Plaintiff, Center for Environmental Health ("CEH") hereby alleges:

I

INTRODUCTION

1. CEH brings this action as a private attorney general and in the public interest pursuant to Health Safety Code section 25249.7 (d). Based on the Safe Drinking Water and Toxic Enforcement Act of 1986 (Health and Safety Code section 25249.5 et seq) also known as "Proposition 65," this

1 complaint seeks injunctive and declaratory relief and civil penalties based on J & L Custom Plastic
2 Extrusions, Inc.'s ("J & L") failure to warn residents and workers in and around El Monte,
3 California, that they have been and continue to be exposed to vinyl chloride, a chemical known to
4 the State of California to cause cancer, from its facility. Pursuant to Proposition 65, businesses with
5 ten or more employees must provide persons with a "clear and reasonable warning" prior to
6 exposing them to chemicals listed by the State to cause cancer in excess of the no significant risk
7 level for that chemical.
8

9
10 **II**

11 **PARTIES**

12 2. Plaintiff CEH is a non-profit California corporation dedicated to environmental
13 protection and enhancement. One of CEH's objectives is to prevent and reduce toxic hazards to
14 human health and the environment, specifically from pollution of air, water and land throughout
15 California. Through CEH's activities, numerous carcinogenic and reproductive chemicals listed
16 pursuant to Proposition 65 that are contained in consumer products and emitted into the air from
17 industrial facilities have been eliminated.
18

19 3. J & L is a corporation licensed to do business in the State of California. J & L
20 manufactures extruded plastic products at its facility at 1532 Santa Anita Ave. in El Monte,
21 California 91733-3314.
22

23 4. Defendants DOES I-X, are named herein under fictitious names, as their true names and
24 capacities are unknown to Plaintiff. CEH is informed and believes, and thereon alleges, that each of
25 said DOES is responsible, in some actionable manner, for the events and happenings hereinafter
26 referred to, either through said J & L's conduct, or through the conduct of its agents, servants or
27 employees, or in some other manner, causing the harms alleged by Plaintiff in this complaint.
28

1 When said true names and capacities of DOES are ascertained, CEH will seek leave to amend this
2 complaint to set forth the same.

3
4 **III**

5 **JURISDICTION AND VENUE**

6 5. This Court has jurisdiction pursuant to California Constitution Article VI, section 10.

7 6. CEH has performed any and all conditions precedent to the filing of a legal action
8 pursuant to Proposition 65 by mailing a Notice of Violation, dated October 3, 2006, to the
9 Attorney General of the State of California, the Los Angeles County District Attorney, and J &
10 L. A true and correct copy of this Notice is attached herein as Exhibit A. More than 60 days
11 have passed since CEH mailed its Notice and no public enforcement entity has filed a complaint
12 in this case.
13

14 7. This Court is the proper venue for the action because the causes of action have arisen in
15 Los Angeles County. Furthermore, this Court is the proper venue under Code of Civil Procedure
16 section 395 and Health and Safety Code section 25249.7.
17

18 **IV**

19 **STATUTORY BACKGROUND**

20 **A. PROPOSITION 65**

21 8. The Safe Drinking Water and Toxic Enforcement Act of 1986 is an initiative statute
22 passed as "Proposition 65" by an overwhelming majority vote of the people in November of 1986.
23

24 9. The warning requirement of Proposition 65 is contained in Health and Safety Code
25 section 25249.6, which provides:

26 No person in the course of doing business shall knowingly and intentionally expose any
27 individual to a chemical known to the state to cause cancer or reproductive toxicity without first
28 giving clear and reasonable warning to such individual, except as provided in Section 25249.10.

1 10. Implementing regulations for Proposition 65 provide that warnings are required for
2 environmental exposures. Environmental exposures are those which may foreseeably occur as a
3 result of contact with an environmental medium, including ambient air, "through inhalation,
4 ingestion, skin contact or otherwise." 22 CCR section 12601 (d).
5

6 11. Warnings for environmental exposures must be "provided in a conspicuous manner and
7 under such conditions as to make it likely to be read, seen, or heard and understood by an ordinary
8 individual in the course of normal daily activity." 22 CCR section 12601 (d) (2). The warnings
9 must also be "reasonably associated with the location and source of the exposure." Id.
10

11 12. Proposition 65 establishes a procedure by which the state is to develop a list of
12 chemicals "known to the State to cause cancer or reproductive toxicity." J & L had a duty to
13 provide clear and reasonable warning to those persons exposed to vinyl chloride at significant risk
14 levels 12-months after the chemical was published on the state list. Vinyl chloride was listed as a
15 carcinogen by the State of California on February 27, 1987.
16

17 13. Proposition 65 may be enforced by any person in the public interest who provides notice
18 sixty days before filing suit to both the violator and designated law enforcement officials. The
19 failure of law enforcement officials to file a timely complaint enables a citizen suit to be filed
20 pursuant to Health and Safety Code section 25249.7 (c).
21

22 14. Proposition 65 provides for injunctive relief and a civil fine of up to \$2,500 per day for
23 each violation. Health and Safety Code section 25249.7(a) (b). Each individual exposure without
24 warning is a separate violation.

STATEMENT OF FACTS

15. J & L conducts manufacturing operations that emits vinyl chloride at its El Monte facility. During the normal course of operations, vinyl chloride is emitted into the air and surrounding community.

16. Vinyl chloride is a colorless, flammable gas with a mild, sweet odor. It is a manufactured substance that is used to make polyvinyl chloride. Vinyl chloride has been identified as a hazardous air pollutant pursuant to section 112 of the federal Clean Air Act (42 U.S.C. section 7412(b)) and has been designated as a toxic air contaminant by the California Air Resources Board pursuant to Health and Safety Code section 39657. Sufficient exposure to vinyl chloride can cause significant adverse health effects affecting the circulatory, nervous and immune systems. Short-term, low level exposure may cause temporary lightheadedness, fatigue, and confusion. Brief exposure to higher levels of vinyl chloride can cause more serious health problems, including death in extreme cases. Exposure over a long duration can lead to the development of life-threatening diseases, including liver cancer, brain cancer, lung cancer and angiosarcoma.

17. J & L reported 594 pounds of vinyl chloride emissions for the 2004-2005 and 2005-2006 periods to the South Coast Air Quality Management District. J & L is one of the highest emitters of vinyl chloride in the South Coast Air Basin.

18. Despite the availability and feasibility of safer solvents, J & L has failed to eliminate vinyl chloride by substituting a less toxic solvent. J & L has also failed to install emission control

1 technology at its facility that would obviate the need to provide a warning to the surrounding
2 community.

3
4 19. J & L's facility is located close to residents and workers from other businesses.
5 Residences are clearly visible from the facility. A Catholic church and school is located one block
6 south of the facility. A park and baseball field is situated close to the company. Other businesses
7 are also located nearby. Residents and workers from other businesses have been and continue to be
8 exposed to J & L's vinyl chloride emissions.

9
10 20. The Proposition 65 standard to require a warning in California is 10 excess cancer
11 risks per one-million persons. Air dispersion modeling using the most sophisticated
12 Environmental Protection Agency model ISCST3, demonstrates that numerous residents and
13 workers have been exposed to levels of vinyl chloride above the Proposition 65 warning
14 threshold.

15
16 21. J & L has not provided clear and reasonable warnings to those residents and workers
17 in the surrounding community who are exposed to vinyl chloride from its facility as required by
18 Proposition 65.

19
20 22. J & L has knowingly and intentionally exposed residents, including children, situated
21 nearby, as well as workers in the surrounding neighborhood to vinyl chloride without providing a
22 clear and reasonable Proposition 65 warning. J & L has at all times relevant hereto been aware that
23 its operations use and emit a large amount of vinyl chloride, that the chemical escapes into the air,
24 that safer solvents are feasible and available, and that improved emission control technology exists.
25 J & L has always been aware that a residential community, including a Church, a school, a park, a
26 baseball field and other businesses are situated close by. J & L has operated its facility with
27 knowledge that exposures to these chemicals have occurred.
28

1 **FIRST CAUSE OF ACTION**

2
3 **(Violation of section 25249.6 of the Health and Safety Code, Failure to Provide Clear and**
4 **Reasonable Warning under Proposition 65)**
5

6 23. CEH refers to paragraphs 1-22, inclusive, and incorporates them herein by this reference.

7 24. J & L operates a business that employs ten or more persons.

8 25. By committing the acts alleged above, J & L has, in the course of doing business,
9
10 knowingly and intentionally exposed individuals to a chemical known to the State of California to
11 cause cancer without first giving clear and reasonable warning to such individuals, within the
12 meaning of Health and Safety Code section 25249.6.

13 26. Said violations render J & L liable for civil fines up to \$2,500 (two thousand, five
14 hundred dollars) per day, for each such violation.
15

16 27. J & L's continued violation of the law will irreparably harm CEH and the public
17 interest in whose behalf Plaintiff brings this action, for which there is no adequate remedy at law.
18

19 **SECOND CAUSE OF ACTION**

20 **(Declaratory Relief)**

21 28. CEH refers to paragraphs 1-27, inclusive, and incorporates them herein by this reference.

22 29. There exists an actual controversy relating to the legal rights and duties of the parties,
23 within the meaning of Code of Civil Procedure section 1060, between Plaintiff and J & L
24 concerning:

25 a) whether J & L has exposed individuals to a chemical known to the State of California to
26 cause cancer without providing clear and reasonable warning;

JURY DEMAND

30. CEH demands a jury trial.

VII

PRAYER

WHEREFORE, CEH prays for relief against J & L as follows:

1. On the First Cause of Action, for civil penalties for each and every violation according to proof;

2. On the First Cause of Action, and pursuant to Health and Safety Code section 25249.7 (a), for such temporary restraining orders, preliminary and permanent injunctive orders, or other orders, prohibiting J & L from exposing persons to vinyl chloride without providing clear and reasonable warnings;

3. On the Second Cause of Action, for a declaratory judgment pursuant to Code of Civil Procedure section 1060 declaring:

a. that J & L has exposed individuals to a chemical known to the State of California to cause cancer without providing clear and reasonable warning; and

4. On all Causes of Action, for reasonable attorneys' fees pursuant to section 1021.5 of the Code of Civil Procedure or the substantial benefit theory;

5. For costs of suit herein; and

6. For such other relief as the Court may deem just and proper.

Dated: December 4, 2006

By

Michael Freund

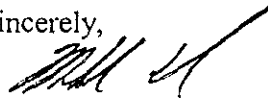

Moreover, based on the exposure involved, we believe the method of warning should be "... a notice mailed or otherwise delivered to each occupant in the affected area. Such notice shall be provided at least once in any three-month period." (22 C.C.R. section 12601 (d) (1) (B)).

Proposition 65 requires that notice and intent to sue be given to a violator 60-days before the suit is filed. With this letter, CEH gives notice of the alleged violation to the noticed party and the appropriate governmental authorities. This notice covers all violations of Proposition 65 that are currently known to CEH from information now available to us. CEH is continuing its investigation that may reveal further violations. A summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, and referenced as Appendix A, has been provided to the noticed party.

The address of the noticing party Center for Environmental Health is 528 61st Street, Oakland, CA 94609. CEH can be contacted through my office at 1915 Addison Street, Berkeley, CA 94704. Telephone: (510) 540-1992.

If you have any questions, please contact my office at your earliest convenience.

Sincerely,

Michael Freund
