BREACH

Dear [REDACTED]

Think Tax Solutions Inc. ("Think Tax") is writing to let you know about a data security incident that may have impacted some of your information. This letter contains information about steps you can take to protect your information, and resources we are making available to help you.

What Happened? We recently completed an investigation into a security incident involving a third-party software platform that we use to help file tax returns. Outside forensic experts hired to investigate this incident have determined that in November 2024, an unauthorized individual was able to access the software platform and download information related to our clients.

What Information Was Involved? We conducted a review of the documents that were potentially accessed, and on May 8th, 2025, we determined that your name, address, date of birth, Social Security number, other information related to your tax return may have been affected.

What We Are Doing: To help protect your identity, we are providing with access to Single Bureau Credit Monitoring/Single Bureau Credit Report/Single Bureau Credit Score services at no charge. These services provide you with alerts for 12 months from the date of enrollment when changes occur to your credit file. These services will be provided by Cyberscout, a TransUnion company specializing in fraud assistance and remediation services.

What You Can Do: To enroll in Credit Monitoring services at no charge, please log on to <https://bfs.cyberscout.com/activate> and follow the instructions provided. When prompted please provide the following unique code to receive services: [REDACTED]. In order for you to receive the monitoring services described above, you must enroll within 90 days from the date of this letter. The enrollment requires an internet connection and e-mail account and may not be available to minors under the age of 18 years of age. Please note when signing up for monitoring services, you may be asked to verify personal information for your own protection to confirm your identity. This letter also provides other precautionary measures you can take to protect your information. We encourage you to take full advantage of this service offering.

Additionally, to further protect your identity on future tax returns, you can sign up for an IRS Identity Protection PIN (IP PIN). To sign up for the IRS Identity Protection PIN (IP PIN) program, visit [IRS.gov/IPPIN](https://irs.gov/ippin). You'll need to verify your identity through the secure online tool, which requires creating an account with ID.me or using an existing IRS account. Once your identity is confirmed, you'll receive a six-digit IP PIN, which helps prevent the misuse of your Social Security number on fraudulent federal tax returns. The IP PIN is updated annually and must be used when filing your tax return. *For Individual State returns, please contact your local State Tax Board for instructions.*

For More Information: If you have questions, please call 626-627-2471, Monday through Friday from 8:00 a.m. to 6:00 p.m. PST M-F. Protecting your information is important to us, and we sincerely apologize for any concern this incident may cause you.

Sincerely,

Think Tax Solutions Inc.

Recommended Steps to help Protect your Information

1. Review your credit reports. We recommend that you remain vigilant by reviewing account statements and monitoring credit reports. Under federal law, you also are entitled every 12 months to one free copy of your credit report from each of the three major credit reporting companies. To obtain a free annual credit report, go to www.annualcreditreport.com or call 1-877-322-8228. You may wish to stagger your requests so that you receive a free report by one of the three credit bureaus every four months.

You should also know that you have the right to file a police report if you ever experience identity fraud. Please note that in order to file a crime report or incident report with law enforcement for identity theft, you will likely need to provide some kind of proof that you have been a victim. A police report is often required to dispute fraudulent items. You can report suspected incidents of identity theft to local law enforcement or to the Attorney General.

2. Place Fraud Alerts with the three credit bureaus. If you choose to place a fraud alert, we recommend you do this after activating your credit monitoring. You can place a fraud alert at one of the three major credit bureaus by phone and also via Experian's or Equifax's website. A fraud alert tells creditors to follow certain procedures, including contacting you, before they open any new accounts or change your existing accounts. For that reason, placing a fraud alert can protect you, but also may delay you when you seek to obtain credit. The contact information for all three bureaus is as follows:

Credit Bureaus

Equifax Fraud Reporting
1-866-349-5191
P.O. Box 105069
Atlanta, GA 30348-5069
www.equifax.com

Experian Fraud Reporting
1-888-397-3742
P.O. Box 9554
Allen, TX 75013
www.experian.com

TransUnion Fraud Reporting
1-800-680-7289
P.O. Box 2000
Chester, PA 19022-2000
www.transunion.com

It is necessary to contact only ONE of these bureaus and use only ONE of these methods. As soon as one of the three bureaus confirms your fraud alert, the others are notified to place alerts on their records as well.

You will receive confirmation letters in the mail and will then be able to order all three credit reports, free of charge, for your review. An initial fraud alert will last for one year.

Please Note: No one is allowed to place a fraud alert on your credit report except you.

3. Security Freeze. By placing a security freeze, someone who fraudulently acquires your personal identifying information will not be able to use that information to open new accounts or borrow money in your name. You will need to contact the three national credit reporting bureaus listed above to place the freeze. Keep in mind that when you place the freeze, you will not be able to borrow money, obtain instant credit, or get a new credit card until you temporarily lift or permanently remove the freeze. There is no cost to freeze or unfreeze your credit files.

4. You can obtain additional information about the steps you can take to avoid identity theft from the following agencies. The Federal Trade Commission also encourages those who discover that their information has been misused to file a complaint with them.
