Re: Notice of Data Breach

Dear <<Name 1>>:

Voluntary Benefit Specialists, LLC (“VBS”) is writing to inform you of a recent event that may impact the security of some of your personal information. VBS received your information to assist <<Data Elements>> in the enrollment in a <<Data Elements>> voluntary benefits plan. While we are unaware of any actual or attempted misuse of your personal information, we are providing you with information about the incident, our response, and steps you may take to better protect against the possibility of identity theft and fraud, should you feel it is necessary to do so.

What Happened? On January 7, 2020 VBS discovered suspicious activity in a VBS employee’s email account. We immediately took steps to secure the employee’s email account and launched an investigation which included working with a third-party forensic investigator to determine the nature and scope of the activity. On January 17, 2020, the investigation determined that two (2) VBS employee email accounts had their account credentials being used by an unknown actor(s) to gain unauthorized access to each account. The investigation confirmed the unauthorized actor(s) gained access on separate occasions to one account between December 23, 2019 and January 13, 2020 and the second account between January 6, 2020 and January 7, 2020. During this limited timeframe, the unauthorized actor may have had access to certain emails and attachments within the accounts.

What Information Was Involved? On March 4, 2020, with the assistance of third-party forensics, VBS completed a programmatic and manual review of the contents of the email accounts to determine the types of protected information contained in the emails and to which individuals the information relates, and immediately launched a review of its files to ascertain address information for the impacted individuals. Our review confirmed that the following types of information were in the email accounts and may have been accessible to the unauthorized actor: name, date of birth, Social Security number, medical information and/or insurance information. **To date, VBS has not received any reports of actual or attempted misuse of your information.**

What We Are Doing. The confidentiality, privacy, and security of information in our care is one of our highest priorities and we take this incident very seriously. When we discovered this incident, we immediately reset the account password and took steps to determine what personal data was at risk. We also confirmed the security of our employee email accounts and related systems. As part of our ongoing commitment to the security of personal information in our care, we are working to review our existing policies and procedures, to implement additional safeguards, and to provide additional training to our employees on data privacy and security. We notified your employer regarding this incident and we also will be notifying state regulators, as required.

As an added precaution, we are also offering you complimentary access to twelve (12) months of credit and identity monitoring, fraud consultation and identity theft restoration services through TransUnion. We encourage you to enroll in these services, as we are not able to act on your behalf to enroll you. Please review the instructions contained in the attached *Steps You Can Take to Protect Your Information* for additional information on these services.

Monitor Accounts

We encourage you to remain vigilant against incidents of identity theft and fraud, to review your account statements, and to monitor your credit reports for suspicious activity. Under U.S. law you are entitled to one free credit report annually from each of the three major credit reporting bureaus. To order your free credit report, visit www.annualcreditreport.com or call, toll-free, 1-877-322-8228. You may also contact the three major credit bureaus directly to request a free copy of your credit report.

You have the right to place a “security freeze” on your credit report, which will prohibit a consumer reporting agency from releasing information in your credit report without your express authorization. The security freeze is designed to prevent credit, loans, and services from being approved in your name without your consent. However, you should be aware that using a security freeze to take control over who gets access to the personal and financial information in your credit report may delay, interfere with, or prohibit the timely approval of any subsequent request or application you make regarding a new loan, credit, mortgage, or any other account involving the extension of credit. Pursuant to federal law, you cannot be charged to place or lift a security freeze on your credit report.

Should you wish to place a security freeze, please contact the major consumer reporting agencies listed below:
