Notice of Data <<Security Incident/Breach>>

Dear <<FirstName>> <<LastName>>,

We are writing to inform you of a recent data security incident that may have resulted in unauthorized access to your personal information. We take the privacy of your personal information seriously and want to provide you with information and resources you can use to protect your identity. This letter contains information about the incident and information about how to protect your personal information.

What Happened and What Information was Involved:

Recently, Hahn Loeser & Parks LLP (“HLP”) detected and stopped a network security incident. An unauthorized third-party accessed our network environment. Upon discovery, we immediately shut off access to the impacted systems and engaged specialized third-party forensic and technical resources to respond to the incident. HLP has secured its network and the data that we maintain.

Once our environment was secure, we initiated a comprehensive investigation into the cause and extent of the unauthorized activity. An investigation revealed that the following categories of your information may have been exposed during the compromise: name, driver’s license/ID number and social security number. We maintained this information as a part of our case files. Notably, the types of information affected were different for each individual, and not every individual had all of the above listed elements exposed.

As of this writing, HLP has not received any reports of related identity theft since the date of the incident.

What We Are Doing:

HLP is committed to doing everything we can to protect the privacy and security of the personal information in our care. Upon detecting this incident, we moved quickly to initiate our incident response program, which included fully securing our network and the data that we maintain. We conducted an investigation with the assistance of third-party forensic specialists and have reported this matter to law enforcement. We have done everything within our power to ensure that the compromised information is not misused or disseminated.

In addition, we are offering identity theft protection services through IDX, A ZeroFox Company, the data breach and recovery services expert. IDX identity protection services include: <<12 months/24 months>> of credit and CyberScan monitoring, a \$1,000,000 insurance reimbursement policy, and fully managed ID theft recovery services. With this protection and upon enrollment, IDX will help you resolve issues if your identity is compromised.

Steps You Can Take to Help Protect Your Information

Credit Reports: You may obtain a copy of your credit report, free of charge, whether or not you suspect any unauthorized activity on your account. You may obtain a free copy of your credit report from each of the three nationwide credit reporting agencies. To order your free credit report, please visit www.annualcreditreport.com, or call toll-free at 1-877-322-8228. You can also order your annual free credit report by mailing a completed Annual Credit Report Request Form (available at <https://www.consumer.ftc.gov/articles/0155-free-credit-reports>) to: Annual Credit Report Request Service, P.O. Box 105281, Atlanta, GA, 30348-5281.

Fraud Alerts: You can place fraud alerts with the three credit bureaus by phone or online. A fraud alert tells creditors to follow certain procedures, including contacting you, before they open any new accounts or change your existing accounts. For that reason, placing a fraud alert can protect you, but also may delay you when you seek to obtain credit. As of September 21, 2018, initial fraud alerts last for one year. Victims of identity theft can also get an extended fraud alert for seven years.

Monitoring: You should always remain vigilant for incidents of fraud and identity theft by reviewing credit card account statements and by monitoring your credit report for suspicious or unusual activity.

Security Freeze: You have the right to place a security freeze on your credit report. A security freeze is intended to prevent credit, loans, and services from being approved in your name without your consent. To place a security freeze on your credit report, you need to make a request to each consumer reporting agency. You may make that request by certified mail, overnight mail, regular stamped mail, or by following the instructions found at the websites listed below. The following information must be included when requesting a security freeze (note that if you are requesting a credit report for your spouse or a minor under the age of 16, this information must be provided for him/her as well): (1) full name, with middle initial and any suffixes; (2) Social Security number; (3) date of birth; (4) current address and any previous addresses for the past five years; and (5) any applicable incident report or complaint with a law enforcement agency or the Registry of Motor Vehicles. The request must also include a copy of a government-issued identification card and a copy of a recent utility bill or bank or insurance statement. It is essential that each copy be legible, display your name and current mailing address, and the date of issue. As of September 21, 2018, it is free to place, lift, or remove a security freeze. You may also place a security freeze for children under the age of 16. You may obtain a free security freeze by contacting any one or more of the following national consumer reporting agencies:
