How Player Rewards Points are Earned Based on Time Played

The range of points will be 1 to 200,000 points for each hour of play. Players only receive scans on the hour for a full hour of play and credit is only given for full hours of play. At the top of each hour, a Player's Casino representative will scan each Player Rewards Card in the cardroom, and the players who have a card will earn a scan. The Player's Casino may offer bonus rates (for example, double points) on play during off-peak hours or in specific games, within the range as shown above. Patrons will be given ample notice of how many points will be awarded, as well as, the amount of time required to earn points for each eligible game.

The player presents the card to the gambling establishment employee at the gaming table at 5:45 pm. The gambling establishment employee scans the player's card using a bar code reader on the PDA device at 6:00 p.m. At 7:00 p.m., a gambling establishment employee scans the player's card again, and the player is credited with one hour of play. The program tabulates the amount of points the player has earned and records it in the player's account. The player may check their point balance and redeem points with a gambling establishment employee at any time during the promotion.

How Player Rewards Points are Redeemed

Players may either redeem their points at any time during the promotion or at the end of the promotional period. The redemption period will be displayed in the Player's Casino to give players ample notice. Points not redeemed by the end of the promotional period will expire at the end of the promotional period. The player-dealer will then have a floor person sign the coupon verifying that it has been won. All winning coupons are verified and signed by a floor person. Winning coupons are taken to the cage by the floor person, logged, and exchanged for the value listed on the coupon(s). That amount is then returned to the player-dealer. If a player loses, the money part of the wager is collected by the player-dealer, and the coupon is voided and collected by the house dealer. If the player pushes (receives no action), the coupon may be played again until the player wins or loses a hand.

EXAMPLE: *A person receives a match play coupon with a value of \$5 that specifically states it may be used to place a wager on the Pai Gow Poker table. The person would place the coupon on the gaming table; place a bet that matches the amount on the coupon, and pay the posted collection (if applicable) for a single hand of play. Object and Summary

The Poker Bad Beat Jackpot features a progressive jackpot prize. A prize is awarded to players participating in any of the above named games when a designated qualifying hand is beaten by a better hand at the showdown. When the winning and losing hands are confirmed by a casino representative, those players with the qualifying jackpot hands shall receive the posted percentage of the jackpot prize amount. In addition, available to the players during certain designated times and tables, there will be two additional jackpot options offered known as the Double Jackpot and the Hardway Jackpot.

Poker Bad Beat Jackpot

Qualifying Hands

Poker Bad Beat Jackpot

Players that make one of the following qualifying hands for any of the specified poker games shall be eligible to win their share of the Poker Bad Beat Jackpot prize amount, as shown below. The losing hand must be the second-best hand to qualify for the jackpot. Furthermore, the qualifying winning and losing hands shall be displayed prominently within Player's Casino at all times the Poker Bad Beat Jackpot is being offered for play. Only one qualifying hand option per game shall be offered at any one time.

The losing hand must be the second-best hand to qualify for the poker jackpot. If the highest ranking losing hand doesn't qualify for the qualifying hands table, no jackpot prize will be awarded.

For example: if there are two hands, A and B, which would otherwise qualify under the Poker Bad Beat Jackpot, Double Jackpot or Hardway Jackpot qualifying rules, and another hand C which is a better hand than B but does not qualify under the rules, there will be no jackpot prize awarded. In this case, hand B is the third best hand and the non-qualifying hand C is second best hand. If the highest ranking losing hand doesn't qualify for the qualifying hands table, no jackpot prize will be awarded.

Game example: While running the Poker Bad Beat jackpot, with board cards AAAQ10, if hand A is four of a kind using both hole cards (A, K), hand B is aces full of jacks using both hole cards (JJ's), and hand C is aces full of queens using only one hole card (Q,3), hand C is the second best hand but cannot win any jackpot because it does not qualify by the rules. In this scenario, there would be no jackpot because the two qualifying hands are the winning and third-place hands.

B	Aces full of jacks or better*	Four of a Kind or better*

**Both hands must have a pocket pair or two cards to complete a Straight Flush and both hole cards in both hands must play

Lowball Qualifying Hand Table

Double Jackpot

Player's Casino may designate certain times and days at which the Poker Bad Beat Jackpot prize in specified games and/or limits will be doubled. The qualifications for the Double Jackpot will be exactly the same as for the currently running Poker Bad Beat Jackpot. For example, a Double Jackpot in Texas Hold'em may be offered from 6:00pm to 10:00pm every Monday night. The qualifying periods for the Double Jackpot will be clearly posted and announced beforehand. The Double Jackpot promotion may be offered in all games, or only in specific games and limits, for example, in limit Texas Hold'em only. Eligible games and limits will be clearly specified before the start of the promotion. The Poker Bad Beat Jackpot progressive meter will not change when the Double Jackpot is being offered as the amount is calculated from the posted Poker Bad Beat Jackpot amount. The amount that is shown on the progressive meter will be paid out and the other half of the Double Jackpot will be paid from the reserve fund.

Example, if the Double Jackpot is being offered and the jackpot hits when the progressive meter reads \$50,000, the other \$50,000 will be paid from the reserve fund.

Hardway Jackpot

At other designated times, a different type of double jackpot known as the Hardway Jackpot promotion may be offered in Texas Hold'em. If a hand is beaten which qualifies under the Hardway Jackpot rules, the prize will be paid out as a Hardway Jackpot prize. Only the highest jackpot prize amount will be awarded.

Players that make one of the following qualifying hands for Texas Hold'em shall be eligible to win double the amount of the currently posted Poker Bad Beat Jackpot progressive jackpot prize. The Poker Bad Beat Jackpot progressive meter will not change when the Hardway Jackpot is being offered as the amount is calculated from the posted Poker Bad Beat Jackpot amount. The Hardway Jackpot will be paid from the reserve fund.

The Hardway Jackpot promotion, when offered, will run concurrently with the regular Poker Bad Beat Jackpot. The Hardway Jackpot promotion may be offered in Texas Hold'em at any given time except that the Hardway Jackpot will not be offered at the same time as the Double Jackpot. The Casino will offer the Hardway Jackpot at double the Poker Bad Beat Jackpot prize amount, with the qualifying hands from the table shown below. Only one type of jackpot will be awarded per qualifying hand situation. Only one qualifying hand per game shall be offered at any one time. Qualifying hands are shown in the table below:

Poker Bad Beat Jackpot

Eligibility Requirements

This gaming activity shall be open to all players seated and playing at an above listed controlled game during the predetermined and specified hours designated and posted for the gaming activity.

- In order to qualify for the jackpot(s), players with qualifying winning and losing hands must play through the final betting round. If any player(s) with one of the qualifying hands folds prior to the final betting round, then the table will be ineligible for the jackpot.
- In the event two or more players make a qualifying winning and/or losing hand, the player with the highest winning and/or losing qualifying hand shall win the posted percentage of the prize for that hand; all other players shall win the posted percentage of the table share.
- When a qualifying hand is announced, a casino representative shall verify both hands qualify. Any deviation from a standard deck will nullify the jackpot.
- In all eligible poker games, except for Lowball, two hole cards must be utilized.
- There must be at least three active players in order for each table to be eligible for the jackpot prize, with the exception of Hold'em style games.
- In Hold'em style games, including Omaha, Omaha Hi/Lo Split, Big O, Big O Hi/Lo Split, Pineapple, and Texas Hold'em, there must be at least four active players.
- If the jackpot amount is in the process of being changed on the jackpot prize pool display monitor at the time a qualifying hand is made, the prize awarded will be in the newly posted amount.
- The losing hand must be the second-best hand to qualify for the jackpot.
- A player must be dealt in the Jackpot qualifying hand to be eligible for the Winning, Losing, or Table share of the jackpot prize.
- Casino employees are eligible to participate in the jackpot on and off duty and in and out of uniform.
- Tournament games are not eligible for the jackpot.
- If multiple jackpots (different Bureau approved gaming activities) are offered at the same time, only the highest jackpot prize amount will be awarded if the player achieves the same qualifying event on multiple jackpots.

Poker Bad Beat Jackpot

Prize Amount

The players that make the predetermined and posted qualifying losing and winning hands shall be eligible to win the corresponding progressive prize amount. The prize amounts shall start at a minimum of \$100 with no maximum. The Hardway Jackpot and Double Jackpot will not be offered if the Poker Bad Beat Jackpot progressive meter reaches more than \$100,000. Players will be paid once the hands have been verified by a casino floor representative.

Prize Payout Structure

Players that make the approved qualifying hands shall be eligible to win their share of the Poker Bad Beat Jackpot prize amount, according to the payout option, as shown below. Only one prize payout structure shall be used at any one time for this jackpot.

Tables shall be eligible for a posted percentage of the jackpot prize, referred to as the table share, which shall be evenly distributed among all other players participating at the table at the time the jackpot is hit. If the share of odd amounts is less than a dollar, the amount is rounded up to the nearest dollar. The Casino will use reserve funds to cover any additional shortfall to ensure all players are paid the same amount.

Players may be eligible for a posted percentage of the jackpot prize, referred to as the room share, which shall be evenly distributed amongst all active players at the other qualifying tables who have participated in the same designated game at the time the jackpot is hit, depending on the payout structure in place at the time, as shown below. Player's Casino will utilize a jackpot prize pool monitor and posters or other advertisements to display the prize amounts, and days and times of the promotion.

Option A

Losing Hand	Winning Hand	Table Share*
40%	20%	40%

Option B

Losing Hand	Winning Hand	Table Share*
50%	25%	25%

Option C

Losing Hand	Winning Hand	Table Share*	Room Share**
40%	20%	20%	20%

*Table Share: a posted percentage of the jackpot prize that shall be evenly distributed among all other players participating at the table at the time the jackpot is hit.

** Room Share: The Room Share percentage is divided equally among all qualifying players who were dealt in at the time of the qualifying jackpot hand while seated at tables with a minimum of four players. Players that received a Losing, Winning, or Table Share are not eligible to also receive a Room Share. If the room share payout table is utilized and the Double Jackpot is hit, the entire posted amount will be doubled and then distributed to the losing hand, winning hand, players at the table, and players in the same game at different tables, according to the specified percentages.

Poker Bad Beat Jackpot

Funding

The Poker Bad Beat Jackpot features one progressive prize pool for all specified poker games and is player funded by a mandatory \$1 jackpot fee. The jackpot fee will be taken from the pot if a “flop” occurs in a designated hand, at a designated table. If a flop does not occur no jackpot fee shall be taken. For Lowball, the jackpot fee will be taken after the draw.

The Player's Casino will initially seed the Poker Bad Beat Jackpot with an amount ranging from \$100-\$100,000. When the jackpot fee has been taken, the entire \$1 jackpot fee goes to the reserve account from which all prize funds are drawn. The prize pool will progressively increase at predetermined and designated times each day in an amount ranging between \$50 and \$5,000 based on the collections taken in the previous day. The progressive meter will not have a cap. The Double Jackpot and the Hardway Jackpot will be supplemented by the reserve account.

The progressive prize amount is updated at 12:00 p.m. daily. The Double Jackpot and the Hardway Jackpot will not be offered if the Poker Bad Beat Jackpot progressive reaches more than \$100,000. If the jackpot passes the \$100,000 mark on a certain day, there will be a clear demarcation at that time.

When the jackpot has been hit, it will be reseeded with an amount ranging from \$100-\$100,000 immediately from the reserve account. If there are insufficient funds in the reserve account, the Casino will reseed the jackpot and shall be reimbursed once sufficient funds become available in the reserve account. If the collected amount from the day before is ever less than the minimum amount, the Casino will make up the difference and be reimbursed from the reserve account.

Administrative Fees

Player's Casino shall retain an administrative fee in the range of \$8-\$16 per table per hour that the jackpot is in operation. The administration fee is taken from the reserve account. If there are not sufficient funds in the reserve account at the usual time the administrative fee is to be withdrawn, the administrative fee will not be withdrawn until such time as the reserve is again adequate.

No Purchase Necessary

The Poker Bad Beat Jackpot shall be offered to customers who wish to participate for free, on a general and indiscriminate basis, with **no restrictions**. The Casino shall provide No Purchase Necessary tables for all patrons who request to participate in the gaming activity without paying a table fee or placing a live wager. All advertisement material shall state "No Purchase Necessary" when referencing the Poker Bad Beat Jackpot. Object and Summary

The Poker Cash Drawing Promotion features a fixed prize element where players will be given the opportunity to enter the drawing and be awarded a prize when the player completes the time requirement necessary. Players may earn tickets into the drawing by playing designated poker games for a pre-designated and posted time during specific time periods. Poker players who play between 1 hour and 100 hours will be eligible to win between 1 and 10 tickets to enter the drawing. Time will be tracked via the Customer Incentive Program (GEGA-004636) through the Players Rewards Card. The ticket to time ratio and prizes to be awarded will be clearly announced on all promotional literature prior to the promotional period.

For example, a player may receive one ticket for playing 40 hours in a given month or one ticket for every hour played between 12:00 p.m. and 8:00 p.m. on Mondays.

Poker Cash Drawing Promotion

There will be two types of drawings- "Rollover" and "Guaranteed Win". The details of the drawing for each time slot will be clearly announced and publicized on all promotional materials. Each promotion may consist of either one or the other of these drawing types or a combination of the two.

Tickets will be generated from the player rewards computer. A casino representative will print out all the qualifying tickets before the designated drawing time and place these tickets into the drawing bin. Drawings will occur at a minimum of once a year and at a maximum of one drawing per hour daily. At the announced time, a Casino representative shall draw a ticket from the drawing bin.

For "Rollover" Drawing times, a maximum of three tickets will be drawn per the drawing period, subject to the conditions under "Eligibility Requirements" below. A casino representative of Player's Casino shall verify the winner. If a ticket is drawn and the winner is not present, the ticket shall be discarded and another ticket will be drawn. If the winner is again not present, the same procedure will be followed, and a third and final ticket will be drawn. If the holder of the third ticket is not present, the ticket will be discarded, and the prize will roll over to the next applicable promotional period, and then there will not be a winner for that time period. Once a winning ticket has been drawn, verified, and the prize awarded, the winning ticket would be retained for record-keeping purposes. All of the remaining tickets in the drawing bin shall be discarded at the end of a specified period, which will be from 1 hour to 1 year. The retention period will be clearly announced prior to the start of the promotion.

For "Guaranteed Win" drawing times, tickets will be drawn until a winner is found. There will be no three-ticket maximum. The same procedure will be followed regarding the handling of drawn tickets. Details follow under "Eligibility Requirements."

Winners of a "Guaranteed Win" drawing may be awarded the opportunity to select one envelope from a set of sealed, numbered envelopes each of which contains a key. A specified number of entrants will be awarded this opportunity by having their tickets drawn. On the final day of the promotion, from 1 to 10 drawings will be held, at each of which one winner will be selected. An additional prize, such as cash or merchandise, may be awarded to the winner at this time. Only the winning key will unlock and start the vehicle. The specific vehicle will be clearly advertised in advance of the promotion. Each player may win only one key regardless of the number of times their name is drawn. Once a player has made a final selection of an envelope, they will not be allowed to switch or change keys. Players must choose the envelope at the time their ticket is drawn. This prize option will only be associated with a "Guaranteed Win" type of drawing.

At a designated time, the key winners will try their keys in the vehicle in the order in which their keys were won. The person with the key which unlocks the vehicle is the prize winner. The player must be present to try the key in the vehicle.

Players who qualify by playing during designated time periods may earn entry into more than one drawing. For example, fulfilling the time requirement may qualify a player for a monthly drawing and also for a separate end of the year drawing.

Eligible Controlled Games

The Ultimate Texas Hold'em Progressive Jackpot gaming activity shall be attached to the following Bureau approved games offered at Player's Casino, as shown below. The jackpot features a fixed and a progressive jackpot prize. All controlled game rules shall be played as previously approved by the Bureau.

- Ultimate Texas Hold'em (GEGA-004021)

Object and Summary

Players may place an optional \$1 jackpot fee for a chance to win the Ultimate Texas Hold'em Progressive Jackpot. The Ultimate Texas Hold'em Progressive Jackpot considers the best advertised qualifying hand(s) among each individual player's cards. In addition, when a player places the optional \$1 jackpot fee, the player will also qualify to win an envy payout. If another player at the table hits a hand associated with an envy pay, all other players who paid the \$1 jackpot fee win the envy payout. The player with the qualifying hand receives the normal prize pay only, and does NOT receive the envy pay.

1. To begin each round, players must make their regular base game wager and any optional bonus wagers or fees.
2. "Hockey Puck" discs will be attached to the table in front of each betting position. These discs have a sensor and will detect when a casino chip is placed on them. Players who wish to participate in the jackpot must place the optional jackpot fee on the sensor. The sensor will then light up.

3. Once all players place their bets and/or jackpot fee, the house dealer will press “Game Start” on the keypad. The sensors will then light up, indicating participation in the progressive jackpot. The house dealer will then remove all jackpot fees from the table. The jackpot fees shall be dropped into a separate and locked jackpot collection box and accounted for separately.
4. The house dealer then follows standard approved procedures for dealing the base game. A player can qualify for the jackpot element of the game regardless of the outcome of the base game.
5. When a player has a progressive winner, the house dealer shall press the appropriate hand button on the keypad.
6. The house dealer shall then contact the floor person. Once the casino verifies the progressive win, the floor person shall swipe the necessary card. This records the win onto the Game Manager. House procedures are then followed for paying the prize.
7. When the house dealer reconciles all action (on behalf of the player-dealer), he/she presses “Game Over.” This resets the system to begin the next hand.
8. Should the equipment malfunction, then the progressive jackpot will not be offered during the effected time period.

Prize

Fixed Prizes

All fixed payouts will be paid by a Casino floor person. Once the proper paperwork has been filled out, a Casino floor person will pay the winners in live casino chips. The payouts will not be made from the house dealer's tray. All fixed payouts will be deducted from the amount in the reserve fund. See the Ultimate Texas Hold'em Progressive Jackpot Qualifying Hands payable above for qualifying hands and payouts.

Progressive Prizes

A Royal Flush pays 100% of the progressive jackpot amount shown on the progressive meter.

Envy Bonus

A player paying the \$1 jackpot fee also qualifies to win an envy payout. If another player at the table hits a hand associated with an envy pay, all other players who paid the \$1 jackpot fee win the envy pay. The player achieving the qualifying hand receives the normal prize pay only and does NOT receive the envy pay. The house dealer pays any Envy Bonuses at the end of the round. In the event that more than one player is involved in a qualifying envy pay, then all players win the envy pay. The Envy Bonus will be paid in chips obtained from the casino cage by the California section floor person.

If a player's qualifying hand triggers an envy payout, the house dealer will leave the hand face-up on the table; otherwise, the dealer will lock up the cards. The dealer will then move on to the next player.

All monies collected and paid out shall be tracked both electronically and on a handwritten log that shall be maintained by the gambling enterprise for examination by regulatory and law enforcement personnel.

Prize Payout Structure

In the event more than one qualifying hand hits during the same round, all winning players will be paid the posted progressive prize via the progressive meter or the posted fixed amount via the reserve account.

Once the proper paperwork has been filled out, a Casino floor person will pay the winner(s) in live casino chips. Payouts will not be made from the house dealer's tray. All fixed payouts will be deducted from the amount in the reserve fund. *This payout shall be documented appropriately in the accounting records.*

- All fixed jackpot qualifying hands are paid from the reserve fund. They do not get deducted from the amount shown on the meter. In the event the reserve fund is depleted, the Casino will make up any shortfall.
- Each player who placed the \$1.00 jackpot fee receives the \$1,000 prize for the community royal flush.
- The progressive jackpot qualifying hand is paid the total amount shown on the progressive meter.
- In the event the reserve fund is depleted, the Casino will make up any shortfall. All hands will be paid the posted prize.

Funding

The Casino will initially seed the jackpot in an amount between \$1,000 and \$2,000. Once there are sufficient monies in the Ultimate Texas Hold'em Progressive Jackpot reserve fund, the initial seed will be reimbursed to the Casino and shall be documented in the accounting records. After the progressive jackpot is hit, it will be re-seeded by the reserve fund in an amount between \$1,000 and \$10,000.
