted and shuffled by the automated card shuffling device before being dealt or used to play the next round.

Betting Scheme

1. All wagers at Triple Draw Poker shall be made by placing gaming chips in the appropriate betting circles on the table layout, keeping in mind the table minimum and maximum wagering limits.
2. At the beginning of each round of play, each player has the option to place from one to three equal but separate wagers in the designated betting circles in front of each player identified as "1", "2", and "3". One wager is mandatory. The second and third wagers are optional. Each player may also place a separate wager in the designated Bonus Bet circle; however, no player may wager on the Bonus Bet unless the player makes the mandatory minimum one (1) bet in the numbered betting circles.
3. All wagers shall be made prior to the dealer announcing "No more bets." No bets shall be made, increased, or withdrawn after the dealer has announced, "No more bets."
4. The player/dealer will collect all losing wagers and will pay all winning wagers to the extent of their wager. Payouts will begin with bonus bet wagers, followed by all players' wagers in Row 1, followed by Row 2, and then Row 3. Once the player/dealer's wager is exhausted, all player wagers not covered by the player/dealer will be returned to the players.

Dealing Procedures

1. Immediately prior to the commencement of play and after each round of play has been completed, the dealer shall shuffle the cards by use of a shuffle machine so that the cards are randomly intermixed.
2. The dealer shall wait for each player to place up to three equal bets in the betting circles, and a separate optional bet in the "Bonus Bet" circle in front of each player. The dealer will announce "No more bets."
3. The dealer shall deal one stack of five cards face down to each player regardless of the number of wagers by each player. The dealer shall deliver the first stack of five cards to the player to the left of the player/dealer position and in turn to each of the other players moving clockwise around the table. The dealer shall place each stack behind each player's betting circles. The dealer will not deliver any cards to the player/dealer. Furthermore, empty positions that have not been wagered on will not receive cards.
4. After the players have examined their cards, each player shall place all discards in the designated space in front of the betting circles marked "discard." The cards in the "discard" pile will remain there until the end of the game. Each player may discard from zero to five cards. The remaining cards held in the player's hand shall be placed behind the betting circles in the designated space marked "held." The "held" cards shall be duplicated and used for all bets. Furthermore, the cards in the "held" pile will remain there until the end of the game and the resolution of all base game wager bets.
5. The dealer does not collect any discards.
6. Starting with Row #1, the dealer will then place five cards face up in each Draw Card Row in consecutive order starting with Draw Card 1 and ending with Draw Card 5. All remaining cards will be placed in the discard rack.
7. The dealer then resolves each player's wagers starting with the first hand clockwise from the Player/Dealer position, in the following order: bonus bet wagers, base game wagers.
8. The dealer resolves the Bonus Bet by opening the Discards and the Held cards. The Discards are kept in the Discard space and the Held cards are kept in the Held card space. They are not to be mixed. The dealer uses all 5 cards that were initially dealt to the player to determine the outcome of the Bonus Bet. Once the Bonus Bet is settled, the Discards are collected and placed in the discard rack. The Held cards are left face up in the Held cards space.
9. The dealer will then resolve each base game wager by combining the players held cards with the appropriate designated draw cards from each Draw Card Row needed to make a 5 card hand for each wager by the player.

10. Each numbered Draw Card Row refers to the matching numbered Betting Circle. As such, each player will use their held cards in combination with the designated draw cards in Row 1 for all bets in Betting Circle 1. Similarly, each player will use their held cards in combination with the designated draw cards in Row 2 for all bets in Betting Circle 2. Finally, each player will use their held cards in combination with the designated draw cards in Row 3 for all bets in Betting Circle 3.

The following table demonstrates all possible combinations of held cards and designated draw cards that can be used by each player to form a 5 card hand in each row for each wager.

1. For each player that holds zero cards and discards all five cards, the dealer will use the cards placed in spaces Draw Card 1, Draw Card 2, Draw Card 3, Draw Card 4 and Draw Card 5 to form a five card hand for each wager and matching Draw Card Row.
2. For each player that holds 1 card and discards 4 cards, the dealer will combine the cards placed in spaces Draw Card 1, Draw Card 2, Draw Card 3, and Draw Card 4 with the held card to form a five card hand for each wager and matching Draw Card Row.
3. For each player that holds 2 cards and discards 3 cards, the dealer will combine the cards placed in spaces Draw Card 1, Draw Card 2, and Draw Card 3 with the held cards to form a five card hand for each wager and matching Draw Card Row.
4. For each player that holds 3 cards and discards 2 cards, the dealer will combine the cards placed in spaces Draw Card 1, and Draw Card 2 with the held cards to form a five card hand for each wager and matching Draw Card Row.
5. For each player that holds 4 cards and discards 1 card, the dealer will combine the card placed in space Draw Card 1 with the held cards to form a five card hand for each wager and matching Draw Card Row.
6. For each player that holds all five cards and discards zero cards, the dealer will only use the held cards to form a five card hand for each wager by the player.

Round of Play

1. Each player who places a wager shall be responsible for his or her own hand and no person other than the player or the dealer may touch the cards of that player. Each player shall be required to keep his/her cards in full view of the dealer at all times.
2. The dealer shall deal one stack of five cards face down to each player regardless of the number of wagers by the player. The dealer shall deliver the first stack of cards to the player to the left of the dealer button and in turn to each of the other players moving clockwise around the table. The dealer shall place each stack behind each player's

betting circles. The dealer will not deliver any cards to the player/dealer. Furthermore, empty positions that have not been wagered on will not receive cards.

3. After the players have examined their cards, each player shall place all discards in the designated space in front of the betting circles marked "discard." The cards in the "discard" pile will remain there until the end of the game. Each player may discard from zero to five cards. The remaining cards held in the player's hand shall be placed behind the betting circles in the designated space marked "held." The "held" cards shall be duplicated and used for all bets. Furthermore, the cards in the "held" pile will remain there until the end of the game and the resolution of all base game wager bets.

4. Once all discards and all held cards have been placed in the marked spaces for each player, the dealer shall place five cards in the designated Draw spaces beginning with Draw Card 1 and ending with Draw Card 5 in all Draw Card Rows starting with Row #1. All remaining cards shall be placed in the discard rack.

5. After the dealing procedures above have been completed, the dealer shall then resolve each player's Bonus Bet by opening the cards in the "Discard" and the "Held" pile. The dealer uses all 5 cards that were initially dealt to the player to determine the outcome of the Bonus Bet. In order to qualify for a bonus bet payout, a player's hand must contain a pair of 2s or better. All losing bets shall be collected by the player/dealer to the extent that their wager covers. Each winning bet shall be paid in accordance with the payout odds listed on the attached Bonus Bet payout tables. Once all Bonus Bets are settled, the Discards are collected and placed in the discard rack.

6. After all bonus bet wagers are resolved, the dealer shall then resolve each base game wager by examining each player's held cards and the designated draw cards to determine if each player's hand is a winning or losing hand. In order to qualify for a base game payout, a player's hand must contain a pair of Jacks or better. All losing bets shall be collected by the player/dealer to the extent that their wager covers. Each winning bet shall be paid in accordance with the payout odds listed on the attached payout tables. Once all wagers are settled, the "Held" cards are collected and placed in the discard rack.

7. After all wagers are paid, the dealer shall immediately collect the cards of all players and place them in the discard rack.

8. The player/dealer is never required to cover all opposing players' wagers. Payoffs of wagers are limited to the amount of the player/dealer wager. The house never takes a percentage of wagers placed in the game. There is no maximum on the player/dealer's wager. Furthermore, the player/dealer position rotates in a systematic and continuous way among the seated players, and no one player may serve as the player/dealer for more than two consecutive hands. The player/dealer button rotates clockwise around the table.

The play starts from the left of the dealer and proceeds in a clock-wise fashion.

3. All tables will have signage displaying the name of the game along with the minimum and maximum wager allowed, and collection fees for the players and player-dealer.
4. A standard round of play begins when a player-dealer is designated. The player-dealer places a wager in front of her betting circle. This wager is used to pay the winners. The casino will place a “button” in front of the player-dealer and a designation whether it is the first or second turn for the player-dealer in the banking position. The player-dealer will place the collection fee in front of his betting circle.
5. Players at a table then place their wagers in designated betting circles or other unoccupied betting circles. Each player must pay the posted collection for their wager(s) in any betting circle where they have money or “action”.
6. Prior to the start of play, the casino dealer will take the collection fees.
7. Play commences with the casino dealer distributing the cards to the players and the player-dealer. All cards are dealt face up. The casino dealer is the only person on the table to touch the cards. The players will signal to the casino dealer by hand gesture if they wish to hit or stand. These hand signals will be consistent with industry standard signals such as moving their hand in a sweeping motion towards their body indicating they want an additional card and in moving their hands in a side to side manner, indicating they wish to stay with their cards on the table. The casino dealer deals the first card to the player seated to the left of casino dealer, in a clock-wise fashion. Each player will be dealt one card face up. The player-dealer’s first card will be placed in front of the casino dealer.
8. The casino dealer will deal a second face up card to the players, again starting at the Player to the first seated position to the left of the casino dealer, in a clock-wise fashion. The player-dealer will receive a face down card in front of the casino dealer.

11. Beginning with the player to the right of the casino dealer, the settling of the wagers will be done in a counter-clockwise manner until all wagers have been acted upon.
12. The player-dealer's cards will always be dealt and placed in front of the casino dealer's tray.
13. The casino dealer continues to draw cards for the player-dealer, if necessary until a Hard 17 or higher number is reached. The player-dealer must follow the following hit rules:

Rules For Player-dealer		
<i>Must Stand On</i>	<i>Must Hit On</i>	<i>Have Option On</i>
Hard 17 And Above	Soft 17 Or Less	None

14. Once the player-dealer's hand has been made, all winners and losers are determined by comparing the numerical value of the player's hands with the player-dealer's hand. The player-dealer can only win or lose as much as they have placed on the table to cover a portion or all of the wagers.
15. After all wagers are settled, the cards are collected and discarded. The bank button is changed and after every two hands, the player-dealer position is rotated in a clock-wise fashion around the table.
16. The next round of play begins once the casino dealer collects all cards from the table and places them in the discard tray. The casino dealer will also change the Bank Button, and if necessary (if the same person has already held the player-dealer position twice) rotate the player-dealer position clock-wise to the next position on the table.

PLAYER-DEALER & DEAL

The player-dealer position rotates in a systematic and continuous way so that the opportunity to act as the player-dealer does not constantly remain with a single person for many hands. The person in player-dealer position may not act as player-dealer position more than two consecutive hands or rounds of play. The opportunity to act as the player-dealer must be offered to all seated players after two hands or rounds of play so that a single player cannot repeatedly act as the player-dealer within the meaning of *Oliver v. County of Los Angeles*, (1998) 66 Cal.App.4th 1397, 1408-09 or section 330.11 of the California Penal Code, relating to gambling establishments and any future regulatory guideline from the California Bureau of Gambling Control or the California Gambling Control Commission with respect to the operation of controlled games featuring a player-dealer position.

Player-dealers are never required to cover all opposing players' wagers. Payoffs of wagers are limited to the amount of the player-dealer wager. The house never participates as a player-dealer. The house never takes a percentage of wagers placed in the game. There is no maximum on the player-dealer's wager.

EZ BACCARAT

Type of Game

The game of EZ Baccarat utilizes a player-dealer position and is a California game. The position shall be offered systematically and continuously in a clockwise manner around the table after every two hands. The player-dealer shall collect all losing wagers, pay all winning wagers, and may not win or lose more than the original amount wagered. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer shall be returned to the respective players. The gambling enterprise does not participate in the actual play of the game and has no interest in the outcome of the play.

Object of the Game

The object of the game is to assemble two hands of two or three cards with an accumulated point value as close to nine as possible.

Description of the Deck and Number of Decks Used

The game is played using a standard 52-card deck and no jokers. Cards will be dealt using a multiple deck shoe. A minimum of three decks and a maximum of eight decks will be used during the play of the game.

Card Values and Hand Rankings

The value of each card used in EZ Baccarat, shall be as follows: picture cards (king, queen, jack) and 10's have a value of zero, an ace has a value of one, and all other cards have their face value. When the total numerical value of the cards equals ten or more, only the right-hand digit (numeric count) is considered. The ranking of hands for EZ Baccarat, in order from highest to lowest rank, shall be:

Hand Dealt	Hand Requirements
Natural 9	A two card hand that has a value of nine. A Natural 9 shall only be achieved when the first two cards dealt to a hand is valued at nine, according to the rules above.
Natural 8	A two card hand that has a value of eight. A Natural 8 shall only be achieved when the first two cards dealt to a hand is valued at eight, according to the rules above.
Nine or Eight	A three card hand that has a value of nine or eight.
Seven through Zero	A two or three card hand that has a value of seven, six, five, four, three, two, one or zero.

Description of Table Used and Total Number of Seated Positions

The game shall be played on either a standard blackjack table that accommodates up to seven players and a player-dealer position for a total of eight seated positions or a standard baccarat table that accommodates up to thirteen players and a player-dealer position for a total of fourteen seated positions. Within each betting area for each seated player, there shall be five separate betting spaces specifically designated for five separate wagers; the player line, the banker line, the Tie Bet, the Panda 8 wager, and the Dragon 7 Bonus Bet. Each betting space at the table has a fixed amount for wagering limits defining the minimum and maximum amounts that may be wagered. Players must bet at least the table minimum. Back-line betting is not permitted on any wager.

Method used to Determine Action and Distribution of Cards

The game utilizes an action button to determine which player receives first action on their wager. The second card dealt to the banker line determines the position of the action button. The player-dealer position is not counted when determining where the action button shall be placed. The other seats, in clockwise rotation, starting with the player to the left of the house dealer and continuing left to right, respectively represent the other numbers. When determining where the action button will be placed, cards will hold the following values: Ace is one, 2 through 9 have their face value, jack is eleven, queen is twelve, and king is thirteen.

EZ BACCARAT

All wagers shall be settled from seat to seat in the following order: all player line wagers, all banker line wagers, all Tie Bet wagers, all Panda 8 wagers, and then all Dragon 7 Bonus Bet wagers. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer shall be returned to the respective players.

Dealing Procedures and Round of Play

At the start of a game a player is offered the player-dealer position. Once accomplished, the house dealer shall wait for each player to make their wager in accordance with the table limits.

Each player has the following options when placing their wager(s):

- The player line which pays 1 to 1;
- The banker line which pays 1 to 1;
- The Tie Bet, which pays 8 to 1;
- If a player placed a wager on either the player line or the banker line, that player may place a wager on the Dragon 7 Bonus Bet, which pays 40 to 1.
- If a player placed a wager on either the player line or the banker line, that player may place a wager on the Panda 8, which pays 25 to 1.

Once all wagers are placed, the house dealer deals one card to the right and one card to the left, one by one in rotation, until each hand has a total of two cards each. All cards are dealt face-up. The hand to the left of the house dealer is a community hand that belongs to those that placed a bet on the banker line. The hand to the right of the house dealer is a community hand that belongs to those that placed a bet on the player line. The player's hand is resolved first and then the banker's hand is resolved. The hand that is closest to nine wins. After the house dealer delivers the first two cards to both the Player line and Banker line, the following Baccarat rules are followed.

- The player's hand must stand when the hand is valued at 6 through 9, and must hit when the hand is valued at 5 or less.
- If the player's hand stands, then the dealer hand hits on a total of 5 or less.
- If the player's hand hits for a complete hand then the banker's hand hits using the following rules:
 - If the banker's hand total is 3, then the banker's hand is dealt a third card unless the third card dealt to the player's hand was an 8.
 - If the banker's hand total is 4, then the banker's hand is dealt a third card unless the third card dealt to the player's hand was a 0, 1, 8, or 9.
 - If the banker's hand total is 5, then the banker's hand is dealt a third card if the third card dealt to the player's hand was 4, 5, 6, or 7.
 - If the banker's hand total is 6, then the banker's hand is dealt a third card if the third card dealt to the player's hand was a 6 or 7.

The following chart shows when the banker hits (H) or stands (S) according to the rules above:

Banker's Score	Player's Third Card									
	0	1	2	3	4	5	6	7	8	9
7	S	S	S	S	S	S	S	S	S	S

Tie Bet

- For each seated position, there shall be one separate and specifically designated area for the placement of a Tie Bet wager. A player may place a Tie Bet wager even if he/she has not also placed either a Player line wager or a Banker line wager prior to the initial deal.
- The player-dealer shall pay all winning Tie Bet wagers when the total of the player's hand and the total of the banker's hand are equal.
- The player-dealer shall collect all losing Tie Bet wagers when the total of the player's hand and the total of the banker's hand are not equal.
- Backline betting is not permitted on the Tie Bet wager.
- See the collection rate schedule for restrictions on the amount that may be wagered on the Tie Bet and any collection fees that may be taken.
- The Tie Bet takes into account the total value of the player's hand and the total value of the banker's hand, regardless of the number of cards each hand has, at the completion of the round. Each hand must be played according to the guidelines above. In the event that the player's hand and the banker's hand are of the same value (tie), the tie bet wager shall win. In the event that the player's hand and the banker's hand are not of the same value, the player-dealer shall win the tie bet wager.
- All winning Tie Bet wagers shall be paid 8 to 1.
- Wagers are collected or paid, to the extent that the player-dealer's wager covers. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer shall be returned to the players.

Dragon 7 Bonus Bet

- For each seated position, there shall be one separate and specifically designated area for the placement of a Dragon 7 Bonus Bet wager. A player may only place a Dragon 7 Bonus Bet wager if they have also placed a wager on either the player line or on the banker line prior to the initial deal.
- Back-line betting is not permitted on the Dragon 7 Bonus Bet.
- See the collection rate schedule for restrictions on the amount that may be wagered on the Dragon 7 Bonus Bet and any collection fees that may be taken.
- If the banker hand has a point value of seven using three cards and the player's hand has a value of six or less, regardless of the number of cards, the Dragon 7 Bonus Bet wins. The Dragon 7 Bonus Bet shall lose on all other outcomes.
- All winning Dragon 7 Bonus Bet wagers shall be paid 40 to 1.
- The player-dealer shall pay all winning Dragon 7 Bonus Bet wagers and shall collect all losing Dragon 7 Bonus Bet wagers. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer shall be returned to the players.

EZ BACCARAT

Panda 8 Bet

- For each seated position, there shall be one separate and specifically designated area for the placement of a Panda 8 Bet wager. A player may only place a Panda 8 Bet wager if they have also placed a wager on either the player line or on the banker line prior to the initial deal.
- Back-line betting is not permitted on the Panda 8 Bet.
- See the collection rate schedule for restrictions on the amount that may be wagered on the Panda 8 Bet and any collection fees that may be taken.

- All winning Panda 8 Bet wagers shall be paid 25 to 1.
- The player-dealer shall pay all winning Panda 8 Bet wagers and shall collect all losing Panda 8 Bet wagers. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer shall be returned to the players.

Collection Fee Schedule: How and When are House Fees Collected

For schedule options 1 through 4, the collection fees shall be taken per hand from the player-dealer position based on the total aggregate value of all player wagers on the table, known as the total table action. The total table action includes all player line and dealer line wagers, as well as all Tie bet, Dragon 7 and Panda 8 wagers. A collection fee shall be taken from each player for each player line and dealer line wager that they place. However, there shall be no additional collection fee for placing a Tie, Dragon 7, or Panda 8 wager. The collection fees shall be collected prior to cards being dealt or any round of play being conducted. The collection fees shall be pre-determined and conspicuously posted on each table prior to any cards being dealt or a round of play commencing. Only one collection schedule, which utilizes one table limit and the specified collection fees for that table limit, as listed below, shall be used at a table at any one time. Furthermore, the collection rates may not be calculated as a portion of wagers made or winnings earned. The approved collection fees and schedules for the game of EZ Baccarat are as shown below:

Please note that the Bureau is making the details of this game available to the public as required by subdivision (g) of Business and Professions Code section 19826, but the posting does not waive any rights to the game content which may be held by Owner. Standards of play:

Ultimate Texas Hold'em features head-to-head play against the player-dealer and an optional bonus bet.

The player-dealer position will be selected as in other games approved by the Bureau of Gambling Control; and the player-dealer will only "bank" the hand (including bonus bets) for two consecutive times before it is rotated in a clockwise fashion around the gaming table.

Players and the player-dealer each receive two cards. They combine them with five community cards to make their best five-card hand.

Ultimate Texas Hold'em lets players bet aggressively. The earlier they bet, the more they can risk and win. If players bet pre-flop, they may risk 3x or 4x their ante. If they bet on the flop, they may bet 2x their ante. If they wait until the river, when all community cards are out, they may only bet 1x their ante.

This game also features an optional bet, the Trips bonus. Players win the Trips bonus if their final five-card hand is three of a kind or higher. Odds will be printed on layout.

Type of gaming table utilized for this game:

Ultimate Texas Hold'em shall be played on a table having seven places on one side for the players and the player-dealer for a total of eight seated positions, including a place for the house dealer on the opposite side of the table. Each Ultimate Texas Hold'em table shall have a drop box attached to it.

The layout cloth covering the table shall bear an inscription to the effect that the "Player-Dealer only plays with a pair or higher."

The wagering areas shall be designated as follows:

1. For ante wagers on the word "Ante";
2. For blind wagers on the word "Blind";
3. For trips bonus wagers on the word "Trips"; and

1. **Shuffling Machine:** Cards used to play Ultimate Texas Hold'em shall be dealt from an automatic card shuffling device ("shuffler").
2. **Physical Characteristics:** Cards used to play Ultimate Texas Hold'em shall be in standard decks of fifty-two cards.
3. **Number of Decks:** Cards used to play Ultimate Texas Hold'em shall be played with two alternating decks, each consisting of fifty-two cards with backs of the same design.
 - a. The backs of the cards of the two decks are of different color;
 - b. One deck will be shuffled by the automated card shuffling device while the other deck is being dealt or used to play the game;
 - c. Both decks will be continuously alternated in and out of play, with each deck being used for every other round of play; and
 - d. The cards from only one deck shall be placed in the discard rack at any given time.

Ranking of Hands:

1. All suits of cards shall have the same rank.
2. Cards shall rank, from lowest to highest, as follows:
 - a. 2, 3, 4, 5, 6, 7, 8, 9, 10, jack, queen, king, ace.
3. Hands of cards shall rank, from lowest to highest, as follows:
 - a. 1 Pair 2 cards of the same value. A higher pair beating a lower pair. Aces shall be high.
 - b. 2 Pairs 2 different sets of pairs. The highest pair has priority when comparing hands. If the high pairs are the same, then the low pairs are compared, and then the remaining card.
 - c. 3 of a Kind 3 cards of the same value.
 - d. Straight 5 cards of any suit in sequence. An ace may be counted as high or low.
 - e. Flush 5 cards of the same suit, not in sequence. The value of the highest card in the hand shall decide the ranking between 2 flushes, and where the highest cards in both hands are the same value, the next card and so on.
 - f. Full House 3 cards of the same value and a pair (two cards of the same value). The hands take their rank from the threesome.
 - g. 4 of a Kind 4 cards of the same value.

- i. Royal Flush Ace, king, queen, jack, and 10 of the same suit.

1. All wagers for Ultimate Texas Hold'em shall be made by placing gaming chips on the appropriate betting areas of the table layout, keeping in mind the table minimum and maximum wagering limits.
2. All wagers shall be placed prior to the dealer announcing "No more bets." No bets shall be made, increased, or withdrawn after the dealer has announced, "No more bets."
3. Before the first card is dealt in a round, each player shall make either:
 - a. An equal wager in the "Ante" and "Blind" circles; or
 - b. An equal wager in the "Ante" and "Blind" circles and a "Trips Bonus" wager.

An ante wager and a blind wager are required to play the round.

Back-line betting is not permitted on any wagers.

4. The player-dealer will collect all losing wagers and will pay all winning wagers to the extent of their wager. Once the player-dealer's wager is exhausted, all player wagers not covered by the player-dealer will be returned to the players.

Dealing procedures:

1. Immediately before the start of each round of play and after all ante wagers, blind wagers, and any trips bonus wagers have been made, the house dealer shall:
 - a. Call "No more bets"; and then
 - b. Starting on his/her left and continuing clockwise around the table, deal the cards.
2. All cards shall be dealt face down.
3. When a card shoe is used the cards shall be dealt as follows:
 - a. 1 card to each wagering area containing an ante wager and blind wager and then 1 card to the player-dealer; followed by
 - b. A further card to each such wagering area and the player-dealer, so that each player and the player-dealer have 2 cards each; followed by;
 - c. 5 community cards in the center of the table.
4. The automatic shuffler shall deal cards as follows:

- a. 2 cards at a time to each wagering area containing an ante wager and blind wager, starting with the player to the left of the house dealer and continuing clockwise; followed by
 - b. 2 cards to the player-dealer, who receives their cards last; followed by
 - c. 5 community cards in the center of the table.
5. After the cards have been dealt and delivered to each player and the player-dealer, the house dealer shall unload the remaining cards in the shuffler and place them into the discard rack without exposing the cards.

Round of Play

1. After the dealing procedures above have been completed, each player shall examine his or her cards and decide whether to check (do nothing) or to make a play wager three or four times the value of their ante wager. Once players bet, they cannot bet again and they cannot change their bet.
2. When players have made their player wagers (if any), the house dealer shall proceed to turn over the first three community cards.
3. Players who have not already made a play wager may decide to either check again or to make a play wager two times the value of their ante wager.
4. The house dealer shall proceed to turn over the remaining two community cards (the turn and the river).
5. When all five community cards are revealed, players who have not yet made a play wager can either fold or make a play wager equal to the value of their ante wager.
6. A player who decides to fold shall place his/her cards face down on the table. The house dealer shall then, in relation to each player who has folded:
 - a. Collect the ante wager, blind wager, any trips bonus wager (if the hand is not a 3 of a Kind or better) on behalf of the player-dealer, and the player's cards;
 - b. Individually spread out the cards, face down, and count them; and
 - c. Place the cards in the discard rack.
7. For all remaining players, the house dealer will turn over the player-dealer's two cards. Each player and the player-dealer's five-card poker hand shall be determined using any combination of hole cards and community cards.
8. When handling the cards, players shall at all times ensure that the cards remain on or above the area of the table. The cards must not be removed from the table.

When the player-dealer does not qualify:

9. Where the player-dealer's hand is not 1 pair or higher, the player-dealer does not qualify. Starting with the player on the player-dealer's left, the house dealer shall:
 - a. Expose each player's cards, signal a push for the ante and return the ante wager to each player that did not fold;
 - b. Resolve the play, blind, and trips bonus bets normally (see below "When player-dealer qualifies"); and
 - c. Collect, count and place the player's cards in the discard holder.

NOTE: Ultimate Texas Hold'em handles qualifying differently than other games. When the dealer does not qualify, it is not an automatic win for the player.

When the player-dealer qualifies:

10. If the player-dealer's hand has a poker value of a pair or higher, the house dealer reconciles the hands of those players who remain in the game. Starting with the player to the left of the player-dealer and moving clockwise around the table, the house dealer will:
 - a. Bring the player's cards into the "work area" between the player-dealer's hand and the trips bonus wager area and reveal the player's cards;
 - b. Determine the player's best 5-card poker hand utilizing any of the 7 cards available (player's 2 hole cards and 5 community cards);
 - c. Compare the player's hand with that of the player-dealer; and
 - d. Announce the value of the player's hand and whether it wins or loses.
11. A player's hand shall:
 - a. Win if it has a higher poker value than that of the player-dealer's hand;
 - b. Lose if it has a lower poker value than that of the player-dealer's hand;
 - c. Constitute a push if it has a poker value equal to that of the player-dealer's hand.
 - d. If a player wins with less than a straight, the blind bet pushes.
12. If a player's hand loses, the house dealer shall:
 - a. Collect on behalf of the player-dealer, in order, the play, ante and blind wagers;
 - b. Determine whether the trips bonus wager qualifies and pay accordingly on behalf of the player-dealer; and
 - c. Collect, count and place the player's cards in the discard holder.

13. If a player's hand wins, the house dealer shall on behalf of the player-dealer:
 - a. Pay the ante wager and play wager on the hand;
 - b. Pay the blind wager if the hand is a straight or better;
 - c. Pay any trips bonus wager if the hand is a 3 of a kind or better; and
 - d. Collect, count and place the payer's cards in the discard holder.
 14. If a player's hand constitutes a push, the house dealer shall:
 - a. Pay any trips bonus wager if the hand is a 3 of a kind or better;
 - b. Collect, count and place the player's cards in the discard holder.
 15. Winning ante wagers and play wagers shall be paid 1 to 1.
 16. Winning blind wager and trips bonus wagers shall be paid in accordance with the approved pay table for the cardroom.
 17. Where a player has made a trips bonus wager at the beginning of the round and has received a 3 of a Kind or higher, the house dealer shall leave the particular cards face up on the table and those cards shall not be collected or discarded until the payout on the hand has been made.
 18. If the player receives a 3 of a Kind or higher, the trips bonus payouts are made regardless of whether the hand wins, loses, or pushes.
- NOTE: If the player has a 3 of a Kind or better, the trips bet always wins – even if the player folds.
19. The player-dealer is never required to cover all opposing players' wagers. Payoffs of wagers are limited to the amount of the player-dealer wager. The house never participates as the player-dealer. The house never takes a percentage of wagers placed in the game. There is no maximum on the player-dealer's wager.
 20. The player-dealer position rotates in a systematic and continuous way among the seated players, and no one player may serve as the player-dealer for more than two consecutive hands. The player-dealer button rotates clockwise around the table.

Trips Bonus

1. This is an optional wager for Ultimate Texas Hold'em.
2. Backline betting is not permitted.
3. This bet will be paid according to the payable if it is a qualifying hand of three of a kind or better. If the hand does not qualify with a three of a kind or better, according to the payable, the wager shall

lose and be collected. This bet cannot push. This bet wins or loses regardless of whether the player hand wins, loses, or ties.

4. If a player placed a Trips Bonus bet and folds their hand, they are still eligible if the community cards contains three of a kind or better. If there is a three of a kind or better on the board, the Trips Bonus bet wins, otherwise, that wager is collected as well with the ante and blind bet.
5. To participate in the Trips Bonus, players must make bets on the Ante, Blind. Players place their Trips Bonus wagers in the marked circle.
6. If the player's hand qualifies for payouts, the player-dealer pays him according to the posted paytable. If the player's hand does not qualify, the player-dealer takes his wager and moves on to the next player.
7. If the player receives a 3 of a Kind or higher, the trips bonus payouts are made regardless of whether the hand wins, loses, or pushes.

All 10's shall be removed from each deck. The game shall be played with a minimum of four decks (totaling 192 cards) to a maximum of eight decks (totaling 384 cards).

- A King, Queen, or Jack Bonus card and an ace, on the initial deal, is the best possible hand. It is known as a "Pure Spanish 21.5" and pays 3 to 2
- A King, Queen, or Jack Bonus card dealt with any other card is worth 10 and is added to the other card(s) point total.
- An ace has a value of either 1 or 11.
- All cards from 2-9 have their face value.
- King, Queen, or Jack Bonus cards have a value of 10 unless dealt with an Ace on the initial deal, and then they have a value of 10.5.

PURE SPANISH 21.5 RULES

ROUND OF PLAY

1. Pure Spanish 21.5 is played on a raised gaming table. The table seats up to eight players who face the house dealer in a 180-degree seating arrangement. The tables are the standard blackjack tables commonly used in the casino industry. The house dealer stands opposite the players, and in the center of the table. The house dealer's chip tray is set in front of the dealer.
2. All tables will have some type of signage where the name of the game is displayed, along with the minimum and maximum wager allowed. The collection fee for the players and player-dealer shall also be displayed. A maximum of five collection rates is allowed in compliance with the California Penal Code.
3. A standard round of play begins when a player-dealer is designated. The player-dealer will place a wager in a betting circle in front of their seat. That wager will be used to pay the winners and will set the amount that he/she can collect for the losers. The casino will place a button in front of the player-dealer, which designates that they are taking the "bank" position and further designates whether it is the first or second turn for the player-dealer in the banking position. The player-dealer will place the appropriate collection fee in front of his/her betting circle.
4. Players at a table then place their wagers in designated betting circles. The players may place a wager at his/her seat along with other unoccupied betting circles. Each player must pay the appropriate collection fee based on the posted schedule for the cardroom. Prior to the start of play the house dealer will take collection fees and drop them into a locked collection box affixed to the gaming table.
5. After the fees have been collected, the house dealer will deal the cards to the players and the player-dealer. All cards dealt throughout the game are face up, with the exception of the player-dealer's second card, which will remain face-down until all players have acted on their hands. The house dealer is the only person on the table allowed to touch the cards. The players will signal the dealer with hand gestures that indicate whether they wish to hit or stand. The hand signals will be consistent with the industry standard signals of a sweeping motion towards a player's body, indicating a hit, or a side to side hand motion, indicating the desire to stand. The house dealer deals the first card to the player seated to the left of the player-dealer, and continues in a clock-wise manner. Each player will be dealt one card face up with the player-dealer receiving the last card. The player-dealer's cards will be placed in front of the house dealer.
6. The house dealer will deal a second card to the players in the same order noted above and the last card will go to the player-dealer and will be dealt face down. The players are given an opportunity, starting with the player seated to the left of the player-dealer, to be dealt additional cards to make the best possible hand.

PURE SPANISH 21.5 RULES

7. Players must follow the below listed **Chart 1A** in deciding whether to hit or stand on a particular hand.
8. After all players have acted on their hands and indicated to the house dealer that they do not want or cannot receive additional cards, the player-dealer's down card will be turned up. This down card will determine where the "action button" is placed.
9. The game utilizes an action button to determine which player receives first action on their wager. The player-dealer's second card, which is dealt face-down, determines the position of the action button. The player-dealer position is not counted when determining where the action button shall be placed. The other seats, in clockwise rotation, starting with the player to the left of the house dealer and continuing left to right, respectively represent the numbers of the player-dealer's face down card. When determining where the action button will be placed, cards will hold the following values: Ace is one, 2 through 9 have their face value, jack is eleven, queen is twelve, and king is thirteen.
10. The player-dealer's hand will then be completed according to the rules listed on **Chart 1B**. Once the player-dealer's hand is completed, the payoff and/or collection of wagers will begin in the seat designated by the action button and continue in a clockwise manner until all wagers have been acted on.
11. Player-dealers are never required to cover all opposing players' wagers. Payoffs of wagers are limited to the amount of the player-dealer wager. The house shall not participate as the player-dealer. The house shall not take a percentage of wagers placed in the game. There is no maximum on the player-dealer's wager.
12. The player-dealer's cards will always be dealt and placed in front of the house dealer's tray. The placement of the player-dealer's cards is standard in all games and is depicted below. See **Diagram #1**
13. The next round of play begins when the house dealer collects all the cards from the table and places them in the discard tray. The player-dealer position shall be offered systematically and continuously in a clockwise manner around the table after every two hands. The player-dealer shall collect all losing wagers, pay all winning wagers, and may not win or lose more than the original amount wagered. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer shall be returned to the respective players. The gambling establishment does not participate in the actual play of the game and has no interest in the outcome of the play.

