Dear <<First Name>> <<Last Name>>:

American Renal Management LLC d/b/a Innovative Renal Care is writing to inform you of an incident that may impact the privacy of some of your information. As you are aware, we manage a network of dialysis centers and providers across the United States. You are receiving this letter because you previously received services from an IRC associated facility. Although we are not aware of any identity theft or fraud as a result of this incident, we are providing you with information about the incident, our response, and steps you can take, should you feel it appropriate to do so.

What Happened? On February 29, 2024, we learned of suspicious activity within certain computer systems. Upon learning of the activity, we immediately took steps to secure our environment and began an investigation to determine the nature and scope of the activity. The investigation determined an unauthorized actor accessed certain computer systems between February 21, 2024 and March 1, 2024. During this time, files from certain internal systems were copied. As a result, we undertook an extensive review of the involved files and folders to determine whether they contained sensitive information, to whom the information relates, and to which facilities affected individuals received treatment from.

What Information Was Involved? This review was recently completed, and we determined that your information was present in the involved files and we are notifying you out of an abundance of caution. This information includes your name, <<Variable 3: Data Elements>>.

What We Are Doing. We treat the responsibility to safeguard information in our possession as an utmost priority. Upon learning of this incident, we promptly took steps to secure our systems, began a comprehensive investigation, and worked diligently to provide affected individuals with notice. As part of our commitment to the privacy and security of information in our care, we continue to review and enhance existing policies and procedures relating to data protection and security. We also implemented additional security measures to mitigate risk associated with this event and to help prevent similar future incidents. We also notified law enforcement and are providing notice of this incident to relevant regulators.

Out of an abundance of caution, we are also offering you complimentary access to <<twelve (12)/twenty-four (24)>> months of credit monitoring and identity restoration services through IDX. While we are covering the cost of these services, due to privacy restrictions, you will need to complete the activation process yourself. Enrollment instructions are included in this letter below.

What You Can Do. Although there is no evidence of any actual or attempted identity theft or fraud of your information, as a general best practice, we encourage you to remain vigilant against incidents of identity theft and fraud by reviewing your account statements and monitoring your free credit reports and explanation of benefits for suspicious

activity and to detect errors. You can also find out more about how to safeguard your information in the enclosed *Steps You Can Take to Help Protect Your Information*.

Monitor Your Accounts

Under U.S. law, a consumer is entitled to one free credit report annually from each of the three major credit reporting bureaus, Equifax, Experian, and TransUnion. To order a free credit report, visit www.annualcreditreport.com or call, toll-free, 1-877-322-8228. Consumers may also directly contact the three major credit reporting bureaus listed below to request a free copy of their credit report.

Consumers have the right to place an initial or extended “fraud alert” on a credit file at no cost. An initial fraud alert is a 1-year alert that is placed on a consumer’s credit file. Upon seeing a fraud alert display on a consumer’s credit file, a business is required to take steps to verify the consumer’s identity before extending new credit. If consumers are the victim of identity theft, they are entitled to an extended fraud alert, which is a fraud alert lasting seven years. Should consumers wish to place a fraud alert, please contact any of the three major credit reporting bureaus listed below.

As an alternative to a fraud alert, consumers have the right to place a “credit freeze” on a credit report, which will prohibit a credit bureau from releasing information in the credit report without the consumer’s express authorization. The credit freeze is designed to prevent credit, loans, and services from being approved in a consumer’s name without consent. However, consumers should be aware that using a credit freeze to take control over who gets access to the personal and financial information in their credit report may delay, interfere with, or prohibit the timely approval of any subsequent request or application they make regarding a new loan, credit, mortgage, or any other account involving the extension of credit. Pursuant to federal law, consumers cannot be charged to place or lift a credit freeze on their credit report. To request a credit freeze, individuals may need to provide some or all of the following information:

1. Full name (including middle initial as well as Jr., Sr., II, III, etc.);
2. Social Security number;
3. Date of birth;
4. Addresses for the prior two to five years;
5. Proof of current address, such as a current utility bill or telephone bill;
6. A legible photocopy of a government-issued identification card (state driver’s license or ID card, etc.); and
7. A copy of either the police report, investigative report, or complaint to a law enforcement agency concerning identity theft if they are a victim of identity theft.

Should consumers wish to place a credit freeze or fraud alert, please contact the three major credit reporting bureaus listed below:
