Dear Subscriber ,

Slim CD, Inc. (“Slim CD”) writes to notify you of an incident that may affect the privacy of some of your information. Slim CD is a processing gateway that handles electronic payments, including credit card payments for U.S. and Canadian based merchants. You are receiving this notice because you used a credit card for payment at a merchant that uses our services. This email provides you details of the incident, our response, and steps that you may take to better protect against the possible misuse of your information. Slim CD takes the data privacy of our merchants and customers very seriously. We are committed to keeping your personal information secure, and we apologize to you for any concern and frustration this incident may cause.

What Happened? On or about June 15, 2024, Slim CD became aware of suspicious activity in its computer environment. Upon learning of the activity, Slim CD launched an investigation to determine the full nature and scope of the activity. Slim CD engaged, through counsel, a third-party specialist to investigate the incident. The investigation identified unauthorized system access between August 17, 2023, and June 15, 2024. That access may have enabled an unauthorized actor to view or obtain certain credit card information between June 14, 2024, and June 15, 2024. Slim CD reviewed the accessible credit card information to identify the potentially affected cardholders so that it could notify those individuals.

What Information Was Involved? Slim CD determined that types of information potentially impacted by this incident include your name, address, credit card number, and card expiration date.

What We Are Doing. We take the confidentiality, privacy, and security of information in our possession very seriously. Upon discovery of this incident, we quickly commenced a thorough investigation and took steps to implement additional safeguards and review our policies and procedures relating to data privacy and security. As an added precaution, we are providing you with months of complimentary access to credit and CyberScan monitoring, a \$1,000,000 insurance reimbursement policy, and fully managed id theft recovery services through IDX, A ZeroFox Company, as well as guidance on how to better protect your information, should you feel it is appropriate to do so. Monitor Your Accounts

Under U.S. law, a consumer is entitled to one free credit report annually from each of the three major credit reporting bureaus, Equifax, Experian, and TransUnion. To order a free credit report, visit www.annualcreditreport.com or call, toll-free, 1-877-322-8228. Consumers may also directly contact the three major credit reporting bureaus listed below to request a free copy of their credit report.

Consumers have the right to place an initial or extended “fraud alert” on a credit file at no cost. An initial fraud alert is a 1-year alert that is placed on a consumer’s credit file. Upon seeing a fraud alert display on a consumer’s credit file, a business is required to take steps to verify the consumer’s identity before extending new credit. If consumers are the victim of identity theft, they are entitled to an extended fraud alert, which is a fraud alert lasting seven years. Should consumers wish to place a fraud alert, please contact any of the three major credit reporting bureaus listed below.

As an alternative to a fraud alert, consumers have the right to place a “credit freeze” on a credit report, which will prohibit a credit bureau from releasing information in the credit report without the consumer’s express authorization. The credit freeze is designed to prevent credit, loans, and services from being approved in a consumer’s name without consent. However, consumers should be aware that using a credit freeze to take control over who gets access to the personal and financial information in their credit report may delay, interfere with, or prohibit the timely approval of any subsequent request or application they make regarding a new loan, credit, mortgage, or any other account involving the extension of credit. Pursuant to federal law, consumers cannot be charged to place or lift a credit freeze on their credit report. To request a credit freeze, individuals may need to provide some or all of the following information:

1. Full name (including middle initial as well as Jr., Sr., II, III, etc.);
2. Social Security number;
3. Date of birth;
4. Addresses for the prior two to five years;
5. Proof of current address, such as a current utility bill or telephone bill;
6. A legible photocopy of a government-issued identification card (state driver’s license or ID card, etc.); and
7. A copy of either the police report, investigative report, or complaint to a law enforcement agency concerning identity theft if they are a victim of identity theft
