Notice of Data Breach

Dear Sample A Sample:

ArbiterSports is committed to protecting the confidentiality of our customers' information. We are writing to notify you that we recently identified and addressed a data security incident that involved some of your information. This notice provides you with a description of the incident, our response, and the steps you may take.

What Happened?

We recently detected unauthorized access to certain devices in our network and an attempt to encrypt our systems. We immediately took measures to stop the access, launched an investigation, and a security firm was engaged. On July 15, 2020, findings from the investigation identified a backup copy of a database made for business continuity reasons that was obtained by the unauthorized party at some point in the prior few weeks. Although we were able to prevent devices from being encrypted, the unauthorized party demanded payment in exchange for deleting the files that were obtained. We reached an agreement and obtained confirmation that the unauthorized party deleted the files.

What Information Was Involved?

The database file involved supports ArbiterGame, ArbiterOne, and ArbiterWorks and contained information about our users, including account username and password, name, address, date of birth, email address, and Social Security number. The passwords and Social Security numbers were encrypted in the file, but the unauthorized party was able to decrypt the data.

What We Are Doing.

We have implemented additional measures and changes to enhance the security of our network. We also notified law enforcement and are supporting their investigation.
