3. Ask for a credit (security) freeze or fraud alert.

Fraud Alert

A fraud alert is a temporary (90 day) alert that can make it more difficult for someone to get credit in your name. This alert tells creditors to follow certain procedures to protect you, but may delay you from getting credit. You may place a fraud alert in your file by calling one of the three national credit reporting companies. When that bureau processes your fraud alert, it will tell the other two bureaus to place a fraud alert in your file.

Credit (security) freeze

A credit or security freeze is when you ask a credit reporting company to block others from looking at your credit report. This can makes it harder for identity thieves to open new accounts in your name.

To place a security freeze with one or more of the three national credit reporting companies, please contact the company and give the information as noted below:
