ADDITIONAL RECOMMENDED STEPS

We recommend you remain vigilant and consider taking the following steps to avoid identity theft, obtain additional information, and protect your personal information:

- Order Your Free Credit Report at www.annualcreditreport.com, call toll-free at 877-322-8228, or complete the Annual Credit Report Request Form on the U.S. Federal Trade Commission's website at www.ftc.gov. When you receive your credit report, review the entire report carefully. Look for any inaccuracies and/or accounts you don't recognize and notify the credit bureaus as soon as possible in the event there are any. You have rights under the federal Fair Credit Reporting Act ("FCRA"). These include, among others, the right to know what is in your file; to dispute incomplete or inaccurate information; and to have consumer reporting agencies correct or delete inaccurate, incomplete, or unverifiable information.
- Place a Fraud Alert on Your Credit File. A fraud alert helps protect you against an identity thief opening new credit in your name. With this alert, when a merchant checks your credit history when you apply for credit, the merchant will receive a notice that you may be a victim of identity theft and to take steps to verify your identity. You also have the right to place a "security freeze" on your credit file. A security freeze generally will prevent creditors from accessing your credit file at the three nationwide credit bureaus without your consent. You can place a fraud alert or request a security freeze by contacting the credit bureaus. The credit bureaus may require that you provide proper identification prior to honoring your request.

- Remove your name from mailing lists of pre-approved offers of credit for approximately six months.
- If you aren't already doing so, please pay close attention to all bills and credit-card charges you receive for items you did not contract for or purchase. Review all of your bank account statements frequently for checks, purchases or deductions not made by you. Note that even if you do not find suspicious activity initially, you should continue to

check this information periodically since identity thieves sometimes hold on to stolen personal information before using it.
