Object and Summary

The California Games Jackpot gaming activity features both fixed and progressive jackpot prizes. A prize is awarded to players, who have paid the \$1 jackpot fee, in any designated California game, when the player-dealer has been dealt a qualifying hand. After the hand is confirmed, those players who paid the jackpot fee shall receive the posted prize from the progressive jackpot.

Qualifying Hands

When the player-dealer makes one of the following advertised qualifying hands during the play of an eligible California game, all players who paid the jackpot fee shall be eligible to win their share of the posted California Games Jackpot progressive prize amount, as shown below. The payout shall be split evenly for the posted progressive amount among the players who paid the jackpot fee. The entire posted fixed amount will be given to each player who paid a jackpot fee. Only the following hands that have been Bureau approved, pre-determined, and designated by the Casino are eligible. The qualifying hands within the chart below must be offered together at all times.

Example: Prior to the play of the hand, five players placed a jackpot wager. The jackpot hand was made by the player-dealer and the posted prize is \$42,000. Each of the five players would then receive \$8,400.

If the prize is not cash, it will not exceed the value of \$500,000. The actual progressive jackpot prize amount shall depend on the amount the jackpot was originally seeded at, as well as how much time was accumulated in order for the jackpot to increase progressively each day.

Funding

The California Games Jackpots gaming activity utilizes one Jackpot account which shall be funded by a \$1 jackpot collection which shall be dropped in a separate drop box marked as "Jackpot." The prize pool shall be initially seeded at \$20,000 from the following dormant jackpot accounts: Texas Hold'em Mega Cash Jackpot (GEGA-002380), Texas Hold'em Fast Cash Jackpot (GEGA-000584), Omaha Mega Cash Jackpot (GEGA-003091), and Omaha Fast Cash Jackpot (GEGA-003095). A summary of the dormant accounts is below. While the dormant accounts are still available, the \$1 jackpot collection shall be put in the reserve account. Once the dormant accounts have run out, the jackpot will be funded by the \$1 jackpot collection. When the \$1 jackpot collection has been taken, a portion of the fee will go to the main jackpot account and the rest shall be placed in the reserve account. All fixed prize payouts will be paid from the reserve account. The progressive prize pool will be increased daily at predetermined

California Games Jackpot

and designated times with an amount ranging from \$5 to \$10,000 based on the amount collected. If the dormant accounts are still available, the increase amount shall be based on the amount collected the day before, but taken from the dormant accounts. Once the dormant accounts are depleted, the increase amount shall be based on the amount collected the day before. When a qualifying jackpot hand is made, it will be re-seeded from one of the dormant accounts listed above, with an amount ranging from \$10,000 to \$50,000 if it's still available. After the dormant accounts have been depleted, it will then be re-seeded by the reserve account in an amount ranging from \$10,000 to \$50,000. The Parkwest Casino 580 shall cover any shortfall and shall be refunded by the reserve.

Administrative Fees

The Parkwest Casino 580 shall retain an administrative fee of \$5-\$10 per table per hour from all approved California games. No Purchase Necessary

The California Games Jackpots Promotion gaming activity shall be offered for free, on a general and indiscriminate basis, with no restrictions, to patrons who wish to participate in a No Purchase Necessary (NPN) game. The Parkwest Casino 580 shall provide No Purchase Necessary tables for all patrons who request to participate in the gaming activity without paying a table fee or placing a live wager. Within a reasonable amount of time of a No Purchase Necessary player requesting to play one of the specific games within the gaming activity, a No Purchase Necessary table will be made available. The casino dealer will deal a hand to the No Purchase Necessary player and to all other seated positions, including what would be the player-dealer position. The casino dealer will play/monitor all of the hands dealt except for the No Purchase Necessary player's. If the No Purchase Necessary player makes one of the qualifying hand(s), listed above, they will be awarded that associated prize or their portion thereof. There shall be no time restriction placed on the No Purchase Necessary player regarding the number of hands dealt. There shall be no live wagering or cash/casino chips used at this table. The Cash and Prize Drawings Promotion features a promotional element attached to the eligible controlled games as listed above, offered at Parkwest Casino 580. The promotion will reward players with 1-20 ticket(s) based on the pre-determined and designated qualifying hands and/or time played at designated table games during predetermined and eligible periods.

Players may additionally earn ticket(s) by playing certain eligible games based on pre-determined and designated times periods; 1-20 tickets can be earned per hour of play. A player's time will be tracked through their player's card (Player Loyalty Rewards Program GEGA-003087) or manually on a log controlled by a Casino employee.

Cash and Prize Drawing Promotion

The Casino may also offer bonus tickets, in addition to the regular amount of tickets earned through time played and qualifying hands per designated games, at the rate of 1-20, during off-peak hours or in specific games; this applies to both qualifying hands and based on time played. Patrons will be given ample notice of the amount of times and how many tickets will be awarded. A player can earn tickets by achieving a below listed qualifying hand and/or playing a predetermined amount of time.

The drawing ticket is a standard raffle ticket divided into two sections, one section for the player and one section for the Casino. The player must retain their portion of the ticket in order to claim the prize. Furthermore, the player fills out the Casino section of the ticket with their first and last name, game, table number, and date, prior to giving the Casino section of the ticket to a Casino employee to deposit into the secure container. The ticket will then be used for drawings for the Cash and Prize Drawings Promotion.

The section of the ticket with the player information will be retained by the Casino and deposited into a secure container. The container will be maintained on the Casino floor and monitored by the surveillance system and Casino personnel. The tickets will be mixed up using a clear rotating plastic container. The winning ticket will be drawn by a casino floor person. The player with the winning ticket will have two minutes to claim their prize from the drawing location. Once the winning ticket is drawn, the player must bring the other half of the ticket to the drawing location within two minutes of their name being called to claim the prize. Once the player has claimed their winning ticket they will be taken to the cage to redeem the prize. If the winning player does not claim their prize within the two minute time period, the Casino may draw another ticket until there is a winner, or the Casino may choose to wait until the next scheduled drawing time to draw another ticket. The Casino is not responsible for lost tickets. If the player does not have the other half of their winning ticket, at the time of the drawing, the player would need to provide valid identification to the floor supervisor. The tickets are only valid for the current promotional period and expire at the end of the promotional period. The plastic container will be emptied and the remaining tickets destroyed at the end of the promotional period.

A player who achieves one of the qualifying hands listed below shall earn at least 1-20 ticket(s) to be entered into the Cash and Prize Drawing Promotion for a predetermined and posted prize. The Player's Card shall include the Casino name on the card, some descriptive language regarding restrictions for the card, and the problem gambling phone number. It shall also include a bar-code. This card will look different from the card used for the Player Loyalty Rewards Program (GEGA-003087).

How Player Rewards Points are Earned Based on Time Played

Points shall be earned based on the amount of time played. Each player that plays a certain table game during live play will, at certain times, receive points, which will gain them eligibility to win pre-determined and designated prizes. The range of points will be 1 to 200,000 points for each hour of play. The Casino 580 may offer bonus rates (for example, double points) on play during off-peak hours or in specific games, within the range as shown above. Patrons will be given ample notice of how many points will be awarded, as well as, the amount of time required to earn points for each eligible game.

Example: A player signs up for the Customer Incentive Program at the cashier and receives a player's card. The player presents the card to the gambling establishment employee at the gaming table. The gambling establishment employee scans the player's card using a bar code reader on the computer tablet device and will then input the average wager per hand of the player in fifteen minute increments. At the end of the gaming session, the player will be logged out by the gambling establishment employee. The program tabulates the amount of points the player has earned and records it in the player's account. The player may check their point balance and redeem points with a gambling establishment employee at any time during the promotion.

Players may either redeem their points at any time during the promotion or at the end of the promotional period. The redemption period will be displayed in The Casino 580 to give players ample notice. Points not redeemed by the end of the promotional period will expire within 30 days of the promotional period. All prizes shall have a pre-determined and designated value. The point to dollars ratio for the rewards program is 1 point is worth \$0.10 - \$100. After a player has accumulated a pre-determined and specific amount of points, based on time of play, a player may redeem the accrued points for a pre-determined and designated prize.

- After a player has been awarded a prize, they may also be eligible for second and subsequent prize(s) until the end of the promotion.
- Players may redeem their points for multiple prizes as long as the total amount of points required for the prizes are within the player's point balance.

- Upon request, a player may check their point balance with a Casino Floor Services Representative at any time during the promotion.

The jackpot will be seeded from the Mega Cash jackpot fund with an amount ranging from \$50 to \$10,000 and increase with an amount ranging from \$25 to \$1,000 daily.

The daily highlighted quad will be posted on an electronic promotional board along with the current amount of the jackpot. The daily highlighted hand will change daily based on the following schedule:

Object and Summary

The Spin the Wheel Promotion features a promotional element attached to the above controlled games offered at Parkwest Casino 580. The promotion will reward players with a drawing ticket based on predetermined and designated qualifying hands at designated tables. Predetermined designated tables will offer VIP drawing tickets for the same qualifying hands.

Spin the Wheel Promotion

The drawing ticket is a standard ticket divided into two sections, one section for the player and one section for the Casino. The VIP drawing tickets will be distinctly labeled from the standard drawing ticket. The player must retain their portion of the ticket in order to claim the prize. Furthermore, the player fills out the Casino section of the ticket with their first and last name prior to placing the Casino section of the ticket into the designated secure container. The ticket will then be used for drawings for the Spin the Wheel Promotion.

The secured container will be maintained on the Casino floor and monitored by the surveillance system and casino representatives. The tickets will be mixed up using a clear rotating plastic container. The winning ticket will be drawn by a casino representative at designated times. The player with the winning ticket will have two minutes to bring the other half of the winning ticket to the drawing location. Once verified, the player will then spin a designated wheel (16 to 100 sections) to determine their prize. If the winning ticket is a designated VIP ticket they will receive double the prize spun on the wheel. At that time, the player will be taken to the cage to redeem their prize. If the winning player does not claim their prize within the two minute time period, the Casino may draw another ticket until there is a winner or the Casino may choose to wait until the next schedule time to draw another ticket. The Casino is not responsible for lost tickets. If the player does not have the other half of their winning ticket, they may provide valid identification to the floor person in order to spin the wheel. The tickets are only valid for the current promotional period and expire when it ends. The plastic container will be emptied and remaining tickets will be destroyed at designated times during the course of the promotional period.
