NOTICE OF DATA BREACH

Dear <<Name 1>>:

Sekure Merchant Solutions (“Sekure”) is committed to protecting the confidentiality and security of personal information we receive and maintain. We are writing to inform you of an incident that involves some of your information. This letter explains the incident, measures we have taken, and some steps you can take in response.

What Happened?

Sekure recently concluded an investigation of a data security incident involving unauthorized access to Sekure’s environment. Upon becoming aware of suspicious activity, we immediately secured our network and a computer forensics firm was hired to assist with the investigation.

What Information Was Involved?

The investigation determined that an unauthorized actor was able to remove data from our network and published names and email addresses associated with our merchant clients on the dark web. Sekure conducted a thorough review of the data posted on the dark web, and except for client names and email addresses, no other information was posted. Nevertheless, out of an abundance of caution, Sekure conducted a comprehensive review of the entire contents of the database we use to store merchant applications that could have been accessed by the unauthorized actor and determined on June 4, 2020, that this database contained some of your personal information, including your name, Social Security number, and driver’s license number.

What We Are Doing.

To date, we have no indication that your personal information was viewed by the unauthorized party or misused. To help prevent this type of incident from happening in the future, we have implemented enhanced security measures, including multifactor authentication, additional data security training to employees, and have implemented more robust security tools to scan and block suspicious messages.

What You Can Do.

As a precaution, we have secured the services of TransUnion® to offer you a **complimentary one-year membership of TransUnion’s® myTrueIdentity**. This product provides you with identity detection and resolution of identity theft. This product is completely free to you, and enrolling in this program will not hurt your credit score. For More Information.

Sekure regrets any inconvenience or concern caused by this incident. If you have any questions about this matter, call 855-917-3591 Monday through Friday between 9 a.m. and 9 p.m. EST.

Fraud Alerts and Credit or Security Freezes:

Fraud Alerts: There are two types of general fraud alerts you can place on your credit report to put your creditors on notice that you may be a victim of fraud—an initial alert and an extended alert. You may ask that an initial fraud alert be placed on your credit report if you suspect you have been, or are about to be, a victim of identity theft. An initial fraud alert stays on your credit report for one year. You may have an extended alert placed on your credit report if you have already been a victim of identity theft with the appropriate documentary proof. An extended fraud alert stays on your credit report for seven years.

To place a fraud alert on your credit reports, contact one of the nationwide credit bureaus. A fraud alert is free. The credit bureau you contact must tell the other two, and all three will place an alert on their versions of your report.

For those in the military who want to protect their credit while deployed, an Active Duty Military Fraud Alert lasts for one year and can be renewed for the length of your deployment. The credit bureaus will also take you off their marketing lists for pre-screened credit card offers for two years, unless you ask them not to.

Credit or Security Freezes: You have the right to put a credit freeze, also known as a security freeze, on your credit file, free of charge, which makes it more difficult for identity thieves to open new accounts in your name. That's because most creditors need to see your credit report before they approve a new account. If they can't see your report, they may not extend the credit.

How do I place a freeze on my credit reports? There is no fee to place or lift a security freeze. Unlike a fraud alert, you must separately place a security freeze on your credit file at each credit reporting company. For information and instructions to place a security freeze, contact each of the credit reporting agencies at the addresses below:

- **Experian Security Freeze**, PO Box 9554, Allen, TX 75013, www.experian.com
- **TransUnion Security Freeze**, PO Box 2000, Chester, PA 19016, www.transunion.com
- **Equifax Security Freeze**, PO Box 105788, Atlanta, GA 30348, www.equifax.com

You'll need to supply your name, address, date of birth, Social Security number and other personal information.

After receiving your freeze request, each credit bureau will provide you with a unique PIN (personal identification number) or password. Keep the PIN or password in a safe place. You will need it if you choose to lift the freeze.

How do I lift a freeze? A freeze remains in place until you ask the credit bureau to temporarily lift it or remove it altogether. If the request is made online or by phone, a credit bureau must lift a freeze within one hour. If the request is made by mail, then the bureau must lift the freeze no later than three business days after getting your request.

If you opt for a temporary lift because you are applying for credit or a job, and you can find out which credit bureau the business will contact for your file, you can save some time by lifting the freeze only at that particular credit bureau. Otherwise, you need to make the request with all three credit bureaus.
