“What I like best about CSAR is the real time entry of records. As soon as you enter or update a record, it's available for all LEAs to use. You also get an accurate account of the registration history with other law enforcement agencies.”
Detective Bishop, Fresno Police Department

“CSAR is easy to use and if you make a mistake, you can correct it instantly. With its drop down menus, pre-defined fields, and user-friendly layout, CSAR data entry is fast and simple.”
Ryan St Michel, Los Angeles Police Department
