Re: Notice of Data Security Incident

Dear ,

Sefas provides document composition software and software development services to Frost Bank, as well as software support using a secure file transfer protocol (SFTP) server. We are writing to let you know about an incident involving your personal information on that SFTP server.

*What Happened.* On or about April 16, 2026, we learned that an unauthorized group claimed possession of data associated with one of the organizations we support. We immediately commenced an investigation and engaged cybersecurity specialists to assist us in determining the nature and scope of the incident. The investigation revealed activity consistent with unauthorized access to the SFTP server we use to provide software support. This activity included the download of certain files intermittently between December 2025 and April 2026, containing Frost Bank data. We informed Frost Bank about the incident on April 22, 2026, and began providing information so that the individuals and data affected could be determined.

*What Information Was Involved.* The files involved contain one or more copies of a tax information form and bill pay check image that would have included your name, address, Social Security or other taxpayer identification number, account number(s), date of birth, and loan number(s).

*What We Are Doing.* Upon discovering the incident, we took immediate steps to contain it. The actions included preventing further unauthorized activity, isolating the system, and initiating a thorough investigation with the assistance of cybersecurity specialists. Based on the evidence reviewed to date, there is no indication that the activity extended beyond the SFTP server or continued after April 16, 2026.

We have worked diligently to understand the nature and scope of the incident and to analyze available evidence as to the Frost Bank files that were involved. In response to the incident, we are providing you with access to Credit Monitoring/Credit Report/Credit Score services at no charge. These services provide you with alerts for twelve (12) months from the date of enrollment when changes occur to your credit file. This notification is sent to you the same day that the change or update takes place with the bureau. Finally, we are providing you with proactive fraud assistance to help with any questions that you might have or in the event that you become a victim of fraud. These services will be provided by Cyberscout, a TransUnion company specializing in fraud assistance and remediation services.

*What You Can Do.* You should read the enclosed "Information About Identity Theft Protection." In addition, you may take advantage of the identity theft protection services we have obtained for you.

Please rest assured that we remain committed to protecting your personal information and will continue to look for opportunities to enhance our security on an ongoing basis.

Sincerely,

**Fraud Alerts:** You can place two types of fraud alerts on your credit report to notify creditors: an initial alert and an extended alert. You may place an extended alert on your credit report by mail if you have been a victim of identity theft with the appropriate documentary proof. An extended fraud alert lasts for seven years. You can place a fraud alert on your credit report by calling the toll-free fraud number or visiting the website of any of the three national credit reporting agencies listed below. You only need to notify one agency, because it must notify the other two agencies.

Equifax: 1-866-349-5191, <https://www.equifax.com/personal/education/identity-theft/fraud-alert-security-freeze-credit-lock/>

Experian: 1-888-397-3742, <https://www.experian.com/fraud/center.html>

TransUnion: 1-800-680-7289, <https://www.transunion.com/fraud-alerts>

**Credit Freezes:** You may put a credit freeze, also known as a security freeze, on your credit file so that no new credit can be opened in your name without the use of a PIN number and/or password that may be issued to you when you initiate a freeze. A credit freeze is designed to prevent potential credit grantors from accessing your credit report without your consent. If you place a credit freeze, potential creditors and other third parties will not be able to access your credit report unless you lift the freeze.

Therefore, using a credit freeze may delay your ability to obtain credit. There is no fee to place, lift and/or remove a credit freeze. *Unlike a fraud alert, you must separately place a credit freeze on your credit file at each credit reporting agency.* Contact the three major credit reporting agencies to place a credit freeze and learn more information:
