SELECTION OF PROPOSALS FOR FUNDING

Administrative Review

All grant applications will be reviewed by an independent reviewer upon submission to the Department to ensure that all requirements are met under Sections I and II. This administrative review will render a pass/fail score.

Merits Review

All grant applications that pass the administrative review will move forward to the merit review. The merits review committee will be comprised of four individuals selected by the Attorney General or his designee, to read, evaluate, and rate all proposals that pass administrative review.

The committee will consist of a senior member of Department’s policy staff, a member of the Division of Law Enforcement, a member of Department’s Budget Office staff, and a member of Department’s Tobacco Litigation and Enforcement Section. The committee will receive instruction, as set forth below, regarding scoring, and each member will make a written declaration, prior to reviewing any proposal, regarding the confidentiality of the procedure and attesting to the absence of a conflict of interest.

The committee members will score each application that passes administrative review. The initial assessment will be whether or not the proposed project is within the scope of the Tobacco Grant Program. If the project is within the scope, the following criteria will be scored on a 7-point scale (well-qualified: 6-7; qualified: 3-5; not qualified: 0-3): description of the problem to be addressed, description of the proposed project and its goals, description of the personnel required to execute the project, detailed budget, and the capacity of the applicant to achieve the goals. In assessing the capacity of the applicant, the committee members will score the application based, among other things, on indicators of community support for the proposed project, e.g., letters of support from community organizations or local elected officials, and information about community outreach and meetings. The committee members may score based on individual review of the proposals, discussion with other members of the committee, or a combination. A committee member may ask Department staff for additional information relevant to scoring an application and staff may provide this information; such information shall be provided to all committee members.

More information about the evaluation criteria is contained in the Grantee Handbook.
Selection
The merits review committee’s recommendations for funding will be submitted to the Attorney General for final selection.

PROCESSING AND FINALIZING GRANT AWARDS

Processing of Grant Award
The following are the steps the Department will take in processing grant proposals and awards:

- Department receives proposals.
- Department performs administrative review.
- Merits review committee reads and evaluates proposals.
- Merits review committee submits scoring and recommendations to Department staff. Staff submit the results of the administrative review, and the scoring and recommendations of the merits review committee to the Attorney General for approval.
- Attorney General approves or modifies final recommendations.
- Department sends selection notification letters to all applicants, successful and unsuccessful.
- Department sends MOU to successful grant applicants for signature and applicants execute and return the MOU to Department, with the required resolution of the governing body.
- Department reviews completed MOUs from awarded agencies and signs completed forms.
- Department sends fully-executed copy of MOU to applicant with further instructions on the reimbursement process.

Scope of Work Funded
Applicants selected for funding must retain a copy of this RFP and the Grantee Handbook because these materials set forth the requirements for the entire grant award period. The grant award is based on this RFP, Grantee Handbook, the proposal and all documents referenced therein, the completed MOU, and any other documents duly incorporated.

Appeals
An applicant may appeal a denial or reduced award. However, a successful appeal may be remedied either in this RFP grant cycle (DOJ-PROP56-2019-20-1) or in a subsequent cycle (e.g. during the 2020-21 fiscal year).
SAMPLE GOALS AND OBJECTIVES

The patterns of use of tobacco products in California are increasingly uneven, e.g., smoking rates vary widely depending on age, race, national origin, education, income, sexual identification, region, etc. There are also variations in the use by minors of different types of tobacco products, depending on the community, e.g., in some areas youth tend to use chew, in others they tend to use e-cigarettes, and in others they tend to use cigarillos. The Department encourages applicants to consider strategies that reduce illegal sales and marketing of all tobacco products to minors, and that take into account these variations as they exist locally.

The Department provides the following sample goals and objectives to help guide applicants and give ideas upon which to build. Applicants may incorporate those that will help solve local problems. The Department encourages applicants to develop their own strategies to address these problems. Other resources that applicants might find helpful include the California Department of Tax Fee Administration list of licensed corporate retailers https://www.cdtfa.ca.gov/taxes-and-fees/cigarette-licensees.htm, the FDA retailer compliance database https://www.accessdata.fda.gov/scripts/ocel/inspections/ocel_insp_searching.cfm, and the reports of the California Department of Public Health Tobacco Control Branch https://www.cdph.ca.gov/Programs/CCDHP/DCDIC/CTCB/Pages/FactsandFigures.aspx.

- Conduct _____ "shoulder tap” or other operations involving the furnishing of tobacco products to minors from non-commercial sources.
- Conduct _____ local tobacco retail license inspection operations.
- Conduct _____ operations involving the sale of single cigarettes (“loosies”).

FAQs ABOUT THE DEPARTMENT’S TOBACCO GRANT PROGRAM

Is it worthwhile for a small agency in a small city to apply for these funds?

Yes. Look at the examples of the grants the Department previously awarded – they are from all over the state and include many small cities and rural counties. See https://oag.ca.gov/sites/all/files/agweb/pdfs/tobacco/tobacco-grants-17-18.pdf

This program looks like it is only for police or sheriffs. Can a code enforcement agency, or an environmental health department, apply?

Police and sheriff’s departments are not the only eligible local law enforcement agencies. If an agency enforces a local ordinance or state law relating to tobacco, e.g., inspects tobacco retail licenses or enforces a rule against possession of vape products on school grounds, it is probably eligible. If a city, county or public educational institution has a law enforcement branch or function, it is probably eligible.

The Department should offer these funds for alcohol, opioids, cannabis or any number of other issues that are big problems, but not for cigarettes. Hardly any kids smoke cigarettes any more.

Tobacco remains our most serious public health issue. Further, tobacco use often tracks other issues that are of great concern. For example, the prevalence of tobacco use by people with mental health problems is much higher than among the population as a whole, and stores that are associated with neighborhood blight often sell tobacco products. Addressing tobacco problems can help solve other problems. Also, California law defines “tobacco products” more broadly than just cigarettes – it includes e-cigs, flavored cigarillos, blunts, etc. In many communities, the number of kids using vape products has increased faster than the number of kids using cigarettes has decreased.

It is difficult for a small jurisdiction to conduct effective minor decoy operations. Does this program fund other types of enforcement?

Yes. Funds are available for many different types of tobacco-related enforcement activities, not only for undercover buy operations. Also, combined applications and applications with subcontracts are allowed, e.g., several adjoining rural counties could collaborate on joint
operations using shared enforcement personnel and a local community group. A law enforcement agency could subcontract with another organization to perform work in support of enforcement efforts. There are many options.

**Kids get tobacco from friends, or older siblings, or the internet. How does doing more undercover buys at retailers address that reality?**

Minors get tobacco products from many sources and the Department seeks to fund a wide range of enforcement activities – not only undercover buys at brick and mortar retailers. Other funded activities might include undercover internet buys, school-based operations, shoulder tap operations, retailer education, outreach by school resource officers, and media campaigns.

**If a community already has a robust tobacco retailer inspection and education program, will the Department fund other activities?**

Yes. Prop. 56 provides funding to support local law enforcement officers in programs that include, but are not limited to, enforcing state and local laws relating to tobacco. Thus, if other activities will support tobacco enforcement in the community, those activities may be eligible – ranging from paying for anti-tobacco posters on bus benches on routes taken by young people, erecting no smoking signs at parks and playgrounds, developing a retailer diversion program, and enforcement in hookah lounges. The Department’s grant program gives fiscal support to local agencies to pursue activities that will produce results in their communities.

**Officers and inspectors cite retailers, but the district or city attorney never prosecutes for tobacco-related violations. Can the tobacco grant program help?**

Yes. Funds are available for the prosecution of tobacco-related violations, in a judicial or administrative venue. This could include city attorneys, county counsels or district attorneys.
