Notice of Data Breach

Dear <<first_name>> <<last_name>>,

You are receiving this letter because your information may have been impacted by a cyber incident experienced by Medusind, Inc. (“Medusind”) that took place on December 29, 2023 and that we discovered later the same day. Medusind is a revenue cycle management company that provides billing support to health care organizations, including your health care provider. Through an investigation, Medusind determined that information belonging to you may have been accessed without authorization. The purpose of this letter is to give you an overview of the data security incident, our response to it, and to let you know about the support we are offering to you.

What Happened

On December 29, 2023, Medusind discovered suspicious activity within its IT network. Upon discovering the suspicious activity, Medusind took the affected systems offline and hired a leading cybersecurity forensic firm to conduct an investigation. Through this investigation, we found evidence that a cybercriminal may have obtained a copy of certain files containing your personal information. Additionally, we implemented enhanced security measures to prevent similar incidents from occurring in the future.

What Information Was Involved

Medusind has determined that some of these files contain name and information in one or more of the following categories: health insurance and billing information (such as insurance policy numbers or claims/benefits information), payment information (such as debit/credit card numbers or bank account information), health information (such as medical history, medical record number, or prescription information), government identification (such as Social Security number, taxpayer ID, driver’s license, or passport number), and other personal information (such as date of birth, email, address, or phone number). The particular type of information involved depends on the individual.

What We Are Doing

We are offering you two years of complimentary identity monitoring (for those 18 or over). We have secured the services of Kroll, a global leader in risk mitigation and response, to provide this service at no cost to you. These services include Credit Monitoring, Fraud Consultation, and Identity Theft Restoration.

We encourage you to take full advantage of this service by contacting Kroll with any questions and activating the free identity monitoring services. What You Can Do

We encourage you to remain vigilant against incidents of identity theft and fraud by reviewing your account statements and monitoring your credit reports for any unauthorized or suspicious activity. Any such activities should be reported to your financial institutions immediately. You may also review the enclosure that follows this letter for general guidance on how to protect your personal information.

Medusind takes this matter seriously and is committed to protecting the privacy and security of the information entrusted to us. We deeply regret any inconvenience caused by this incident and will continue to improve our system security to better support our customers, and in turn, their patients.

Sincerely,

Medusind, Inc.

Reference Guide

Take Advantage of Your Identity Monitoring Services. You have been provided with access to the following services from Kroll:

Single Bureau Credit Monitoring. You will receive alerts when there are changes to your credit data—for instance, when a new line of credit is applied for in your name. If you do not recognize the activity, you’ll have the option to call a Kroll fraud specialist, who will be able to help you determine if it is an indicator of identity theft.

Fraud Consultation. You have unlimited access to consultation with a Kroll fraud specialist. Support includes showing you the most effective ways to protect your identity, explaining your rights and protections under the law, assisting with fraud alerts, and interpreting how personal information is accessed and used, including investigating suspicious activity that could be tied to an identity theft event.

Identity Theft Restoration. If you become a victim of identity theft, an experienced Kroll licensed investigator will work on your behalf to resolve related issues. You will have access to a dedicated investigator who understands your issues and can do most of the work for you. Your investigator will be able to dig deep to uncover the scope of the identity theft, and then work to resolve it.

Kroll’s activation website is only compatible with the current version or one version earlier of Chrome, Firefox, Safari and Edge.

To receive credit services, you must be over the age of 18 and have established credit in the U.S., have a Social Security number in your name, and have a U.S. residential address associated with your credit file.

Order Your Free Credit Report. You may obtain a copy of your credit report, free of charge, whether or not you suspect any unauthorized activity on your account. To order your free credit report, visit www.annualcreditreport.com, call toll-free at (877) 322-8228, or complete the Annual Credit Report Request Form on the U.S. Federal Trade Commission’s (“FTC’s”) website at www.consumer.ftc.gov and mail it to Annual Credit Report Request Service, P.O. Box 105281, Atlanta, GA 30348-5281. The three nationwide consumer reporting agencies provide free annual credit reports only through the website, toll-free number or request form.

Monitoring. You should always remain vigilant for incidents of fraud and identity theft by reviewing bank and payment card account statements and monitoring your credit reports for suspicious or unusual activity and immediately reporting any suspicious activity or incidents of identity theft. You can contact the FTC to learn more about how to protect yourself from becoming a victim of identity theft and how to repair identity theft: Federal Trade Commission, Consumer Response Center, 600 Pennsylvania Avenue, NW, Washington, DC 20580, 1-877-IDTHEFT (438-4338), www.ftc.gov/idtheft/.

Consider Placing a Fraud Alert on Your Credit File. To protect yourself from possible identity theft, consider placing a fraud alert on your credit file. A fraud alert tells creditors to follow certain procedures, including contacting you, before they open any new accounts or change your existing accounts. For that reason, placing a fraud alert can protect you, but also may delay you when you seek to obtain credit. Initial fraud alerts last for one year. Victims of identity theft can also get an extended fraud alert for seven years. You can place fraud alerts with the three credit bureaus by phone, by mail, or online (see below). The bureau you contact will notify the other two bureaus about the fraud alert. For more information on fraud alerts, you also may contact the FTC as described above.

Consider Placing a Security Freeze on Your Credit File. You also have the right to place a security freeze on your credit report. A security freeze is intended to prevent credit, loans, and services from being approved in your name without your consent. *Unlike a fraud alert, you must place a security freeze on your credit file at each consumer reporting agency individually.*

To place a security freeze on your credit report, you must make a request to each consumer reporting agency by phone, by mail, or online (see below). The consumer reporting agencies may require proper identification prior to honoring your request, so to place the security freeze for yourself, your spouse, or a minor under the age of 16, you will need to provide your name, address for the past two years, date of birth, Social Security number, proof of identity and proof of address as

requested by the credit reporting company. After receiving your freeze request, each credit reporting company will send you a confirmation letter containing a unique PIN (personal identification number) or password, which will be required to lift the freeze, which you can do either temporarily or permanently. It is free to place, lift, or remove a security freeze.
