Dear <<first_name>> <<middle_name>> <<last_name>> <<suffix>>,

Notice of Data Breach:

We are writing to inform you of a data security incident involving G2 Insurance Services, Inc. (“G2”) that may have resulted in the unauthorized access to some of your personal information. G2 takes the security of your personal information very seriously, and we sincerely apologize for any inconvenience this incident may cause. While G2 has no evidence that your personal information has been misused, this letter contains information about the incident and steps you can take to protect your information.

What Happened?

On February 4, 2021, G2 discovered that an unauthorized user may have gained access to one of our systems. Upon discovery of the potential unauthorized access, G2 engaged a professional cybersecurity forensics team to investigate the incident and determine the scope and extent of the potential unauthorized access. Forensic investigations of this type are difficult and take time and that is the reason for the delay between February and now.

What Information was Involved?

The forensic investigation determined that some of the files on our systems were accessed by the unauthorized individual. Upon further review of the files that were impacted, G2 discovered that personally identifiable information, such as your name in combination with your Social Security Number may have been impacted.

For residents of Massachusetts: It is required by state law that you are informed of your right to obtain a police report if you are a victim of identity theft.

For residents of all states:

Fraud Alerts: You can place fraud alerts with the three credit bureaus by phone and online with Equifax (https://assets.equifax.com/assets/personal/Fraud_Alert_Request_Form.pdf); TransUnion (<https://www.transunion.com/fraud-alerts>); or Experian (<https://www.experian.com/fraud/center.html>). A fraud alert tells creditors to follow certain procedures, including contacting you, before they open any new accounts or change your existing accounts. For that reason, placing a fraud alert can protect you, but also may delay you when you seek to obtain credit. As of September 21, 2018, initial fraud alerts last for one year. Victims of identity theft can also get an extended fraud alert for seven years. The phone numbers for all three credit bureaus are at the bottom of this page.

Monitoring: You should always remain vigilant and monitor your accounts for suspicious or unusual activity.

Security Freeze: You also have the right to place a security freeze on your credit report. A security freeze is intended to prevent credit, loans, and services from being approved in your name without your consent. To place a security freeze on your credit report, you need to make a request to each consumer reporting agency. You may make that request by certified mail, overnight mail, regular stamped mail, or by following the instructions found at the websites listed below. The following information must be included when requesting a security freeze (note that if you are requesting a credit report for your spouse or a minor under the age of 16, this information must be provided for him/her as well): (1) full name, with middle initial and any suffixes; (2) Social Security number; (3) date of birth; (4) current address and any previous addresses for the past five years; and (5) any applicable incident report or complaint with a law enforcement agency or the Registry of Motor Vehicles. The request must also include a copy of a government-issued identification card and a copy of a recent utility bill or bank or insurance statement. It is essential that each copy be legible, display your name and current mailing address, and the date of issue. As of September 21, 2018, it is free to place, lift, or remove a security freeze. You may also place a security freeze for children under the age of 16. You may obtain a free security freeze by contacting any one or more of the following national consumer reporting agencies:
