Object and Summary

The Ultimate Texas Hold'em Progressive Jackpot considers the best advertised qualifying hand(s) among each individual player's cards.

1. To begin each round, players must make their regular base game wager. They may optionally place any bonus bets along with the optional jackpot fee of \$1. A minimum of two players are required to play for the progressive jackpot.
2. "Hockey Puck" discs will be attached to the table in front of each betting position. These discs have a sensor and will detect when a casino chip is placed on them. Players must place the optional jackpot fee on the sensor. The sensor will then light up.
3. Once all players place their bets and/or jackpot fee, the house dealer will press "Coin In" on the keypad. The sensors will then light up, indicating participation in the progressive jackpot. The house dealer will then remove all jackpot fees from the table. The jackpot fees are dropped in a separate and locked jackpot collection box affixed to the left side of the gaming table.
4. The house dealer then follows standard approved procedures for dealing the base game. The jackpot considers the best hand possible among the player's cards. A player can qualify for the jackpot element of the game regardless of the outcome of the base game.
