In many instances following well-publicized instances of police brutality, the account provided by the police officers involved has been inaccurate or even an outright coverup. Would it make sense to have a system where

11	minutes following the police encounter in order to	
12	provide a different prospective? Then the two	
13	surveys would be inputted into the same file. This

The deadline for submitting comments is tomorrow at 5:00 p.m. So if you know anybody who wants to submit comments on the regulations, you think would be interested in knowing what's going on, make sure to let them know that tomorrow is our deadline for receiving comments. So as you entered the room, you received a speaker card, and we've taken those. If you do want to provide a comment anonymously, that is also an option. So if you give us a speaker card, and you're like, actually, I'd rather you not record my name or whatever, just let us know. You don't have to present it with your name. But for the rulemaking file, just in our records, it's easier if we have that information. Let's see. We also have a sign-in sheet. We

If you search on our website, if you go to "oag.ca.gov," you can always just search for "AB 953" and also find that information. On December 9th, we also sent a notice to interested stakeholders to let them know that the proposed regulations had been posted. This notice also outlined the ability of members of the public to submit comments regarding the proposed regulations in writing or orally at today's hearing. This is the last of three public hearings. We had one in Oakland last week and one in Los Angeles the week before. The full rulemaking file, including the rulemaking documents, the documents we relied upon to draft the proposed regulations and also the comments we've received to date, are available at one of our offices, the DOJ in Oakland or in Los Angeles. And you can email us if you'd like to see that full file. The email is also on that piece of paper we gave you earlier. But it's "AB953@doj.ca.gov." I was asked these this myriad of questions as if I didn't even belong being a business owner or even in my car. So that is not just happening to me but a whole bunch of people that look like me, a whole bunch of other black and brown folks that look like me. And I was shaking and I was terrified. And I shared it on Facebook. I couldn't get over it for weeks. And every time I saw an officer, all I could do was be fearful and look forward. And even when I was pulled over, I didn't know if we were going to be shot. No one was around. I'm looking around to see where I could who's watching and what I can do. No one should feel that terrified when they're pulled over by an officer. And loudly I remember speaking to the officer, letting him know, "Officer, I can't my license. It's in the back in my purse." And I was very scared to reach back. I'd already watched the Sandra Bland. Myself being a part of the media, it was a very terrifying experience for me. I've been stopped, my son's been stopped, my husband has been stopped, everyone's been stopped in my family. For what? And also being 15 years as an educator, as a state-mandated reporter, it was very important for me to	1And if you want to speak and haven't done so, we2have an open mic.3(Whereupon the meeting concluded at44:30 p.m.)5678910111213141516171819202122232425

And it's very important for us to take our time when we must write that report. When we must be a part of the solution versus the problem. If I didn't write about things that happened to my students, and they would tell me about stuff going on at home, should I be that teacher that says, heck, I don't have time to write that out? Should I have done that? So that's why it's so important for us to look at time as not an issue but part of it, to take the time to write that information down so we can see where the problem is and look forward to solutions. MS. HOVIS: Thank you. So since the public hearing is slated to go until 4:30, we sit and stay here until 4:30. That's how it works. So we will be here. Thank you for being here everybody who came, honestly. I'm just really pleased to see that the energy and commitment to ensure that AB 953 is effectively implemented because it's certainly consuming our lives. And it's just really great to have members of the public so participatory. So thank you so much. 	1 STATE OF CALIFORNIA)) ss. 2 COUNTY OF FRESNO) 3 I, MIRANDA K.
