Local product from the mountains of northern CA and upstate NY

The original Balance Flower Essence combination designed to help you stay cool, calm and collected, no matter the pressure or distractions.

Flower Essences have been used for centuries to calm, focus, remove tension and restore your natural equilibrium. All the flowers are carefully and sustainably handpicked growing wild (not farmed) in remote, pristine regions of Australia. Developed by a biochemist who is passionate about all-natural products and the environment, there are no calories, sweeteners, preservatives or artificial additives in Balance.

** This bottle is completely biodegradable (leaving only natural remains). This bottle will break down in a typical landfill or compost environment in less than 5 years. This bottle currently incorporates its every fiber in the U.S. except CA, where it is not biodegradable as defined by the labeling laws of the State of California. For further information visit drinkbalance.com*
