- *A fraud alert indicates to any business requesting your credit file that you suspect you are a victim of fraud and requires the business to verify your identity before issuing you credit. A fraud alert does not affect your ability to get a loan or credit, but it may cause some delay if you are applying for credit.*
- *A security freeze is designed to prevent credit, loans, and services from being approved in your name without your consent. However, using a security freeze may delay your ability to obtain credit. To place a security freeze, you must send a written request to each of the three credit bureaus listed above and provide the following information: (1) your full name; (2) SSN; (3) date of birth; (4) the addresses where you have lived over the past 5 years; (5) proof of current address, such as a utility bill or telephone bill; (6) a copy of a government issued identification card; (7) if you are the victim of identity theft, the police report, investigative report, or complaint to a law enforcement agency; and (8) if you are not the victim of identity theft, payment by check, money order, or credit card. If you are not a victim of identity theft, the credit reporting agencies will charge you a fee for each security freeze.*
- *Obtain or file a police report - You have the right to obtain any police report filed in regard to this incident. If you are the victim of fraud or identity theft, you also have the right to file a police report.*
- *Keep a record of your contacts - Start a file with copies of your credit reports, any police report, any correspondence, and copies of disputed bills. It is also useful to keep a log of your conversations with creditors, law enforcement officials, and other relevant parties.*
