Dear <<Firstname>> <<Middlename>> <<Lastname>>,

We are writing to inform you of a security incident that may have resulted in the disclosure of your personal information. While we are not aware at this time of any misuse of anyone's information, we are providing resources to assist you and answer any questions you may have. We take the security of your personal information very seriously, and sincerely apologize for any inconvenience this may cause you.

What Happened?

We recently discovered that Maricopa County Community Colleges District IT systems may have been accessed without authorization, and we are cooperating with law enforcement officials investigating the matter. On October 18th, 2013, we determined that your information, including your name, address, phone number, e-mail address, Social Security number, date of birth, financial and bank account information, certain demographical information, information related to your employment, education and training, and limited benefits information such as your plan selection, vacation accrual, or dependent's information may have been accessed without authorization. The systems did not contain credit card information or personal health information.

Immediately after learning of this situation, we initiated a thorough investigation, including engaging independent data forensics experts. We have taken steps to enhance our systems, and implemented measures designed to prevent this type of event from happening again. This includes installing a new firewall, installing additional monitoring services, reviewing our access list, reviewing our policies and procedures, and applying other increased security controls.

Although we are not aware of any misuse of your information, out of an abundance of caution, we have hired Kroll Advisory Solutions to provide identity safeguards and other services at no cost to you for one year through its ID TheftSmart™ program.
