## NOTICE OF DATA BREACH

Dear

Insightin Health, Inc. (“Insightin”) is a vendor that provides data analytics and technology solutions designed to help healthcare payers improve member engagement, including your health plan. This letter is to inform you that a software Insightin used to exchange files with your health plan was recently involved in a cybersecurity incident that may have affected some of your personal information. Below you will find a brief summary of what happened, how we responded, and what you can do to protect yourself, if you wish.

**What Happened?** Insightin used a file-transfer tool called GoAnywhere to move data between Insightin and your health plan. On September 23, 2025, we identified unusual activity in our servers. Upon investigation, it was found that an unauthorized party gained access to GoAnywhere’s file-transfer tool using an unknown design flaw in GoAnywhere’s software. This allowed the party to potentially access data on a subset of our servers between September 17 and September 23, 2025. We immediately engaged third-party experts, stopped any further access, and began a thorough review of the affected files. On February 12, 2026, your health plan confirmed that some of your personal information was included in those files.

**What Information Was Involved?** Our investigation found that the affected files contained your personal information. This information may have included your name, health care provider name, insurance information and member ID. No Social Security numbers or financial information was involved.

**What We Are Doing.** Insightin is committed to protecting your information. After learning of the incident, we secured our environment, updated our security policies, and added new safeguards to prevent future incidents. We also reported the incident to law enforcement and regulators, as required. As a precaution, we are offering you twelve (12) months of free credit monitoring through Cyberscout, a TransUnion company. Instructions for enrollment are in the attached “Steps You Can Take to Help Protect Your Information”. Please note that due to privacy restrictions, we are unable to automatically enroll you in the offered credit monitoring services.

**What You Can Do.** We invite you to enroll in the free credit monitoring services and to monitor your account statements and free credit reports for any unusual activity over the next 12-24 months. Please refer to the enclosed “Steps You Can Take to Help Protect Your Information” for additional guidance.

**For More Information.** We understand that you may have questions about this incident that are not addressed in this letter. If you have additional questions, please call our dedicated assistance line at 844-784-5928, Monday through Friday, 8:00AM to 8:00PM, Eastern Time, except holidays. We take this incident very seriously and sincerely regret any inconvenience or concern this incident may cause you. ### **Monitor Your Accounts**

Under U.S. law, a consumer is entitled to one free credit report annually from each of the three major credit reporting bureaus, Equifax, Experian, and TransUnion. To order a free credit report, visit [www.annualcreditreport.com](http://www.annualcreditreport.com) or call, toll-free, 1-877-322-8228. Consumers may also directly contact the three major credit reporting bureaus listed below to request a free copy of their credit report.

Consumers have the right to place an initial or extended “fraud alert” on a credit file at no cost. An initial fraud alert is a 1-year alert that is placed on a consumer’s credit file. Upon seeing a fraud alert display on a consumer’s credit file, a business is required to take steps to verify the consumer’s identity before extending new credit. If consumers are the victim of identity theft, they are entitled to an extended fraud alert, which is a fraud alert lasting seven years. Should consumers wish to place a fraud alert, please contact any of the three major credit reporting bureaus listed below.

As an alternative to a fraud alert, consumers have the right to place a “credit freeze” on a credit report, which will prohibit a credit bureau from releasing information in the credit report without the consumer’s express authorization. The credit freeze is designed to prevent credit, loans, and services from being approved in a consumer’s name without consent. However, consumers should be aware that using a credit freeze to take control over who gets access to the personal and financial information in their credit report may delay, interfere with, or prohibit the timely approval of any subsequent request or application they make regarding a new loan, credit, mortgage, or any other account involving the extension of credit. Pursuant to federal law, consumers cannot be charged to place or lift a credit freeze on their credit report. To request a credit freeze, individuals may need to provide some or all of the following information:

1. Full name (including middle initial as well as Jr., Sr., II, III, etc.);
2. Social Security number;
3. Date of birth;
4. Addresses for the prior two to five years;
5. Proof of current address, such as a current utility bill or telephone bill;
6. A legible photocopy of a government-issued identification card (state driver’s license or ID card, etc.); and
7. A copy of either the police report, investigative report, or complaint to a law enforcement agency concerning identity theft if they are a victim of identity theft.

Should consumers wish to place a credit freeze or fraud alert, please contact the three major credit reporting bureaus listed below:
