The Prize Wheel Promotion (CA Games) awards players with the opportunity to spin the prize wheel and win prizes ranging from \$10 to \$100,000. The prize wheel will have 4-64 spots with prizes ranging from \$10 to \$10,000 including one or more "double" spot(s). Players may earn the opportunity to spin the prize wheel in one of two ways.

The first way players may earn an opportunity to spin the prize wheel is by achieving a designated qualifying hand, in which they are then awarded a predetermined and posted amount of drawing tickets. If their ticket is drawn at a later time, they will have the opportunity to spin the prize wheel and win the corresponding prize. The second way players may earn an opportunity to spin the wheel is by playing in a predetermined game for a predetermined and posted amount of time. Once a player has played in the designated game for the minimum amount of time required, they will be given the opportunity to spin the prize wheel and win the corresponding prize.

Prize Wheel Promotion (CA Games)

There shall be one space on the prize wheel marked as a “double” spot. If the wheel stops on the “double” spot, the player will spin the wheel again to determine which prize they shall be awarded “double” of. If the wheel stops on a space with a posted cash value, they will win double the posted amount in the form of cash or live casino chips. If the wheel stops on a spot without a posted cash value, the player will be allowed to spin the wheel until they land on a spot with a posted cash value or the “double” spot again. If the wheel stops on the “double” spot a second time, the player shall be awarded the predetermined and posted “Double Spot” jackpot prize in the form of cash or live casino chips.

- The wheel must come to a complete stop before a determination is made as to the prize won. For a spin to be valid, the pointer must come to rest between two of the pegs. If the pointer gets stuck or rests upon one of the pegs, the spin will be invalid and the wheel will be re-spun. All spins that are declared invalid by the casino representative will be re-spun as per these rules.

Prize

Panda 8 & Banker 3-Card 7 (Suited) in Option 1 or Player 0 & Dragon 7 (Suited) in Option 2 will be paid 100% of the progressive jackpot amount shown on the progressive meter, which will range from \$1,000 to no cap. All other qualifying hands are paid a fixed amount from the reserve fund, which will range from \$50 to \$2,500. Fixed prize amounts do not get deducted from the amount shown on the meter.

In the event more than one player has a qualifying progressive hand, all eligible players will share, in equal amounts, the posted progressive prize amount. A casino representative will pay all fixed and progressive prizes. Once the proper paperwork has been filled out, the casino representative will pay the winner(s) in live casino chips. The payouts will not be made from the house dealer's tray; the live casino chips will come from the cage/cashier's podium. All fixed payouts will be deducted from the amount in the reserve fund. Alternative Prize Option

When predetermined and offered, winners of the jackpot will have the option to claim a prize in the form of merchandise, vehicle, trips, gift certificates, clothing, jewelry, electronics, or other predetermined and posted item with a monetary value in lieu of the entire posted jackpot prize. The merchandise will be assigned a monetary value that will be less than the actual retail value. The cost assigned will be reimbursed to Kings Card Club and any difference will be borne solely by the gambling establishment. Only one item will be offered, and it will be up to the winners to decide who will get it. If the players cannot come to an agreement, the prize will be awarded as normal.

The Casino will be reimbursed (from the jackpot prize pool) only \$2,000 and they will expense the remainder (\$199) within their bookkeeping. The rest of the jackpot prize will be awarded as normal.

- Once a winner is determined, the chosen player must decide how they will claim their jackpot prize.
 - Either the original prize or a combination of the original prize and the posted merchandise.

- When a player has a progressive qualifying hand, the house dealer will press the appropriate hand button on the keypad.
- The house dealer will then contact a supervisor.
- Once a supervisor verifies the progressive win, the supervisor will press the confirm button. To complete the action, a supervisor or executive card (depending on jackpot level) swipe is required. This records the win onto the Game Manager computer and adjusts the meter appropriately for the prize won. House procedures are then followed for paying the prize. (Reviewing the monitor connected to the Game Manager will show the prize amount to be paid, and pressing the "money bag" icon will print a win page, which can be used to help record the payout for accounting).
- When the house dealer reconciles all action, he/she presses "END GAME." This resets the system to begin the next hand.
- Once the supervisor or executive card (depending on jackpot level) is swiped the prize is logged into Game Manager.
 - If the progressive pay needs to be backed out (voided) at this point, the prize will need to be manually backed out using the Game Manager manual adjustment feature.