DOUBLE-DOWN, RESCUE, DOUBLE-DOUBLE DOWN, SPLIT, AND SURRENDER

1. Players can double-down on the first two cards dealt to them. The player must place a second wager which may be equal to or less than the player's original wager. The player will only receive one additional card, regardless of the total.
2. After doubling, if a player is dissatisfied with his/her non-busted hand, he/she may "rescue" (take back) the last doubled portion of the bet and forfeit the remainder of the wager. Their play for the hand will then cease.
3. If the player-dealer hits on a soft 17, the casino may allow an option known as "double-double down." If the casino allows the double-double down option, once a player elects to double and receives a double card, the player then has the option to double-double down (double his total wager again), rescue the last doubled portion of the bet, or stand. A player may double the total wager up to three times, once via double down and twice via double-double down, creating a maximum wager up to 8 times the original wager. Doubling for less is only allowed if the double-double down option is not allowed. In other words, when the double-double down option is allowed there is no doubling for less, however, the double-double down wager amount would be capped at the maximum wager allowed. If the last double-double down wager made is capped, the "last doubled portion of the bet" would be the maximum wager allowed. If a player doubles for less, the last doubled portion of the bet would be that lesser amount.
4. Players can split any pair or two cards of the equal value, including aces and Bonus cards. The player must place a second wager equal to the original wager. The player may draw as many cards as desired per split card. There is no splitting for less.
5. A maximum of three splits is allowed per hand, giving a player up to 4 hands. Doubling-down is permitted after splitting.

Each betting space at the table has a fixed amount for wagering limits defining the minimum and maximum amounts that may be wagered. Players must bet at least the table minimum. Back-line betting is only permitted on base wagers. Backline betting is not allowed on the Tie Bet or the Bonus Bets. If the backline bettor and the seated player are making a wager on the same base bet (player versus banker) the backline wager will be placed next to the seated player's wager. If the backline bettor and the seated player are not making a wager on the same base bet (player versus banker) than the backline wager will be placed above or below the seated player's wager.

Fortune 7 Baccarat

Method used to Determine Action and Distribution of Cards

The action on payouts will always begin with the player to the left of the player-dealer position and continue clockwise. Wagers will be settled in the following order from player to player: all Player line wagers, then all Banker line wagers, then all Tie Bet wagers, then all One Up Bonus Bet wagers, and finally all Fortune 7 Bonus Bet wagers. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer will be returned to the players.

Dealing Procedures and Round of Play

At the start of a game, a player is offered the player-dealer position. Once a player-dealer position has been established for that game, the house dealer shall wait for each player to make their wager in accordance with the table limits.

Each player then has the following option(s) when placing their wager(s):

- The Player line which pays 1 to 1;
- The Banker line which pays 1 to 1 on all wins except a three-card 7 which shall push;
- Place a wager on the Tie Bet which pays 8 to 1;
- If a player placed a wager on the player line or the banker line, that player may place a wager on the Fortune 7 Bonus Bet which pays 40 to 1;
- If a player placed a wager on the player line or the banker line, that player may place a wager on the One Up Bonus Bet which pays according to the pay table below.

Once all wagers are placed, the house dealer deals one card to the right and one card to the left, one by one in rotation, until each hand has a total of two cards each. All cards are dealt face-up. The hand to the left of the house dealer is a community hand that belongs to those that placed a wager on the Banker line. The hand to the right of the house dealer is a community hand that belongs to those that placed a wager on the Player line. The player's hand is resolved first and then the banker's hand is resolved. The hand that is closest to nine wins. After the house dealer delivers the first two cards to both the Player line and Banker line, the following Baccarat rules are followed.

- The player's hand must stand when the hand is valued at 6 through 9, and must hit when the hand is valued at 5 or less.
- If the first two cards dealt to the player hand equal a natural, the banker hand shall not be allowed to draw any additional cards.
- If the first two cards dealt to the banker hand equal a natural, the player hand shall not be allowed to draw any additional cards and the hands shall be settled as-is.
- If the player's hand stands, then the banker hand hits on a total of 5 or less.
- If the player's hand hits for a complete hand then the banker's hand hits using the following rules:
 - If the banker's hand total is 3, then the banker's hand is dealt a third card unless the third card dealt to the player's hand was an 8.
 - If the banker's hand total is 4, then the banker's hand is dealt a third card unless the third card dealt to the player's hand was a 0, 1, 8, or 9.
 - If the banker's hand total is 5, then the banker's hand is dealt a third card if the third card dealt to the player's hand was 4, 5, 6, or 7.
 - If the banker's hand total is 6, then the banker's hand is dealt a third card if the third card dealt to the player's hand was a 6 or 7.

How Wagers are Paid, Collected and Pushed

Once both hands have been completed, according to the guidelines above, the player's wagers are settled. The following shall apply for each possible outcome when determining the winner. The player-dealer shall pay and collect all wagers accordingly:

- The player-dealer shall pay all winning Player line wagers made by players when the player's hand is closer to nine than the banker's hand.
- The player-dealer shall pay all winning Banker line wagers made by players when the banker's hand is closer to nine than the player's hand. If the banker's hand wins with a three-card total of seven, the wager shall push.
- The player-dealer shall collect all losing Player line wagers when the banker's hand is closer to nine than the player's hand.
- The player-dealer shall collect all losing Banker line wagers when the player's hand is closer to nine than the banker's hand.

Tie Bet

- For each seated position, there shall be one separate and specifically designated area for the placement of a Tie Bet wager. A player may place a Tie Bet wager even if he/she has not also placed either a Player line wager or a Banker line wager prior to the initial deal.
- The player-dealer shall pay all winning Tie Bet wagers when the total of the player's hand and the total of the banker's hand are equal.
- The player-dealer shall collect all losing Tie Bet wagers when the total of the player's hand and the total of the banker's hand are not equal.
- See the collection rate schedule for restrictions on the amount that may be wagered on the Tie Bet and any collection fees that may be taken.
- The Tie Bet takes into account the total value of the player's hand and the banker's hand after each hand has been completed according to the rules above. In the event of a tie (0 - 9) between the player's hand and the banker's hand, the Tie Bet wager shall win. In the event that the player's hand and the banker's hand are different, the Tie Bet wager loses.
- Winning Tie Bet wagers shall be paid 8 to 1.
- Wagers are collected or paid, to the extent that the player-dealer's wager covers. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer shall be returned to the players.

- All winning Fortune 7 Bonus Bet wagers shall be paid 40 to 1.
- The player-dealer shall pay all winning Fortune 7 Bonus Bet wagers and shall collect all losing Fortune 7 Bonus Bet wagers. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer shall be returned to the players.

A player may place a One Up Bonus Bet wager even if he/she has not also placed either a Player line wager or a Banker line wager prior to the initial deal.
- The One Up Bonus Bet wager takes into account the final value of the player's hand and the final value of the banker's hand. If a player wagers on the One Up Bonus Bet and the player's hand beats the banker's hand by a 1-point margin the One Up Bonus Wager shall win.
- If the player's hand beats the banker's hand by a spread of two points or more, loses to the banker's hand, or the player and the banker hands are of the same value (tie), the One Up Bonus Bet wager shall lose.

Description of the Table and Total Number of Seated Positions

No Bust 21st Century Blackjack 4.0a Perfect Pairs is played on a raised gaming table. The table seats eight players who face the casino dealer in a 180-degree seating arrangement. The tables are commonly used in the casino industry. The casino dealer stands opposite of the players, and in the center of the table. The casino dealer's chip tray is set in front of him/her. The play starts from the left of the dealer and proceeds in a clock-wise fashion. All tables will have signage displaying the name of the game along with the minimum and maximum wager allowed, and collection fees for the players and player-dealer.

Dealing Procedures and Round of Play

1. A standard round of play begins when a player-dealer is designated. The player-dealer places a wager in front of the betting circle. This wager is used to pay the winners. The casino will place a "button" in front of the player-dealer and a designation whether it is the first or second turn for the player-dealer in the banking position. The player-dealer will place the collection fee in front of his betting circle.
2. Players at a table then place their wagers in designated betting circles or other unoccupied betting circles. Each player must pay the posted collection for their wager(s) in any betting circle where they have money or "action".
3. Prior to the start of play, the casino dealer will take the collection fees.
4. Play commences with the casino dealer distributing the cards to the players and the player-dealer. All cards are dealt face up. The casino dealer is the only person on the table to touch the cards. The players will signal to the casino dealer by hand gesture if they wish to hit or stand. These hand signals will be consistent with industry standard signals such as moving their hand in a sweeping motion towards their body indicating they want an additional card and in moving their hands in a side to side manner, indicating they wish to stay with their cards on the table. The casino dealer deals the first card to the player seated to the left of casino dealer, in a clock-wise fashion. Each player will be dealt one card face up. The player-dealer's first card will be placed in front of the casino dealer.
5. The casino dealer will deal a second face up card to the players, again starting at the Player to the first seated position to the left of the casino dealer, in a clock-wise fashion. The player-dealer will receive a face down card in front of the casino dealer.
6. Players must follow the below listed chart in deciding whether to hit or stand on a particular hand:

No Bust 21st Century Blackjack 4.0a Perfect Pairs

Rules For Player		
<i>Must Stand On</i>	<i>Must Hit On</i>	<i>Have Option On</i>
Soft 21 and "Natural"	11 Or Less	12
		13
		14
		15
		16
		17
		18
		19
		20

7. After all players have made their best hands by indicating to the casino dealer that they do not wish to have additional cards dealt to them, the casino dealer will turn over the player-dealer hole (second) card.
8. Beginning with the player to the right of the casino dealer, the settling of the wagers will be done in a counter-clockwise manner until all wagers have been acted upon.
9. The player-dealer's cards will always be dealt and placed in front of the casino dealer's tray.
10. The casino dealer continues to draw cards for the player-dealer, if necessary until a Hard 17 or higher number is reached. The player-dealer must follow the following hit rules:

Rules For Player-Dealer		
<i>Must Stand On</i>	<i>Must Hit On</i>	<i>Have Option On</i>
Hard 17 And Above	Soft 17 Or Less	None

11. Once the player-dealer's hand has been made, all winners and losers are determined by comparing the numerical value of the player's hands with the player-dealer's hand. The player-dealer can only win or lose as much as they have placed on the table to cover a portion or all of the wagers.
12. The next round of play begins once the casino dealer collects all cards from the table and places them in the discard tray. The casino dealer will also change the Bank Button, and if necessary (if the same person has already held the player-dealer position twice) rotate the player-dealer position clock-wise to the next position on the table.
13. Backline betting is not permitted on any wagers.

How Winners are Determined and Paid

1. A "Natural" is an initial two card hand containing an Ace and any card with a value of 10 and is the best possible hand.
 - a. If the player and the player-dealer's hands are both a "Natural," the hand is a push or tie, and no action is taken on the wager.

Winning "Natural" hands will be paid 6 to 5

No Bust 21st Century Blackjack 4.0a Perfect Pairs

2. If the player's hand ranks lower than a "Natural" and the player-dealer's hand ranks more than a "Natural" the player wins the hand.
3. If the player's hand ranks lower than a "Natural" and the player-dealer's hand ranks lower than a "Natural," the hand closest to a "Natural" wins.
4. If a player and the player-dealer hands rank the same and it is lower than a "Natural," the hand is a push or tie, and no action is taken on the wager.
5. If a player's and the player-dealer's hands both ranks the same and are higher than a "Natural", the following rules apply:
 - a. If the player-dealer's hand ranks closer to a "No Bust," the player-dealer wins the hand.
 - b. If the player's hand ranks closer to a "Natural" the player loses except when the player-dealer has the following hand then they will "PUSH".
 - i. If the player-dealer has a 3-card with a value of 23, 24 and 25 will push.
 - c. If the value of a player's hand is 22 and the hand contains 3 cards and no aces, the player loses the hand.
 - d. If the player's hand busts with four or more cards, the player loses the hand.
6. The player-dealer wins all ties over a "Natural."
7. If the player's hand ranks higher than a "Natural" and the player-dealer's hand is less than a "Natural," the player-dealer wins.
8. A two card "Natural" beats all other hands.
9. All pay-offs are limited to the amount of the player-dealer's wager. A player-dealer cannot win or lose more than the amount of their wager placed on the table prior to the start of the hand.
10. Third Party Providers of Proposition Player Services, as defined in Section 19984 of the California Business and Professions Code (the Gambling Control Act), are permitted to play.

21st CENTURY

21st Century Free Bet Blackjack

Type of Game

The game of 21st Century Free Bet Blackjack utilizes a player-dealer position and is a California game. The player-dealer shall collect all losing wagers, pay all winning wagers, and may not win or lose more than the original amount wagered. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer shall be returned to the respective players. The player-dealer may only "bank" the hand (including bonus bets) for two consecutive rounds of play before it is offered in a clockwise fashion around the gaming table. The gambling enterprise does not participate in the actual play of the game and has no interest in the outcome of the play.

Object and Summary of the Game

The object of 21st Century Free Bet Blackjack is for the players and the player-dealer to add the numerical value of their cards and obtain the best possible hand of 21 $\frac{1}{2}$, referred to as a "Natural." A natural beats all other hands.

Each player places one wager in the betting spot, with the chance to make a "free double" on two-card values of hard 9, 10, and 11 or a "free split" of any pair except ten value cards.

For example: a player receives a 5 and a 6 they have the opportunity for a "free double." If a player receives two 8's, they have the opportunity for a "free split."

Free Bet

Free Bet is the game mechanism that allows a player-dealer matched wager (to the player's original wager) when either two of the conditions occur:

1. Free Split - The player can split for free when he/she has a pair of the same-valued cards, with the exception of 10-valued pairs, which are not eligible for a Free Split. The dealer will use the Free Bet lammer to signify they have matched the original wager just as a normal Split.
2. Free Double - When the player has a two-card hand (not using an ace) total of 9-10-11, the dealer will use the Free Bet lammer to signify they have matched the original wager just as a normal Double Down.
3. The reason we can offer these liberal rules is that when the player-dealer hand hits to a value of 22, all base Blackjack wagers push.

Description of the Deck and Number of Decks Used

A plural standard deck of cards (52 cards) with no joker is used in the play of the game. However, all four (4) of the ace cards shall be removed from the deck and shall be replaced with four (4) specially marked aces with the word "Bonus" on them. The game can be played with a minimum of six (6) and a maximum of eight (8) decks.

Card Values and Hand Rankings

- Any two card hand, consisting of a specially marked "Bonus" ace with any 10 or face card is a "Natural" and beats all other hands.
- A "Bonus" ace has the following values :
 - 11 $\frac{1}{2}$ on the first two cards when the other card has a value of 10.
 - 1 or 11 when combined with cards valued at 2 - 9.
 - 1 or 11 with three or more cards.
- Two aces have a value of 2 or 12.
- All cards from 2-10 have their face value.
- Picture or face cards have a value of 10.

Description of Table Used and Total Number of Seated Positions

The game shall be played on a standard blackjack table that accommodates up to seven players and a player-dealer position for a total of eight seated positions. Within each betting area for each seated player, there shall be two separate betting spaces specifically designated for two separate wagers; the Blackjack game wager and the Push 22 Bonus Bet. Each betting space at the table has a fixed amount for wagering limits defining the minimum and maximum amounts that may be wagered. Players must bet at least the table minimum. Back-line betting is not permitted on any wagers.

Dealing Procedures and Round of Play

1. 21st Century Free Bet Blackjack is played on a gaming table. The house dealer stands opposite of the players, and in the center of the table. The house dealer’s chip tray is set in front of him/her. The play starts from the left of the house dealer and proceeds in a clock-wise fashion.
2. All tables will have signage displaying the name of the game along with the minimum and maximum wagers allowed, and collection fees for the players and the player-dealer.
3. A standard round of play begins when a player-dealer is designated. The player-dealer places a wager in front of her betting circle. This wager is used to pay the winners. The casino will place a “button” in front of the player-dealer designating whether it is the first or second turn for the player-dealer in the banking position. The player-dealer will place the collection fee in front of his/her betting circle.
4. Players at a table then place their wagers in designated betting circles or other unoccupied betting circles. Each player must pay the posted collection for their wager(s) in accordance with the collection rate schedules.
5. Collection fees will be taken in accordance with the collection rate schedule.
6. Play commences with the house dealer distributing the cards to the players and the player-dealer. All cards are dealt face up, with the exception of the player-dealer’s second card, which will be dealt face down and will remain face down until all players have acted on their hand. The house dealer is the only person on the table to touch the cards.
7. The house dealer will deal two cards, face up, to each players’ hand, starting with the player to the first seated position to the left of the house dealer, in a clockwise fashion. After all players’ receive their second card, the player-dealer will receive their second card, which will be placed in front of the house dealer face-down.

21st Century Free Bet Blackjack

8. The player-dealer's hand shall be checked for a "Natural" when the player-dealer's face-up card is a "Bonus" ace card. If the player-dealer is dealt a "Bonus" ace face-up, players will be asked if they would like to place an "Insurance" wager. Players may either decline this or place an "Insurance" wager by betting an amount equal to half of their game wager. After each player has been given the opportunity to place an "Insurance" wager, the house dealer will check the player-dealer's face-down card. If the player-dealer has a "Natural," players shall not be given the opportunity to draw additional cards and the hands shall be compared immediately.

9. If the player-dealer does not have a "Natural," each player is given an opportunity, starting with the player seated to the left of the player-dealer and continuing clockwise around the table, the player then has the opportunity to "hit", or take a "free double" or "free split," if eligible, and be dealt additional cards to make the best possible hand.
 - If the player had a 9, 10, or 11, the house dealer will ask the player if they want a "free double." If the player want the "free double," the house dealer will place a "free bet" lamer next to the player's bet.
 - If the player has a pair, other than a pair of 10, jacks, queens, or kings, the house dealer will ask the player if they want a "free split." If the player wants the "free split," the house dealer will place a "free bet" lamer next to the player's bet.

10. Once the house dealer has distributed the "free bet" lamer, the players will signal to the house dealer by hand gesture if they wish to hit or stand. These hand signals will be consistent with industry standard signals such as moving their hand in a sweeping motion towards their body indicating they want an additional card and in moving their hands in a side to side manner, indicating they wish to stay with their cards on the table. The player may also decide to "double-down," or "split," with their own money if a "free bet" isn't eligible. The player also has the option to "stand" on 12-20. Each player shall be required to hit or stand according to the chart below:

Rules For Player		
<i>Must Stand On</i>	<i>Must Hit On</i>	<i>Have Option On</i>
Soft & Hard 21 "Naturals"	11 Or Less	12 - 20

A hard 21 Natural is achieved when a hand contains a combination of three or more cards totaling 21. In the event that the hand includes an ace, the ace is only able to be counted as 1, not 11.

A soft 21 Natural is achieved when a hand contains a combination of two or more cards totaling 21 with an ace counted as 1 or 11.

11. After all players have made their best hands by indicating to the house dealer that they do not wish to have additional cards dealt to them, the house dealer will turn over the player-dealer's hole (second) card.

12. The player-dealer's cards will always be dealt and placed in front of the house dealer's tray.

13. The house dealer continues to draw cards for the player-dealer, if necessary until a hard 17 or higher number is reached. The player-dealer must follow the following hit rules:

Rules For Player-dealer		
<i>Must Stand On</i>	<i>Must Hit On</i>	<i>Have Option On</i>
Hard 17 And Above	Soft 17 Or Less	None

A hard hand is achieved when a hand contains a combination of two or more cards totaling 17. In the event that the hand includes an ace, the ace is only able to be counted as 1, not 11. A soft hand is achieved when a hand contains a combination of two or more cards totaling 17 with an ace counted as 1 or 11.

14. Once the player-dealer's hand has been made, all winners and losers are determined by comparing the numerical value of the player's hands with the player-dealer's hand. The player-dealer can only win or lose as much as they have placed on the table to cover a portion or all of the wagers.
15. The game utilizes an action button to determine which player receives first action on their wager. The second card dealt to the house dealer determines the position of the action button. The player-dealer position is not counted when determining where the action button shall be placed. The other seats, in clockwise rotation, starting with the player to the left of the house dealer and continuing left to right, respectively represent the numbers of the second card dealt to the banker hand. When determining where the action button will be placed, cards will hold the following values: ace is one, 2 through 9 have their face value, jack is eleven, queen is twelve, and king is thirteen.
16. After all wagers are settled, the cards are collected and discarded. The bank button is changed and after every two hands, the player-dealer position is offered in a clock-wise fashion around the table.
17. The next round of play begins once the house dealer collects all cards from the table and places them in the discard tray.
18. Backline bettors are not eligible to place any wagers for the game of 21st Century Free Bet Blackjack.

How Winners are Determined and Paid

1. A "Natural" is an initial two card hand containing a "Bonus" ace and any card with a value of 10 and is the best possible hand. A winning natural will pay 6:5.
 - a. If the player and the player-dealer's hands are both a "Natural," the hand is a push or tie, and no action is taken on the wager.
 - b. If the value of a player's hand is less than a "Natural" and the value of the player-dealer's hand is more than a "Natural," the player wins the hand except where the player-dealer has a 22 and then the hand will "push" and no action is taken on the wager.
 - c. If the value of a player's hand is greater than a "Natural" and the player-dealer's hand has a value of less than a "Natural," the player-dealer wins.
 - d. If the value of both the player's and the player-dealer's hands are less than a "Natural," the hand closest to a "Natural" without going over (busts) wins.
 - e. If a player and the player-dealer's hands have the same value and it is less than a "Natural," the hand is a push or tie, no action is taken on the wager.
 - f. If a player and the player-dealer's totals are more than a "Natural", the following will apply:
 - i. If the player-dealer is closer to a "Natural," the player-dealer wins the hand.

- ii. If the player is closer to a “Natural,” the player loses except when the player-dealer has a 3-card hand consisting of 7, 8, & 9 of the same suit and then the hand will push and no action is taken on the wager.
