Dear <<Name 1>>:

CorePower Yoga, LLC (“CorePower”) is writing to make you aware of a recent data privacy event that may affect the security of your personal information. We take this incident very seriously and are providing you with information and access to resources so that you can protect your personal information, should you feel it is appropriate to do so.

What Happened? CorePower previously became aware of suspicious activity occurring within an employee’s email account, changed the employee’s email account password, and commenced an investigation to identify the source of the activity. As part of the investigation into the incident, which was conducted with the assistance of a third-party forensic specialist, it was determined that multiple employee email accounts were subject to unauthorized access between November 7, 2019, and February 3, 2020. The investigation was unable to determine which, if any, emails and attachments within the email accounts were accessed or viewed. Therefore, the forensic specialist then undertook a time-consuming review of all the emails and attachments in the email accounts to determine whether they contained any sensitive information.

The forensic specialist completed its analysis of the email accounts on August 13, 2020, and prepared a list of individuals whose information was determined to be present in the emails or attachments located in the email accounts and possibly viewed by the unauthorized person(s).

What Information is Involved? The information related to you found within the email account includes your name and <<Breach Elements>>. We were unable to determine which emails, if any, in the accounts were subject to unauthorized access but are providing notice out of an abundance of caution as your information was contained within the email accounts subject to unauthorized access.

What Are We Doing? We take the security of information entrusted to us very seriously and we apologize for the inconvenience this incident has caused you. We changed the CorePower employee account passwords at issue, reviewed existing security measures, and are working diligently to implement additional security measures to ensure the security of our network. We are also providing you with information about this event and about the steps you can take to protect your personal information, should you feel it appropriate to do so.

We are offering you access to twelve (12) months of free credit and identity monitoring through TransUnion.

What You Can Do. We encourage you to monitor your credit card statements and other financial accounts closely and report any suspected fraud to your issuing bank. You can also review the enclosed “Steps You Can Take to Protect Your Information” for additional information about how you can protect your identity and on how to enroll in the free credit and identity monitoring services.

For More Information. We understand that you may have questions about this incident that are not addressed in this letter. If you have additional questions, we have set up a call center that you can reach at 888-490-0587, Monday through Friday, from 6:00 a.m. to 6:00 p.m. Pacific Time.

We apologize for any inconvenience this incident may have caused.

Sincerely,

CorePower Yoga, LLC

Enroll in Credit Monitoring

See last page for instructions.

Monitor Your Accounts

We encourage you to remain vigilant against incidents of identity theft and fraud, to review your account statements, and to monitor your credit reports for suspicious activity. Under U.S. law, you are entitled to one (1) free credit report annually from each of the three (3) major credit reporting bureaus. To order your free credit report, visit www.annualcreditreport.com or call, toll-free, 1-877-322-8228. You may also contact the three (3) major credit bureaus directly to request a free copy of your credit report.

You have the right to place a “security freeze” on your credit report, which will prohibit a consumer reporting agency from releasing information in your credit report without your express authorization. The security freeze is designed to prevent credit, loans, and services from being approved in your name without your consent. However, you should be aware that using a security freeze to control who gets access to the personal and financial information in your credit report may delay, interfere with, or prohibit the timely approval of any subsequent request or application you may make regarding a new loan, credit, mortgage, or any other account involving the extension of credit. Pursuant to federal law, you cannot be charged to place or lift a security freeze on your credit report. Should you wish to place a security freeze, please contact the major consumer reporting agencies listed below:

In order to request a security freeze, you will need to provide the following information:

1. Your full name (including middle initial as well as Jr., Sr., II, III, etc.);
2. Social Security number;
3. Date of birth;
4. If you have moved during the past five (5) years, the addresses where you have lived over the prior five (5) years;
5. Proof of current address, such as a current utility bill or telephone bill;
6. A legible photocopy of a government-issued identification card (state driver’s license or ID card, military identification, etc.); and
7. If you are a victim of identity theft, a copy of either the police report, investigative report, or complaint to a law enforcement agency concerning identity theft.

As an alternative to a security freeze, you have the right to place an initial or extended “fraud alert” on your credit file at no cost. An initial fraud alert is a 1-year alert that is placed on a consumer’s credit file. Upon seeing a fraud alert display on a consumer’s credit file, a business is required to take steps to verify the consumer’s identity before extending new credit. If you are a victim of identity theft, you are entitled to an extended fraud alert, which is a fraud alert lasting seven (7) years. Should you wish to place a fraud alert, please contact any one of the agencies listed below:
