You've been provided with access to services from Kroll, a global leader in risk mitigation. Over the past 14 years, Kroll has provided data breach response services for cases impacting more than 100 million individuals including personal consultation to more than 180,000 consumers and worked some 8,000 confirmed identity theft cases. When you need assistance, rest assured that your services are backed by an expert team who can answer any question you may have.

The following services are included in your **Essential Monitoring** package:

Kroll employs a team of experienced licensed investigators to provide you with expert, one-on-one assistance:

Consultation: You have unlimited access to consultation with a dedicated licensed investigator at Kroll. Support includes best practice tips to assist in ongoing protection, explaining your rights and protections under the law, assistance with fraud alerts, and interpreting how personal information is accessed and used, including investigating suspicious activity that could be tied to an identity theft event.

Restoration: Kroll's restoration services are the most comprehensive of any provider. Should you become a victim of identity theft, a dedicated licensed investigator can work on your behalf to resolve related issues. The investigator does more than shoulder the bulk of the recovery; they can dig deep to uncover all aspects of the theft, and then work with creditors, collection agencies, utilities, government entities, and more ... to resolve it.

Credit Monitoring through TransUnion: Credit services can be a key tool in detecting early warning signs of identity theft. You'll receive alerts when there are changes to your credit data—for instance, when a new line of credit is applied for in your name. If you do not recognize the activity, you'll have the option to call a Kroll investigator, who can help you determine if it's an indicator of identity theft. You'll also receive "no activity" notices if there have been no changes to your data.

Web Watcher: Web Watcher helps to detect if your personal information is being bought and sold online. This program monitors hacker chat rooms, forums and other websites where criminals are known to trade stolen information. Thousands of sites are monitored, looking for matches to your personal information, such as Social Security, medical ID, and financial account numbers. If your information is found, you will be promptly alerted and provided with instructions to contact your investigator. Monitoring starts as soon as you enroll and select the information to search.

Records include, among other data sources, property or deed registration, internet job site providers, state occupational license data, and court proceedings. You'll receive an alert when a loan is reported, and you'll have the option to call a Kroll investigator for more information.

\$1 Million Identity Theft Insurance: Reimburses you for out-of-pocket expenses totaling up to \$1 million in legal costs for any one stolen identity event.
