Release Notes November 2017

The CAPSS 4.11.0 Release was successfully implemented on Wednesday November 15, 2017. This release focused on the Application Programming Interface (API) allowing for those items listed as "electronic handheld devices" to be modified via a bulk UPDATE file process. The functionality to search and view the API updates is also available. Those businesses that want to modify a Serial or Owner Applied Number of specified handheld devices may do so via the JUS -123 or by submitting a bulk UPDATE file within ten days of the transaction date. Any authorized and actively licensed business that chooses to utilize this API option will need to make some programming changes. For those that choose not to use this option, no changes are required.

A listing of those articles that may be subject to modification is listed below.

Electronic Handheld Device Articles
calculator
cellphone/smartphone
digital multimedia device
game set
e machine
lap top computer
monitoring system
electronic organizer
pager
radio
recorder
smartwatch
tablet/ipad/kindle
sound equipment
smartwatch
telephone (all kinds)
video camera
speaker
electronic game

The API bulkUPDATE documentation is available for download.

The next planned Release will be tentatively scheduled after the first of 2018.

For any CAPSS related questions you may contact the CAPSS unit via email at CAPSS@doj.ca.gov or by phone at (916) 210-3212.
