Illuminate Education is an education company that provides applications and technology support to schools and school districts, including <<IE Customer Name>>. Illuminate Education is writing, on behalf of <<IE Customer Name>> to make you aware of an incident that may affect the security of some of your minor's information. While we are not aware of any actual or attempted misuse of your minor's information, we are providing you with an overview of the incident, our ongoing response, and resources available to you right now to help protect your minor's information, should you feel it is appropriate to do so.

What Happened? On January 8, 2022, Illuminate Education became aware of suspicious activity in a set of isolated applications within our environment. We immediately took steps to secure the affected applications and launched an investigation with external forensic specialists to determine the nature and scope of the activity.

On March 24, 2022, our investigation confirmed that certain databases containing potentially protected student information were subject to unauthorized access between December 28, 2021, and January 8, 2022. On or around April 5, 2022 Illuminate Education began the process of notifying <<IE Customer Name>>. Illuminate Education is now notifying you of this incident because our investigation has determined that your minor's information was contained in the affected databases.

What Information Was Involved? The affected databases may have contained the following: your minor's name, <<Variable Text 2>>. We want to assure you that Social Security numbers and financial information were not at risk as a result of this event. Although we have no evidence that any information was subject to actual or attempted misuse, we are providing you with this notice out of an abundance of caution.

What We Are Doing. The confidentiality, privacy, and security of information in our care is among our highest priorities. When we discovered this incident, we immediately rotated credentials for the impacted applications and began an investigation with the support of third-party forensic specialists to ensure the security of our systems and determine what data might have been affected. We also conducted a review of our policies and procedures and implemented additional security measures to protect the security of information in our possession.

As an added precaution, we are offering your minor complementary access to 12 months of identity monitoring services through IDX. We encourage you to enroll your minor in these services, as we are not able to act on your behalf to enroll you. Please review the instructions contained in the attached *Steps You Can Take to Help Protect Your Minor's Information* for additional information on these services.

What You Can Do. As standard best practice, we encourage you to remain vigilant against incidents of identity theft and fraud by reviewing your minor's account statements and monitoring your free credit reports for suspicious activity and to detect errors. Monitor Your Accounts

Under U.S. law, a consumer is entitled to one free credit report annually from each of the three major credit reporting bureaus, Equifax, Experian, and TransUnion. To order your free credit report, visit www.annualcreditreport.com or call, toll-free, 1-877-322-8228. You may also directly contact the three major credit reporting bureaus listed below to request a free copy of your credit report.

Consumers have the right to place an initial or extended “fraud alert” on a credit file at no cost. An initial fraud alert is a 1-year alert that is placed on a consumer’s credit file. Upon seeing a fraud alert display on a consumer’s credit file, a business is required to take steps to verify the consumer’s identity before extending new credit. If you are a victim of identity theft, you are entitled to an extended fraud alert, which is a fraud alert lasting seven years. Should you wish to place a fraud alert, please contact any one of the three major credit reporting bureaus listed below.

As an alternative to a fraud alert, consumers have the right to place a “credit freeze” on a credit report, which will prohibit a credit bureau from releasing information in the credit report without the consumer’s express authorization. The credit freeze is designed to prevent credit, loans, and services from being approved in your name without your consent. However, you should be aware that using a credit freeze to take control over who gets access to the personal and financial information in your credit report may delay, interfere with, or prohibit the timely approval of any subsequent request or application you make regarding a new loan, credit, mortgage, or any other account involving the extension of credit. Pursuant to federal law, you cannot be charged to place or lift a credit freeze on your credit report. To request a security freeze, you will need to provide the following information:

1. Full name (including middle initial as well as Jr., Sr., II, III, etc.);
2. Social Security number;
3. Date of birth;
4. Addresses for the prior two to five years;
5. Proof of current address, such as a current utility bill or telephone bill;
6. A legible photocopy of a government-issued identification card (state driver’s license or ID card, etc.); and
7. A copy of either the police report, investigative report, or complaint to a law enforcement agency concerning identity theft if you are a victim of identity theft.

Should you wish to place a credit freeze, please contact the three major credit reporting bureaus listed below:
