Dear Ms. Johansson:

Pursuant to Article II, Section 10(d) of the California Constitution, I am submitting the attached proposed statewide ballot measure ("The Neighborhood Legislature Reform Act") to your office and request that you prepare a circulating title and summary of the measure as provided by law. I have also included with this letter the required signed statement pursuant to California Elections Code sections 9001 and 9608, and a check in the amount of \$200. My address as registered to vote is shown on Attachment 'A' to this letter.

Thank you for your time and attention to this important matter. Should you have any questions or require additional information, please contact the undersigned at (847) 274-8814.

Very Truly Yours,

## INITIATIVE MEASURE TO BE SUBMITTED TO VOTERS

## SECTION 1. DECLARATION OF FINDINGS

- A. Our state Legislature does not serve the interests of the citizens. The Legislature only serves the special interests. Prior attempts at reform have all failed.
- B. The problem is that our Legislative districts are too big and cost taxpayers too much money. Our Legislators represent too many constituents. The average assembly district in the other 49 states has approximately 50,000 citizens. The average assembly district in California is nearly 10 times larger – approaching nearly 500,000 citizens.
- C. It is no wonder that most citizens have never even met their legislative representative, much less been asked their opinion on an important policy issue. We should not be surprised that our Legislators are not our neighbors and do not share our concerns about the future.
- D. There is also a concern that voter turnout levels have been greatly reduced in recent years and part of the reason for that is the detachment of the average voter from his or her representative due to the size of the districts and the power of special interest funders.
- E. The primary concern of our current Legislature is staying in office as long as possible and appeasing the special interests which donate to their campaigns that keep them in office.
- F. Our system of representative government requires a citizen Legislature.

## SECTION 2. STATEMENT OF PURPOSE

- A. The size of legislative districts must be reduced so that Legislators represent the interests of their neighbors and not the special interests.
- B. At the same time, the Legislature must function effectively and cost taxpayers less money. Procedures must be enacted to provide for the effective administration of legislative business and to protect taxpayers.
- C. Therefore, the people hereby enact “The Neighborhood Legislature Reform Act.”
