

CALIFORNIA DIRECTORY OF COMPLIANT CIGARETTES AND ROLL-YOUR OWN
BRAND FAMILIES LISTED BY BRAND FAMILY

LAST UPDATED: OCTOBER 30, 2012

This Directory lists all Tobacco Product Manufacturers and brand families that are certified as being in compliance with California law. Only cigarette brands and roll-your-own (RYO) tobacco products listed in this Directory may be sold, offered for sale or possessed for sale in California.

Manufacturers and/or brands that are listed with a numeral in superscript (for example, Tobacco Company¹) have been annotated with pertinent information. A list of annotations appears on the last page of this directory.

NEW LAW - AB2496 Enforcement Enhancement:

In 2010 the California legislature enacted AB2496, which adds new requirements for listing on the California Tobacco Directory. Information regarding the new requirements, regulations and forms can be found on the California Attorney General's website at: <http://oag.ca.gov/tobacco/directory>

The Attorney General updates the directory on an as-needed basis to make corrections or to add or delete manufacturers or brand families. Licensed California distributors will receive notice by e-mail, to the address provided to the Attorney General on the Distributor Registration Form (JUS-TOB8), whenever a manufacturer or brand family is added to or removed from the Directory. If you are a licensed California distributor, you are responsible for checking the most recent update of this Directory and any email notifications from the Attorney General's Office before you stamp cigarettes or pay the tax on RYO tobacco.

California Cigarette Fire Safety and Firefighter Protection Act: Enacted in 2005, this law imposes requirements on all cigarettes sold in California after January 1, 2007. (Health & Safety Code sections 14950-14960.) Any retailer, distributor, or wholesaler that knowingly sells or offers to sell cigarettes in violation of this part is subject to civil penalties.

“Little cigars”: Tobacco products labeled as little cigars currently do not have to be listed in this Directory in order to be lawfully sold in California.

FDA Regulations and Modified Risk Descriptors: No “light,” “mild,” “low” or “similar” descriptors. Sec 911(b)(2)(A)(ii) – Based on recent changes in federal law which ban any tobacco product with the label, labeling, or advertising of which uses the descriptor “light,” “mild,” “low” or “similar descriptor”. On June 22, 2010 this statutory provision becomes effective banning the manufacture of any products with the banned descriptors. Manufacturers may not manufacture any product for sale with the banned labels after June 22, 2010, but they may sell manufactured product into the stream of commerce through July 22, 2010. While the new law does not prohibit retailers from continuing to sell these products, the FDA and the State of California are concerned that the continued sale of these products for an extended period of time is not in the interest of public health.
