

ATTACHMENT 1

ECONOMIC IMPACT STATEMENT

A. Estimated Private Sector Cost Impacts

3. Total number of businesses impacted: 8,000

Report Years	Total Applicants
20-22	9,053
18-20	16,468
16-18	13,163
Total	38,684
Annual avg.	6,447 (38,684/6)

The number of applicants that applied in 2020 and 2021 is significantly less than prior years due to the COVID-19 pandemic. Therefore, although the annual average of charities that apply to conduct a raffle is 6,447, the Department provides 8,000 as a more accurate estimate of the number of businesses that will be impacted each year.

This rulemaking does not modify the \$30 registration fee. There is no economic impact to any business.

This proposed action does not affect small businesses because nonprofits are exempt from the definition of “small business.” (Gov. Code, § 11342.610, subd. (b)(6).)
