EXHIBIT 1

The investigation into this incident is ongoing, and this notice will be supplemented with any substantive information learned after submission of this notice. By providing this notice, CareMeridian, LLC ("CareMeridian") does not waive any rights or defenses regarding the applicability of California law, the applicability of the California data event notification statute, or personal jurisdiction.

Nature of the Data Event

On or around December 23, 2017, CareMeridian discovered that an unencrypted disk sent to them by their third-party software provider (Bullpen Financial, Inc.) containing documents that included sensitive information appeared to have been lost in the mail. An investigation was immediately launched that included the retention of a forensics expert, to determine the nature and scope of this incident, the types of information involved and the individuals who may be affected. It was determined on January 20, 2018 that protected personal information was contained on the disk. There was information related to various entities such as CareMeridian that the third-party was auditing, so further internal investigation was required to determine individual addresses and the entity with which the impacted individuals had a relationship. This research was finalized March 12, 2018.

Notice to California Residents

While the investigation is ongoing, after review of the files believed to be stored on the disk with the assistance of an outside forensics expert, it was confirmed that the name and medical information relating to nine hundred fifty-three (953) California residents and the name and Social Security number of thirteen (13) California residents may have been accessible on the lost disk. Written notice of this incident is being provided to those impacted California residents on or about March 20, 2018, in substantially the same form as the letters attached hereto as ***Exhibit A***.

Other Steps Taken and To Be Taken

CareMeridian is providing the thirteen (13) individuals who potentially had their Social Security number exposed access to twelve (12) months of complimentary credit monitoring and identity restoration services with Experian. A dedicated number has been established for all impacted individuals to contact with questions or concerns regarding this incident. Additionally, CareMeridian is providing all impacted individuals with helpful information on how to protect against identity theft and fraud, including how to place a fraud alert and security freeze on one's credit file, the contact information for the national consumer reporting agencies, how to obtain a free credit report, a reminder to remain vigilant for incidents of fraud and identity theft by reviewing account statements and monitoring free credit reports, and encouragement to contact the Federal Trade Commission, state attorney general, and law enforcement to report attempted or actual identity theft and fraud.

CareMeridian is also providing notice of this incident to other state regulators as required. On January 16, 2018, CareMeridian notified the California Department [insert full name] on a preliminary basis as our investigation was still incomplete. CareMeridian is providing supplementary notice to the California Department of Public Health.

PRIVACY SAFEGUARDS

Monitor Your Accounts.

Credit Reports & Explanation of Benefits. We encourage you to remain vigilant against incidents of identity theft and fraud, to review your account statements, and to monitor your free credit reports and explanation of benefits forms for suspicious activity. Under U.S. law, you are entitled to one free credit report annually from each of the three major credit reporting bureaus. To order your free credit report, visit www.annualcreditreport.com or call, toll-free, 1-877-322-8228. You may also contact the three major credit bureaus directly to request a free copy of your credit report.

Fraud Alerts. At no charge, you can also have these credit bureaus place a "fraud alert" on your file that alerts creditors to take additional steps to verify your identity prior to granting credit in your name. Note, however, that because it tells creditors to follow certain procedures to protect you, it may also delay your ability to obtain credit while the agency verifies your identity. As soon as one credit bureau confirms your fraud alert, the others are notified to place fraud alerts on your file. Should you wish to place a fraud alert, or should you have any questions regarding your credit report, please contact any one of the agencies listed below:

Security Freeze. You may also place a security freeze on your credit reports. A security freeze prohibits a credit bureau from releasing any information from a consumer's credit report without the consumer's written authorization. However, please be advised that placing a security freeze on your credit report may delay, interfere with, or prevent the timely approval of any requests you make for new loans, credit mortgages, employment, housing, or other services. If you have been a victim of identity theft and you provide the credit bureau with a valid police report, it cannot charge you to place, lift, or remove a security freeze. In all other cases, a credit bureau may charge you a fee to place, temporarily lift, or permanently remove a security freeze. Fees vary based on where you live, but commonly range from $3 to $15. You will need to place a security freeze separately with each of the three major credit bureaus listed above if you wish to place a freeze on all of your credit files. In order to request a security freeze, you will need to supply your full name, address, date of birth, Social Security number, current address, all addresses for up to five previous years, email address, a copy of your state identification card or driver's license, and a copy of a utility bill, bank or insurance statement, or other statement proving residence. To find out more on how to place a security freeze, you can use the following contact information:
